Russian Fleet Leaves Kamranh Bay by Order of the Czar Himself.

Japan's Protest to France Having Produced Desired Effect Upon Rojestvensky, Nothing Now Prevents Him from Destroying the Japanese Navy Except the Japs Themselves—British Fleet in Chinese Waters.

[BY THE ASSOCIATED PRESS—A.M.]

MANILA, April 22.—Narita Goro, the Japanese Consul here, has received a cablegram announcing that Admiral Togo's main squadron will assemble south of Formosa.

RUSSIANS LEAVE KAMRANH.

[BY THE ASSOCIATED PRESS—A.M.]

PARIS, April 22.—The French government has been officially informed that Vice-Admiral Rojestvensky's squadron left Kamranh Bay today. The destination of the squadron is unknown.

It is officially confirmed that Emperor Nicholas personally sent an order to Admiral Rojestvensky to leave French waters.

The Foreign Office received advices from St. Petersburg this morning showing that the instructions sent Admiral Rojestvensky were positive and explicit, and that he must keep outside French waters.

BRITISH FLEET GETS BUSY.

[BY THE ASSOCIATED PRESS—A.M.]

LONDON, April 22.—A special dispatch from Hongkong says all shore leave of the crews of the British warships has been stopped, and the dock yard employees, on their Easter leave of absence, have been recalled, so that the ships can be made ready for sea at the earliest possible moment.

PARIS, April 22.—Officials here maintain that the gravity of the Franco-Japanese issue over neutrality has been much relieved of the vigorous measures which France adopted. Emperor Nicholas' orders to Vice Admiral Rojestvensky to leave French waters are the direct result. To have the Emperor give a decisive order, it is held here, signifies that such order must be obeyed, whereas Vice Admiral Rojestvensky has exercised his personal discretion as to observing orders emanating from the Russian Admiralty concerning French waters off the Coast of Madagascar.

Heretofore, Kamranh Bay has been an unknown spot, although an adventurous Frenchman, the Marquis De Munville, established a small colony there. The Marquis uses this colony as a base for hunting expeditions and for carrying on a considerable trade with coast points. Except for this primitive settlement, Kamranh Bay has no habitation, no telegraph, no customs house, and no official establishment of any kind.

The general tone of the press comment here is mild, with a few unimportant exceptions, such as tonight's issue of the irresponsible Patrie, which makes a violent attack upon Japan.

ALLOWED LITTLE COAL.

[BY THE ASSOCIATED PRESS—P.M.]

SAIGON (French Cochin-China) April 22.—The chief of staff here, acting under orders from Gov.-Gen. Beau, today inspected four Russian steamships which were about to load a cargo of coal. The French authorities refused to permit the vessels to take on cargoes and allowed them only an amount of coal strictly necessary for the voyage to the nearest port.

RUSSIA'S NEW NAVY.

THE PROGRAMME IS OUT.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PETERSBURG, April 22.—The commission headed by Grand Duke Alexander Michaelovitch, which has already raised $5,000,000 by public contributions for the navy, has announced the programme. The vessels to be built are as follows: Three cruisers of the Bayan type, four gunboats of the Giliak type, ten river gunboats of 183 tons, several torpedo cruisers of 570 tons, one mine transport of the type of the Yenisei, thirty-one torpedo-boat destroyers, torpedo boats and submarine boats, two of 297 tons, and twenty-nine of 350 tons, and ten coast-defense vessels.

The names of several ships destroyed at Port Arthur, like the Bayan and Pallada, will be repeated, and a number of the ships will be named after deceased officers, who distinguished themselves by individual exploits at Port Arthur, mostly upon torpedo boats, early in the war. One of the cruisers will be named Admiral Makaroff.

Charles M. Schwab of the Bethlehem Steel Works, and Charles R. Flint of New York have arrived here.

The Council of the Empire today promulgated the first law providing for an increase in taxation for war purposes. It includes an increase in the tax on matches, petroleum, etc., and a graduated tax on the salaries of officials. The total porduct is estimated at $11,000,000. The law goes into effect May 1.

NOT PROPER BY A PROTEST.

[BY THE ASSOCIATED PRESS—P.M.]

LONDON, April 22.—Baron Hayashi, the Japanese Minister to Great Britain, said to the Associated Press today:

"I do not think the Japanese note to the French government could be termed a protest. It simply calls the attention of France to Vice Admiral Rojestvensky's stay in Kamranh Bay. Unfortunately, discussion of the matter occupied considerable time before the French government secured the riddance of unwelcome guests. Japan knows that the French government was not an active party to the harboring of the Russian Pacific squadron, but the inactivity of France had reached a serious stage and we would have been perfectly justified in attacking the Russian squadron in Kamranh Bay.

"The three-mile rule, under which France defends her inactivity, was the distance recognized as shore waters when three miles was the maximum range of guns. The range of big guns today is twenty miles. Had Admiral Togo attacked the Russians in Kamranh Bay many projectiles would have fallen on the French shore. This is one of the points which were under discussion in Paris."

THE DIANA DISARMED.

FRANCE'S GOOD FAITH SHOWN.

[BY THE ASSOCIATED PRESS—A.M.]

PARIS, April 22.—The government still awaits the reply of Beau, Governro-General of Indo-China, upon the exact locality of the Russian squadron. His absence from his headquarters, at Saigon, may delay the Governor-General's reply, his last telegram showing that he ws at a small port south of Hanoi, the capital of Tonquin.

Further official advices show that radical steps have been taken to prevent the Russian protected cruiser Diana, interned at at Saigon, after the naval battle of August 10, from putting to sea and resuming her active operations. The Diana is understood to have been lying recently at Haifong, where her repairs were sufficiently advanced to permit her to rejoin Admiral Rojestvensky's squadron, and thus add another cruiser to his strength. But the French authorities peremptorily required the cruiser to be placed in a condition making it impossible for her to go to sea. Therefore, such parts of her machinery as are indispensable to her moving, such as her crankshaft and propeller, have been removed, thus rendering the Diana ineffective. The officials here desire to direct attention to this case as clearly showing the determination with which France's neutrality requirements are being enforced.

ANCHORED INSIDE HARBOR.

WARSHIPS AT KAMRANH.

[BY THE ASSOCIATED PRESS—A.M.]

TOKIO, April 22, 1 p.m.—The Navy Department has issued the following statement of indisputable witnesses who personally observed, and reports as follows about the Russian second Pacific squadron in Kamranh Bay:

"Two cruisers, one with three masts and two funnels, of the Dmitri Donskoi class, the other with two masts and three funnels, were seen cruising outside the harbor. Two four-masted merchantmen, and a one-funnel steamer were anchored outside the northern entrance of the harbor. Five vessels resembling battleships were anchored inside the harbor. Two battleships with two masts and three funnels, flying admiral's flags, were anchored inside the harbor. Six warships, anchored in single formation, lay outside the harbor, off its souhtern entrance. Heavy smoke was seen rising inside the harbor."

Although the report does not say so, it is believed Rear-Admiral Rojestvensky was using the harbor to clean his ships, to coal, adjust his torpedoes, clean his guns, prepare ammunition and receive fresh stores.

PUT FRANCE IN A HOLE.

WHY ROJESTVENSKY MOVED ON.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PETERSBURG, April 22.—The Russian authorities manifest the most sincere desire to relieve the ally of Russia of all possible embarrassment should it turn out that Rojestvensky entered and remained in French territorial waters. Dispatches were forwarded to the admiral last night, impressing upon him the necessity of strict observance of France's neutrality.

France communicated the Japanese protest to Russia through Nelidoff, the Russian Ambassador to France, pointing out the awkward position in which she would be placed if the Japanese complaint proved well founded. Foreign Minister Lamsdorff thereupon transmitted it to Vice-Admiral Rojestvensky, with specific instructions, and that if it already had been infringed and the Russian ships were still within the three-mile limit they must at once go to sea.

SUPPLIES FROM SAIGON.

GREAT QUANTITIES FOR FLEET.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, April 22.—A dispatch from Saigon to a newspaper of this city asserts positively that the Russian Second Pacific Squadron was still in Kamranh Bay Friday.

The dispatch says the Russian vessels, which number about fifty, are short of stores, and that French and German steamers, including the Eva and Dagumar, are carrying immense quantities of supplies from Saigon. The steamer Gridan has been sold for $60,000, to be used for conveying stores, and another steamer has been chartered for the same purpose.

The British steamer Hindu is unloading coal at Saigon, adding to the store of 45,000 tons already accumulated by Russian agents. Five colliers will convey this fuel to the squadron.

Another Russian squadron, consisting of seven battleships and cruisers, (Vice Admiral Nebogatoff's) is said to be expected hourly to join Rojestvensky. It is believed in Saigon that one portion of the Russian fleet will then go to meet the Japanese, while the other will make a wide detour and endeavor to reach Vladivostok.

KAISER OVERSHADOWS PEACE OF EUROPE.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, April 22.—[Exclusive Dispatch.] The Sun's London correspondent says: Two or three times within a dozen years Europe has been on the verge of a great war and has been unaware of the imminent danger until the crisis had passed. There was such a moment when Lord Rosebery delivered an ultimatum to France in the Siamese dispute. There was another such a moment in the Fashoda incident. Yesterday a similar peril menaced Eurpoean peace and today the crisis is still unsolved, although diplomacy takes heart again from the news that Delcassé, the French Minister of Foreign Affairs, has withdrawn his resignation.

Some idea of the nature and gravity of the crisis may be gained from a brief extract from a letter to the Sun's London correspondent from a person holding a diplomatic position on the continent. He writes:

"You know that I am rarely pessimistic; today I must confess that I am. When people will not negotiate and say, nevertheless, that they are dissatisfied, it looks as if they meant mischief. If Rojestvensky is sent to the bottom, God knows what may happen."

These words may be cryptic to those who have not followed closely the recent developments of European politics. Let it be remembered that Germany has quietly encouraged Russia to pursue the war toward the point of partial exhaustion. The loss of the ships of Rojestvensky's fleet would render her practically impotent so far as any new enemy is concerned.

What is more obvious than the opportunity thus created for the Kaiser to fish in troubled waters? What could be plainer from his recent action than his intention to take the fullest advantage of this opportunity? His gratuitous interference in Morocco is now fully recognized by France and England as part of a deep, malevolent plan to breed international strife. It is directed as much against one country as another. It is his spiteful reply to the Anglo-French entente, which he resents and hopes to destroy.

M. Delcassé and Lord Lansdowne, French and British Ministers of Foreign Affairs, respectively, understood the maneuver from the first. The former desired to ignore it as a bluff, thus putting upon Germany the onus of any fresh aggression. Prmier Rouvier's new ministry were alarmed by Germany's threatening attitude and wished to propitiate her by negotiation.

M. Delcassé yielded to the extent of assuring Germany he was willing to give the fullest explanation of French policy and intentions. Germany replied with a bitter newspaper campaign against France and England and the suggestion of the appointment of an international commission with reference to Morocco, which would ignore the French understanding in regard to that country.

This would have been equivalent to canceling this agreement and Delcassé would not consent to the abolition of the French position. The support of his colleagues was so lukewarm that the Foreign Minister determined to resign.

It was a weak and dangerous action on the part of the greatest of European diplomatists, except so far as it is justified by results. Had he retired, Germany would have had a signal diplomatic victory, and it would have led to far-reaching consequences in European history. It was indeed the thing most hoped for among the effects of the Berlin machinations.

Delcassé, however, retains his post with free hands. This he demanded as the absolute condition of the retention of his portfolio, and it is a good thing for France, as for the rest of the world, that full authority has been granted him in foreign affairs. His retirement at this critical moment would have been an irreparable blow to the cause of peace.

The Kaiser's protestations of his allegiance to peace are now profoundly distrusted throughout Europe. It is he alone who is feared throughout the diplomatic world.

The problems which may arise between Russia and Japan, either as to a prolonged war or early peace negotiations, are not regarded as endangered, except as Emperor William may make them so.

BULLS IN A FRENZY.

May Wheat Corner Goes to Smash.

Wild Scramble of Gates and His Moneyed Friends to Get from Under.

Losses in the Bull Campaign Estimated to Amount to Many Millions.

Financial Giants Given Hard Blow, but Won't Have to Go Hungry.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, April 22.—[Exclusive Dispatch.] Amid scenes of the most frenzied excitement known in the pit since the great Leiter wheat deal collapsed a few years ago, what is known as the "May wheat deal" went to pieces today.

The losses on the bull campaign run up into the millions. The market opened at $1.09, fell off, went down to 98½, and closed at $1.00. But the bull crowd, composed of John W. Gates as leader and a coterie of Wall Street multi-millionaires and other western millionaires, are declared to be financially able to foot the bills.

When asked a week ago for an opinion on the May deal, Corwin H. Spencer, a St. Louis millionaire grain speculator, a member of the Gates party, said: "The men behind this deal are wealthy enough to buy the entire visible supply of wheat, dump it in the lake and still have money to live on, that's all I know about it."

With the "Gates crowd" some European capitalists, it is rumored, have been interested. The feverish scene in the wheat pit on the Board of Trad today when hired brokers yelled li Comanches in a wolf hunt, and t ticker recorded a decline that me losses of millions of dollars, was o a mere incident, the by-play, a finan geegaw of the moment, to these t tieth century multi-millionaires.

The battle was among the financial giants. Gates and his crowd are st speculators and not expert grain nipulators, it is asserted. The Armo Valentine house is known for its tale and even genius in grain deals, and financial resources is amply able to cope with the eastern clique.

With these powerful forces, genius and skill, with millions of money, against inexperience in grain dealing, even with millions of money also backing it, it was generally agreed that the Armour-Valentine house had Gates and his crowd on the hip. Further, that some agreement had been arranged between Armour and Gates, whereby Armour was to liquidate the Gates holdings.

With this rumor flying in the air today, everybody on the street rushed to the board to see the opening, as it was known that "something would happen."

This May wheat deal has some distinctive features never duplicated before in other deals. The May delivery was bulled all winter on the theory that the supplies would be consumed before the new crop was available. The rust in the spring wheat aided this report. Just when the Gates crowd got into the market is a matter of dispute, but it is generally believed they came in when May wheat was around $1.08. Before that May had been as high as $1.17. The Gates crowd loaded up with 15,000,000 to $20,000,000 bushels of May wheat, it is thought, and they boosted the price to the high-water mark of $1.21½, February 16 last. Then trouble began. Gates had been expecting receipts to fall since December, but instead they kept up far beyond all expectations. Then the flour demand fell flat and completely petered out. Brokers and dealers in flour apparently became loaded up early in the year on account of the bull talk. It was even reported that millers, finding the flour demand poor, were selling their stocks of wheat for May delivery here, and were ready to ship it in.

THE CLIMAX REACHED.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, April 22.—One of the most celebrated deals ever known on the Chicago Board of Trade came to a climax today. A daring effort by John W. Gates and associates to control all of the wheat available in America for delivery during the month of May, was apparently ended today with a wholesale sacrifice of prospective profits to escape possible huge losses on existing investments. Incidentally the result was one of the wildest sessions ever witnessed in the Chicago wheat pit. At one time prices showed a loss of 11½ cents a bushel for the day, the price of options being driven down in a sensational series of rushes to 96½ cents per bushel. The closing quotation was $1, as against $1.23 less than six weeks ago.

General opinion tonight is to the effect that Gates and his friends emerged from the battle with little if any actual loss. Gossip insists that they effected an alliance with Armour and other leading traders, whereby the Gates party, while obliged summarily to liquidate May wheat on an enormous scale today, were nevertheless protected by their prior operations and by their allies in both May and later options. Another view of the situation, according to some observers, is that the new grouping of astute speculators including the redoubtable Gates, has cleared the road for a still more gigantic corner in wheat for delivery during July. Tonight it was estimated that five million bushels of the May delivery were unloaded here and at Minneapolis.

VALENTINE ON DECK.

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, April 22.—B. L. Valentine of Armour & Co., was in person watching operations. It was estimated that 1,500,000 bushels of wheat was sold by one house alone, the greater part, or all, being generally believed to be "clique" wheat. Otherwise the selling was of scattered character. The "clique" selling smashed the market for May to $1.02 before there was any sign of reaction. At this point with a net loss of 8 cents a bushel, down as compared with the Thursday's close, the market rallied. May recovered to $1.04. While the fierce drive at May was in progress Valentine supported prices for July and September wheat without actually purchasing any tremendous quantity of either. As a result the collapse in price was almost wholly confined to the May option.

BIG DROP AT GOTHAM.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, April 22.—There was a big drop in the price of May wheat in this market today. In sympathy with the sensational decrease in the West, the price broke here 4⅝c a bushel, May selling at 99½c against $1.04¼ on Thursday. The impression here was that the May deal was practically over and that only the final details remained to be adjusted.

POLICE RAID TENDERLOIN.

Resorts Were Tipped Off, However, So They Showed Signs Saying "Closed for Good Friday."

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, April 22.—The sensational affray in a resort known as "Toby's Place," about a week ago, in which one man was killed and two others were severely stabbed, today resulted in an almost unprecedented condition in the Tenderloin. When, during the hours between 1 and 5 o'clock, the period prescribed in the excise law, not a light was burning in any of the hundreds of places peculiar to that district. Saloons and Raines-law hotels, rathskellars and other similar resorts, which for years had not closed their side doors day or night, had suspended operations completely. In every front window was a sign conspicuously displayed, announcing that the place had been closed on account of Good Friday. Developments of the past week, however, indicate that the holy day was taken as an excuse rather than as a reason by the proprietors of these resorts.

The murder in "Toby's Place" was of such character as to arouse unusual public attention. The cause of the affair, which has been attended by several sensational incidents, served only to throw more publicity on conditions which have prevailed in that quarter. Finally, Police Commissioner McAdoo gave his personal attention to the Tenderloin and after a tour of the district issued drastic orders to have the place "cleaned up."

Last night was chosen as the time for the general movement by the police. It seems, however, that the order was anticipated by the resort keepers and others, for when the police started out there was little to be done. Scores of places which usually filled with men and women at all rs had suspended business before night.

e few places which the warning not reached, or where it had been garded, were pounced upon by raiders, and before morning the at the Tenderloin station house packed to the limit of their capacity. Bail commissioners reaped a rich st from the crusade.

LURING ON THE FARMERS.

merican Consul-General in Mexico Holds up Alleged Fake Land Company.

[BY THE ASSOCIATED PRESS—A.M.]

MEXICO CITY, April 22.—American Consul General Parsons has commenced an investigation of the alleged colonial schemes of the Pan-American Land Company, in Chiapas. Numerous complaints have been filed with the consul-general. Induced by advertisements of the company, farmers of Western Texas, Oklahoma, Nebraska and Washington came to Chiapas at their own expense to investigate. It is alleged that the Pan-American Land Company bought 10,000 acres from the State government for $5000 and by advertising sold town lots for over $375,000 gold. The advertisements pictured comfortable homes being erected and extensive railroad shops and cultivated lands.

The investigators found the few railroad buildings were being removed to better towns, Geronimo and Tola, and claim the so-called cultivated lands were a sandy waste, a creek a few inches deep instead of a navigable river and the only available harbor some distance out in the Pacific ocean.

The consul-general has summoned the officers of the company, at Kansas City, to appear here, to show cause why they should not be barred from further use of the United States mail, as well as why they should not stop all further operations.

PRESIDENT MOVES CAMP.

Packs Tent on His Back and Crosses to West Divide—TooFar from Church.

[BY THE ASSOCIATED PRESS—P.M.]

GLENWOOD SPRINGS (Col.) April 22.—Camp Roosevelt was today transferred from the East to the West Divide. President Roosevelt and party, according to a report received here tonight, were up early and, taking their tents on their backs, started for the Will Gregor ranch, which is just twenty miles from Newcastle. They have pitched their camp on the banks of West Divide Creek and will remain there until some time next week. On account of the distance from town, the President will in all probability decline the invitation to attend church in Newcastle tomorrow.

THE REVOLT IN RUSSIA.

PUT POISON IN THE POLICE.

Deadly Daggers are Used in Dark St. Petersburg.

Journalists Call Sergius's Assassin a Martyr.

Czar's Guard Plot Against His Majesty's Life.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, April 22.—The Central Committee of the journalists' organization, composed of many of the most celebrated Russian writers, including Korotenko, Gessen, Annensky, has adopted resolutions of sympathy with the mother of Ivan Kaleiff, condemned to death as the assassin of Grand Duke Sergius, expressing the hope that the time will soon arrive when Russian mothers will no longer be obliged to sacrifice their sons in the struggle for liberty.

ST. PETERSBURG, April 22.—In all recent attacks upon the police and administrative officers in Poland their assailants have used poisoned bullets and daggers.

At popular theaters and music halls performers are arousing great demonstrations by singing revolutionary verses. These are introduced as encores, not appearing on the regular programmes, which must be passed by the theatrical censor. Recently, the performers did not hesitate to lampoon the imperial family, under a thin disguise. On the trick being discovered, rigid instructions were issued to the police not to allow a single encore which had not been approved by the censor.

In order to insure prompt action in case of demonstrations, the governor and other officials of the provinces have been directed to remain at their offices during the Easter holidays.

PLOT TO KILL CZAR.

IMPERIAL GUARD IN IT.

[BY DIRECT WIRE TO THE TIMES.]

ST. PETERSBURG, April 22.—[Exclusive Dispatch.] A plot to kill the Czar and his kinsmen has been discovered among troops of the Imperial Guard. Many officers are involved, the very men upon whom the Imperial family depends for its personal safety. Gov. Gen. Trepoff's secret agents unearthed the plot and they asserted that several of the conspirators are of noble birth, and were in possession of large quantities of dynamite.

The discovery has unnerved the Czar, who, it is reported, constantly exclaimed: "Who can I trust?"

The conspirators, bound by oaths, remain silent, even under dire threats and worse. Trepoff has been unable to force a single soldier to confess participation in the plot.

CHARGE HIOKI SEES TAFT.

TALKED ABOUT RUSSIAN FLEET.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, April 22.—Mr. Hioki, the Japanese Chargé, had a brief talk with Secretary Taft today regarding the presence of the Russian fleet in Kamranh Bay. He brought no further representations from his government, but he did not conceal the serious concern with which the subject was viewed at Tokio. Mr. Hioki was informed that no reply had been received from the President since the Japanese protest was telegraphed to him.

SHANGHAIED FROM SHANGHAI.

[BY THE ASSOCIATED PRESS—A.M.]

SEATTLE (Wash.) April 22.—Thirty members of the crew of the Northwestern Steamship Company's steamer Tacoma, recently captured by Japanese cruisers while trying to run the blockade, have demanded of the company $100 bonus each, refusing to sign the pay roll and accept clearance papers unless their request were granted. The men allege that in signing them for Shanghai, China, the company's act in taking them toward Vladivostok virtually amounts to a case of shanghaing. They have engaged counsel, and will push their case in court.

SAVED HER HERITAGE.

Dave Moffatt's Kindness to Daughter of His Old Pard—Big Check for Mrs. U. S. Grant.

[BY DIRECT WIRE TO THE TIMES.]

DENVER (Colo.) April 22.—[Exclusive Dispatch.] Within a few days Mrs. Fannie Chaffee Grant, wife of U. S. Grant of San Diego, Cal., will receive a check for $150,000 for her equity in the seven-story Kittridge Block, this city, sold yesterday to Bennett & Myers for $300,000. The check will represent a fortune saved to her by David H. Moffatt, out of friendship for her father.

David H. Moffatt and Jerome B. Chaffee, once Senator from Colorado, formed a partnership years ago. They organized the First National Bank, and Senator Chaffee was at one time president of the institution. Senator Chaffee invested heavily in real estate and included in his holdings the Kittridge Block. Years after the death of Senator Chaffee came the panic of 1893. The estate suffered reverses, and the Kittridge Block was about to be sacrificed. A mortgage for $150,000 was held against the block by the Northwestern Insurance Company, and it made a demand for the money under threats of foreclosure. David H. Moffatt learned of the disaster about to overtake the daughter of his late partner. He assured Mrs. Grant that her heritage would be saved for her. The financial agent of the Northwestern was called in, and after a few preliminaries, the necessary papers were signed and the amount of the trust deed was paid over to him.

After all danger of loss had passed, the property was retransferred to Mrs. Grant, and was in her name up to yesterday. The property would not have brought more than the mortgage called for, had it been sold during the panic, leaving Mrs. Grant nothing.

At Athens, in the Chamber of Deputies, yesterday, Premier Delyannis made a statement that the government emphatically refused to support the Cretan agitation for union with Greece.

KING EDWARD IN AFRICA.

Accompanied by Queen Alexandra, He Lands at Philippeville, and is Cordially Received.

[BY THE ASSOCIATED PRESS—P.M.]

ALGIERS, April 22.—King Edward and Queen Alexandra landed at Philippeville (about 250 miles east of Algiers) today. They were received by Gov.-Gen. Jonnart and other officials. The occasion was marred by a slight accident. As the King and Queen entered the carriage provided for them the horses became frightened and broke the carriage pole. After a new vehicle had been secured, Their Majesties drove to the estate of the Chateau London. Despite a heavy rain, large crowds of people cordially greeted Their Majesties along the route they traversed. Their Majesties spent an hour at the Chateau London, walking in the gardens and the Queen photographed the crocodiles, which are kept in enormous tanks. The King and Queen returned to Philippeville this evening.

KAISER FEELING GOOD.

[BY THE ASSOCIATED PRESS—P.M.]

MESSINA (Italy.) April 22.—Emperor William of Germany, Empress Augusta and Princes Eitel Frederick and Oscar, who are staying here, are the objects of enthusiastic manifestations by the Sicilians. Contrary to rumors, the Emperor is in excellent health. Emperor William said today that his sojourn in the Mediterranean had been sufficient to give him strength for an entire year of hard work.

"UNCLE JOE" ALSO TO HUNT.

Speaker Cannon, With Other Public Men, to Brave Bears, Lions and Tigers in New Mexico.

[BY THE ASSOCIATED PRESS—P.M.]

EL PASO, April 22.—To hunt big game in the Sierra Madre Mountains of Northern Mexico, one of the wildest sections of the country, Speaker "Joe" Cannon of the National House of Representatives, in company with several other men of national prominence, left Washington today in a special train, the guests of Col. W. C. Greene.

The party will arrive in El Paso next Tuesday and will proceed to Sonora, where a welcome will be extended them by Gov. Ysabel and Gen. Louis Torres. Upon returning here, they will go into the mountains to hunt bear, mountain lion, tiger and other game.

Those in the party are: Speaker Joseph G. Cannon, Senator Redfield Proctor of Vermont, Senator Asbury C. Latimer of South Carolina, Congressman James T. McCreary of Minnesota, Congressman Hemenway of Indiana, ex-Gov. Harris of North Carolina, ex-Gov. Woodbury of Vermont, Congressman W. D. Houston of Tennessee and a number of others.

SOMETHING NEW IN SOUTH.

JACKSON (Miss.) April 22.—For the first time in the history of Mississippi, a negro charged with criminal assault has been acquitted by a jury of white men. Stewart Johnson, a negro, was tried on the charge of assaulting Miss Mamie Marsh, a young white woman, in the heart of Jackson two months ago, and although Jake Turnbull, another negro, swore that he saw Johnson commit the deed, the jury did not believe him and at midnight returned a verdict of acquittal. Judge Miller was called up, discharged the prisoner, with the injunction to get out of town, which he did on the first train.

WOMAN IN AUTO KILLED.

COLORADO SPRINGS (Colo.) April 22.—Mrs. Katie Hatcher, wife of a wealthy cattleman of Fountain, was killed and her husband was seriously injured this evening by being struck by a Missouri-Pacific passenger train while their automobile was crossing the tracks. The machine gave out in climbing up the railroad embankment and came to a stop on the track. The couple tried to push the machine off the track to prevent wrecking the train, when the engine struck Mrs. Hatcher, throwing her two hundred feet.

KANSAS OIL REFINERY.

TOPEKA (Kan.) April 22.—The Kansas oil refinery will not be built for several months yet according to the present status of the case in the Supreme Court. It has been arranged that the suit to determine the validity of the oil refinery bonds will be heard at the June term of the district court. There are some intricate constitutional questions involved, and the court has requested that they be well briefed. The refinery cannot be built until the bond suit is decided.

CASTRO'S GOLD COMING.

WILEMSTAD (Curacao) April 22.—Gold estimated to amount to $1,400,000, sent by President Castro of Venezuela, arrived here a few days ago in schooners and an Italian steamer for shipment to and deposit in New York. It is considered probable that the gold left here on the Red D line steamer. The steamer Caracas, of the Red D line, sailed from Willemstad April 16 for New York.

LAWSON'S BIG CLEAN-UP.

Boston Plunger Clears a Cool Million by His Latest Bear Raid.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON (Mass.) April 22.—[Exclusive Dispatch.] For the second time within four months Thomas W. Lawson, the Boston stock plunger, has made a coup in a bear raid, this time cleaning up close to $1,000,000. His first raid was executed in December, and he is credited with having made $1,500,000 in this carefully planned and executed movement.

On both occasions he seized the exact psychological moment for a bear raid, though seldom, if ever, have conditions been more propitious for such a coup than this week.

With his extensive system for obtaining information, Lawson knew Gov. Higgins would sign the stock transfer tax bill. The impending naval battle, two stock exchange holidays, the possibility of trouble between Japan and France, and the dangerously high prices of stocks had all been weighed carefully, and each assigned its proper value.

After heavy selling by life insurance interests, Lawson capped the climax by announcing publicly that he was short of stocks. On the slump he covered his late shorts with $900,000 profit, and cleaned up another $100,000 at lower figures on early shorts.

MOROS ATTACK WALLED JOLO.

MANILA, April 22.—The walled city of Jolo was attacked by Moros April 9. They fired into the officers' club and dispersed those present at a ball. April 10, the secretary of Gov. Scott was ambushed and killed within range of the sentries. A datto refugee from Borneo has organized the Moros who are defying the Americans. Gen. Leonard Wood has arrived at Jolo from Zamboanga and given the Moros ten days within which to surrender the refugee datto. If this is not done, he will concentrate a sufficient force to secure a compliance with his demand.

SACKETT CORNELL ARRESTED.

RENO (Nev.) April 22.—[Exclusive Dispatch.] W. E. Sperry, a resident of San Francisco who has been in Tonopah on some mining business for the past month, was arrested in Carson City last evening on a charge of forgery, and is being held there to await the action of officers. He is accused of passing several forged checks in the new mining camp.

Sperry was on his way to San Francisco from Goldfield with his brother when arrested. He declared he is innocent of any crime and his brother continued on to San Francisco to secure evidence in his behalf.

EARLIEST BY TWO WEEKS.

CARLOAD OF CHERRIES GO EAST.

[BY THE ASSOCIATED PRESS—P.M.]

SACRAMENTO, April 22.—The first full carloads of cherries was shipped for New York today by the California fruit distributors. This is the earliest shipment of a carload of cherries in the history of the State, by about two weeks. Now that warm weather has come again, cherries will go forward in large quantities.

The first carload of "new crop" strawberries was shipped from Florin, Sacramento county, today. Strawberries in smaller consignments have been going forward for three weeks.

The nineteenth carload of asparagus from Antioch passed Sacramento for Chicago and New York today, the demand there being very great at fancy prices.

GOV. PARDEE IN NO HURRY.

APPOINTING NEW SHASTA JUDGE.

[BY THE ASSOCIATED PRESS—P.M.]

SACRAMENTO, April 22.—Gov. Pardee has announced that he will take his time about appointing the new Superior Judge of Shasta county, now that Dist.-Atty. Thomas B. Dozier has declined the honor tendered him.

"It may be some time before I get around to this matter again," said the Governor today. "I believe the Bar Association up there has recommended another man in Dozier's stead, but I have not had time as yet to look into the subject."

The Governor says he considers the new law mandatory, and that he considers it his duty to appoint a new judge as soon as he can select a good man for the place.

NAVIGATES FEATHER RIVER.

CAPT. HARKINS DOES STUNT.

[BY THE ASSOCIATED PRESS—P.M.]

MARYSVILLE, April 22.—The steamer H. E. Wright arrived here today from Stockton, with the big clam shell dredged Sutter in tow. It is the first time a steamer has navigated Feather River since the railroad strike, seven years ago. No trouble was experienced until the mouth of the Yuba River, just below town, was reached. There the current was too swift for the steamer and its heavy tow, but a landing was made at Yuba City.

Capt. John Harkins, who guided the steamer up the river, was captain of the steamer C. M. Small, which plied between Marysville and Sacramento up to fifteen years ago, when the mining debris caused regular navigation to cease.

ALAMEDA COUNTY WINS.

OLD SUIT AGAINST THE STATE.

[BY THE ASSOCIATED PRESS—P.M.]

SACRAMENTO, April 22.—Judge Shields today gave judgment for the defendant in the case of the State of California vs. Alameda county. In 1897 the Legislature amended the law relating to commitments to the Home for Feeble Minded, so that counties could pay $10 per month for each person committed. The act was in force two years, at the end of which time Alameda county had become indebted to the State over $5000. The county refuses to pay and the State sued. The law did not provide a form for the collection of the money from the county. Judge Shields held that the State, in all its contracts and dealings with individuals, must be adjudged and abide by the rules which govern the rights of citizens contracting and dealing with each other, and that in this matter the State was not acting in its sovereign capacity. The claim should have been presented to the supervisors of the county, and, this not having been done, it had no right to sue the county.

Upon the decision hinges the many suits of like character brought by the State against counties.

SLOPE BRIEFS.

Despondent Cattleman Kills Himself.

SANTA ROSA, April 22.—The body of W. J. Doggett, one of the best known residents of this city, was found today near the city pumping station. In one hand, the dead man held a pistol, one chamber of which was empty, in the other, an umbrella. He left home last night, drove to the spot indicated and there shot himself. His faithful horse remained in the vicinity all night. Doggett, a few years ago, was a prosperous cattleman, with large ranges here and in Solano county, but recently had been despondent.

Schooner Del Norte Sunk.

SAN FRANCISCO, April 22.—The Merchants' Exchange has received a dispatch from Coos Bay, saying that the new steamer Sea Foam, on her first voyage to San Francisco, came in collision, early this morning, with the schooner Del Norte, bound from this city to Rogue River. The accident occurred off the Coquille River, where the schooner was waiting for a tug. The Del Norte turned bottom upward. Capt. Frenz and five men of his crew were taken aboard the steamer. The schooner was owned by R. D. Hume of this city. The Sea Foam sailed from Astoria Friday, with a cargo of lumber. She was not badly damaged.

Husband and Wife Horribly Beaten.

PORTLAND (Or.) April 22.—In defense of her husband, Mrs. Eunice Hanson, was last night severely beaten by two men. Her husband was severely stabbed by the men, who fled the premises, leaving no trace of their identity. When taken to the station, Mr. and Mrs. Hanson presented one of the bloodiest spectacles witnessed by one police for some time. Hanson, with his jaw cut open, was so weak from loss of blood that he could hardly stand. When he walked, had to be assisted by the police. An infant child of the Hanson's was also literally covered with the blood of its parents. It is thought that the men followed Hanson home, having some grudge against him.

Society of Dania Convention.

SACRAMENTO, April 22.—The convention of the Society of Dania concluded today, with the election of officers, and with the appointment of date and place for holding the next convention. This will open April 3, in San Francisco, in 1906. Branch No. 2, Denmark, and No. 3, Helga, both of San Francisco, will have all arrangements in charge. A gold medal was bestowed upon ex-President Carl Rosmusen, in appreciation of his services. The delegates to the convention, with their families, were guests of the local branch this evening, at a ball given in Pythian Castle.

Reno Once More in Darkness.

RENO (Nev.) April 22.—For the second time within a month the Reno Power Light and Water Company's plant has been wrecked. The first accident occurred a few weeks ago, when the power-house was nearly wrecked, causing a damage amounting to more than $3000. Since that time and until yesterday the city has been illuminated with power from Floriston, Cal. The system was turned into the old circuit yesterday and this evening the plant again went down.

Robbers Find Saloon Hot Place.

SAN FRANCISCO, April 22.—Two robbers entered the saloon of John P. Brutt, on the corner of Second and Brannon streets, at an early hour this morning, and ordered the proprietor to throw up his hands. Brutt dropped behind the bar when one of the robbers fired at him. Just then, a laborer, Thomas Reilly, who was in the saloon, tackled one of the robbers. Brutt, who in the meantime, had secured a pistol, fired at the robber but Reilly fell, fatally wounded, to the floor. A second shot from Brutt's pistol missed the robbers, who broke through the door and escaped. The police subsequently arrested a man who was found lurking in a lumber yard two blocks from the Brutt place, and he is held on suspicion.

Sensational Evidence Introduced.

SAN JOSE, April 22.—Sensational evidence was introduced today at the coroner's inquest held over the remains of Gladys Martin, the young woman who was burned to death by the explosion of a coal oil lamp. James McCormick, a bartender, who was in company with the woman when the affair occurred, contradicted his former assertions by declaring that the woman hurled the lighted lamp at him with intent to kill. The lamp struck the floor, exploded and ignited the woman's nightdress. She lingered for four days before she died. The coroner's jury returned a verdict of accidental death.

PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, April 22.—[Exclusive Dispatch.] Apparently to safeguard his reputation, Forecaster Cox guessed twice at the weather for tomorrow. His regular forecast hints at increased cloudiness, with possible showers, but in a special Easter prediction the positive prediction of fair weather is made. Both agree that the easterly wind will keep the mercury in the forties. Today was clear and cool with temperature ranging between 37 and 58 degrees.

HAS "SPOTTED FEVER" CURE.

What may be a cure for cerebrospinal meningitis, the dreaded "spotted fever," which has so far baffled medical science, was announced today by Dr. Ludwig Hektoen, professor of bacteriology and pathology at the University of Chicago, in an address before the American Association of Bacteriologists and Pathologists. Dr. Hektoen's method of dealing with the disease was to inject the blood of a healthy person into the spinal cord, thus reënforcing the white corpuscles that are relied upon to destroy bacteria, but which have failed to do so in the case of infectious meningitis.

DIVORCES IN COUNTRY.

That divorces are increasing more rapidly in the country districts than in the cities was indicated by reports from seventy-two counties in Illinois, showing that at the present time 3442 cases are pending of which 1823 are in Chicago. Thirty-six counties report divorces on the increase.

MISSING HEIRESS FOUND.

Mrs. Meta Munchoff, the Chicago woman said to be heiress to the $500,000 estate left by Clarence Haran, who made his fortune in the diamond fields of South Africa, has been discovered in the person of Mrs. William Countiss, wife of a young broker in the Rookery building. Mrs. Countiss secured a divorce from her first husband.

DYING IN LOS ANGELES.

[BY DIRECT WIRE TO THE TIMES.]

FORT WAYNE (Ind.) April 22.—[Exclusive Dispatch.] Rev. Ferdinand Koerdt, who is reported in a dying condition at Los Angeles, is one of the oldest priests in the Fort Wayne diocese. Father Koerdt has had charge of the St. Paul's German Catholic Church of Fort Wayne for many years.

LID DOWN TIGHT IN ST. LOUIS.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS, April 22.—[Exclusive Dispatch.] The lid will be on tighter than ever in St. Louis tomorrow. Acting on hints received from those in authority, the clubs of St. Louis and vicinity have decided not to sell any drinks to members tomorrow.

[BY DIRECT WIRE TO THE TIMES.]

SAULT STE. MARIE (Mich.) April 22.—[Exclusive Dispatch.] With 100 big lake steamers held up because of ice floes in Lake Superior, further discouraging reports for vesselmen were received tonight. The ice extends beyond vision in all directions above Whitefish Point

FLASHES FROM THE WIRES.

The Pope yesterday received J. P. Morgan in private audience. Morgan afterward visited the papal secretary of state, Cardinal Merry Del Val.

Considerable damage was done Friday at the beach resorts near New York by a severe storm that wept over Northern New Jersey, Southern New York and Connecticut.

Capt. R. G. S. Hinkle, for thirty years secretary of the Pilot's Association, and a well-known river man, is dead, at Bellevue, Ky. He was prominent in Kentucky politics as a Democrat.

The room of M. T. Lawrence at an Auburn hotel was burglarized Friday night and $500 worth of jewelry was stolen. A man named Steve Brodie has been arrested on suspicion.

Abe Schwartz, convicted of embezzling $12,000 from Secretary Green of the Phoenix Building and Loan Society was yesterday sentenced to four years in San Quentin by Superior Judge Dunne, at San Francisco.

Henry Sanford, well-known in theatrical circles in America and Europe, is dead at New York from Bright's disease. In recent years, he acted as business manager for many prominent performers.

John H. Foster of Evansville, Ind., was yesterday nominated by acclamation for Congress by the Republicans of the First Indiana District. He succeeds James A. Hemenway, now United States Senator.

A deal has been consummated whereby David P. Morgan of New York City will take over the valuable Bellis group of gold claims located near Maiden, Mont. The consideration is not known.

The appointment as Lyman Beecher Lecturer for next year of Rev. Charles Reynolds Brown of Oakland, Cal., is announced at Yale. His subject will be "The Social Message of the Modern Pulpit."

W. M. Gray, colored, convicted of having killed a Chinese named Wong Koung in Sacramento a few months ago was yesterday sentenced by Superior Judge Hart to be hanged at Folsom June 30. An appeal will be taken.

Frederick H. Wilson, financial clerk in charge of the United States Indian warehouse at New York, whose dismissal, together with that of several clerks, was ordered by Secretary of the Interior Hitchcock, has not yet received official notice of his removal.

A charivari party went to the home of Sam Vandenbroeck, near Lowell, Michigan, who was recently married, and, after making a hideous racket, demanded cigars. Vandenbroeck fired his shotgun at them, wounding five persons, one seriously.

Four men were asphyxiated and three others are in a dangerous condition as the result of the breaking of a gas main at the Edgar Thomson Steel Works, Pittsburgh, yesterday. The three men still living were trying to rescue the four who were killed.

At Sacramento, the cases of E. J. Emmons and Eli Wright, two of the four Senators expelled for boodling, were called in Superior Judge Hart's court, yesterday. Neither was present, but both were represented by counsel. On motion of their attorneys, they were granted one week's further time in which to file new demurrers.

Two of San Francisco's large financial concerns passed out of existence yesterday. The work of consolidation of the Nevada National Bank and the Wells, Fargo & Co. bank, under the name "Wells Fargo-Nevada National Bank of San Francisco," has been completed. The latter will open Monday.

Mrs. Clarence H. Mackay has announced her intention of becoming a candidate for the public school board of Roslyn, Long Island, where she resides, in a splendid country home. Hitherto, only men have been chosen members of the board, but local leaders say this will be no bar to Mrs. Mackay's candidacy.

Father John Henry Tihen, in charge of the Pro-Cathedral Parish of the Roman Catholic Church, Wichita, Kan., yesterday received notice from Rome of his appointment as chamberlain to Pope Pius X. The office carries with it the honorary title of monsignor and it is conferred for distinguished services in the cause of Catholicism.

During a circus parade yesterday at Columbus, O., six horses attached to one of the closed animal wagons, which fortunately contained no animals, became frightened and dashed among the spectators, seriously injuring three persons. A number of women and children were also trampled upon.

Warrants from the Federal Court have been received by Chief of Police Carroll of San José for the smuggled Chinamen who were recently arrested in a box-car there. The chief has handed over to the Federal officials two letters written by one of the Chinamen, addressed in Chinese to San Francisco parties, which may be of value in locating the men who engineered the smuggling scheme.

At San José, Chief of Police Carroll yesterday received a letter from Edith Gould of Penacock, N. H., asking for full particulars of the recent arrest of Mr. and Mrs. Frank Drew in San José for insanity. Miss Gould is a sister of Mrs. Drew. The couple are improving. No trace of Clairvoyant Weber, who, they allege, got $2000 from them, has been found.

Army prisoners now exceed by more than one hundred the soldiers on duty on Governor's Island. Most of those confined are merely held for desertion. The prison of the Department of the Lakes, at Chicago, became so crowded that many Western prisoners have been sent there. This accounts for the curious state of affairs noted. In all, there are 332 prisoners.

Francis H. Saltus, father of Edgar Saltus, the author, died at Tarrytown, N. Y., yesterday.

Secretary of State John Hay and Mrs. Hay arrived at Bad Nauheim, Germany, yesterday from Nervi, Italy, to take the waters. They will remain several weeks.

The strike at the porcelain works at Limoges, France, practically ended yesterday by the signing of an agreement between the proprietors and workmen, adjusting their differences. A feature of the agreement is the removal of the foreman of the Haviland factory, whose conduct was the main cause of the trouble.

At Great Falls, Mont., Rev. Wallace F. Chase, pastor of the Monarch, Belt and Neihart circuit of the Methodist Episcopal Church, began suit yesterday for $10,000 damages against Luther E. Howes, a merchant of Monarch, Mont., and a deacon in the church, for alleged slander. Rev. Chase says Howes had declared he was crazy and dishonest.

PROLONGED LOCKOUT ENDS.

NEW YORK, April 22.—The joint arbitration plan between the Building Trades Employers Association and the unions of the building trades of the city of New York was adopted at a convention held here today by twenty-eight of the unions, by the representatives of the four remaining unions as individuals and by thirty-one of the organizations of the Building Trades Employers' Association. The four unions that have yet to adopt the arbitration plan are the stone cutters, cement makers, brick layers and tile layers.

There were 10,000 employers and more than 85,000 mechanics represented at the convention. The plan, as now adopted, absolutely prohibits strikes or lockouts, provides for the appointment of a general arbitration board, an executive commission and a special trade arbitration board and the settlement of disputes by counciliation.

The employers promise to employ only members of the trade unions and it is agreed that when the conditions established by the arbitration plan are not maintained in a shop or on a job by employers or employés not parties to the plan, the plan shall not apply in the particular shop, or on the particular job for the time being. Business agents of the unions are permitted to enter all shops, buildings and structures. The plan provides that arbitrators from the unions shall not be business agents, and that no lawyer is to act as arbitrator, counsel or adviser.

With the general adoption of this plan the prolonged lockout against the carpenters and other unions will cease.

BAIL FOR CASSIE NOT OFFERED.

CLEVELAND, April 22.—Bail was not offered today for the release of Mrs. Cassie L. Chadwick, pending the hearing of her application to the Circuit Court of Appeals. At the conclusion of a conference between Ex-Judge Wing and Mrs. Chadwick at the county jail, the latter said that it had been decided not to offer bail until after the final hearing of the bankruptcy proceedings against her. This hearing will take place before Referee Remington May 2. Mrs. Chadwick declared she was prepared to give the required $52,000 security at any time. Her attorneys, however, said she believed it best to delay securing her release until after the bankruptcy hearing is completed. Mrs. Chadwick said today that at this hearing she would give all information that would in any way aid the attorney-

WASHINGTON.

FRICTION OVER PAUL JONES.

The President May Have to Decide Controversy.

State and Navy Departments Not in Harmony.

Trained Railroad Section Men Wanted on Canal.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, April 22.—[Exclusive Dispatch.] The President may be called upon to decide the controversy which has arisen over the selection of a burial place for John Paul Jones, which has been a theme of earnest discussion since the discovery of the remains in Paris, several days ago.

There are indications of friction between the State Department and the Navy Department as to the disposition of the remains, the latter being particularly desirous that they should be interred in the National Sailors' Cemetery at Annapolis, and the former is for the selection of Arlington Cemetery, the resting place of many heroes who distinguished themselves in fighting the nation's battles both on land and sea.

TRAINED SECTION MEN.

WANTED AT ONCE ON CANAL.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, April 22.—Judge Magoon will sail for Panama May 13 and on arriving will at once take the oath of office and assume the duties of Governor of the Canal Zone, relieving Gen. Davis.

Capt. King, assistant to Chief Engineer Wallace, has just arrived in Washington from the Isthmus. After consultation with his superior officers, he announced that the services of a number of trained railroad section men, not less than fifty or seventy-five, are required at once to begin work of canal construction. There is no time to secure these men through the civil service commission, and applicants are requested to apply to Capt. King, at the Isthmian Canal Commission headquarters here.

RAILWAY RATE HEARING.

TUTTLE GIVES ANSWERS.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, April 22.—At today's meeting of the Senate Committee on Commerce it was decided to send copies of the railway rate hearings to every member of Congress.

Mr. Newlands asked a number of questions to develop the advantage of a national corporation act.

Mr. Tuttle replied that when his road [illegible] organized it might have been ad- tageous to have had a national der for it.

n. further stated that arbitration eor troubles was impracticable, nat laboring men are opposed to s.

rying to Senator Newlands, Mr. said that if the government all the railroads he (Tuttle) probably could manage them all if given absolute control, but in a political government it would be impossible to have that absolute control.

AMERICAN REPUBLICS BUREAU.

NEW CHIEF CLERK CHOSEN.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, April 22.—For the past two weeks the governing board of the Bureau of American Republics has been trying to select a successor to William C. Fox as chief clerk, he having been promoted director. The promotion in his case was at the instance of the President and the ratification of his choice was not accomplished without some difficulty, owing to the belief on the part of the governing board that it alone had the right to fill the office. When it came to the selection of the chief clerk this feeling grew much stronger as it was learned that the President again had a choice for this place in the person of Gordon Cummings, at present an employé of the census office and a prominent figure in Washington society. Led by the representatives of Mexico and Chile, an organization was effected which triumphed today at a meeting of the governing board, when William C. Wells of the District of Columbia was selected, receiving eight votes as against five votes for Mr. Cummings.

D.A.R. CONGRESS.

MORMONISM IS DISCUSSED.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, April 22.—At today's session of the congress of the Daughters of the American Revolution, Vernon M. Davis, one of the Justices of the Supreme Court of New York, who presided in the criminal branch during the first and second trials of Nan Patterson, was one of the interested spectators of the proceedings.

Mrs. Donald MacLean, the President-General-elect, on motion of Mrs. Murphy of Ohio, was elected chairman of the Continental Memorial Hall Committee, the action being in accordance with precedent.

In response to an inquiry of Mrs. Mary Wood Swift of California, the President-General explained that the chairman of the Continental Memorial Hall Committee was not necessarily the President-General, but had to be elected. She then devoted a brief time to outlining the work done by the present committee, of which she is chairman. At the conclusion of her statement the thanks of the Congress were extended to Mrs. Fairbanks.

Mrs. Goode of Alabama brought to the attention of the congress the Mormon question in a sensational statement. She declared that the Mormon church was violating, through its leaders, the laws of the land so that it is a treasonable institution, owing its highest allegiance to its own organization, and that it is a stain on the good name of the United States. She offered this resolution:

"That as daughters of patriots, we most earnestly call Congress to pass such remedial legislation as will put a stop to polygamy and polygamous living and political condition of the Mormon hierarchy, and that this congress also urge the United States Senate to vote to refuse Reed Smoot of Utah, an apostle in this church, and one of its highest officers, the right to continue as a Senator of the United States; and that we further urge an amendment to the Federal constitution making polygamy, under whatever guise or pretense, a crime against the United States."

Mrs. Allen, State regent of Utah, asked that the word "church" be eliminated from the resolution and the word "hierarchy" substituted. The change was made. The resolution was adopted.

OULD BLOW UP WARD WAREHOUSE.

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, April 22.—What is believed to have been an attempt to blow up one of the Montgomery Ward & Co. warehouses was thwarted by a heavy rainfall today. A small bomb or dynamite cartridge was discovered in a pool of water in the rear of the warehouse. The bomb is three inches long, more than an inch in diameter and weighs nearly half a pound. It has copper caps on each end.

A new peace move in the teamsters' strike, with Judge Murray Tuley as the arbitrator, was taken under consideration today by the Employers' Association. The strike leaders, as the result of negotiations carried on through Mayor Dunne, agreed to submit all grievances to Judge Tuley and let him decide the issues. The offer included an offer of a waiver of all preliminary demands of the union involved. President Shea of the teamsters' union announced, accordingly, that a proposed spread of the strike would not occur today.

Meanwhile, the grand jury took up an investigation of the labor situation. President Shea, George S. Golden and other labor leaders were summoned as witnesses.

NO ARBITRATION.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, April 22.—The Employers' Association of Chicago refused this afternoon to accept the proposition of the teamsters that all questions involved in the Montgomery Ward & Co. strike be submitted to arbitration, with Judge Tuley acting as arbitrator. The proposition of the teamsters was conveyed to the employers through Mayor Dunne and late this afternoon the employers replied to the Mayor that they were, as they have been from the first, willing to arbitrate anything connected with the strike of the teamsters alone, but that they will under no circumstances consent to arbitrate the strike of the garment workers, which was over four months before the teamsters went out on a sympathetic strike.

TWO MERCHANTS BEATEN.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, April 22.—[Exclusive Dispatch.] Calvin D. Maus and Joseph Burges, two merchants from Creston, Iowa, were attacked and severely beaten this evening by four men in a restaurant in Van Buren street. The two merchants arrived in Chicago in the afternoon and went to a hotel where pickets had been watching for "strike breakers" since the beginning of the Ward contest. At night, they left the hotel to go to a restaurant.

Just in front of the eating house, four men stepped up behind them and dealt them crushing blows with a "blackjack," a piece of gas pipe. They fell to the sidewalk and their assailants kicked and beat them into insensibility and then made their escape. The two men were carried into the restaurant and attended by physicians summoned from a nearby hotel.

DELCASSE DECIDES TO STAY IN CABINET.

[BY THE ASSOCIATED PRESS—P.M.]

PARIS, April 22.—Yielding to the personal solicitations and representations of President Loubet and the leaders of the government that his retirement would be a serious matter at this time, M. Delcassé today advised Premier Rouvier that he would withdraw his resignation as Foreign Minister. This was after strong assurances had been made to M. Delcassé that the ministry would support his foreign policy.

During the conference today between the President and M. Rouvier and M. Delcassé, the latter said he would retain the portfolio of Foreign Affairs only in case the entire Cabinet approved of his foreign policy, which he would carry out according to his views.

The authority necessary to carry on negotiations with the powers was ineffective if such negotiations led to reserves or divergencies among the members of the Cabinet. The purpose of the intended Cabinet meeting was to remove every scruple in the mind of the Foreign Minister concerning the loyalty to support him. Delcassé finally gave as his answer today that he would remain.

As a result of his decision the special Cabinet council which was called to meet this afternoon was abandoned. M. Delcassé's staying in the Cabinet is expected to result in a firmer attitude toward Germany than heretofore has been shown. The Foreign Minister's [illegible] her interests [illegible] the same as those of the rest of the world, but after making these approaches he did not desire to yield France's entire project concerning Morocco at the dictation of Germany. It is said that some member of the Cabinet shares the view that a grave issue with Germany might result from too firm an insistence on the French Moroccan policy, and M. Rouvier is also credited with the desire not to have the Moroccan issue drift into dangerous complications.

Only the Socialists and Radicals openly expressed this view in the Chamber of Deputies, but the more influential sentiment was that immediately surrounding M. Delcasse. He felt, therefore, that it was useless to proceed without the strong support of his colleagues representing the government, and if a temporizing policy with Germany was desired some one else should assume the responsibility. Consequently his offer to resign was interpreted as a triumph for Germany, whereas his determination to remain is interpreted as a check to German designs. The feeling over Germany has naturally become much more acute as a result of the incident. Many Deputies who have been interviewed on the subject say that M. Delcasse's resignation at this time would be equivalent to France making an open and humiliating concession to Germany.

The Cabinet's course in giving united support to M. Delcasse assures him a strong moral backing in continuing the Moroccan policy. He has already opened overtures with the German Ambassador, designed to give Germany ample explanation. Germany has not yet [illegible] to respond to these overtures. While continuing this conciliatory attitude, M. Delcasse is now in position to resist Germany's apparent purpose to secure the complete abandonment of the French Moroccan policy.

The strong friendship of M. Delcasse for the United States is everywhere recognized among the American officials here. His relations with Ambassador Porter have been peculiarly close. Only recently M. Delcasse remarked that he wished Gen. Porter would remain here until he also retired. Last week Gen. Porter gave a large oil portrait of himself to M. Delcasse as a mark of his esteem.

The letter of M. Delcassé to Premier Rouvier giving the first intimation of his purpose to resign was very brief. It based his action solely on the grounds of health and made no allusion to any political or international considerations. To such intimate friends as Ambassador Porter, M. Delcassé has recently spoken of the tremendous strain placed upon his health by the cares of his position. Madame Delcassé also felt that his health was being endangered by strenuous application to the details of the Foreign Office. Lately the strain over the Moroccan situation and the question of France's neutrality has been particularly severe and to this was added the wavering allegiance of some strong elements in parliament.

FATAL FREIGHT WRECK.

DENVER, April 22.—A special to the Republican from Cheyenne, Wyo., says that west-bound freight train No. 57, on the Union Pacific, was wrecked by a rockslide tonight at Edson Tunnel, 125 miles west of Cheyenne. The train was just emerging from the tunnel when the slide occurred and buried a portion of the train, wrecking the balance. Four men are said to have lost their lives, as follows: Engineer Nelson, Fireman Hook, a brakeman, and an unknown tramp. At a late hour tonight the body of the tramp was recovered.

CONCESSIONS FOR CALIFORNIA.

WASHINGTON, April 22.—The State Department has been informed that the Nicaraguan government has granted three valuable concessions to a California syndicate known as the Nicaragua Finance and Improvement Company. One is for a railway connecting Managua with the Matagalpa coffee district; another a monopoly for the manufacture of powder, dynamite and high explosives for a term of years and that the third is a concession to import 5000 Chinese coolies.

TRIBES IN FULL REVOLT.

TANGIER, April 22.—The Doukala Chiadma and Mtouga are in full revolution near Mogador. The Kaids of Tchiadma and Mtouga tribes have been killed. Mogador is a seaport on the west coast of Morocco on the Tensft River. It has a population of about 19,000, 8000 of whom are Jews and 300 Europeans.

The Knockers a Menace.

The town knocker is an undesirable citizen. One dyspeptic faultfinder can tear down in a day more than a steady, devoted business community can rear in a month. A knocker is a menace to the peace and dignity of a people. He is a thorn in the flesh. He's like the patch of courtplaster on a girl's nose, always conspicuous. And besides, he's the wisest of all Solomons. He can advise as to the proper conduct of all the lines of business between a feather foundry and the United States pension office. Verily, he hath wisdom, and to spare, but the room occupied by the town knocker is more to be desired than his company.—[Osage City Free Press.

HONEST CONFESSION

A Doctor's Talk on Food.

There are no fairer set of men on earth than the doctors, and when they find they have been in error they are usually apt to make honest and manly confession of the fact.

A case in point is that of an eminent practitioner, one of the good old school, who lives in Texas. His plain, unvarnished tale needs no dressing up:

"I had always had an intense prejudice, which I can now see was unwarrantable and unreasonable, against all muchly-advertised foods. Hence, I never read a line of the many 'ads.' of Grape-Nuts, nor tested the food till last winter.

"While in Corpus Christi for my health, and visiting my youngest son, who has four of the ruddiest, healthiest little boys I ever saw, I ate my first dish of Grape-Nuts food for supper with my little grandsons. I became exceedingly fond of it and have eaten a package of it every week since, and find it a delicious, refreshing and strengthening food, leaving no ill effects whatever, causing no eructations (with which I was formerly much troubled,) no sense of fullness, nausea, nor distress of stomach in any way.

"There is no other food that agrees with me so well, or sits as lightly or pleasantly upon my stomach as this does. I am stronger and more active than I have been for ten years, and am no longer troubled with nausea and indigestion." Name given by Postum Company, Battle Creek, Mich.

There's a reason.

GAMINS SEE CHASE PLAY.

Free Ball Proves a Great Attraction in Gotham.

Urchins Take Advantage of Farrell's Bad Break.

Attendance Records Smashed. Standing of Leagues.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, April 22.—[Exclusive Dispatch.] When the National League Club of New York threw off the Tammany incubus, by ousting Freedman and installing Brush, the public began to take heart and look for business methods and fair dealing with men who love baseball and cannot see anything in any other sport. The real thing that has bothered the American League Club ever since it was established in Greater New York is that it is owned and controlled by the Tammany poolroom go-between man, Frank Farrell. Farrell is known as a gambler, and the club has that onus fastened upon it.

Yesterday afternoon twenty thousand or more fans braved threatening weather to see the opening game at the American League Park. At the end of the first inning, rain began falling in torrents, but the umpire, strangely inspired from higher up, just would not call the game. The contest degenerated into a howling farce, 20,000 fans yelling "bunco," as it became plainly evident the purpose was to play through four innings, and make the game a contest, with no return of money or rain checks to the people.

Thunder and lightning added to the excitement of a scene probably never before witnessed upon an American ball field. The game got into four innings, rain fell in torrents, the mob charged the police and rushed on the field, and then the wail went up from headquarters that the rain checks ordered from the printers had not arrived. Twenty thousand buncoed fans yelled, cursed Farrell and his cheap methods, taunted him as a cheap gambler, and demanded justice.

Finally, to quell the dangerous mob, the word was shouted that today's game would be free to all. It was [illegible] the only way out of the disgraceful predicament. Even then the crowd would not leave until a cordon of police charged the jam and literally forced thousands through the gates. Today was consequently small boys' day at the American League Park. The route to One Hundred and Sixty-seventh street and Hudson River began at early morning, for hundreds of boys did not even have car fare, and walked miles to be inside the fence for just once. Thirty thousand were on hand when the game was called, and they went home happy when New York beat the fast Washingtons by 5 to 2. Chase, with a paid gate, would have been a great magnet, but the crowd was the most cosmopolitan ever seen on a ball ground, and they just wanted to see a game played. Chase was in great form in the field, but weak at the bat. However, the Los Angeles youngster is batting over .250, and Griffith says he will be a topnotcher before the season is over.

The first week of the season vindicates the opinion that this is to be the greatest baseball season in the history of the national game. The attendance has broken all records. Weak teams have been greatly strengthened, as witness the leading positions of both Philadelphia teams. Washington is playing a fast game, and Stahl says his team will stay in the first division. The surprise of the season thus far is the Philadelphia National League team. It started with a great rush, handing the Giants their only defeat. It went hard before the Giants today, losing 10 to 2, and fair judgment cannot be given until two more games are played. Poor old Boston, last year's champions, got into the percentage column this afternoon, by beating Philadelphia on the home grounds, their only win in seven games. Pittsburgh leads the National League with five victories and only one defeat, with New York one game behind, and the despised Philadelphias. In the American League Philadelphia leads, New York second and [illegible] third.

THE MAJOR LEAGUES.

"SPIT" BALL MUST GO.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, April 22.—[Exclusive Dispatch.] The first week's dash in the major baseball leagues shows Pittsburgh leading in the National League by a narrow margin over McGraw's champions. With immunity from accidents the heavy hitting "Pirates" are expected to set a merry pace for New York and Chicago from now on. The hoodoo resting over the Chicago team put another player out of the game today when second baseman Johnny Evers collided with Blankinship of the Cincinnati club and was carried from the field unconscious. How long Evers will be on the cripple list with Capt. Chance is uncertain, and the prospects for a championship flag on the West Side are materially lessened.

In the American League the Philadelphia Athletics are starting to make a runaway race while the Boston champions are presenting a sorry spectacle in last place, with only one game won. A string of defeats at the hands of the despised Washingtons was the most bitter dose administered to the Plymouth Rocks.

The protest against the so-called "spit ball" appears to be taking definite form. Barney Dreyfuss wants it legislated out of existence. In an interview today Dreyfuss intimated that the National League is now discussing the advisability of taking a mail vote to determine the fate of the new-fangled ball.

"The spit ball is a menace to the game and should not be allowed," said Mr. Dreyfuss. "You can take it from me too, that within the next two months that ball will not be used, for there will be a rule against it. Catchers, batsmen and umpires are in danger of their lives every time the spit ball is pitched, for no pitcher has good control over it. I'm against it for one, and I'll bet it's ruled out in a few weeks."

James A. Hart in discussing the problem said: "The rules committee will find some means of equalizing the game when the players get the best of the rules as they stand. They have gotten the best of the baseball laws in the past several times and changes have had to be made to bring the game back to where it was intended to be. If the players have the best of it in the present case, the makers of the rules will be very likely to devise some means of bringing them back to where they belong."

FLOOD HITS HOMER.

[BY THE ASSOCIATED PRESS—P.M.]

PORTLAND (Or.) April 22.—Baum had two unlucky innings today, during which the locals scored five runs in the game between Portland and Los Angeles. Cates held Los Angeles down well except in the third, when Flood knocked the ball over the fence, making a home run, and at the same time scoring Baum who was on third base. Attendance 4000. Score:

Portland, 5; hits 8; errors, 2.

Los Angeles, 3; hits 9; error 1.

Batteries—Cates and Murphy; Baum and Eager.

Umpire—Klopf.

One mile: Champlain won, Pronta second, Arsenal thirdl; time 1:40.

Four and a half furlongs: First Water won, Carola second, Deux Temps third; time 0:55.

TRUE WING IS DERBY WINNER.

SETS NEW RECORD FOR TRACK AT KANSAS CITY.

Holtman Gets Field Off to Good Start—Eight Horses That Appeared at Ascot Park Last Winter Landed in the Money—Big Crowd Witnesses Very Good Sport.

[BY THE ASSOCIATED PRESS—P.M.]

KANSAS CITY (Mo.) April 22.—Ten thousand people at Elm Ridge this afternoon saw T. H. Ryan's True Wing, cleverely ridden by Birkenruth, win the first renewal of the Kansas City derby easily by a length from Pat Dunne's Devout. Five lengths back came Ara, staggering and out to the last ounce. The distance, a mile and a quarter, was covered in 2:06¾, a record for the course.

There were only six starters. Starter Holtman sent them away in perfect alignment, but before a furlong had been covered the field was badly strung out. Larsen on Devout evidently had "hurry up," orders, as he shot to the front with the son of Hyty and passing the stand the first time, he was five lengths in front and running with his mouth wide open. True Wing was second and Ara third. Devout continued to lead the procession until the pace began to tell on him, and True Wing, who had been rated nicely by Birkenruth, passed him a sixteenth of a mile out and won easily. Devout was easily the best of the others. Ara ran a game race, being under a drive for fully half a mile. The Ryan filly was a slight favorite in the betting. The purse is $5000 added. Results:

Five and a half furlongs: Clifton Forge won, Envoy second, Azelina third; time, 1:06¾.

One mile: Golden Mineral won, The Lady Rohesia second, Ada N third; time, 1:42¼.

Four furlongs: Hadur won, Jim Nap second, Ramona II third; time, 0:48¾.

One mile and a quarter: True Wing, 112 (Birkenruth) 9 to 5, won; Devout, 117 (Larsen) 4 to 1, second; Ara, 117 (Kunk) 3 to 1, third; time, 2:06¾. Belle Indian, Roundelay and Drexel also ran.

One mile and a sixteenth: Alma Dufour won, Rough and Tumble second, Foncasta third; time, 1:48.

Seven furlongs: Bryan, won; Chalk Hedrick second; Merces third; time, 1:27¾.

SIDE TALKS BY THE OFFICE BOY

When you come out of church this morning, just take a good look at the people, not particularly at their wearing apparel but at their faces and see if you don't say you never saw as happy and contented a bunch of people in your life. And after all, why shouldn't they be pleased with themselves, they live in God's country all right, all right, we've had bountiful rains, there's no question about "what the harvest will be," our city is spreading out in every direction and substantial residences and business blocks are being erected all over the city. Ten to twenty thousand good citizens of means from all parts of the world locate here each year to make this their permanent home and tack ten years onto their life. In addition to our matchless climate, we've got most everything in Southern California they have elsewhere, and then there's the Silverwood stores to trade at. Silverwood goods are always guaranteed, you get your money's worth or your money back. You don't have to take the least little bit of a chance.

SUNDAY REAL ESTATE "LINERS."

10 O'clock Saturday Nights.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier, especially Sunday real estate announcements, which in order to printed must be in the office not later than 10 o'clock Saturday nights. The printing of all real estate matter, including advertisements, in a part by itself on Sundays involves somewhat slower press work, making it essential in order to get the paper out on time to stop receiving real estate ads. at 10 o'clock Saturday nights.

Dealers will confer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible; or at least a part of it, and the balance early on Saturdays.

Sunday "Want" ads. will still be received by 'phone and over the counter until 11 o'clock Saturday nights.

We Offer $5,000

As a Guarantee on Liquozone. The First Bottle is Free.

A great deal is said in these days about Liquozone.

Millions are telling of the good it has done; for one home in five—wherever you go—has some one whom Liquozone has cured.

This remarkable product has become the talk of the world. In the past two years, the sick of nine nations have come to employ it.

But so great a good could not be done to humanity without harming the interests of a few.

The consumption of medicine has immensely decreased. The popularity of the few physicians who cling solely to drugs has diminished. And in numberless homes where Liquozone is in daily use, sickness has been almost banished.

These facts have injured some interests. And a few of the injured—to serve a selfish interest—seek to disparage that which has done the good.

The usual method is to insinuate that Liquozone itself is a medicine; that, despite our claims, it is a compound of acids and drugs.

Such statements are oft repeated; and we cannot doubt that some are led to believe them.

Our answer to all is this:

The virtues of Liquozone are derived solely from gas, by a process requiring immense apparatus and from eight to fourteen days' time. The gas is made, in large part, from the best oxygen producers.

Nothing whatever enters into the product, save the gas and the liquid used to absorb it, plus a touch of color.

And to emphasize this answer, we offer $5000 to anyone who can disprove it.

In this business, methods which are subject to criticism are most carefully avoided. We permit no misrepresentation; no claims which have not been fulfilled. Our product is too vital to humanity to be laid open to prejudice.

What we say about Liquozone is true. What we claim it can do has, again and again, been done. And in any disease which we claim that Liquozone will help, we assume the whole risk on a two months' test with every patient who asks it.

Before we bought the rights to Liquozone, it had been tested for years in thousands of the most difficult cases obtainable. We found that diseases which had resisted medicine for years yielded at once to it. Sickness which had been pronounced incurable was cured.

The value of the product was placed beyond possible question, before we staked our fortunes and reputations on it. It was amply proved that, in germ troubles, Liquozone did what medicine could not do.

Then we gave the product away—gave millions of bottles, one to each of millions of sick ones.

We have published no testimonials; no evidence of cures. We have never asked a soul to buy it.

Our method has been to buy the first bottle ourselves; to let the sick try it without the cost of a penny; to let the product itself prove its power.

Most of you know the result. There is no neighborhood—no hamlet so remote—but knows some wonders which Liquozone has wrought.

And Liquozone is probably doing more to cure sickness, and to prevent it, than all drugs, all medicines combined.

How petty is that self-interest which would have you go back to the old methods—to the days before Liquozone! Back to the time when the very cause of disease was unknown, or when no one knew how to meet it.

What Liquozone Is.

The greatest value of Liquozone lies in its germicidal powers. It is a germicide so certain that we publish on every bottle an offer of $1000 for a disease germ that it cannot kill.

Yet it is absolutely harmless to the human body. Not only harmless, but helpful in the extreme. Even a well person feels its instant benefit.

Liquozone is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be given internally. Medicine is almost helpless in dealing with inside germs.

But germs are vegetables; and Liquozone—the very life of an animal—is deadly to vegetal matter. This fact—above all others—gives Liquozone its value. There is no other way to directly end the cause of any germ disease.

Germ Diseases.

These are the known germ diseases. Nearly all forms of all these diseases have been traced to germs, or to the poisons which germs create.

These are the diseases to which medicine does not apply, for drugs cannot kill inside germs. All that medicine can do is to act as a tonic, aiding nature to overcome the germs. But those results are indirect and uncertain. The sick cannot afford to rely on them. And no one needs to now.

Liquozone alone can destroy the cause of these troubles. It goes wherever the blood goes, so no germ can escape it. The results are almost inevitable. We have seen them so often in every disease in this list that we have come to rely on them. Liquozone has proved itself so certain that in any stage of any of these diseases, we will gladly send to any patient who asks it an absolute guaranty.

50c Bottle Free.

The way to know Liquozone, if you have never tried it, is to ask for a bottle free. We will then send you an order on a local druggist for a full-sized bottle—a 50c bottle—and will pay the druggist ourselves for it. This applies only to the first bottle, of course—to those who have never used it.

The acceptance of this offer places you under no obligations. We simply wish to convince you; to let the product itself show you what it can do. Then you can judge by results as to whether you wish to continue.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle, and give it to you, if there was any doubt of results. You want those results; you want to be well and to keep well. Then be fair with yourself; accept our offer today. Let us show you, at our expense, what this wonderful product means to you.

Liquozone costs 50c and $1.

How About a Piano?

You surely would not think of buying a piano without visiting several establishments and getting prices and particulars.

Our piano department, although comparatively young, has attained an important position among the music-loving public.

We sell brand new upright pianos at prices ranging from $50 to $200 less than regular piano stores ask. Our terms range as low as $1 down and $1 per week. A moment's investigation will convince you that there is no room for hesitation one moment. We can supply you with as good a piano as the world affords for less money and on easier terms than you can get elsewhere in Southern California.

We are Going to Have Another Store---Biggest in Town

We have leased for ten years the third largest building in Los Angeles at 7th and Main Sts., which will be fitted out as the largest mercantile establishment in the Southwest.

Since the formation of the furniture trust our business has grown so great that our present store is taxed to its utmost capacity.

We are the only big furniture concern in Southern California which is entirely independent of the Trust. We are able to sell goods at 25 to 40 per cent. below Trust prices because we buy for spot cash and we make hundreds of quick profits where the Trust stores wait for slow sales and fancy prices.

Something About Our Dining Room Furniture

Some people confuse the "installment plan" with a modern credit system.

The two are entirely different.

The Trust furniture stores sell on the installment plan. At Brent's the credit system is modern, different, more convenient, and its popularity is proven by the enormous number of accounts which are opened up every week.

We'll sell you a single article or furnish your entire house on small payments and the balance will be arranged to suit your convenience. There are no embarrassing questions, no red tape. We take as much care in selling goods on credit as though you paid spot cash. Our salesmen will be glad to help you figure out how to secure the most satisfactory selections for the least money.

Many people of ample means have been so pleased with our credit system that, although they could well afford to pay spot cash, they take advantage of this method. Call and ask to have it explained.

The Trust Has

Already been compelled to close down some of its stores.

It has been forced to auction off some of its stock in order to raise ready money.

It has cut down its delivery system one-half.

It has discharged many of its employees and forced others to take vacations every few weeks.

In order to secure a location near Brent's with the hope of catching some of Brent's business, it paid an exorbitant price for an old stock of goods, thereby increasing its unstable financial condition.

The Trust seldom quotes any prices in its advertisements.

A. B. Greenwald Arrested on Serious Charge.

Wholesale Bunch of Illegal Tickets Confiscated.

A. B. Greenwald's cigar store at No. 107 South Spring street, long known to the initiated as headquarters for lottery tickets, was raided by postoffice inspectors yesterday afternoon. The officers seized about 10,000 lottery tickets and arrested Greenwald on a charge of violating the United States laws.

Greenwald has figured with the local police on more than one occasion in the lottery line, but this is his first experience with Uncle Sam.

At 5:30 o'clock Constable De La Monte, armed with a search warrant issued by Justice Young, and accompanied by Postoffice Inspectors Wilson and Madden, entered Greenwald's place and quietly told the clerk in charge that they were there to search for lottery tickets.

Producing the warrant, Constable De La Monte said: "We will search every nook and cranny where we think these tickets may be secreted, so you might as well throw everything open to us."

"Oh, I guess the jig's up," answered the clerk, "so I'll show you everything. Here's where we keep the tickets," and the clerk opened one of five drawers showing numbered bits of paper issued by three lottery concerns.

Several hundred tickets were found in this drawer and then the officers asked to be shown the contents of the other drawers.

"Oh, they are customers' drawers," answered the clerk.

"Well, we'll see what your customers have stored away inside," remarked the Constable laconically.

Every drawer contained lottery tickets, all of which were confiscated by the officers.

"Now let's have a peep inside that safe," suggested Inspector Wilson.

The safe was locked and the clerk didn't know the combination and Mr. Greenwald was away.

"Oh, very well, we will wait for Mr. Greenwald," said the inspector.

Shortly afterward Greenwald entered the store and he was quickly informed of the purpose of the visit of the officers.

Greenwald knew the combination of the safe, but he didn't have the keys to the inside doors; the cashier had them. Gently reminded by the officers that the safe might be broken into if the keys were not forthcoming, Greenwald soon found a way to open the doors.

Then the last straw was added. Inside were numerous tickets for future drawings, but one bunch of the slips contained only prize winners. About 100 tickets were in this batch, and each had drawn a prize in a previous drawing. None of the prizes was over $5, however. Greenwald had cashed the tickets for his customers, but he had failed to send the uncanceled slips to the companies and secure the money due on them.

It was the most successful raid ever made on a local lottery joint. The officers secured about 10,000 tickets in future drawings in the Louisiana, Beneficiencia and Honduras companies, in addition to the prize winners. All were turned into Justice Young's court.

Greenwald was arrested and taken before United States Commissioner Van Dyke at 7:30 o'clock last night, when his bond was fixed at $2500. Nick Oswald signed the bond and Greenwald went free pending his examination in the United States District Court. The search warrant provided also for the arrest of Jake Greenwald, father of the proprietor, but Greenwald, Sr., was in San Francisco. When he returns to the city he may also be placed under arrest.

Conviction in the United States court of dealing in lottery tickets, which is construed as a violation of the interstate commerce law, carries a maximum penalty of two years' imprisonment and a fine of $1000.

DEATH OF MISS CAMP.

Well-known and Popular Cashier at the Nadeau Hotel Succumbs to Appendicitis.

Miss Gettys Camp, cashier at the Nadeau Hotel, died suddenly early yesterday morning at the California Hospital, having failed to rally from the shock attending a second operation for the relief of appendicitis. The funeral arrangements have not yet been made, but friends will be permitted to view the remains at 2 o'clock this afternoon at the undertaking rooms or Orr & Hines on South Broadway.

The young woman, who was well known and popular in hotel circles, and who had a wide acquaintance with the traveling public, had been in the employ of Alden and Thompson, proprietors of the hotel, for eight years. She had made her home at the hotel for a long time.

Although a semi-invalid for eight years, no complaint ever came from her lips; she ever bore the same pleasant demeanor, despite her suffering. It was only when she became incapacitated for work last Monday that she gave up and went to the hospital for relief. News of her death was a great shock to those with whom she had been associated.

"She was like one of my family," said Mr. Alden last night. "True and faithful, she held a place in the hearts of the management that never can be filled."

Miss Camp was a native of Cleveland, Tenn., and was a daughter of J. B. Camp, now a resident of Pomona. She had resided in Southern California from the time she came here, a twelve-year-old girl, in 1886. Her mother died on a visit to California thirty years ago.

DEATH A SURPRISE.

Funeral of Mrs. Hitchcock, Wife of Purchasing Agent of Baker Iron Works.

The funeral of Mary E., wife of H. S. Hitchcock of No. 829 Kensington road, was held at the family residence yesterday morning.

Services were also held at the Plaza Church and at Evergreen Cemetery where the interment was made.

Mrs. Hitchcock died Wednesday after an illness of about ten days. Neither she nor her husband had any idea that her illness would terminate fatally. She was conscious until within about a half hour of the end when she fell into a stupor from which she never awakened.

She was 35 years of age and in addition to her husband she leaves three little girls, the youngest of whom is 5, the oldest 9 years.

Hitchcock is the purchasing agent of the Baker Iron Works and has an extended acquaintance in the city.

Mrs. Hitchcock was a Catholic and the full service of that church was carried out.

The number of floral offerings was large and many of the pieces were exceptionally beautiful.

VETERAN STRICKEN.

Old Soldier is Attacked by Heart Failure and Dies in a Drug Store.

W. P. Harman, an aged visitor from Rhadnor, O., was stricken with heart failure on a south-bound Vernon car at Seventh and Central avenue yesterday afternoon. The victim collapsed in his seat. He was removed to a drug store nearby and physicians were quickly summoned, but he died in a very few minutes.

Harmon was a member of the G.A.R. and several secret orders. He had been in Los Angeles several months and he was returning from a short visit to his brother's home in Redlands when he was attacked. Mrs. Harman accompanied him. The remains was sent to Booth & Boyleston's morgue where an inquest will be held tomorrow. Mr. and Mrs. Harman resided at No. 1146 East Thirty-third street while they were in Los Angeles.

FOUND WANDERING.

Alfred Geyer, 76 years old, of No. 744 South Figueroa street was found wandering near the corner of Pico and Main streets late yesterday afternoon. The old man's actions were so peculiar that Patrolman Fisher and Johnson sent him to the Receiving Hospital. Geyer is a retired capitalist. His relatives fear that his mind has become affected.

BATTLES FOUGHT OVER.

Bartlett-Logan Post, Grand Army of the Republic, will give an old-time smoker on next Saturday night, at their hall, No. 121½ South Spring street, to which all veterans are invited. There will be songs and stories around the old camp-fire and lunch will be served.

Piano for Occidental Club.

The Music Committee of the Occidental Club, after trying many other high-grade makes, has purchased the Frank B. Long piano for use in their beautiful rooms at 130½ S. Spring st. Another triumph for "the unequalled tone."

DIAMONDS

Our Plan of Selling Them:

FIRST. We guarantee our values. Diamonds we sell can be returned to us anytime within the year and we will buy them back for 90 per cent. of the purchase price.

SECOND. We allow you full value in exchange on a larger diamond. To illustrate: You purchase a diamond for $50, and later on decide you want a larger one. Return the diamond you now own, pay us the difference—say $50.00—and you then possess a diamond of $100.00 value.

By purchasing of us your diamond is an available asset—and you can invest a little at a time and soon have the size diamond you desire.

NOTE { *You can buy as safely by mail as you can in our store. We send diamonds on approval to responsible people everywhere.*

Flexible Rubber Dental Plates

Have many advantages over the old thick, cumbersome, ordinary rubber plates and even over gold plates, being much lighter and thinner. These plates are flexible, only a trifle thicker than heavy writing paper, fit closer and adhere better to the roof of the mouth. Particles of food and small seeds cannot get under them. They will last longer, are stronger than any others and will not break, as they will give first, being flexible. Dr. Schiffman's own process, and made only by us.

Persons having trouble with their plates or in having plates fitted, are invited to call and consult us.

Under no consideration will this offer be extended or renewed. Do not miss this great opportunity to be cured at this low cost.

ASTHMA CURED LIKE MAGIC.

Los Angeles, Nov. 12, 1904.

"Words cannot express the gratitude I owe Prof. Uria for the miraculous way in which he cured me of my asthma, which was considered almost incurable. I cannot describe the tortures and agonies that I underwent the past four years. For two years the doctors kept me under the influence of morphine to prevent the severe asthmatic attacks which enfeebled me so that I was unable to work and very often unable to get about. I have tried everything that I heard or read of for the cure or relief of my condition, and spent over $3000 for medicines and tried fourteen different doctors, without avail. I had almost despaired of getting well until I consulted Prof. Uria less than a month ago, and now I am most thankful I did, as I began to improve from the first treatment. My hacking cough has left me. I sleep through the night like a child, have gained ten pounds in weight, and am feeling stronger every day. Life is worth living for since I began Prof. Uria's wonderful treatment. Truly he is a remarkable man. And one doubting the above is at perfect liberty to call or write."

OCEAN PARK "OPEN SHOP."

Boycott Doesn't "Go" in That Strand Community.

Will Not Place Fence in Rear of the Casino.

New Chapter in Attempt to Even Up Grievance.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

OCEAN PARK, April 22.—By the [illegible] of an injunction issued today by Judge Trask in Los Angeles, this beach is an open shop. In other words, the boycott doesn't "go" to the extent that either the Ocean Park Improvement Company or its individual members will be suffered to fence up the rear entrance to the Casino on Pier avenue. The injunction was issued on petition of Gilman & Dorner, who hold a [illegible]-year lease on the Ocean Park Improvement Company's Casino building. The injunction was requested because Gilman & Dorner had good reason to believe that it was the intention of the owners of the building to fence up the rear and side entrance and erect a building between the Casino and the roller coaster.

Within itself the injunction is insignificant, but behind it is a story that dates from one evening a couple of weeks ago when the strand band company gave a dancing party in the Casino. Gilman & Dorner donated the use of the dancing parlor for the occasion and opened the doors that connect the dance hall with their café. A. E. Fraser, a member of the company owning the Casino and an attendant upon the dance, demanded that the doors be closed.

"Nay, nay, Pauline," was the response that met his command. This stirred the Fraser blood and he made a public speech admonishing his friends one and all to boycott the Casino. The dance was interrupted while a two-step in double time was in progress to adopt resolutions otherwise than friendly to the Casino folk and a paper was circulated which pledged its signers to never come to eat, drink and be merry in the Casino so long as it was conducted under its present management.

The dance continued for a short time only, as the merry dance folded its draperies and quietly stole away early.

A few days later Gilman & Dorner without success advertised offering a cash reward of $100 for possession of the original boycott petition that was circulated among the dancers.

The attempt to fence in the Casino which was today forestalled by injunction, was simply one more chapter in the story of a boycott on the beach.

HAD TWO PURSES.

P. J. Kleice, Suspected of Being a Purse Snatcher, Taken on Figueroa Street.

P. J. Kleice, suspected of being a purse snatcher, was arrested at Figueroa and Washington streets shortly before midnight. Patrolman J. J. Murphy picked Kleice up and as the man could give no account of himself, he was sent to jail. When searched at the Police Station two purses were found in Kleice's pockets. He could not account for them. Several purse-snatching jobs have recently been reported to the police and Kleice is suspected of having been implicated. The police will thoroughly investigate the man's record.

SAY IT IS UNFAIR.

Spring-street People Declare They are Willing to Pay for Lights if Broadway Does.

The officers of the Spring Street Improvement Association take exception to some things that have been said about the proposition to extend to them the same treatment accorded the Broadway Improvement Association, when the city agreed to pay for lighting the new system of lamps placed on the latter thoroughfare.

"We pay more taxes," said one of the officers last night, "than the Broadway people, and surely are worthy of as liberal treatment, though we are perfectly willing to pay for our own lights if the Broadway people do the same. The attitude of the Mayor as shown by his veto is manifestly unfair, inasmuch as he overstates the cost, providing the same system was extended to Hill and Main streets also. Instead of being $70,000 for lighting the entire business zone of the four streets named, it would cost not over $50,000; it is ridiculous to talk about running these lights all night. Estimating the entire light bill of the city at $170,000 a year, the taxes of the zone thus lighted, which amount to $85,000, would pay half the bill. In other words, it would pay its own $50,000 and give a balance of $35,000 toward other portions of the city, and yet the entire city receives the benefit of the lighting of the business section. We are not willing to admit, however, that Hill and Main streets are in the same class with the other two principal business streets of the city."

BREELS'S INVENTION.

Mechanic Thinks Out a New Motive Power for Automobiles and Gas Engines.

H. E. Breels has gone from Los Angeles to Hamburg, Germany, to attend a convention of German mechanics. Breels's father designed one of the first models of a successful auto-car ever run in the German Empire, and Breels himself, when a lad of fourteen, constructed and operated a plant for the refining of oil.

Breels has taken back to Germany with him the model appliances of a new motive force, which he has been working upon for some time as a propelling power for automobiles. During several years past he has been employed as a stage mechanic, and in his odd time has worked out a system of ideas in reference to automobile propulsion.

His new system combines gases of a distillate with compressed oxygen, in a percentage which is secret. By a mixture of the distillate vapor with the combustion-supporting air element, the inventor claims to get more force—because of complete and absolute combustion—than has ever been gained by the use of any other known substance.

He has kept his invention to himself, and will first demonstrate it in the Fatherland. He claims that the cost of operating, while being lessened 50 per cent. for equal bulks of fuel oil, would be decreased far more on account of greater service. He says there is nothing about his combination to make it dangerous.

He will return to Los Angeles in June, his friends say.

YOUNG ENGINEER'S RETURN.

Earl H. Knepper, a graduate of the Los Angeles High School and Stanford University, who has taken up mining engineering as his profession, has just returned from the Yaqui River country in Sonora, Mexico, where he was employed for the last ten months as superintendent of La Azoguria mine, one of the properties of La Bufa Mining Company, chiefly owned by the Richardson Bros. of this city. La Azoguria is situated about 180 miles southeast of Hermosillo. Mr. Knepper came out via Nacozari and traveled over two hundred miles by stage and horseback, unattended, save by one Mexican "moso." He saw no signs of hostile Indians, although passing through a large strip of country frequented by Yaquis. Mr. Knepper came out to accept a position as representative of the Ingersoll-Sergeant Drill Company, in the Southwest and Mexico, with headquarters at El Paso, Tex. After a short visit here, with his parents, Dr. and Mrs. G. Knepper, he will return to El Paso to take up his new duties.

EASTER CHURCH EVENTS.

South Park Presbyterian Church Will be Organized—Organ Dedication. Friends Church.

The new South Park Presbyterian Church will be organized with appropriate ceremonies this afternoon at 2:30 o'clock, the services being held in the evangelistic tent at the corner of Fifty-first street and South Park avenue. The sermon will be preached by Dr. Hugh K. Walker and Rev. S. T. Montgomery will report the action of presbytery, authorizing the organization of the church. The address of recognition will be made by Dr. W. S. Young, clerk of presbytery, and there will be an election and ordination of officers for the new congregation. The following ministers will also have part in the service. Rev. W. A. Jackson, Rev. R. F. McLarren and Rev. W. G. Palmer.

The new pipe organ in the German Evangelical Church, at the corner of Twelfth and Hope streets, will be dedicated with special services this evening at 7:30.

Rev. J. H. Douglass of Pasadena, in attendance at the Friends quarterly meeting, which has been in session in this city, will preach at 11 o'clock today in the Friends Church, Third street and Fremont avenue.

SCHOLARSHIP HONORS.

Stanford Students Who Have Reached the Goal of Their Highest Ambition.

Stanford Beta Chapter, of the Phi Beta Kappa scholarship fraternity, has made choice of its new members from the senior class of nearly 200 students, the election falling upon those who have been most distinguished in scholarship. The following students have been elected and will be initiated on Monday evening: Edith Anne Anthony, Bessie Bell Applegate, Paul Boehncke, Winfred Buford Chandler, Jennie Alice Comings, Helen La Baree Crandall, Cassie Aleda Davidson, Arthur McQueen Dibble, Wilbur Arthur Drake, Fred Finley Fitzgerald, Alice Jollyman, Augustine Jones, Aurora Matilda Peterson, Donald Kingsland Seibert, Harold Heber Smith, Alice Grace Stone, Phil David Swing.

LIKES THE PHILIPPINES.

Robert H. Neely of Monrovia Comes Home on a Visit and Will Take His Sister Back.

Robert H. Neely, formerly of Monrovia, but now of Pagsanjan, Laguna Province, Philippine Islands, arrived in the city Friday evening, after a thirty-day trip on the ocean. Mr. Neely is now superintendent of schools for Laguna Province and will spend a few weeks visiting his mother and other friends at Monrovia. He is so well pleased with his life in the new field that he will be accompanied on his return by his sister, Miss Gertrude Neely, who is now attending school at Berkeley, and who has secured a position as teacher under her brother. They will go to the Philippines within the next few weeks.

·OPP·MERCANTILE PLACE

Our Formal Opening yesterday in our new store of four floors was attended by the largest gathering of people that an exhibition presented by a first-class Desk House could possibly attract. We had assembled the very finest lines of superior Furniture for the office, church, school, theater and home.

We appreciate the interest shown at our opening. It was a demonstration bearing out our contention that an exclusive desk house is the only place to buy a desk.

Our growing list of patrons has demanded of us everything that necessity and convenience suggest, and we never slacken in our efforts to give the best at the very smallest profit.

School trustees will find it extremely advantageous to confer with us on the matter of fitting up their schools.

We carry everything for the church and the lodgeroom as well as theater furnishings.

KILLS HIMSELF AT SUPPER.

DESPONDENT MAN ENDS LIFE IN SAN BERNARDINO.

Former Sant Fe Conductor, Victim of Accident and Suffering from Consumption, Fires Fatal Shot in Presence of His Family—One of Oldest Families Involved in Suit.

[BY DIRECT WIRE TO THE TIMES.]

SAN BERNARDINO, April 22.—[Exclusive Dispatch.] David Montgomery, aged 29, a former Santa Fé conductor while despondent over ill health fatally shot himself tonight.

About two years ago Montgomery was injured in a railroad accident which made necessary the amputation of both legs. Added to this misfortune he developed consumption and had for weeks brooded over his condition.

Tonight while seated with his family in the dining-room he suddenly drew the revolver from his pocket. Placing the weapon against his chest he fired, the bullet passing entirely through his body.

Death followed soon.

OLD FAMILY INVOLVED.

Alexander S. Keir yesterday commenced action against his uncle, Alexander Keir, to recover $1100 alleged to be due him, according to a stipulated clause in his grandfather's will, which directs the defendant to pay the sum stated to the plaintiff after the death of the grandfather's wife.

Mrs. Keir died last year, and only recently her will was admitted to probate. The plaintiff at that time made demand upon his uncle for the payment of the sum, but the latter refused, and now the plaintiff asks the court to declare the amount a lein upon the defendant's share in the estate. The action involves one of the oldest families in this section.

VERY VIOLENT.

W. J. Kennedy, of Upland, was taken to the asylum at Patton yeterday under commitment from Judge B. F. Bledsoe, having been adjudged insane. Recently Kennedy was removed to the County Hospital from the County Jail, where he was serving ten days for disturbing the peace. He wrecked two beds in the green ward, tore the plaster from the walls, and hammered an attendant over the head with a club.

CONDUCTOR FIGHTS HOBO.

Conductor John Cadd of the Traction line, had a hand-to-hand fight with a hobo whom he tried to put off his car for refusing to pay fare last night. The men rolled from the car, which continued for several blocks before Cadd was missed. The hobo escaped. The fight occurred at the junction of Third and Mt. Vernon streets.

WORD OF GRAPE PEST.

Horticultural Commissioner Pease has received word from the Department of Agriculture at Washington, concerning the appearance of a new grape pest in the vineyards at Cucamonga. The department does not believe the pest destructive to vines, but contends it is a species of beetle which preys upon decomposing vegetable matter. This view is contradicted by the vineyardsists. The commisioner has also received word of the appearance of another new pest among the vineyards at Imperial and also a third new pest among the vineyards of Sonoma county, where immense loss has already been sustained. The Sonoma pest is a climbing cut worm which works at night and seeks concealment during the day.

SAN BERDOO BRIEFS.

Sheriff Ralphs arrived this morning, having in custody W. C. Morton, charged with swindling an Upland man of $150 in a mining deal. Morton is a physical and mental wreck, having for the past two weeks squandered over $200 for liquor. He will be examined by a lunacy commission unless he show improvement in his mental condition.

City Marshal Shay today served notices on all the messenger and telegraph offices prohibiting them from sending boys under 18 years of age to saloons, gambling houses, and houses of ill repute on errands of any nature. The new law forbids this and makes a violation a misdemeanor.

WOULD STOP LOT SWINDLE.

RIVERSIDE COMMERCIAL BODY TO TAKE ACTION.

Land of Little Value Offered Under Conditions Which Arouse Suspicions and Cause the Chamber of Commerce to Take Matter Up—Old Eyesore to be Remodeled.

RIVERSIDE, April 22.—Advertising matter from a ticket agency has reached this city concerning a Riverside town-lot scheme. The lots advertised are located about seven miles from town in the hills lying between Casa Blanca and Perris. There is no way of getting water on the tract, which comprises 320 acres, owned by Dr. Roth. The land is not worth to exceed $10, and is valueless for all purposes except grain growing, and much of it is too rough for that.

The Riverside Chamber of Commerce has taken the matter up and will use its good offices to prevent people being swindled. The lots are offered at $5 each; as lots they are practically valueless. The owner has engaged 3000 certificates from the Riverside Trust Company and evidently expects to reap a rich harvest from the gullible. The lots are inside the corporate limits of Riverside, but are three miles from any settled section.

A similar town-lot scheme was worked about five years ago, when town lots at Palm Springs were sold to a large number of gullible ones.

RIVERSIDE BRIEFS.

Funeral services were held this morning over the remains of D. C. Andrade, who committed suicide two weeks ago. Contrary to the written request of the deceased, a simple religious service was conducted by Rev. E. J. Inwood of the First Methodist Church.

Aside from the regular Easter-morning observances at the churches, the Knights Templars will hold their services in commemoration of the day at the First Methodist Church Sunday afternoon, when Rev. E. J. Inwood will deliver the address. The San Bernardino Commandery will come over by special train to join in the services.

The young people of Sherman Institute have arranged a pretty Easter programme, which will be given in the Auditorium Sunday evening.

An old landmark which has been a public eyesore for years, the old County Hospital building facing the Santa Fé depot, is at last to be remodeled and put into presentable shape. G. W. Bittenger has purchased the property and will transform the building into a modern rooming-house. The grounds also will be made attractive. The property was purchased of Charles Harwood of Upland for a stated consideration of $10,000.

Two more thefts have been reported to the police, that of a Columbia bicycle belonging to a Japanese boy, and a fountain pen taken from the study of Rev. Alex. Eakin of the Calvary Presbyterian Church. Entrance to Mr. Eakin's study was made from the church, where a window was found open and the study door was badly damaged in forcing. Drawers were ransacked, but nothing has been missed but a fountain pen.

Ernest Rea and Miss Ruth Kimball, teachers in the Riverside schools, have been granted Phi Delta Kappa honors from the university at Stanford, of which they are graduates.

A marriage license was issued this afternoon to Valentine Krautz, aged 60, and Mollie Krautz, aged 56; both residents of Los Angeles.

Riverside High School was defeated in the Interscholastic League baseball game played at Colton this afternoon. The score was: Colton, 5; Riverside, 1.

Sherman Institute defeated Riverside Business College this afternoon at baseball by a score of 13 to 5.

CORONA.

PERIL IN RUNAWAY.

CORONA, April 22.—Mr. and Mrs. Norman Raney and Miss Clara Van Dyne had a narrow escape from a serious accident while riding near the Raney home on Belle street this morning.

The harness became disarranged, causing the horse to kick and run. Raney leaned over the dashboard to adjust the harness, and was thrown forward, hanging by the lines. Mrs. Raney was pitched over the dashboard to the ground, and at the same time Miss Van Dyne leaped from the reeling vehicle.

Raney then fell under the carriage, barely escaping the horse's heels, the wheels passing over his legs, but he was soon up and after the frigthened animal, which, becoming tangled in the lines, was thrown.

The occupants all escaped, but with severe bruises.

CORONA NEWS CURVES.

The Temescal Water Company has started two pumps at Temescal, and 400 inches of water, 235 of which is a gravity flow, is being delivered to the colony, irrigation having started on some ranches.

A carload of extra fancy St. Michael oranges was shipped yesterday from the Bixby groves at Temescal.

PERRIS.

LOCAL DEBATERS VICTORIOUS.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

PERRIS, April 22.—Perris Union High School won a victory over Corona High School in the debate here last night. Great interest was attached to the contest, as Perris and Corona were the two leading teams in the league. A special trainload of 125 Corona people was present. Much enthusiasm prevailed. Perris citizens served a free supper to 500 people. Prof. A. O. Burke and J. C. Ray presided. Perris was represented by Paul W. Brown and Albert Trujilla; Corona by George Drinkwater and Charles Masten. The judges were Gen. F. C. Prescott of Redlands, Hon. Miguel Estudillo of Riverside and Hon. C. C. Haskell of San Bernardino.

LITTLE FALL MAY BE FATAL.

WOMAN SERIOUSLY INJURED IN SANTA ANA.

City Marshal and President of the Board of Trustees Call at the Various Places Popularly Understood to Have Been Selling Liquor and Give Warning—Brisk Revival.

[BY DIRECT WIRE TO THE TIMES.]

SANTA ANA, April 22.—[Exclusive Dispatch.] Mrs. L. O. Breeden, wife of the local agent of the Southern Pacific, fell on the front steps at her home on Spurgeon street at noon today and sustained injuries that may prove fatal. Mrs. Breeden has been ill and it is supposed she fainted.

During most of the afternoon she has been unconscious and her condition tonight is regarded as extremely critical. Drs. Medlock and Willella Waffle have been with the injured woman all afternoon.

"BLIND PIG" MEN WARNED.

An ultimatum was delivered to keepers of "blind pigs" today. In company with Marshal Maxwell, George A. Edgar, chairman of the City Trustees, and John Cubbon, representative of the First Ward, both elected at the recent election, visited restaurants, drugstores and other places where liquor is popularly known to be sold in violation of the prohibitory ordinance and warned the proprietors that henceforth the law would be enforced to the letter and that there will be no further temporizing. At a few of the places where the proprietors were absent another visit will be paid Monday.

The committee met with a good-natured reception at all of the places visited and in every instance the promise was given to conform with the law.

Chairman Edgar of the Board of Trustees, made the following statement of the case this afternoon: "Our visit today was in the nature of a warning to places which are known to have been disposing of liquors illegally. The new board is determined to enforce the law and we will make the town as dry as the ordinance contemplates. Next Monday evening an amendment to the present ordinance will be introduced requiring physicians to make affidavits with every prescription for liquor, stating that the patient needs the liquor for medicinal purposes.

"This will be done to protect the physicians, who are now called upon to give prescriptions without discrimination. The drug stores will also be required to keep the prescriptions on file subject to examination by any authorized official. We anticipate a hearty compliance with the new rule. No opposition was met with today and in one case where several barrels of beer had been received from Los Angeles yesterday the promise was made to send it back tomorrow."

REVIVAL FIRES WARM.

It is estimated that between two and three thousand people were at the big tent last night for the revival meeting conducted there by Rev. E. J. Bulgin. The feature of the evening was the testimony of Judge J. S. Noyes of Riverside and C. R. Campbell of Tustin, both of whom had been converted at meetings held by the evangelist in Riverside and San Bernardino. Services will be held tomorrow afternoon and evening and continue throughout the week. It is planned to have a special train run down from Riverside some evening in the week to bring converts of former meetings to testify here.

Coronado Tent City opens June 21st.

ANAHEIM.

WATER IMPROVEMENTS.

ANAHEIM, April 22.—No meeting of stockholders of the Anaheim Union Water Company was held here today for lack of a quorum, only 2889 shares of stock being represented out of the total stock of 8005, the necessary number required to hold a meeting being 4005. The election was called to vote on the matter of increasing the bonded indebtedness from about $100,000 to $300,000.

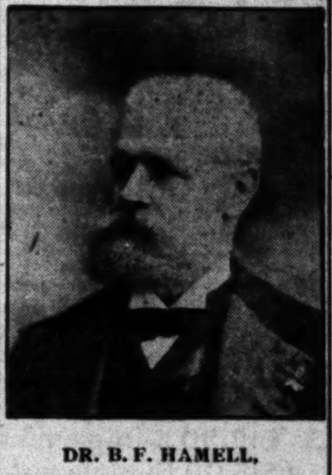
After it was ascertained that no business could be transacted officially, the matter of storing more water so that the Anaheim district could irrigate with day water instead of at night, was discussed. It was declared the sense of the meeting that the company should increase the capacity of the Tuffree reservoir or build another one, so that Anaheim could be supplied with water during the day instead of at night. It is thought that the expense will not be over $20,000 or $25,000.

June 21st Coronado Tent City opens.

A CELEBRATED COLLECTION OF RARE PERSIAN RUGS

Next Wednesday rug lovers of Los Angeles will enjoy a great treat when Mr. M. B. Mihran of Constantinople will exhibit one of the most celebrated collections of Persian antique rare rugs especially imported for Los Angeles. There are rugs in this collection which are the works of ancient noted artisans and which will arouse the envy of connoisseurs. A visit to this exhibit next Wednesday, April 26, to be held at 412 S. Spring street, opposite the Angelus, will prove a trip to mediavel Persia.

Where Can I Find A Cure For My Disease?



DR. B. F. HAMELL,
Chief of Staff Zaro Medical Institute.

An answer to an important question that thousands are asking themselves. Have you ever consulted DR. HAMELL? Have you ever tried his skill? Entrust your case to him and you will be cured. If you cannot call on him write him a letter.

There is no occupation so contradictory as the profession of medicine. How often one hears of a person whose case has been pronounced hopeless by doctor after doctor, and who has nevertheless finally ben cure! It happens often and yet some people doubt there is a cure for them.

The secret is to find the right doctor who has the right cure—the cure that will reach your disease. Hundreds who are suffering today would be cured and happy but for an absurd notion that they must not go to an "advertising doctor." Now the truth is that these very "advertising doctors" are responsible for some of the foremost advances in medicine—discoveries and patents that have made many diseases possible to cure that at one time were really incurable.

Foremost among those who have advanced the profession in America is the celebrated Dr. B. F. Hamell whose announcements have appeared regularly in the newspapers of the State for a generation or more. His skill is unquestioned. It represents forty years of continuous experience and a practice that is among the very largest in the United States. It is for this very reason that he is so successful in curing stubborn diseases after many doctors have given them up, because he treats many every day and has opportunities to see the different forms of the disease that the average doctor never has. The fact that he cures where others fail is proven by numerous files of endorsements that anyone visiting him is at liberty to inspect—letters from cured patients who have given him permission to use their endorsements publicly.

CONSULT DR. HAMELL NOW.

No matter what disease you suffer from, how long you have suffered or how long you have been told that you are incurable, give Dr. Hamell a chance to show what he can do for you. In rheumatism, kidney trouble, stomach trouble, bladder disease, skin disease, female complaints, dropsy, blood poisoning, varicocele, stricture, nervous debility, catarrh—consult him, hear what he has to say. He does not charge you for consulting you, nor for counseling or advising you, and he is always fair, painstaking and courteous. The least you can do in justice to your own self is to get his opinion of your case, and this is going to cost you nothing, you should certainly avail yourself of it. Do so at the earliest possible moment.

WRITE, IF YOU CANNOT CALL.

No Charge for Examination

No matter what form of trouble you suffer from, whether men have say you are incurable, make it your duty to call on Dr. Hamell for free examination. He will tell you much that will be of value to you, and there will be no charge for it.

OCEAN PARK, April 22.—Contracts have been let for the repairs to the Hollister-avenue pier and also for its completion as originally planned. The recent high tides tore away a part of the structure and this is to be replaced at once by George W. Atkins. The other contract has been let to John Rebman, who promises to have everything completed by July 1. The plans contemplated the building of an elaborate pavilion at the entrance to the pier, which will be a double-decked affair with ornamental arches, booths for amusement and refreshment, cafés, restaurants, dance hall, theater and roof garden. There will be one hundred and thirty dressing rooms for surf bathing and several dozen porcelain tubs for private baths.

At the pier's ocean end a sixty-foot tower will be built. This will serve as an observation tower and will contain a band stand. The electric illumination of the pier and tower will be a feature of the beach.

POMONA.

MAMMY'S LOST CHILD.

POMONA, April 22.—Mrs. Malinda Brown, a colored woman, started on foot to follow a train to Los Angeles this morning because it had on board her seven-year-old grandchild. She had put the child aboard and had started to purchase tickets, when the train pulled out, the brakeman making no effort to help her, although he knew the circumstances. Being unaccustomed to traveling, she lost her head and started after the fleeing cars and her little helpless, ticketless grandchild. She was stopped after she had gone about half a mile, and was persuaded to wait for the next train. In the meantime a telegram was sent to the Arcade depot in Los Angeles telling the authorities to care for the child till called for by her colored mammy.

LIQUOR SELLS HIGH.

Booze of various classes and brands was sold here at auction this morning and brought higher prices than it could have been purchased for in Los Angeles. The occasion was a Sheriff's sale of the goods from Hotel Palomares, the managers of which failed, in spite of their hotel liquor license, to meet their debts. The big hotel is still closed.

WHITTIER.

VEGETABLE MEN ORGANIZE.

WHITTIER, April 22.—Last evening the vegetable growers of La Habra valley met and formed an organization to enable them to more profitably and economically handle their crops. The acreage represented was more than 600, and the men composing the new union are quite enthusiastic over it.

La Habra valley has for some time been quite a factor in the vegetable market, the crops from this section being exceptionally good both as regards quantity and quality. Among the gentlemen to whose efforts is credited the successful completion of the organization are: W. H. Landreth, W. S. Calderwood, C. E. Calderwood, O. N. Hudson, S. O. Gibbs and Victor Bangle.

WHITTIER SLOPE BRIEFS.

The rains of this season have come just right to produce a luxuriant growth of wild vegetation. The wild mustard, which grows in profusion on the gentler slopes of the foothills, is an example of this. A stalk of this measuring 10 feet and 9 inches in height is on exhibition at the office of the Daily News.

The Los Angeles Congregational Association will meet on Monday and Tuesday of this week at Plymouth Congregational Church in this city.

Hon. Oliver W. Stewart of Chicago will speak in the Friends' Church at 3 p

SEASIDE MAYOR TALKS "BUY."

STRONG FOR MUNICIPAL WATER AT LONG BEACH.

Reported to Have Secured Option on Property of Alamitos Company Now Serving the District East of Town—Five-story Building in Prospect for Trust Concern.

LONG BEACH, April 22.—The question of municipal ownership of water has bobbed up again and the advocates are busy formulating plans for acquiring a plant in anticipation of an easy victory when an election is called.

Mayor Eno, who is leading the movement, has secured, it is said an option on the plant of the Alamitos water company, which at present supplies all the territory east of the city limits. He has estimates of the cost of laying the necessary supply pipes and mains ranging from fourteen to six inch at $80,000 and with a gravity pressure of sixty pounds this would furnish an adequate fire pressure with a steam engine in reserve for disastrous blazes.

The Mayor refuses to consider the purchase of the Long Beach water company plant because of the alleged faulty pipe. He also thinks that the Alamitos water company's engines could be utilized in supplying the city with electric lights. The proposition will probably take definite form before the City Trustees on Monday.

SEASHORE BREEZES.

The banking and trust company which recently purchased the Almind block on the northeast corner of First and Pine streets for $4000 has plans matured for raising the building now standing and erecting a five-story modern pressed brick building with elevator and all modern devices. The lower floor is to be occupied by the trust company's offices. The lot is 50x150 feet and the building is to occupy all of that space.

Monday will be a busy day with the City Trustees. Bids will be opened for the recently voted issue of $30,000 worth of fire protection bonds and also for the construction of the new convention hall or auditorium to replace the structure destroyed by fire last January.

An army of workmen is busy on the beach preparing for the regular season's opening on May Day. The bathhouse is being repainted, and so are the concession booths on "The Pike." Swings and teeters are being repaired and the horses and chariots of the merry-go-round are getting a fresh coat of gilt. At the west end of the bath-house property a big pavilion is being erected for the convenience of the public.

A congregation of United Presbyterians will be organized in Long Beach, Tuesday night under the direction of a committee composed of Rev. M. M. Kilpatrick of Santa Ana, Rev. W. W. Logan of Los Angeles and Elders James McFadden, George Hill, S. S. Wallace and J. W. Hawk. The new church will start out with a good congregation.

The colony of pelicans which makes its home about the pier grows daily and now numbers ten. They are very tame and are fed regularly by the fishermen. Of late fish have been scarce and live rats are thrown to them and seem to be a dainty morsel for the birds.

On Monday evening the Ladies Auxiliary will entertain the local camp of Sons of Veterans with a tamale supper.

SANTA MONICA.

SCHOOL-BOND OPPOSITION.

SANTA MONICA, April 22.—Some opposition to bonding the school district for the erection of a $30,000 school building just without the city limits on the east is developing. The expressed fear is that after the schoolhouse is built the territory surrounding it might ask to be set aside as a separate school district, thus fastening the bonds upon Santa Monica while the benefits would accrue to foreign territory. It is argued that the problem would reach speedy solution by annexing the eastern suburbs to the city proper.

SEASIDE WHIFFS.

Guillermo Andrade, Mexicon Consul, is at the Trcadia with his family for a season.

While playing in a barn today Albert, the eight-year-old son of Constable Stephen Jackson, had the misfortune to fall and break his arm in two places.

Mr. and Mrs. E. S. Stewart, Battle Creek, Mich.; Mr. and Mrs. Albert Sechrist, Mr. and Mrs. H. C. Babcock, Denver; Mrs. F. G. Newell, Rochester, N. Y.; S. E. Harris, Denver; Mrs. H. L. Upton and Mrs. L. L. Williams, Rochester, N. Y., are at the Arcadia.

HYDE PARK.

OVER HUNDRED CHILDREN.

HYDE PARK, April 22.—Mrs. F. U. Norton has completed taking the school census and reports that there are over 100 children in this town, a considerable gain over last year.

The hay crop is unusually heavy this year, but some of the grain is now in need of a copious rain to make a good yield.

COVINA.

FRUIT MANAGER RESIGNS.

COVINA, April 22.—H. E. Chesebro, for the past ten years manager and secretary of the Covina Fruit Exchange, has announced his resignation, which will be placed in the hands of the board of directors prior to May 1. Mr. Chesebro is going into business in Los Angeles. It is reported that L. L. Ratekin, manager of the Covina Orange Growers' Association; G. N. Atwood, manager of the Covina High Lands Citrus Union, and F. D. McCord, present book-keeper of the exchange, are aspirants for the position made vacant by the resignation of Mr. Chesebro.

It is semi-officially announced that Justice C. F. Parker intends to tender to the Board of Supervisors his resignation as justice of the peace of Rowland Township to take effect on Monday next. Charles E. Crawford, secretary for the Houser Bros.' Fruit Company, is being indorsed for the office, his petition containing more than a majority of all the voters of the township, besides being approved by the Republican organization.

CLAREMONT.

WELLESLEY CLUB AFFAIR.

CLAREMONT, April 22.—The Wellesley College Club of Southern California was entertained today at Claremont by Mrs. S. M. Kinney, Mrs. A. H. Smith and Miss Marian Kinney. A delightful feature of the day's programme was the luncheon under the oaks east of the college campus.

Among those present from out of town were: Mrs. Francis Maclaughlin, Misses Bertha Lebus, Jennie Teyo, Laura Hussey of Los Angeles; Mrs. Mary Conan, Pasadena; Aurelia Harwood, Ontario; Isabelle Fitz, New Hampshire; Ann McCord, Pittsburgh, Pa.; Jane Lennox, Chicago; Ruth Lyon, Redlands, and Elizabeth Colman, Arlington, Mass.

INGLEWOOD.

HIGH-SCHOOL SITE ELECTION.

INGLEWOOD, April 22.—The election to decide upon a location for the proposed new High School will take place in the four towns of Inglewood, Hyde Park, Wiseburn and Ladow on Tuesday, May 2.

Mrs. J. P. Biggs, who died of paralysis Thursday, was aged 68 years and was a native of Schuyler county, Ill. She leaves a widower, two brothers and two adopted children.

A little daughter of Mr. and Mrs. Andrew Bennett is suffering from a broken arm as a result of riding a fractious mule.

Rev. Thomas J. Stevenson, pastor of the Presbyterian Church, will leave soon for a trip East.

CATALINA ISLAND.

VISIT OF WOODMEN.

AVALON, April 22.—Five hundred passengers came over from the mainland today, a large proportion being Woodmen from the various Western States.

John H. Foley of Los Angeles appears to be the man most active in steering the visitors about the places of interest. Many of the party will stay over for the return trip of the steamer Cabrillo this evening, as arrangements have been made for a special on the Salt Lake road to connect with that boat.

MONROVIA.

POISONER'S TRAIL HOT.

MONROVIA, April 22.—With the poisoning of J. A. Baxter's valuable dog last night the identity of the man guilty of these outrages is believed to have been discovered and the City Marshal is on the watch for him. A few moments before the dog was found dead a stranger sitting in the stable entrance threw the dog a button, and, when indignation about the poisoning began to stir the men to threats of vengeance, the man slipped away, and has not since been seen in the neighborhood.

He is the same one whom Wednesday evening the Marshal escorted to the western borders of his city. He could give no clear account of himself, but declared he wanted to go to Los Angeles, and was hurried in that direction. Tuesday evening the first dog, one valued at $100 by his owner, D. G. Thomas, was found dead. Since then the list has grown, and none of the useless curs that hang about the town have gotten the deadly dose, which gives the poisoning the appearance of design.

There is an agitation to provide a night watchman for the city, as many believe that this work is done by a gang of burglars who could thus clear from their path the only guardians of property who are at attention from 10 o'clock till daylight. The suspected man has the appearance of a tramp. He is short, heavy set, and has a sandy complexion, and is about 5 feet 4 inches in height.

Six o'clock closing. Allen H. Nye and the Monrovia Hardware Co. will close their stores at 6 p.m., excepting Saturday, beginning Monday, May 1.

New store, hatters and men's furnishers. McCament & Co., Monrovia.

SAN PEDRO.

INTERCITY COURTESIES.

SAN PEDRO, April 22.—The Cosmopolitan Whist Club of Long Beach came over last night in the launch Fashion, and crossed swords with the San Pedro Whist Club. Sixty duplicate whist boards were played, and after two hours of interesting contest, it was found when the hostilities ceased that the visitors had been taken into the local camp by a score of 26 to 14 boards, or 39 to 19 points in favor of San Pedro.

Following the play a banquet was tendered the visiting club at the Oxford, where covers were laid for twenty. Those present were Messrs. W. Miller, Poe, F. Osborn, Gene Wilson, C. N. Brown, Clarence Adams, Willard, T. P. Brown and Jackson of Long Beach, and Messrs. Dr. W. A. Weldon, R. D. Richards, Luke Kelly, John Bjorkman, V. A. Goodrich, Martin Eckenburg, Joseph Walton, Franz Whitman, Hans Carlson, S. Storer and Ed D. Bautzer of San Pedro.

Dr. W. A. Weldon acted as toastmaster and, responding to the toast, "San Pedro and Long Beach." J. A. Miller, editor of the Long Beach Press, expresses a hope that the two cities would become closer allied in a commercial and a social way since the growth of one meant the growth of the other, and their interests in no way were in conflict. This sentiment was heartily applauded.

Bright's Disease and Diabetes News.

San Francisco, April 16.

To the people of Southern California.

As San Francisco druggists acquainted with the facts, we are asked to certify to you the curability of chronic Bright's Disease and Diabetes, and however unreasonable it may seem, yet such is the fact. Up to a year ago we never heard of a genuine case of chronic Bright's disease or Diabetes recovering. Now it is a common occurrence in this city. A great discovery has undoubtedly been made. Many prominent people here have recovered. And the percentage of efficiency seems to be very high, for there are very few failures.

ZARO

THE TWENTIETH CENTURY WONDER

People Flocking From All Parts of the Country to See This Remarkable Man and Go Away Satisfied.

More Evidence Pouring in Daily Proving His Wonderful Power Over Disease.

Only Five Days Remain in Which to Take Advantage of Zaro's Magnanimous Offer for Free Treatment.

Never in the memory of the oldest resident of Los Angeles has there been so much excitement or such a sensation created by any man as has been during the last few weeks by Zaro—so much has been written and said about this wonderful man that to those living out of the city it reads like a romance, so wonderful have been many of his cures that they seem almost miraculous. The lame have been made to walk, the deaf to hear, and the weak, nervous dyspeptic and paralytic have been cured in a most remarkable manner.

All diseases and deformities treated, but in no instance will an incurable case be taken for treatment. If your case is incurable you will be frankly told so. Also cautioned against spending more money for useless treatment.

The object of this course is to become rapidly and personally acquainted with the sick and afflicted. Remember dates and go early, as the offices will be crowded from morning till night during the last days of free service.

WARNING NOTICE.

Those desiring to take advantage of Zaro's offer for free treatment to a cure must do so on or before May 1st. Under no circumstances will there be any extension or renewal of this offer. As a concession to the great multitudes that applied at the last hour of the first offer, a renewal was made for ten days, but whatever the number the belated and disappointed may be at the final hour, there will be no renewal of this offer. All who call on or before May 1st will be treated free till cured. No cost except for medicines and means necessary to perform a cure.

INSURE YOUR INVESTMENTS.

TONOPAH, GOLDFIELD,
BULLFROG.

The Mining-Trust Company will take equal risks with you in any mine in Tonopah, Goldfield, Bullfrog or elsewhere that is satisfactory to it. You insure against fire, accident and loss of life, why not insure your investments in mines with a Company understanding the value of mines?

The Mining-Trust Company will insure investors against loss by Bonds secured by Real Estate, Railroad and other securities, subject to examination and approval by the investor.

PROVIDED:

1. That investor will authorize The Mining-Trust Company to invest for him his money in shares of a Company in Tonopah, Goldfields, Bullfrog or elsewhere, satisfactory to The Mining-Trust Company and the investor; said shares to be controlled by The Mining-Trust Company to protect the investor and itself for two years' time, the profits to be equally divided between The Mining-Trust Company and the investor.

2. At the expiration of two years, the investor knows the value of his investment and can surrender his stock and take the Bond; or surrender the Bond and take the stock. The Mining-Trust Company will then lend one-half the face value on the Bond.

3. At maturity of Bond, the whole sum invested is paid to the investor, or in case of his death double the sum of money invested will be paid to his heirs or assigns upon surrender of the stock.

4. The Mining-Trust Company will accept the Bond at par as payments on real estate of the Company, or other real estate which the investor may purchase through The Mining-Trust Company upon surrender of the stock which it secures.

5. The Mining-Trust Company will exchange the Bond for Trust Deed Certificates bearing 6 per cent. interest per annum, payable semi-annually, secured by Real Estate, subject to examination, condition and approval of the investor.

Bidding was quite active on the Los Angeles Stock Exchange yesterday, and widely distributed, the oil stocks being, however, the feature. The transactions were extremely light, but no sales were made of Associated, the stock closing fractionally stronger. Continental made an upward movement, closing at 24¾@24⅞. Fullerton and Reed Crude each gained a point. Union was stronger; 60 shares changing hands at 80 to 81, closing 80½@81½. United Petroleum responded with a gain of 6 points, 55 shares selling at 126, closing at the same figure, without further offerings.

Some inquiry was made for bank stock, one Commercial National and State Bank and Trust strengthened their position.

Associated bonds gained fractionally, and Home Telephone advanced a point; Pacific Electric Railways advanced fractionally, and Union Transportations hardened in the buyer's opinion.

Edison Electric preferred advanced a point, but Home Telephone stock declined fractionally, and strengthened in the buyer's terms.

A broker made a street sale of 10 Home Telephone bonds at 92¾, which is an unusually good figure and may be accepted as a criterion of value.

THE MONEY MARKET—Money was easy all week, and in active demand, with no change in the rates.

WEEK'S PRODUCE RECEIPTS—The produce received for the week ending Friday, as reported by the Produce Exchange, was as follows: Eggs, 2987 cases; butter, 188,326 pounds; cheese, 9845 pounds; Irish potatoes, 3296 sacks; sweet potatoes, none; onions, 308 sacks; beans, 1294 sacks.

THEY SELL OUT—McCullough Bros. & Bellows, handlers of poultry, butter, eggs and oysters, in the produce market, have sold out to Allaway & Layton, formerly of St. Louis, Mo.

The two McCullough boys, F. S. and Charles, and F. D. Bellows began business together two years ago. They worked incessantly, and with good business heads. They succeeded in building up an excellent business. They have earned a rest, and intend spending a month in the Kern River region hunting and fishing. After their vacation the McCullough brothers will join their father in business in San Francisco, trading under the title of the McCullough Provision Co. Mr. Bellows has not yet decided what he will do.

Their successors are J. W. Allaway and W. Pratte Layton. They learned the business in St. Louis, and are said to have ample capital.

FRUIT CROP PROSPECTS—Royal Anne cherries are reported to be less than half a crop, but black cherries are plentiful. Suisun Valley advices state that Tartarians are only half a crop there, Royal Anne crop being almost a failure. There is, however, a good crop of apricots. New apricots are held on a basis of 7 cents for July delivery. The stock of all grades in the State does not exceed five cars.

Pears are abundant in Sacramento Valley, and will be used largely for eastern shipments for canning. Elsewhere the crop is short.

The Davisville almond crop is 100 tons short; full crop elsewhere except Capay Valley, which is a failure.

The asparagus pack is estimated at 240,000 cases. The recent blight has caused some injury to peach orchards in Fresno county. The Southern California lemon crop is the heaviest ever known. Sacramento Valley cherries are maturing rapidly.

FRUIT CANNERS. The report submitted at the annual meeting of the California Fruit Canners' Association at San Francisco sowed satisfactory earnings on the past year. The inventory indicated a normal carry-over of canned goods surplus. The dividends during the year amounted to $208,000 on capital stock of $2,800,000.

DAILY REPORT OF ORANGE MARKET.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, April 22.—[Exclusive Dispatch.] One hundred and eighty cars of California oranges were sold at auction this week, as compared with 178 cars last week. The general average on navels, including all sales was $2.68, and the range was from $4.05 @$1.35. For the most part the market was strong and active, though toward the close prices on large sizes declined a shade under pressure of increasing supplies. There was moderately active bidding on substantially all desirable fruit throughout the week. Some selected fancy navels sold at $4.05, a high price at auction, considering the heavy influx of the past two weeks, 358 cars, and more or less unfavorable weather. At the close the auction market was steady on large navels, at a decline, but for small and medium sizes, which are scarce and wanted, the market was strong and prices tended upward. Nearly everything is arriving under ice now, and practically all fruit is in excellent condition.

The wholesale trade from store has remained active at firm prices throughout the week. So much of the fruit arrived in good condition that not much repacking was necessary, consequently the expenses of distribution were materially reduced. Store prices at the close were: Fancy navels, $3.50@$2.75; choice, $2.75@$2.00; standard, $1.80@$1.65. Retailers have done a good business. The temperature has averaged low and the trade has suffered somewhat on that account; for the most part, however, retail business has been good and prices have been well maintained.

Lemons were a shade better all the week influenced by bright weather. Heavy supplies at all ports tended to hold prices down. Retail distribution was fairly active, but so far has not reached expected proportions. Repacking is expensive, and a great deal of loss is being made on all Sicily lemons. Wholesale prices at the close were: Extra choice 300s, $2.20@$2.15; fancy 360s, $2.30@$2.25; extra fancy 360s, $2.50; extra choice 300s, $2.25; fancy 300s, $2.40 @$2.35; extra fancy 300s, $2.60. Some good California grapefruit is now arriving. Auction prices are reported at $3.75@$1.82½. Florida grapefruit varies so much in quality that prices are uncertain. Wholesale quotations from store at close were: Fancy, $6.50@$4.50; choice, $3.50@$2.50; Jamaica, fancy, $3.50@$3.00; choice, $2.50@$1.65. About 325 boxes of Porto Rico oranges were sold at $1.20@.05, the inside price representing some very poor stock. Mediterranean sweets sold at $3.10@ $1.75. Thompson's Improved, $3.05@$1.70. Half boxes tangerines, $1.90@$1.70; Javar, $3.10@$1.80; bloods, $3.25@$2.15.

The first cherries of the season were offered this week. Forty-seven boxes were sold at three different auctions and prices ranged from $5.00@$1.00. A liberal quantity of Havana pineapples were sold at auction, but they exerted little or no depressing influence on the orange market.

Local Citrus Movements.

The shipments of citrus fruit Friday were 102 carloads of oranges and 2 carloads of lemons; grand total of shipments, 19,264, of which 1420 were lemons.

LOCAL PRODUCE MARKET.

Strawberries were the strong feature in the market yesterday, buyers scrambling particularly for the Tropico offerings. These amounted to 675 boxes, which were quickly absorbed by the trade at prices ranging from 7 to 10 cents, selected lots of the famous Beauty variety easily commanding 12 cents. The Monetas and Gardenas were also in active demand, and brought from 7 to 8 cents. Cherries were again in heavy demand, the 100 odd boxes arriving being quickly taken up at steady to hardening prices, the Purple Guignes jobbing at $1.50 to $1.75 for fancy in ten-pound boxes; the light colored at $1 to $1.25 and in bulk at 10 to 12½ cents. Dewberries were moving at 12 cents under increased receipts, and raspberries were steady at 30 cents. Fancy apples are scarce and the trading was somewhat better than the average, though quotably unchanged; but the common grades with which the market is still heavily stocked, dragged under concessions. A fresh shipment of cured pomegranates was expected but failed to arrive for the widening market. The handlers said they would be on hand tomorrow morning and offered to the trade at $2.25 to $2.50. Loquats were in good supply and in fair demand at 3 to 4 cents. Oranges of medium grade were in excellent demand at unchanged prices; lemons were dull and featureless, fancy seedless grapefruit moved well at steady prices and tangerines were brisk, though quotably unchanged.

Coast butter was in light supply, but Valley Creamery was in plenty. The Butter Board made no change in its price yesterday. The Egg Committee reduced the selling prices to 18 and 20 cents, which were the market.

TOMATOES—Mexicans jobbing at $3 to $3.25.

ASPARAGUS—Moving freely at 10 to 12 cents.

RHUBARB—Demand fair with increased receipts, jobbing at 75 to 85 cents.

ARTICHOKES—Active at 50 to 75 cents.

CABBAGE—Steady at 40 to 60 cents.

CELERY—Hardening at 70 to 80 cents for fancy, 30 to 50 cents for common.

LETTUCE—Extra fancy was in fairly good demand at 25 to 30 cents, 15 to 20 cents for choice.

CAULIFLOWER—Active with decreased supply, jobbing at 50 to 75 cents.

PEAS—In better demand, jobbing at 4 to 5 cents.

BEANS—About steady, with a tendency to weaken, jobbing at 8 to 9 cents.

CHILES—Steady at 15 to 20 cents.

The Produce Exchange reported receipts for April 21 as follows: Eggs, 408 cases; butter, 18,473 pounds; cheese, 2055 pounds; Irish potatoes, 1029 sacks; sweet potatoes, none; beans, none; onions, none.

FISH—Receipts generally very light and market strong.

POULTRY—Offerngs of live stock only fair, prices unchanged.

Following are the jobing prices in the Los Angeles market:

GENERAL EASTERN MARKETS.

GRAIN AND PRODUCE.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, April 22.—Wheat for May delivery sold here today at 99½ a bushel, a sheer decline of 11½ from the closing quotations on Thursday, the last previous session of the Board of Trade. Excitement seldom paralleled accompanied the sensational slump. The cause of the break was an apparent abandonment of the supposed gigantic effort of John W. Gates and other Wall street traders to corner the trade in May wheat. Today, as on Thursday, millions of bushels of May wheat were thrown on the market. As a result the price of the May option started downward instantly when the gong sounded for the beginning of business. The wild downward plunge continued throughout the day, with the exception of one or two slight rallies. During the last moments of trading one of the few upturns occurred and the final figure was $1 a bushel. Under active support from Armour & Company, the July option in wheat experienced only a small loss, the net decline for the day being ⅝. Corn, oats and provisions were wholly undisturbed by the flurry, closing prices today being practically identical with the latest quotations of Thursday.

It seemed to most traders to be evident from the start that the Gates coterie had withdrawn support from May wheat. Opening quotations on May were off 1 to 2 cents at 1.08 to 1.09. July was a shade lower to ¼@⅜ higher at 87⅜ to 87⅝. Within five minutes May had sold down to 1.07. From all sides May wheat was offered for sale, but the only buyers appeared to be traders with special lines to cover. Houses that have heretofore been presumably operating for the so-called Wall street crowd, were heavy sellers today from the outset, and as trading progressed the offerings from such quarters increased in volume. At the same time the July option was in active demand for Armour. This condition of affairs was coincident with a report that representatives of Gates and Armour at a secret meeting had made a joint agreement to liquidate May holdings and switch into the July option, thus forming a basis for a deal in July wheat by means of which any possible loss from the attempted "squeeze" in May might be offset. With startling rapidity the price of May kept tumbling headlong, giving hardly so much as breathing time to the traders who had been caught on the wrong side of the market.

Scenes in the pit were among the wildest ever witnessed on the floor, traders shouting themselves frantic in an effort to make or break prices. The lowest point of the day was reached a few minutes before the close, the price touching 98½, a clean drop of 11½ cents from Thursday's final quotations. The clang of the bell for the close of business, however, caught the market at the traditionally magic ideal, $1 a bushel. While May was experiencing such a downward whirl the price of later deliveries dropped only a trifle, July selling off to 86⅝. In addition to the slump in May, predictions of rain throughout the wheat belt had a weakening influence on the July option. The close for July was firm at 86⅞@86⅞.

The extraordinary developments in the wheat pit reduced trading in the corn market to a minimum. July opened unchanged to a shade higher at 47⅝@⅞ to 47⅞, sold off to 47⅝ and closed at 47⅝.

Oats, like corn, held firm, possibly for lack of selling pressure. July opened a share higher at 29½, sold between 29⅝ and ⅜ and 29⅜@⅝, and closed at 29⅜.

An advance in the price of live hogs had a steadying effect on provisions. At the close, July pork was off a shade, lard was up a shade and ribs were unchanged.

The leading futures closed as follows:

SAN FRANCISCO MARKETS.

GRAIN, FRUIT AND PRODUCE.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, April 21.—[Exclusive Dispatch.] Fluctuations in fruits were generally within narrow confines today, the market continuing in good shape for sellers, despite heavy supplies. The feature in berries was the arrival of thirty baskets of blackberries from Glendora, Los Angeles county. The fruit was of quite attractive quality and sold readily at 20c a basket. Strawberries met with a snappy sale, and notwithstanding arrivals were the largest for the season, 473 chests, the market displayed a firmer undertone, and quick clearances of fancy lots were effected at maximum quotations. Supplies of cherries proved excessive and offerings were available at lower range of values. Receipts totaled 443 boxes. Apples met with indifferent demand. A carload of ordinary red stock from storage in Los Angeles arrived and was offered at $1.00 a box, but dragged slowly. There were no new features in oranges, the market maintaining a firm position at prevailing prices and sound selections moving off freely at full values. Eight cars are announced for Monday's auction. There was nothing new in other citrus fruits and trade was of satisfactory proportions. Australian grapes that arrived Friday were sold at 25 cents a pound. New potatoes were in light supply and under snappy demand for both local and shipping accounts, the market assumed a firmer tone, at sharply advanced prices. Onions were without further change. Green onions freely offered at from 35c to 40c a box, with few buyers. There was a lively trade in miscellaneous vegetables and general conditions favored sellers. Asparagus values were further advanced. Peas sold well at sustained prices and beans found a ready outlet, fancy lots easily bringing maximum figures. Tomatoes continued in limited supply and holders were able to secure almost any price. Eggplant and peppers sold well at quoted figures. Summer squash was offered at a wider range of values, because of the arrival of some off-grade stock. Rhubarb dragged at unsustained prices.

FAKERS
AT
GOLDFIELD and TONOPAH
Boldly Exposed
$1,000.00 OFFERED TOWARD INVESTIGATION

The April edition of the Western Investor's Review, just out, contains an article of great interest, and of most vital importance to every investor or prospective investor in Nevada stocks. This article is the result of an investigation extending over the past eight months and is worth many, many thousands of dollars to people who cannot go to Goldfield personally to investigate. It fearlessly exposes certain notorious stock grafters at Goldfield and Tonopah and their methods. Clearly shows how this bunch of fakers operate in unison, floating their own private stocks of low grade at high prices, frequently under pretense of selling treasury stock without ever permitting any money to reach the treasury, much less the property. Also shows the compact recently made by these certain fakers for the purpose of preventing the honest promoter from selling his treasury stocks at reasonable prices to develop his properties honestly.

This article will show you how you can tell the grafter from the honest promoter and honest broker.

The Magnetism of January Jone

He Draws From Nevada Her Golden Plumes by Some Unusual Power Emanating From Skill, Faith, Determination and Luck, Is Able to Make Millions for Himself and Others

NOW CENTERING ON BULLFROG WINN

In Quick Succession, Jones Has in a Year Developed the Ja From a Prospect to a Million Dollar Bonanza, Followed by the Now Famous Bullfrog Eclipse, Which Sold at 15c a Month Ago and Now Brings 48c, An Advance of 300 Per Cent. Bullfrog Winner Now 15c Expected to Repeat This Record

Just now, the question of the hour in Los Angeles is:

From whence comes the wonderful power of January Jones to draw from the bowels of mother earth in Bullfrog and Goldfield a succession of the richest mineral plums ever laid bare to a dazed and startled public?

On Jones are turned the eyes of the public and the mining world, and as he turns up one trump after another in Goldfield or Bullfrog, with a regularity that is unexampled, the Doubting Thomases seek solace in the expression, "His luck can't last," while at the same time, in their hearts, they admire and envy his indomitable energy and fortune-making enterprise.

But there is a reason for these successes. And let us predict right here, that if the rule of the past is taken as the measure of the future, then we may expect January Jones to uncover in the near future bonanzas that will outstrip all of the past ones.

$250,000 BULLFROG ECLIPSE DEAL.

Only this week the Goldfield Sun reports that capitalists, headed by T. L. Oddie, have offered January Jones $250,000 for his interest in the Bullfrog Eclipse, a company in which Mr. Jones sold shares 30 days ago at 15 cents a share.

The $250,000 offer (a quarter of a million, mind you, for Mr. Jones's personal interest,) was made on a basis of nearly 50 cents a share, which shows a net appreciation in 30 days of 35 points on each share, or, in other words, about 300 per cent. advance.

Now, suppose you had had the chance 30 days ago to buy Bullfrog Eclipse at 15 cents, would you have done so?

Possibly yes, but more likely no.

And it's just so with January's original January strike. He offered many the opportunity to come in with him on the January mine, and those who had a little nerve and faith made $10,000 on every $100 invested. Likewise those who turned the offer down are now figuring their losses.

WHY JONES SELLS STOCK.

Right here we want to make an explanation.

The fact that Mr. Jones sold an interest in the original January and also in his Bullfrog Eclipse ought to answer all critics who carpingly inquire: "Why does Jones sell any stock?" Furthermore, in reply to these let us say that Mr. Jones adopts the same methods in financing mining companies as Edward Harriman employs in financing a railroad. Jones invites the public to buy treasury shares, thereby securing the use and beenfit of large co-operative capital to be used (along with his own) in developing his mines into producers and dividend payers. In his profession as a mining promoter, he clothes his operations with dignity, conservatism and legitimacy, and under such auspices, the mining promoter is as useful in the community as any member thereof.

JONES ONE OF GOLDFIELD'S FOUNDERS.

Possibly you do not realize it, but it is nevertheless a fact that to January Jones do we owe in a large measure the founding of Goldfield and the development of its mineral resources, which promise to give Los Angeles not only millions in money for supplies, but also millions in return for conservative mining investments.

BULLFROG WINNER IS PROMISING.

Just now the shares of the Bullfrog Winner are presented to Times readers by January Jones at 15 cents a share, and we want to make a short and concise statement of our reasons for believing that this stock is as good a prospective investment as Bullfrog Eclipse, January or Kawich Gold Reed.

THREE REASONS TO BUY.

FIRST: The company has 160 acres (8 claims) in the heart of Bullfrog camp's richest producing district. These claims are within about 1000 feet of the Benny Hazeltine, a fabulously rich property. The claims lie on the trend of the Benny Hazeltine vein, contain the same ledges and outcroppings, and we know that January Jones knew that the Hazeltine ledge entered the Bullfrog Winner group or he would not have acquired 200,000 shares and put his name back of the company.

NEAR SHOSHONE AND HAZELTINE.

Second: Right near the Bullfrog Winner lays the Shoshone group, the gold mine that is the marvel of the world. Last week its owners, Malcolm McDonald and Edwards, actually refused a certified check for $100,000, offered for the privilege of leasing on the property for ten days. Just think! $10,000 a day for the privilege to lease the ground, and furthermore, the offer contained an agreement to pay 25 per cent. royalty in addition! McDonald, in refusing the offer, said there could be $50,000 a day taken out. Shoshone is shipping 50 tons a day by team to Las Vegas, 95 miles away, and so rich is the ore that the value of every wagon load would make you independent. Can't you see how Bullfrog Winner, a virtual Siamese Twin to Benny Hazeltine and a neighbor to the Shoshone, is sure to make a startling winner?

JONES WILL DEVELOP MINE.

Third: Reflect that January Jones will develop Bullfrog Winner along the lines that made the January, Eclipse, Kawich Gold Reed and other big mines, and then you'll realize what a grand chance this Bullfrog Winner presents for those who want a low priced, legitimate Bullfrog stock.

THE CITY IN BRIEF.

BREVITIES.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier; especially Sunday real estate announcements, which in order to be printed must be in the office not later than 10 o'clock Saturday nights. The printing of all real estate matter, including advertisements, in a part by itself on Sundays involves somewhat slower press work, making it essential, in order to get the paper out on time, to stop receiving real estate ads at 10 o'clock Saturday nights. Dealers will confer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible; or at least a part of it, and the balance early on Saturdays. Sunday "Want" ads will still be received by phone and over the counter until 11 o'clock Saturday nights.

Long personal practical experience which is absolutely necessary to make always perfect orderwork, is one of the reasons that the splendid work of Mrs. Kruseman, milliner, 1302 Pico, corner Rich, is in such great favor with dressy ladies, that all, who have had hats made earnestly recommend her to their friends. Perfect orderwork is of course preferable above anything else for you are sure that your hat matches your suit or gown is becoming and besides you only pay for material and work you actually get. Mrs. Kruseman gives retrimming the same careful attention. All work strictly first-class and guaranteed. Prices reasonable.

Monday is Sale Day At the Unique

MONDAY BEING THE MOST POPULAR SHOPPING DAY WITH LOS ANGELES WOMEN, WE HAVE DECIDED TO INAUGURATE A SERIES OF SALES TO BE HELD EACH MONDAY. THESE SALES WILL CONSIST OF NEW AND DESIRABLE GOODS OFFERED AT SPECIAL PRICES FOR THE ONE DAY ONLY. IT WILL MEAN A SAVING OF MONEY TO OUR CUSTOMERS AND LOTS OF BUSINESS FOR THE UNIQUE; FOR LOS ANGELES WOMEN HAVE LEARNED THAT WHEN THE UNIQUE ANNOUNCES A "SPECIAL SALE" IT IS WELL WORTHY OF THEIR ATTENTION.

Tomorrow It's a Suit Sale

NOT A SALE OF ODDS AND ENDS AND UNWANTED GOODS, BUT AN UNUSUAL OFFERING OF SMART, UP-TO-DATE SUITS JUST AT THE TIME THEY'LL DO YOU THE MOST GOOD AND AT PRICES THAT CAN'T BE MATCHED ANYWHERE IN SOUTHERN CALIFORNIA.

LOT 1 consists of new Spring models in both cloth and silk suits—a wonderful variety to choose from. The silk suits come in black, blue, brown, green and some swell new plaid effects. The cloth suits come in black, blue, brown and the new worsted mixtures.

The lot includes both shirt waist suits and jacket suits in some of the very newest and most stylish effects. There is not a suit in the lot worth less than $25 and some range as high as $35 in value. Choice of the lot for tomorrow only $20

$20.00

LOT 2 includes about 35 very handsome and stylish shirtwaist and jacket suits in the very newest materials. All are new Spring models. The materials are voiles, chiffon taffetas, cashmeres, etc. The colors are blacks, browns, greys, greens, plaids and fancy mixed materials.

All are carefully tailored and perfect in fit and finish. None in the lot worth less than $37.50 and many have been marked as high as $50.00 Positively the biggest bargain ever offered by the Unique. Choice of the lot tomorrow only ....

$27.50

Women who are extremely fastidious about dress will be highly pleased with the beautiful new white serge suits we are showing. These are quite the rage in large Eastern cities and are certainly very swell. We're also showing a large assortment of the new wash suits including the new linen suits in white, light blue, lavender, raspberry and green shades. You are most cordially invited to inspect these new arrivals.

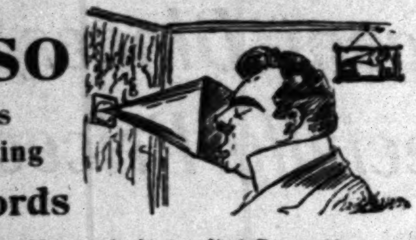
Caruso
Caricatures Himself Making
Victor Records



The Dog and His Master's Voice Not Forgotten —The Great Tenor Poses as a Caricaturist

It will be news to most people that Caruso—he of the angel voice and the Metropolitan reputation—can draw even when he is not singing. As to the merits of his latter accomplishment, there may be diversity of opinion, upon which there is very little in regard to the former. It appears, too, that Signor Caruso does not take his ability to copy Nature as it appears to him as seriously as he does when he tries to imitate her music.

The above caricature of Caruso was drawn by himself at the Victor Laboratory while waiting to make a Record; that is, waiting for those who do the extremely important mechanical part to get their delicate machinery in order.

Victor Talking Machines

People with a prejudice are particularly invited to hear the Victor. If you are absolutely sure that you know all about talking machines, and would not have one, you are just the person this advertisement is intended to reach. After you have heard Caruso, Sembrich, Plancon, Tamagno, and a few other operatic stars on the Victor you will be as eager to own a Victor as you now may be opposed to the idea. The fact is that no one, unless he actually hears the Victor, can understand to what a state of perfection it has brought the science of sound reproduction.

Free Victor Recital Next Thursday

at which time you are invited to hear the new May Records: Eames, Caruso, Journet, and other renowned artists.

Mme. Emma Eames, soprano.

It may interest you to know that the Victor Company spent last year, in addition to their usual laboratory expenditures, more than one hundred thousand dollars in obtaining and perfecting the Records contained in their new Victor catalogue.

SICK CHARGES OF COUNTY IN FINE NEW BUILDING.

ALREADY, before the wards have fairly opened, the new County Hospital is almost full.

That is to say, the men's wards. There is still a women's ward unoccupied.

Last night the superintendent, Dr. Barber, cast the wearied glance of the mover over the premises and said: "Well, we're settled at last."

The moving had been going on since Monday, and proved to be a strenuous job. Some of the patients were able to totter slowly along the covered walk from the old to the new wards; others were wheeled over in chairs and carried in cots.

As yet the bright new wards have not been saddened by the shadow of death or by the grimness of a surgical operation; the sudden pain, the moaning sufferer, the dieting, the washing, the white-robed, gauze-hooded squad of nurses with the ether of forgetfulness and oblivion, the little table on wheels, and the linen.

It is expected that all the regular surgical cases will be treated at the present surgical operating room; at each ward of the new hospital, however, there is an operating room for such cases as may develop the need of surgery in the medical wards.

It has been necessary to abandon some of the worst wards of the old building. What with the patients from these and the new flood always pouring in, the new hospital shows a fine prospect of being overcrowded before it is fairly built.

LOOK INTO NEW QUARTERS.

The contagious building has plenty of room, however, and the women's department is but half occupied.

The increased population of Los Angeles county within the last census has swelled the list of sick and suffering correspondingly, and has necessitated the extension of hospital accommodations. The building of the addition has been under operation for the past two years on the old hospital grounds on Mission road.

There are four distinct buildings, while four large wards have been put on to the insane department. Two of the buildings are used for the treating of medical, and another for contagious diseases. The fourth comprises the laundry and engine room. The departments for the treatment of diseases are two-story, fireproof, brick structures, having the most modern and up-to-date sanitary arrangements, with the first floor consigned to men, and the second to women.

It was originally planned that when the new hospital buildings should be completed the old hospital, except the surgical and insane wards, should be fitted up for offices and departments for official use. This idea, however, can but partly be carried out, owing to the crowded conditions prevailing here. Some of the old medical wards will be thus utilized, the patients having been removed to the new pavilions.

Comfort and convenience characterize the new hospital. Steam-heated ventilation is employed. Fresh air is propelled by a large motor fan across the steam heated pipes in the basement, and carried to the different wards and departments through one set of registers near the floor, and the carbonaceous air given off in respiration and the odors of the wards are wafted out through another set of registers near the ceiling. A desired temperature is maintained by use of an electric thermometer, which turns off the heat automatically when the mercury rises above 60 deg. by means of a large damper near the furnace in the basement. These buildings also have the telephone, annunciator and bell systems.

The structures for medical diseases consist of two wings or pavilions, identical in design. Medical pavilion A is used for the treating of ailments not requiring surgical operation. Medical pavilion B is the new surgical department, but most of the hospital surgery is done in the old surgical wards. Each wing of these structures has a large general ward both up and down stairs, that will accommodate twenty-five patients, respectively, and a smaller annex or sun parlor to the rear of each of these wards for convalescents. Both medical pavilions have also private wards.

FOR CONVALESCENTS.

A pleasant feature for convalescents is the large corridor that connects the old and new buildings. It is about 15x300 with a row of large windows on either side, a sort of sun parlor, where these patients come to revivify their physical forces. Here, also, the aged and imbecile, for whom the hospital is a permanent home, are brought when they prefer not to use the grounds for their daily airing and sun baths. The railed roof of this corridor is utilized for the same purpose.

Every precaution against contagion is used throughout the hospital, as the slate-covered stairs with their metal balustrades and the hard maple floors testify.

As may be inferred, the contagious pavilion has its own preventive against the spreading of disease. The floors are cemented, and each of the forty-eight single rooms have the double door system, which prevents draughts from carrying disease germs into the halls.

The furniture, except the iron beds, is of metal and heavy glass. Even the utensils of each patient are labeled so that contagion from one patient may not be carried to another suffering from a different malady. Bed linen is changed daily, and the floors are washed and disinfected regularly and thoroughly.

CLEANLINESS.

The patient's personal apparel is kept immaculate, the new laundry doing one third more work than formerly. It has all up-to-date equipments with a battery of two boilers and crude oil burners.

Consideration for the patient is also evident in the tinted walls in two shades of green, which give variety and rest to the eye.

The linen closets are convenient arrangements, containing about thirty-six roomy shelves with doors where the hospital linen is kept. Some of these shelves, however, are reserved for the clothes and belongings of the patients, each door being labeled with the name of the owner of the articles of the special shelf. Thus confusion is avoided and order maintained.

It is interesting to note with what uniformity and dispatch meals are served in this big institution. Food is brought, cooked, in galvanized iron pans from the kitchen on portable steam tables and distributed throughout the buildings by means of dumb waiters. Each ward has a dining-room with a table that will permit covers to be laid for twelve persons. A bell announces that the meal is served. Convalescents who can, go to the dining-room which is by far more preferable than to eat in the wards. Those who are not able to go, however, have their meals brought to them.

There is one large main kitchen, a building in itself, but each ward of the new buildings has a smaller diet kitchen where nurses are busy every day making special dishes. The gas stoves, enameled sinks, the cupboards for dishes and those for medicine, here, are bright and clean.

White globes tone the glare of the electric lights and cast a soft radiance. Gas lights with white mantels are also provided in case of emergency. The hospital has its own electric light plant, but it is connected with the city plant so that, in the event of accident, light may be supplied.

THE BATHS.

Both stationary and portable baths are important features in each ward. The contagious wards have in addition to these, fine shower baths with white rubber curtains. Tubs and fixtures of all of these hospital baths are of white porcelain and are kept spotless.

Pan rooms adjoin all of the toilets where bed pans and bottles are washed and disinfected.

The contagious pavilion is divided into two equal sections with a hall running crosswise. Every one of the twenty-four single rooms of each section has a large window, and on the east side a door also, that leads to the spacious veranda alongside the building, both up and down stairs, where convalescents come to resuscitate and revel in the beautiful scene before them.

Thoughtfulness for patients is evident in the hospital site. A more picturesque one would be difficult to find in the vicinity of Los Angeles. Surrounded by the Sierra Madre foothills with the rugged, purple mountain peaks in the background, and its building plot embellished with beautiful palms and other trees of variegated greens, the many-colored flowers contrasting finely with the soft carpet of grass—all forms a picture of ideal Southern California beauty.

Hospital supplies are liberal, but they do not include luxuries. Accommodations for about three hundred and fifty patients are afforded under the new arrangements. These facilities, even, are scarcely sufficient for many invalids who apply for admission, and it is proposed that a new surgical ward and an administration building be added as soon as funds in the county treasury will permit another bond issue.

THE STAFF.

At present, there are about twenty-five nurses and a matron to care for these invalids, and their number will necessarily be increased with the enlarged patient roll. Six physicians comprise the medical staff, and altogether, there are about fifty employés filling the various offices of this institution. Dr. D. C. Barber, the hospital superintendent, is noted for his skill as a surgeon, and patients who come to the county hospital, especially to the surgical wards, are by no means all paupers, and they can testify that every care and comfort that the hospital affords is given them as the case demands.

Invalids applying for hospital treatment are invariably met with courteous kindness by Dr. F. L. Norton, the assistant superintendent, who receives most of the patients, or by any other physician of the institution.

Mr. Hebberd, the hospital steward, in speaking of the expenditure and facilities of the hospital, said:

"The cost of the new buildings aggregates over $250,000, and the running expenses of the institution are about $5000 a month. Money is judiciously used for the strictest necessities, and while we would often like to give patients certain luxuries that are not supplied, such as rolling and easy chairs and air cushions, we are compelled to exercise economy."

Often a patient is compelled to stay in his ward when he longs to breathe the out-of-door air, for want of an easy chair to rest in, as there are but a limited number on hand. These comforts could easily be made up by private donations.

Garments for night wear are also limited in supply. The most durable, unbleached muslin could be used, the gown simply made, opened in the back and tied with tape instead of buttoned.

The writer knows from experience and remembers with the deepest gratitude, the sympathetic kindness accorded a patient by the county hospital management and nurses.

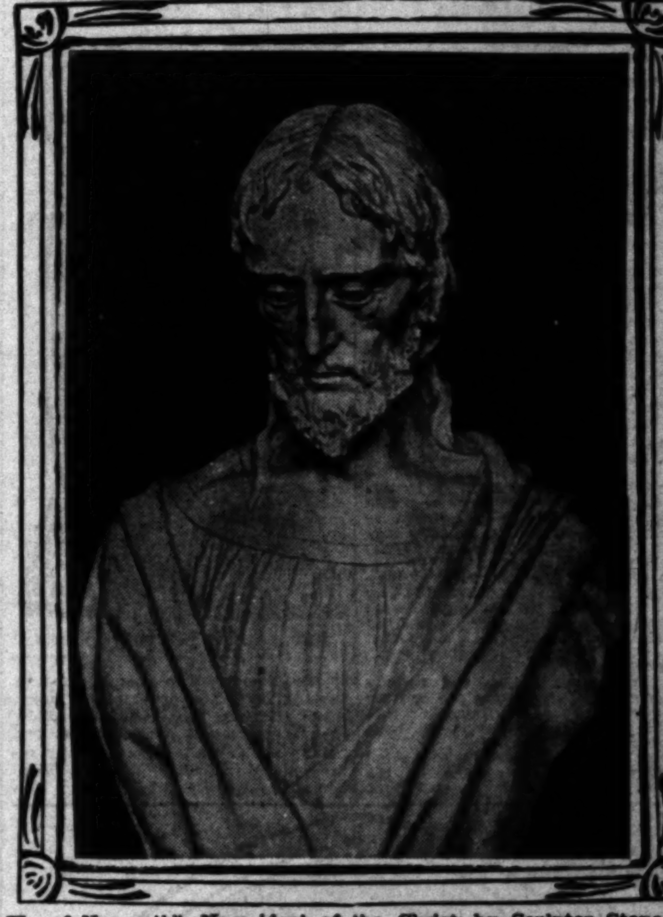
MORLEY AFTER A TRANSFER.

Jim Morley has had a talk with President Bert in regard to transferring the week's series from Tacoma to Los Angeles, according to a dispatch to The Times from San Francisco. Week after next Los Angeles will go there to play two weeks with Oakland. Then, according to schedule, the Looloos will jump back to Tacoma for a week and then both teams travel to Los Angeles for another series. What Morley wants is to have the Tacoma jump cut out and the games transferred to Los Angeles. It is a long trip to Tacoma, and just to play a week's series makes it seem longer. President Bert assured Morley he would welcome the transfer, but Mike Fischer's consent would have to be secured before it could be made. Morley will now open correspondence with the King.

MURPHY MEETING.

At the Francis Murphy Gospel Temperance meeting this evening at Blanchard Hall at 7:30 o'clock Mr. Murphy will preside and will have as his subject "He is Risen!" A fine Easter programme of music will be given to which the following will contribute: Mrs. Roth Hamilton, soprano; Mrs. D. W. Budling, contralto; Mr. Budlong, tenor; Mr. Eccleston, bass, and Blanche Foster, soprano. Mrs. Smitheran, violinist and Mr. Henderson pianist will assist.

On Monday evening Francis Murphy will celebrate his sixty-ninth birthday with an open reception at Blanchard Hall when all are invited.



"He of Nazareth"—New ideal of the Christ by Sculptor Stone of Los Angeles.

THE latest creation of Frank F. Stone, the Los Angeles sculptor, is a creditable bust of "He of Nazareth." Stone's ideal of the Christ is original and full of sympathy. The face is rather older than that painted by the earier delineators of the Nazarene and the expression is sadder. Perhaps the only criticism would be that it is too sad for Him who brought "glad tidings of great joy." The Times photographed the plaster cast in Mr. Stone's studio yesterday.

JAIL BARS ON EASTER CARD.

BLACKGUARD MISSIVE SENT TO YOUNG LINEMAN.

So-called Detective of Golden Gate Credit Company Tries Fierce Bulldozing Tactics on Victim Who Wouldnt Pay After Hs Eyes Were Opened.

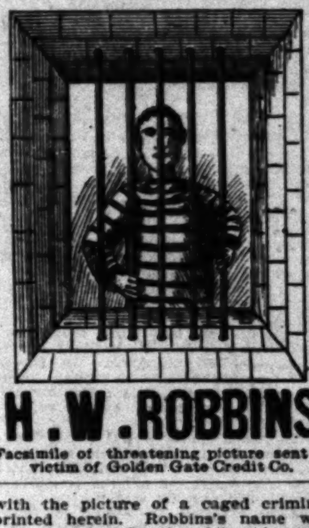
The attempt to bulldoze H. W. Robbins, a young telephone lineman of this city, ended yesterday in his lawyer's office. The immediate future yawns black for the Golden Gate Credit Company's teaser. Young Robbins's fighting blood is up.

Robbins is one of the young men who, realizing that he had been faked on a watch scheme, would'nt pay any more and was sued. Judgment was had against him for $29.

The threats were of such a character that the company dare not make them in person.

John Maguire, alleged detective, is the dummy through whom the attacks have been made.

Came in the mail a circular headed with the picture of a caged criminal printed herein. Robbins's name was printed just under the picture in enormous letters, giving the idea that Robbins was the man behind the bars.



Facsimile of threatening picture sent to victim of Golden Gate Credit Co.

At the top of the circular was a letter-head, saying:

"Criminals located."

"Stolen property traced."

The circular (which Maguire threatened to post all over the city) was worded as follows:

"Merchants! Shopkeepers! And the public generally, are hereby warned not to trust or give credit to the above-named dead beat, against whom a judgment is now offered for sale at a liberal cash discount. Should you care to purchase it, kindly notify me at the above address, and full particulars will be mailed to you.

"JOHN MAGUIRE.

"$10.00 reward will be paid for the conviction of any person destroying or defacing this poster."

Accompany this circular was a blackguard letter, so ingenious in its cussedness as to be worth printing in full:

SAN FRANCISCO (Cal.) April 20, 1905.

H. W. Robbins, No. 1135 Fedora street, Los Angeles, Cal.—Dear Sir: Notices same as inclosed are ready for posting all over the neighborhood where you reside, and in the vicinity of the Home Telephone Company. Think of the annoyance, trouble and expense already caused you by fee-seeking cheap lawyers. The public who read these notices will always remember that you were posted as a dead beat—will it pay you?

The judgment against you is $28, with interest to date $1.25, making a total of $29.25. After my charges, costs, etc., are deducted from the above amount the Golden Gate Credit Company realize very little. You will have your receipt in full and the satisfaction of knowing they did not get the money.

All your dealings with me will be strictly confidential, and no one in Los Angeles will know whether you paid or not. Think it over—pay the bill and remember the lesson if you think you have not been treated justly—experience is always worth what it costs. I'll hold this matter for ten days. Let me hear from you, anyway.

Yours truly, JOHN MAGUIRE.

The kingpin of Mr. Maguire's favors, however, was a letter addressed on the envelope to Mr. Robbins, but written to a neighbor, D. W. Goodwin, as though placed in the wrong envelope; it contained an offer to sell to Goodwin the judgment against Robbins at a great discount.

Then Robbins got this postal card from the worthy Maguire:

No. 927 Market street,
SAN FRANCISCO, March 21, 1905.

H. W. Robbins, No. 1135 Fedora street—Dear Sir: A letter intended for your neighbor, D. W. Goodwin, has, by mistake of clerk, been addressed to you. If on receipt of same you will kindly hand it to him, you will greatly oblige,

Yours truly, JOHN MAGUIRE.

Robbins had pluck enough to take the whole bunch of correspondence to his attorney, W. P. L. Stafford. What action will be taken is not known yet.

Brother Maguire will be made to understand with some emphasis, however, that while that course of blackguardism may be considered etiquette in a city like San Francisco, it doesn't go in a decent town.

WOMEN HOE IN A CONTEST.

WHO IS BEST AT OUT-OF-DOOR DECORATING?

Civic Federation Art Section is Endeavoring to Encourage Home Beautification—Many Prizes to be Offered for the Best Floral Triumphs Found.

That "Garden Contest," the latest undertaking of the energetic women of the Civic Federaion, is about to blossom. The management of this competitive exhibition is in the hands of the out-door art section, of which Mrs. Willoughby Rodman is president, and these ladies met yesterday to cultivate their project.

Money prizes are to be given at the conclusion of the term set, for many things in yard and garden ideas, and the lists, opened yesterday, are free to all within the city of Los Angeles. The combination of beauty and utility in home surrounding is the object aimed at.

In order that all may enter, those who are unable to secure plants or seeds will be furnished at distributing stations, and all possible encouragement will be given by the women to the furtherance of this laudable work. The awards aggregate $137.50.

There are ten floral and vegetable "races" in this unique contest. For the most artistically arranged and attractive frontyard, of thirty feet frontage or more, $30; for a yard of fifteen to thirty feet in frontage, $25; for the best back yard, $25; side yard—for best arrangement of vines, trellises, shrubs and flowers, $10; best display of vines, $10; best display of window boxes, $5; best display of hanging baskets, $2.50; best vegetable garden, seven by seven feet, $5; best garden ten by ten feet, $10; best garden twenty by twenty feet, $15.

Next Friday and every Friday in May the distribution points will be open for the distribution of seeds or plants to those who wish for improvements but who are unable to make financial outlay. The points named are the Bethlehem Mission, the Utah street school, the Church of Neighborhood—on East Ninth street—and the College Settlement at Alpine and Castelar streets. The women have earnestly requested that housewives making plant cuttings save these, instead of throwing them away. They will be taken gladly to further the beauty process just commenced.

The committee in charge, headed by Mrs. Harry C. Terrell of No. 1357 Bellevue avenue, is composed of Mrs. Andrew Glassell, Tropico; Miss Fox, Rockwood street and Union avenue; Miss Bessie Stoddart, Beacon street, and Mrs. E. J. Wilson, of No. 2171 East Ninth street.

BACK TO CHINA.

Hom Wah Fong and Hom Hop, declared to be in this country in violation of the exclusion act, were ordered by United States Commissioner Van Dyke yesterday to be deported.

ONE MORE OF PIONEERS GONE.

Albert L. Bath Has Crossed the Great Divide.

Former Owner of Valuable Hill-street Site.

Death Came Suddenly at His Santa Monica Home.

This afternoon another of Southern California's well-known pioneers will be laid to rest.

Albert L. Bath, who died suddenly at his home on Ocean avenue, Santa Monica, Friday is the latest of those old timers, whose names are written on the pages of this city's early history and progress, to cross the "great divide."

Mr. Bath was 76 years of age and has resided in California for fifty-four years, having come around the Horn in '51.

For thirty-two years he lived in this city on the corner of Fifth and Hill streets, and until four years ago he continued his residence there. He then moved to Santa Monica where he has since lived.

The lot on Hill street was not disposed of and the Willoughby hotel now stands on the site. When he purchased the property he paid $1500, which at that time was considered an exorbitant price. Today it is probably worth about $90,000.

Mr. Bath always identified himself with every movement for the welfare of the city. For over fourteen years he was an active member of the local Chamber of Commerce.

For a number of years he conducted a carriage shop on Spring street on the site now occupied by the Stowell block and later established a foundry on Alpine street.

ALBERT L. BATH.

He was connected with a number of fraternal orders. For over thirty years he was a member of the A.O.U.W. and the I. O.O.F. The latter will have charge of the funeral services.

He was an ardent lover of nature and spent much time in fields and woods. His favorite sport was fishing and he knew every stream in the West as a book. Until within the last few years he has taken at least one extended trip each season in quest of the "speckled beauties."

When Bath landed in San Francisco he was "broke." His first job was planking a wharf, for which he received $10 a day.

His first purchase, when he was paid off, was two apples for which he paid $2 apiece.

Death came very suddenly last Friday morning. He arose in excellent spirits and about 9 o'clock took a cup of coffee. In less than two minutes he leaned back in his chair as if dozing and before assistance could reach him he was dead. There was not the slightest sign of a struggle.

He leaves no relatives other than a nephew and a niece, E. Alfred and Miss Florence Dodge of this city. The latter was with him when the end came.

The funeral services will be held at the late home, No. 824 North Ocean avenue, Santa Monica, after which the body will be taken to Rosedale for interment.

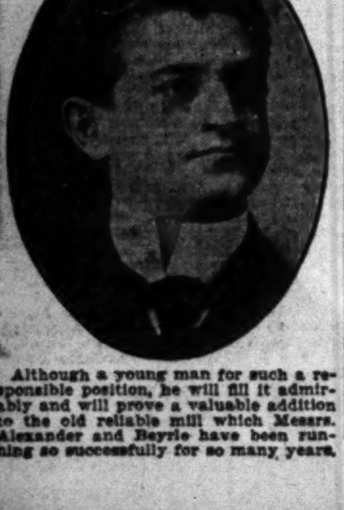
BENEDICT LEAVES EDISON.

Young Cashier of Electric Company Resigns to Take Management of California Planing Mill.

Stanley Benedict, who on May 1 becomes manager of the California Planing Mill Company, Nos. 1916 to 1930 South Main street, is one of Los Angeles' most successful and progressive young business men.

In the past seven years he has filled the following important positions: Chief clerk, paymaster and cashier of the Los Angeles Gas and Electric Co., and purchasing agent and cashier of the Edison Electric Co.



Although a young man for such a responsible position, he will fill it admirably and will prove a valuable addition to the old reliable mill which Messrs. Alexander and Beyrle have been running so successfully for so many years.

CROWS AS PETS.

Whole Carload of Innocent Fun Attributed to One of These Black Chaps.

Did you ever own a crow?

If not you have missed more than a carload of innocent fun. I have owned all sorts of pets in my life, from pet beetles to coons, dogs and deer, but none gave the all round satisfaction of the crow, writes Dan Beard in Recreation.

It is hardy, full of the jolliest of tricks, is as affectionate and loyal as a dog, as comical as a clown, and almost as intelligent as a boy. A pet crow knows its friends and enemies and will allow no liberties from a stranger. Of course, a crow's honesty is no better than that of a pack rat, but my crow never stole from me, and somehow or other one finds it easy to forgive a thief who only steals from others.

When we dug up our flowerbed in the early spring there were no less than seven silver thimbles unearthed, and not one of the lot came from our house. One day "Billy" brought me a nice, two-dollar greenback. In those days a two-dollar bill was a very, very large amount to me, and stood for an unheard of amount of butter scotch and ginger bread.

Of course the money did not belong to me, but neither did it belong to the crow, and "Billy" would not tell where he got his wealth, so after a consultation with my parents and my teacher, and after waiting to see if anyone claimed the bill, it was at length decided to be my property, and it was the first two dollars I ever had all in a heap.

But it was not always money the crow found; once he filled all the crevices in my mother's bed with liver; this could not be seen and attracted no attention until the summer heat began to act upon it, then everybody in the house knew that something had happened. The old folks said a rat must have died in the partition, but the crow and I were chums and understood each other. I suspected the real cause of the disagreeable odor, and as soon as the coast was clear, discovered and removed the liver, and never until this day did I give the crow away.

SUNDAY REAL ESTATE "LINERS."

10 O'clock Saturday Nights.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier, especially Sunday real estate announcements, which in order to printed must be in the office not later than 10 o'clock Saturday nights. The printing of all real estate matter, including advertisements, in a part by itself on Sundays involves somewhat slower press work, making it essential in order to get the paper out on time to stop receiving real estate ads. at 10 o'clock Saturday nights.

Dealers will confer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible; or at least a part of it, and the balance early on Saturdays.

Sunday "Want" ads. will still be received by 'phone and over the counter until 11 o'clock Saturday nights.

COSTLY WATER RAISES STEAM.

Contractors Protest Against Connection Charges.

Claim They Are Held up for Excessive Amounts.

Hundreds of Thousands Are Involved in Issue.

Twenty prominent building contractors, yesterday, filed a redhot protest with the City Clerk against paying what they think is premature tribute to the City Water Department before property owners can become users of municipal water.

They declare that builders and owners are annually "held up" for about $50,000, not for using water, but for the privilege of buying it. It is estimated that the Water Department has received since November 1904 the sum of $144,000 for making connections.

It is alleged that it is unfair to be forced to pay this arbitrary tax, when such methods are never attempted by public utility corporations which would not dare charge $9 or $12 or $25 for tapping lines and connecting houses of patrons.

It seems that the custom was originated by the water department when it was owned by privae individuals and that it has not been abolished since the plant came under municipal ownership and control.

The document, which is one of the warmest that has been filed with the Council for many months, is as follows:

"The undersigned, building contractors and property-owners, respectfully direct the attention of your honorable body to the rule of the Board of Water Commissioners requiring that certain sums of money shall be paid into the water department before building contractors or property-owners are permitted to become users of city water.

THE CHARGES.

"Under this rule, there must be paid for tapping a water main and putting in a small pipe from the main to the inside of the curb line, the following amounts:

½ inch service	$ 9.00
¾ inch service	12.00
1 inch service	14.00
1½ inch service	25.00
2 inch service	35.00

"This covers the service from the main in the street to the inside of the curb, and all charges for extensions beyond that point are paid by the consumer and are in addition to the figures above stated. These rates have been demanded by the water department since the early part of the year 1902, when the city acquired the water plant from the City Water Company.

"It was the custom of the City Water Company to 'hold up' property-owners for water connections. The cost to the company to tap a water main and put in a small pipe from the main to the inside of the curb was slight and by forcing property-owners to pay a goodly sum into its treasury for service connections, the company during its eventful career realized from his source a sum of money that ran into hundreds of thousands of dollars.

"Since taking over the water plant, the city has followed in the footsteps of the City Water Company, exacting payment for these connections, notwithstanding that property-owners felt assured at the time of voting for bonds for the acquisition of the plant that his unjust and burdensome tax would not continue under municipal ownership.

"The records in the office of the City Auditor show that since early in 1902, when municipal ownership commenced, up to November 15th, 1904, the sum of $120,931 went into the water department fund from this source. In 1902, the amount paid in was $27,293.25; in 1903, it was $42,181.35; in 1904, up to November 15, $51,457.

HOW IT RUNS UP.

"The report of the water commissioners for the year ending November 30, 1904, shows that the following services were run during the year ending November 15, 1904.

½ inch services	3614	$32,526
¾ inch services	1301	15,612
1 inch services	156	2184
1½ inch services	16	400
2 inch service	21	735
6 inch services	1	
* inch services	36	
Total	5145	$51,457

* No sizes given.

"Since November 15th, 1904, the amount paid into the water department, easily runs up the total receipts for water connections during municipal ownership to the sum of $144,000.

"It is not just nor reasonable that building contractors or property-owners should be forced to pay this tribute. Public utility corporations do not exact it. If a telephone is furnished a subscriber, the telephone company does not demand nine or ten or fifteen dollars for service connection in addition to the regular monthly rate. The gas company, when you give an order for gas, does not require you to pay nine or ten or fifteen dollars for the mere privilege of buying gas. And so with the electric companies and other public utility corporations. Then, why should the water department impose this burden? If public utility corporations do not exact it, why should we be compelled to pay it under municipal ownership? It was our impression that the ownership and operation of the water system by the city of Los Angeles, would afford us the protection we could not expect from public utility corporations.

"Wherefore, your petitioners respectfully urge that the rule of the Board of Water Commissioners requiring payment for water connections be abolished."

TO WATER BOARD.

The matter probably will be referred to the Board of Water Commissioners, and it is doubted if they will cut off any sources of revenue till the water works extensions are paid for.

A Market Pointer

I have a short option (eight days) on a moderate-sized block of a Goldfield Company.

The Company owns outright four (4) separate groups of claims in different parts of Goldfield, all the being paid for in cash.

The directors are Colorado men, four of them being mining men who have made successes in mining, and the fifth is ex-Chief Justice of the Supreme Court of the State of Colorado.

As long as my option lasts I offer these shares at four (4) cents per share, and if you are interested in buying a cheap Goldfield mining stock that has clean, competent, honest management, I think I can show you that this is a very unusual offer.

I do not care to sell less than 500 nor more than 2000 shares to any one person.

If you have confidence enough in my statements and are willing to buy wtihout further investigation—although I always prefer that buyers of stock investigate before purchasing—you can wire your order or mail it to me, and it will be filled, provided, of course, that my option has not expired and all the stock has not been sold. Otherwise, write at once and I shall send prospectus, etc.

DESERT HOLDS PLENTY WATER.

No Need to Suffer on Road to New Eldorado.

Abundant Artesian Springs Await Tapping.

Local Mining Man Tells of the Nevada Wilds.

The term "desert" as applied indiscriminately to all that portion of Southern Nevada comprising Lincoln, Nye and Esmeralda counties, is somewhat misleading to the majority of the people who have not visited the vast section now fast becoming known to the world by reason of the great mining

White's Spring, Manse, Nev.

boom that is sweeping over the Sagebrush State, according to Carl F. Schader of the Johnnie Consolidated Mining Company of this city. Mr. Schader knows Southern Nevada as few men know it, from years spent there in the pursuit of mineral wealth, during which he has studied from all standpoints. He is convinced that there is an agricultural future for many parts of this now barren region.

When it is remembered that within the memory of thousands of persons living today almost the entire region between California and the Missouri River, now containing some of the country's garden spots, was vaguely indicated on maps as the "Great American Desert," it is not hard to realize the likelihood that Nevada will prove herself no exception to the rule of development.

"There are some 30,000 or 40,000 acres of land susceptible of cultivation in the mountains back of Johnnie alone," said Mr. Schader yesterday, "although few may believe it. At many points there are excellent artesian springs, just bursting from the ground. Our town is now getting its water supply from Grapevine Springs, one of these natural artesian wells. By simply laying a pipe line we get a flow of six inches of water that flows by gravity to the town and supplies all needs of the camp and mines.

"The mountain range that runs along back of Johnnie we call the 'Timber Mountains,' and the name is quite appropriate, as they produce as fine a growth of pine timber as one could desire. A sawmill has been in operation for years, and it puts out a splendid quality of lumber. We use it for all purposes at our properties and it has been found equal to any class of timber.

"In these mountains are large snow sheds which fede the mountain streams. The water has only to be preserved to insure a further supply. 'Charleston Peak,' 11,0000 feet above sea level, is capped with snow the year around. There are a number of small ranches scattered through these mountains even now.

"At the White ranch at Manse there are no less than three hundred acres under cultivation. With little more effort this could be increased to 1000 or more. Here apples, peaches and other fruits are grown; there are acres of alfalfa and vegetables of all kinds; all grown with the water from a natural artesian spring producing 250 inches. It makes one forget that he is in Nevada's desert, when he sees it. Here is a small artificial lake where all persons passing through stop for a swim. It has become famous among miners and prospectors.

"At Pahrump ranch, eight miles distant, is another spring of the same kind. This ranch is a relic of the boom started years ago when the Union Pacific was expected to build through the country.

A SECOND IMPERIAL.

"All along the border of the two States and the road between Ivanpah and Bullfrog, and between Goodspring or Las Vegas and Bullfrog, there is artesian water to be obtained, and with small effort all danger of suffering on the road should be eliminated. There are several places in the new country where there should be an opening for a colonization project like that at Imperial, only it would be with artesian wells instead of river ditches."

SUNDAY REAL ESTATE "LINERS."

10 O'clock Saturday Nights.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier; especially Sunday real estate announcements, which in order to be printed must be in the office not later than 10 o'clock Saturday nights. The printing of all real estate matter, including advertisements, in a part by itself on Sundays involves somewhat slower press work, making it essential in order to get the paper out on time to stop receiving real estate ads. at 10 o'clock Saturday nights.

Dealers will confer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible; or at least a part of it, and the balance early on Saturdays.

Sunday "Want" ads. will still be received by 'phone and over the counter until 11 o'clock Saturday nights.

[AUTHORIZED ANNOUNCEMENT.]

OCEAN PARK'S LUCK.

Burmister, the Big Grocery Merchant at Prescott, Puts in Big Store at Beach Town.

H. C. Burmister, formerly of Prescott, Ariz., yesterday opened a big grocery store at the corner of Ocean Front and Navy street, Ocean Park.

Mr. Burmister's store is the largest of its kind in the thriving suburb by the sea, and the fact that he is willing to invest a large sum of money in the establishment is an evidence that he has great confidence in the future of the city.

The Burmister family is one of the best known in the grocery trade in the entire Southwest, as the father of the Ocean Park proprietor has for years conducted at Prescott, Ariz., one of the most complete grocery establishments in that State.

The Burmister business has grown to such an extent during the past few years that the firm has been able to buy at very advantageous prices from both the jobbers and manufacturers.

This has, of course, effected an immense saving in the business, and the customers of the firm have always profited by it. Burmister customers have always been sure of the best goods at prices which are generally a shade lower than those of less fortunate competitors.

The new store at Ocean Park will benefit by this system of quantity buying also in a great many instances. Especially will the difference be noted in the imported goods and other fancy groceries, for the firm is a direct buyer on all these things.

The store itself is located in a large new block that has just been erected, and the stock that has been placed therein is chosen in the full light of the experience of years in the business. It is as complete in every detail as any store to be found in Southern California, and the residents of Ocean Park are gratified that they have at last a store that has all the attributes of the best places of its kind.

One of the features about the business will be the large stock of liquors of all kinds that is carried in stock. The line includes the best brands of wines, whiskies, beers, and so on, and will meet the demand that has existed for some time in Ocean Park for a reliable stock of this kind.

The store itself is large—fifty feet wide by a hundred and two long—is light and airy, and has all the most modern conveniences for rapidly transacting business.

H. C. Burmister, the proprietor of the new store, was for a number of years secretary and treasurer of the big Burmister store at Prescott, and is well qualified to run a business on the scale of the one he has opened at Ocean Park.

Russian-Jap WAR SHOT COUNTING Contest

HOW MANY HOLES IN THE BATTLESHIP?

THE HOMEMAKER will give to those who can count the shell holes in this Battleship correctly or nearest correctly a valuable list of Prizes.

IF YOU COUNT AND PLAN YOU MAY WIN

This is not a lottery but a problem. The contest consists of counting the SHELL HOLES in the battleship. Every dot counts. Do not miss any. There are no shell holes below the water line. All of them are plainly seen. All are shown on this side of the Battle Ship. There is no deception or catch about this contest whatsoever. If you can count the holes or dots correctly and give a good plan of counting them YOU SHOULD WIN. You stand as good a chance as any one of winning. It is worth trying.

The list of prizes is large. They are worth working for. You have a large number of chances. You are as likely as anybody to get first, but if you don't get first Prize there are lots of other prizes worth having. It all depends upon you. IF YOU CAN COUNT AND THINK UP A GOOD PLAN YOU ARE LIKELY TO WIN.

Do not fail to get counts in AT ONCE because we offer an EXTRA CASH prize for early counts as follows:

$50.00 CASH EXTRA PRIZE to the person sending in the best count or plan by April 30th, now remember, if you send best count or plan before April 30, you get $50.00 extra which is IN ADDITION to the regular list of 39 prizes.

DOUBLE EXTRA PRIZE: We believe everybody should have three counts so they can have one each side of what they think is correct to be more sure to hit it. To encourage this we will give another $50.00 extra to winners of 1st Prizes if they have three counts. Remember if you have one count you get 1st prize only, but if you have three counts you get $50.00 extra.

CONDITIONS OF THIS CONTEST: 50 cents pays for one full year's subscription to THE HOMEMAKER and entitles you to one free count; $1.00 pays for two years and entitles you to three counts and makes you eligible for the special $50.00 Prize.

AWARDS will be made as follows: The person giving correct or nearest correct count will get first prize. Next nearest correct, second prize, etc. In case of a tie for any prize it will be awarded to the person giving best plan for counting the shell holes. In the event more than one person should submit the same plan and this was considered the best plan by the judges, each person so tieing will be asked to tell in 50 words how best to improve THE HOMEMAKER. The one making best suggestions will be awarded first prize, next best next, etc.

JUDGES. The awarding of the prizes in this contest will be entirely in the hands of a committee of three disinterested judges as follows: Rev. Dean Duffy of the Wabash Ave., Episcopal Church, 3417 Wabash Ave., Chicago, Dr. Chas. C. Smith, M. D. & D. S., 1664 North Clark St., Chicago, and Judge Willis Melville, Grossdale, Ill. The reputation and standing of these three professional men is irreproachable and absolutely insures the honest and fair distribution of the prizes. MOREOVER, no one living in Chicago or anyone connected in any way, shape or manner with THE HOMEMAKER or our publishing house will be permitted to even participate in this contest. We are bound that our contest must be absolutely fair.

OUR FINANCIAL RESPONSIBILITY as to whether we are abundantly able to do as we say and distribute the Prizes offered, we can refer you to any firm in Chicago. If you have some friend or relation in Chicago have them look us up. We can also refer to the publishers of this paper, to any of the large Mercantile Agencies of America. We are an old established Publishing House, incorporated under the laws of the State of Illinois for $10,000.00. The total number of readers of our paper number 2,700,000. We will also state that we have distributed over $10,000.00 in Prizes during the past year. Our offer will be carried out to the letter. This contest closes June 30th, 1905, but get your counts in early.

READ THIS CAREFULLY

See extra $50.00 Prize offered to early counters before April 30th. Anybody having 3 counts entered may enter additional counts at 25c each. Be careful to give your plan of counting, as the best plan used will decide all ties. ANSWERS FROM PEOPLE LIVING IN CHICAGO POSITIVELY NOT ACCEPTED. NO COUNTS ACCEPTED WITHOUT SUBSCRIPTION.

Do not delay. Get your counts in early. See extra $50.00 Prizes for early answers and to those having 3 counts registered. REMEMBER 50 cents pays for one year's subscription and one count free and $1.00 pays a two year subscription and three counts. Cut out and send subscription on blank below. Today, the lilies. Tomorrow, the rose.

Farewell, sackcloth and ashes. Hail the new bonnet and the glittering gown.

Good morning, ladies! Are your new Easter hats on straight?

Were you up in time to see the sun dance on this glad Easter morning?

The gloom of Calvary is passed. Rejoice, dear heart, in the joy and the glory of the resurrection.

There being no direct telegraph line to Kamranh Bay, Rojestvensky will at least be spared the trouble of cutting the wires.

The season of penitence is now concluded, but that does not necessarily preclude you from still being sorry for your sins.

If you want to know whether you are really good or not, ask yourself this question: Would you take any of John D. Rockefeller's money if he offered it to you?

School ma'ams in South Dakota are not allowed to marry, doubtless on the theory that love is a madness and consequently interferes with the workings of the human intellect.

In paying $500 for a calf, William J. Bryan demonstrates anew to the world that the professional championship of the poor and lowly people of this earth is a fairly good dividend payer.

In Northern California the Japs are being driven out of the hop fields by bloodthirsty white laborers. And are these the same people of whom the little brown man was erstwhile so well beloved?

America is the home of the free, and theoretically, is open to all, but when 100,000 Italian immigrants are dumped on the Atlantic seaboard with spotted fever in their skins and gunny sacks, isn't it about time to call a halt?

The Socialists now declare that they are strong enough to dominate the labor unions of the United States. It is a natural sequence. The policy of labor unions is to eradicate the individual, and that is all that Socialism aims to do.

France announces herself as positively prostrated that Rojestvensky has made such free use of Kamranh Bay, but there is a lingering suspicion in the minds of the Japs and English that Jean Crapaud is still able to tackle his regular diet of frog's legs.

The Sultan of Turkey declined to see the American Minister upon an occasion a few days ago, His Majesty giving as his excuse that he was called to the harem. There's a pointer for diplomats. The way to reach the Sick Man of the Bosphorous is through milady's chamber. Stand in with the eunuchs and smile on the girls. Let none but good-looking bachelors be henceforth selected as our plenipotentiaries.

"HE IS RISEN, HE IS NOT HERE."

No other day on Time's calendar, save the day upon which Jesus Christ was born, is fraught with such deep meaning to the Christian heart as this, the day of the resurrection.

Last week the gloom of Calvary was upon the world. The awe of the Crucifixion, the greatest tragedy of all the ages, fell with its tremendous sorrow upon every thoughtful soul in the universe, crushing the imagination of Gentile and Jew, believer and unbeliever alike. For there is no doubt that Jesus of Nazareth died upon the cross. There is not the slightest error of fact in the statements of the gospels that the Son of the carpenter was nailed to the cruel tree of ignominy and shame, between two thieves, and that he expired there before the eyes of the Roman soldiery and a ribald crowd of scoffing murderers, with His Mother and Mary of Magdala and John, the beloved disciple, weeping at His feet. History has at last come to incorporate within itself the death of Jesus as an indisputable occurrence.

Whether He rose from the dead, or not, on the third day, as the gospels further chronicle, history, as yet, takes no positive stand. But, that He did rise, there have been untold millions of the human race to believe, there are millions upon millions who believe it now, and their numbers are being ceaselessly augmented. The sway of that gentle Wanderer who taught the world the purest creed and the sublimest code of ethics it has ever known, is constantly growing greater. Wherever the four winds blow, upon every sea and in every land, the name of the Nazarene cannot today be spoken without some head to bow in reverence to it or some knee to bend in adoration.

To the Christian, therefore, believing as he does that Christ is risen from the dead, this Easter morning is a day of unspeakable joy and happiness. It brings to him the accepted assurance that after the death of the body here, there is still a life for the soul in the Great Beyond. It brings to him the unspeakable consolation that some day, in another world than this, he will gain rejoice with those from whom death parted him, and who were as the light of his eyes to him, and the throb of his heart. And, though there be hopes and hopes, what hope is there as to this?

CRIME AND PUNISHMENT.

The science of penology has been sadly neglected in this country. About the only idea we have in handling criminals is to maintain a large police force, and also a force of able detectives to capture a lawbreaker as soon as possible, and then to lock him up in a strong house for a term of years. What becomes of him while he is incarcerated or after he gets out few people seem to care. It is consequently no wonder that young men who start in perhaps thoughtlessly, or perhaps in the heat of passion, to overstep the boundaries of the laws of the land, are led to become confirmed criminals, ruining themselves physically, mentally and morally, and perhaps costing the State many thousands of dollars, all of which might, in many cases, have been averted, had we any good serious system of treating those under arrest. There are, of course, some who are so utterly depraved, either through heredity or otherwise, that it is hopeless to seek to reform them, but such people are probably in the minority among the total number of these unfortunates.

The following extract from a paper read before the Commonwealth Club of California, by Prof. E. C. Moore, president of the California State Board of Charities, certainly shows the criminal folly of herding youths who have committed some indiscretion, or even a crime, in the same cells with hardened criminals:

"Folsom is not, like San Quentin, an accident. The buildings are good and in accordance with a plan, but there are no single cells except those used for incorrigibles and for those condemned to death. There is probably more sodomy more shamelessly practiced at Folsom than at San Quentin; the introduction of boy prisoners has been the occasion of fights for their possession. There are two boys now at San Quentin under 16 years of age, whom the warden has humanely lodged in the hospital, and has not permitted to step into the yard where the convicts are herded; he told a member of your committee that he might as well send in two girls."

One of the first requisites in the treatment of criminals is to furnish them with a sufficient amount of work to keep them employed, to keep them healthy and to keep them from brooding over their condition. To most people a sentence to hard labor appears like an additional punishment, but on the other hand, it is a fact that this is only a mild form of punishment compared with a sentence that gives the prisoner nothing whatever to do but to eat and drink and sleep. Only recently it was announced that in an American penitentiary where the law—a law engineered by labor unions—had forbidden their being employed in any shape, many had gone insane, and it looked as if the entire penitentiary would be turned into a criminal insane asylum.

In an article on New Mexico, published in the Midwinter Times, was a reference to a magnificent scenic highway that has been constructed through a picturesque mountainous region of that Territory. Experts who have examined it say that it is one of the finest roads in the world, not only from a scenic, but from a mechanical point of view. This road was constructed entirely by convict labor. Can any one doubt that it was far better to have these men doing useful labor, out in the open air, rather than sitting in close cells, with nothing to occupy their minds or bodies? Another advantage of such a plan is that it is possible to put by for the convicts a percentage of their earnings during their term of imprisonment, to be paid to them when they leave prison, so that they are not entirely devoid of means when they start out again in a world that is naturally prejudiced against them. According to a New York paper, Senator Dietrich of Nebraska is in favor of employing convict labor in the cutting of the Panama Canal. He may possibly introduce legislation to this effect in Congress. Senator Dietrich bases his arguments in favor of such a plan on two grounds, the freeing of our public institutions of 25 per cent. of their non-productive prisoners; the reformatory effect of giving criminals their choice of confinement and of hard and somewhat remunerative labor. Briefly, the Senator's views are as follows:

"There are approximately 50,000 prisoners in the State and Federal penitentiaries. If 25 per cent. are able to stand the climate of Panama and do the work required, there is a body of at least 10,000 workmen ready to our hand at far less cost than any other possible force. But expense is not the prime factor. Our prisons now are simply safeguards to society, and the welfare of the confined is the last thing thought of. They leave prison penniless and without incentive to follow out peaceful employment. The convict's mind, morals, and health would profit by out of door and comparatively unrestricted confinement. Remission of sentence might be made for work of good character. Ten years of faithful labor on the isthmus should finish the sentence of the life convict, and the man sentenced to twenty years should go free, says Dietrich, after five years of it. Compensation might be fixed at 25 cents a day, half-payable during service, the other half at the end of the term of sentence. Volunteers only should be accepted, and thus the morale would be comparatively high."

Senator Dietrich confesses that there are grave objections to this proposition, but he is satisfied that the virtues of his plan will override its defects. It is certainly worthy of serious consideration. Let us remember that this is not merely a question of humanitarianism. The State is directly interested in reducing the amount of crime, and the number of criminals, and so reducing the vast amount of money expended every year on courts, and police forces, and prisons, and reformatories and insane asylums.

MINISTER DELCASSE.

At this time of tense international anxiety no statesman in Europe could be less well spared from his post than M. Delcassé, French Minister for Foreign Affairs. Therefore it will have come as a welcome relief to all the watching world of diplomacy that, on the urgent appeal of President Loubet, Premier Rouvier, and other foremost political leaders, M. Delcassé's resignation of his portfolio, announced on Friday, has been within twenty-four hours withdrawn. During the past eight years ministers have come and gone in Paris, five different Premiers have constructed Cabinets, but through all the changes M. Delcassé has remained undisturbed at the Quai d'Orsay. He has been retained, irrespective of political groups and parties, simply because the nation has recognized the preëminence of his qualities for the difficult and tremendously responsible duties of his office. Never once, in a succession of sharp crises, has his lofty patriotism been impugned. But when the very frenzy of war has threatened to surge over the country, his have been the calm, cool judgment and the strong controlling hand that have averted the disaster.

In those days of national bitterness, when the French flag hoisted on the Upper Nile by Marchand, the intrepid explorer, had to be hauled down in compliance with an ultimatum from Great Britain, it was Delcassé alone who saved both France and England from a calamity that would have been irreparable for both nations—for the conqueror no less than for the conquered. As the world now knows, Russia was ready to stand by her ally in the Fashoda affair. But while Paris clamored for war and the sensitive pride of France felt itself pricked to the quick, Delcassé had the moral heroism to refuse to let passion influence the dictates of prudence and reason. He yielded the point to England, and ere a year had passed, when sore feeling had subsided, all France was ready to acknowledge the debt of gratitude it owed him. And ever since 1899 the country has refused to entrust the conduct of its foreign affairs to hands less safe and less experienced.

But the Fashoda incident has been only one out of several similar episodes. Coming down to present times, Delcassé undoubtedly did more than any other man in preserving the peace between England and Russia after Admiral Rojestvensky had fired upon British fishing craft in the North Sea. Again his wonderful moderating influence has been revealed by the dignified manner in which France has treated Germany's menaces over Morocco—menaces couched in words that would have brought the country a decade ago to the verge of war. And now at this very writing France finds herself face to face with a new and a still graver danger. Alleged actions on the part of the Russian fleet in the Far East have called into question her attitude of strict neutrality. Only the nicest care and the finest judgment can steer the ship of state safely through such troubled waters, and for the helmsman to be changed at such a moment would have immeasurably increased the jeopardy. Hence the pressure that has been brought to bear on M. Delcassé to hold to his post even though health may be suffering through the intensity of the strain. By consenting to do so he has once more afforded a splendid proof of his patriotism.

THE EQUITABLE SITUATION.

Though columns have been published about the internal dissensions now vexing one of the giant insurance companies of New York, yet the general public, judging from some of the editorial comments we have seen, has but a confused notion of the real nature of the trouble commented upon. The Equitable Life Assurance Society of the United States, its exact title, is a stock company, organized in 1859 with a modest capitalization of $100,000. Its two great rivals, the New York Life and the Mutual Life, are mutual companies, and are governed by the votes of their policy holders.

The former president of the Equitable, James B. Hyde, had been the principal factor in building up the great business. Closely associated with him for nearly twenty years as vice-president and most trusted lieutenant, was James B. Alexander, who was designated to become his successor in case of death. President Hyde died in 1899, and in his will left 51 per cent., or a controlling interest of the stock, which had become, like the stock of the Chemical Bank, enormously valuable, to his son, the present vice-president, James H. Hyde.

Young Hyde was but 23 years of age and there was a proviso in the will placing the stock in trust in the hands of three trustees—James W. Alexander, Wm. H. McIntyre, and James H. Hyde, to be turned over to the last named when he should attain the age of thirty years. In one year Mr. Hyde will reach that age, and as he will then have control of his voting stock, it is presumed, and feared by some of the management, that he will secure a majority of the board of directors and seek promotion to the presidency.

The thought of resigning the presidency to this young society man was not a pleasant one to contemplate and hence the move on the part of President Alexander and his chief lieutenant, Second Vice-President Gage E. Tarbell, to anticipate that event by reorganizing the society, and by mutualizing it—that is, by so amending the charter as to place the voting power with the policy holders, to retain control of its business. In that event it was presumed that Mr. Alexander would be retained in the presidency, Mr. Tarbell be made first vice-president, and the affairs of the society would practically go on under the present régime and management.

In the course of this controversy, which was at first purely personal, the public became intensely interested on account of the vast interests involved. The Equitable has assets amounting to $400,000,000, and a surplus of $80,000,000, making an aggregate fund of nearly half a billion, which must be properly invested to obtain the best results. It is the fashion of the railroad companies and the industrial corporations to raise money for extending their enterprises by bonding their properties, and they have been eager borrowers from the big insurance companies.

Consequently we find in the Equitable directory such names as A. J. Cassatt of the Pennsylvania, George J. Gould of the Missouri Pacific, A. G. Vanderbilt of the New York Central, Sir Wm. C. Van Horne of the Canadian Pacific, Marvin Hughitt of the Northwestern, Robert T. Lincoln of the Pullman, Sidney T. Ripley of the Atchison, and James J. Hill of the Northern Pacific, and it was inevitable that when the differences were carried into the courts, as has been done, these magnates would be called upon to side with one or the other of the contestants. But, one thing certain is that the squabble is deplorable, and can do the Equitable Society no good. In fact it is sure to hurt the life insurance business, generally, for years to come.

Clay and Jackson.

Had the President remained in Louisville for a night of informal sociability he might have heard the story of the Kentucky Whig—one of Mr. Clay's numerous worshipers—who in conversation on one occasion, expressed the hope that when he died he might go to heaven, for one particular reason.

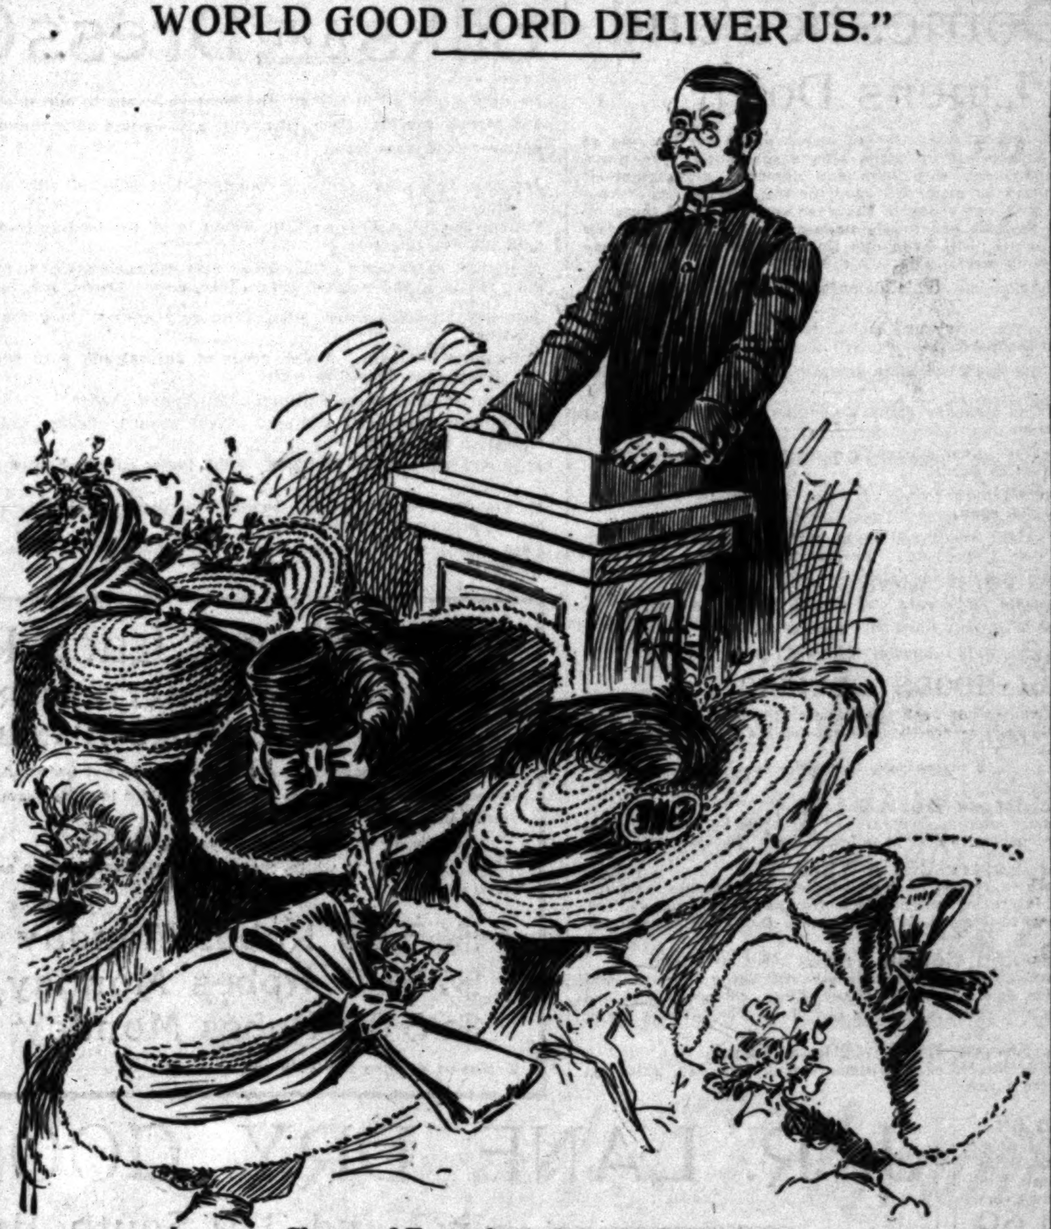
"And what is that?" asked his friend.

"I want to see how Henry Clay and Gen. Jackson are getting along."

"How do you know they went to heaven?" his friend inquired.

"They must have gone there. Had they gone to the other place the devil would long ago have been obliged to close it up. Heaven may have softened them toward each other, and if it has it will be worth the trip to see them together."—[Washington Star.

"FROM ALL THE POMPS AND VANITIES OF THE WORLD GOOD LORD DELIVER US."



Chorus of Easter hats: Amen and Amen.

THE HEART OF A CHILD.

Long ago, long ago, in world-madness,
(When spirit and heart were aflame,)
I lost the rare secret of gladness,
And wagered my all in a game.

I lost in the game; but I count it
No loss, for I turned it to gain.
No loss but strong will can surmount it,
And courage is offspring of pain.

Up and down through the world I have sought it—
This jewel more precious than gold;
So precious that gold never bought it—
So precious it never was sold.

Earth's highest, earth's lowliest places,
Alike were the haunts of my quest.
Everywhere I found care-furrowed faces,
And hearts that were pining for rest.

I turned away heartsick, unhoping,
From a world by sorrow defiled,
When lo! in the midst of my groping,
Dawned on me the face of a child.

As I looked in her eyes, soft and holy,
A vision of joy I beheld,
And surely, and sweetly, and slowly,
The gloom of my heart was dispelled.

Ere her innocent prattle was ended
I found it the speech of the wise.
All the loves of the universe blended
In the ultimate deeps of her eyes.

With the lore and the wisdom of sages
My soul was enriched and beguiled;
I have garnered the wealth of the ages
From the dewy-sweet lips of a child.

From the lisp of a child I have learned it—
The secret that gold cannot buy;
Through the eyes of a child have discerned it—
The love-light that never can die.

And the halo of hope is around it;
The quest was not futile nor wild;
For the jewel—at last I have found it
In the crystal-clear heart of a child.

THEO. M. CARPENTER.

Science and Farming.

Science is teaching the farmer how to combat successfully the diseases that break out among his crops and live stock. It is teaching him how, by a process of selection, to improve the quality and quantity of his crops. The "old-fashioned" farmer is not particular what kind of corn or wheat or cotton he sows. The scientific farmer goes through his fields every year and carefully selects the best ears of corn or the seeds of the best cotton, and saves them for next year's seed. The result is, the old-fashioned farmer raises about the same sort of crop year after year, whereas the scientific farmer raises a better crop every year. Scientists estimate that within fifty years the yield of the principal crops of the United States may be increased 50 per cent by seed selection alone.

Scientific agriculture has ceased to be a joke. It has already been worth many millions of dollars to the people of the United States, and it will be worth to them many hundreds of millions more.—[Chicago Tribune.

The Hopeful Woman.

"Woman is naturally more hopeful than man," began the moralist.

"Yes," interrupted the plain man, "there's my wife, for instance; every time she has had occasion to buy fish since we started housekeeping she has asked the dealer if they were fresh, hoping, I suppose, that some day he'll say 'No.'"—[Philadelphia Press.

GILLILAN'S HUMOR.

Unquestioning.

Now, John D. R., one quiet word,
And then we shall have done;
We've heard how some well-meaning man
Some reverend gospel gun,
Has scowled upon the taking of
Your ill-got gains from you—
The story's fully vouched for, and
We s'pose it must be true.

We read our Bible, John D. R.,
And never once we find
Within that blessed book of books
An instance of the kind.
The rich young man was told to sell
His substance and thaw out—
He wasn't questioned as to how
His wealth had come about.

And when Elijah lay and yearned
For food, and ravens came,
He didn't question if that steak
Were loaded down with blame;
He didn't ask if it was killed
By members of the trust
Or if the marketing of it
Had been in manner just.

So, John (one quiet word and then
We'll leave it all with you,)
If other folk disdain the coin
You place within their view,
I know a man, a friend of mine
('Tis only a suggestion,)
Would take whatever you might give
And never ask a question.

The Flood of Immigration.

It is thought that 63,000 immigrants have landed at Ellis Island within a period of fifteen days. That is an immense total, and as the great majority of the foreigners come from Southern Europe, the theorists are grieved. Of course, the optimists reminds us that Chopin was a Pole, and that Paderewski is his compatriot; that the great Kossuth came from Hungary, and that Italy has produced a vast host of eminent persons in all departments of art, letters and politics—the inference being that we may entertain some potential genius unawares at Ellis Island, or at least that in the next generation a most valuable element may be introduced into our composite population by this rich influx of southern blood. But that hopeful view does not rob the existing situation of its manifold menaces.—[Providence Journal.

THE LATE MRS. OTIS.

A Happy Project for the Creation of a Lasting Memorial in Her Honor.

Certain thoughtful friends of the late Mrs. Eliza A. Otis, desiring to perpetuate her honored name and keep forever green her precious memory, have just associated themselves together with that object in view. A unique and peculiarly appropriate plan has been conceived, which, when perfected and disclosed, later on, will strongly commend itself to her countless friends and admirers of her character and of the masterful pen-work that she did in such rich abundance throughout so many years.

The plan, in clear outline, will be given in person, or transmitted by letter, after Tuesday noon, April 25, to inquirers upon application to Hon. R. J. Waters, Citizens' National Bank, Los Angeles, who is acting for the Executive Committee, composed of well-known citizens, men and women.

This special invitation is intended for not only the immediate friends and personal acquaintances of her whom it is designed to honor, but also for scores and hundreds of others who never knew her in her lifetime, but were nevertheless her long-time admirers through her gracious personality and popular writings.

Inquirers by letter are requested to write their names and full addresses plainly.

The Way in Ireland.

Lawyer Tom Sullivan is back in the Criminal Courts building from Limerick with a new story.

"The railroad guards over in the old country take a whole lot of things for granted," said Mr. Sullivan yesterday. "For instance, whether you are a tourist or not they think you ought to know the name of every station. One day when we stopped at a village the guard stuck his head through the door and yelled:

"'Any wan there fur here?'"—[New York Sun.

acts of kindness, of of courtesy, to such as you today, are Easter will bloom beside life's the whole year long.

"Doc" Howton, alias Houghton, the spurious spook of East Twenty-ninth street and the Council chamber, has invited himself to head a "movement" that shall lead to the holding of a world's fair in Los Angeles in 1909. In an attempt to have himself taken seriously he has made bold to use the names of a score or more of prominent citizens as tentatively allied with his irresponsible scheme, and Earl's gullible Express, under a two years' contract to lick the "doctor's" boots in public at least four times each week, has printed the unauthorized list. The Lancer has a picture of this foolish-dream fair, also a pen sketch of the Honorable Council voting an appropriation of $65 for an exhibition cage to contain Howton, alias Houghton, as the main attraction—a swollen spook surrounded by a drove of union-labor screamers playing "Hail to the Chief" on assorted bagpipes; at one side Eddie Earl, wearing cap and bells, as exposition "barker" and ticket taker. Some Sunday morning we may print these pictures, if space permits.

One "Monte" Attell defeated an individual called "Kid" Taylor in a private prize fight in the top story of one of New York's quiet uptown hotels. "Taylor doubled up and fell in his chair. At the call of time for the next round he could not get up, although still conscious, so the referee gave Attell the decision," concludes the dispatch reporting the fray. Delightful to contemplate, is it not? So fair and square and sportsmanlike. "Among the spectators were lawyers, brokers, a few theatrical managers and a liberal sprinkling of young athletes from several college clubs," says the dispatch. And yet good, simple people wonder why the prize fight as an institution cannot be kicked out. Well, respectable folk support it; that's why.

The Examiner of late has been printing laudatory articles telling of the tremendous growth and big business success achieved by the Hughes Bros. Company, how it has come to have the largest planing-mill concern on the Pacific Coast; all of which is eminently true. But there's a joke, and it's too good to be overlooked: All this fine success is the result of dethroning union bossism in the Hughes plant. It came after a "boycott."

Until two years ago the Hughes mills were under union domination. A strike came and a boycott was declared. Then the Hughes brothers took their own business into their own hands and kicked the totem out; served notice that thenceforth and forever their mills would be run as strictly non-union plants. Instantly they began to grow, until at present the Hughes Bros. Planing Mill is the biggest and best known on the Coast. See what the boycott did.

Now local union bosses are laying the whip on the dunderheaded editors of their Morning Mouthpiece and calling them all manner of snappish names for having in dull-eyed ignorance slapped totemism full in the face. It is very droll; and Hearst's Howler is highly humorous when it is not insanely idiotic.

Shakespeare Commemoration.

Those among club women who are lovers of Shakespeare have been invited to join the Shakespeare Club in a Shakespeare Commemoration programme on Friday, April 28 at 2 o'clock at Cumnock Hall.

A reciprocity programme has been provided, representatives from the Shakespeare sections of the different women's clubs having been invited to participate. W. C. Patterson will address the women for the University Club and a representative from the Newman Club will also speak. B. R. Baumgardt from the Academy of Science is to make an address on personal recollections of Hamlet's Castle at Elsinore. Mrs. Addie Murphy Grigg will give a Shakespeare reading and there will be Shakespeare songs by Charles Farwell Edson. An original sonnet will be given by Paul England.

The whole affair is in commemoration of the birthday of Shakespeare which occurs this week.

Club membership tickets will admit owners to the affair.

Another Tunnel Solution.

LOS ANGELES, Cal., April 22.—[To the Editor of The Times:] Various and sundry solutions of the Third Street Tunnel problem have been submitted to the public through your columns.

Daily passing through that rather sepulchral subway has impregnated my mind with a "new-thought" germ, which, after some labor, has brought forth one more scheme for the betterment of the aforesaid subterranean avenue. I invoke the patient indulgence of the public while I evolve my "modum operandum."

The tunnel is about 30 feet in width. Let the city construct through the center of the tunnel, a substantial walkway, 2 to 3 feet high, and 7 to 8 feet wide, with sufficiently high side railings. This walkway may be built of suitably heavy timbers for support and flooring, or of brick or cement if preferred. An incline may begin at Hill street leading up to the elevated walkway, for the convenience of pedestrians. The width (7 or 8 feet) of the walkway, would leave about 11 feet on either side for a driveway. Thus going or coming, always to the right, collisions or accidents would be impossible. Pedestrians on the elevated side-railed walkway would be absolutely beyond harm. If sufficient space could be spared from the driveways for a 3-foot bicycle way on each side, that would be a further improvement.

The central walk would simplify and lessen the mud scraping and cleaning the tunnel. Being elevated in the center would also insure a dry walk, as all the drippings are from the side walls on the present sidewalk. Then replace the small incadescent lights with 3 or 4 arc lights and we will have a safe, comfortable walkway through this at present dismal thoroughfare. If the city will adopt this plan and put it into effect, within 90 days from date, I will make no charge for this suggestion.

PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

Mayor McAleer yesterday vetoed the ordinance recently passed by the Council for establishing a new lighting system on Spring street.

R. A. Stassforth was yesterday appointed secretary of the Fire Department, former Secretary Burn's application for reinstatement being denied.

Figueroa street property owners yesterday filed a supplemental protest against the sale of a street railway franchise over that thoroughfare, between Washington and Jefferson streets.

Judge Wilbur has handed down a decision in the will contest of Nathaniel Bell, with the result that Mrs. Bell and her two sons are declared the rightful heirs.

Copyists in the recorder's office are again disturbed by the possibility of their services being dispensed with.

In the Police Court yesterday John Bozeman, who has been harbored at a fake charity institution on East Fourth street, was sentenced to 120 days for petty larceny.

B. Andrews, a carpenter, was sent below for twenty-five days for smashing up his household goods and threatening to kill his wife.

Heavy fines were assessed against violators of the bicycle ordinances.

AT THE CITY HALL.

MAYOR VETOES LIGHTING LAW.

TELLS COUNCIL CITY CANNOT AFFORD EXTRA EXPENSE.

Willing to Bear a Portion of Expense of Furnishing Illuminant for Spring Street, but Thinks Property Owners Should Help—Still Considering Hill Street Ordinance.

Mayor McAleer yesterday morning returned to the City Clerk without his approval the ordinance for establishing a new lighting system on Spring street from Temple street to its southern terminus, and on Main street from Ninth to Tenth streets.

Accompanying the ordinance was the following veto message:

To the Honorable City Council.

Gentlemen.—I return herewith, without my approval, an ordinance adopted by the council on April 10th, declaring its intention to order the necessary appliances to be installed for lighting with electricity Spring street from Temple street to Ninth street, and Main street from Ninth street to the east line of Broadway produced.

My objections to this ordinance are the following:

It makes no provision for furnishing the necessary electric current for the proposed lighting—although framed and passed under a State statute providing for the erection of apparatus for lighting public streets with electricity and the furnishing of the electric current for such lighting, and for paying the cost of both such apparatus and current by an assessment against the property benefited by the same.

I am informed, and assume it to be true, that the promoters of this improvement intend to ask the city to provide the electric current at its own expense, and, in case their request is granted, that promoters of similar improvements on Hill street and Main street, will also ask the city to grant a like favor for them. These requests would be of equal merit, and to grant them all would involve an expense to the city of about $70,000 a year for an all-night service, as against about $2500 a year, the present cost of lighting those three streets between the same points. The city is in no condition financially to bear this enormous addition to its present lighting bill. While it must be admitted that this is a poorly lighted city, particularly in the residence sections, this is due to lack of funds to pay for additional lights. The present cost of lighting our 400 miles of streets is about $116,000 per annum. To increase this amount by $70,000 in order to provide additional lights on only four miles out of a total of 400 miles of streets in the city would be unjustly discriminative against the more poorly-lighted parts of the city, and would be an unwarranted and wasteful use of the public funds.

Furthermore, the greater part of the proposed lighting of the three streets mentioned would be for the purposes of ornament and display only, and, certainly the cost of this should not be met out of funds raised by taxation for the necessary expenses of the city.

The city has immediate need for more than one hundred thousand dollars for the repair of streets damaged by this winter's storms, but has no funds with which to do this necessary work. Under these circumstances, I think that the ordinance should be amended so as to provide that the cost of furnishing the current for lighting the lamps in question should be borne by the property to be especially benefited by the improvement.

When the ordinance creating a district for lighting Spring street was under discussion in the Council the Mayor announced that he would oppose it unless the property owners agreed to bear the expense of furnishing the lights. Nevertheless it passed the Council with but one dissenting vote.

Last Monday the Council passed a similar ordinance affecting Hill street. It is expected that the Mayor will veto this ordinance also. But members of the Council assert that they have the necessary seven votes to pass both ordinances over the executive veto.

These Want Pensions.

Ex-Fire Chief Thomas Strohm, Helen Johnson, widow of a former captain in the fire department, Charles Fuselehr and Hugh Heaney yesterday made formal application to the Fire Pension Board for annuities from the pension fund. Heaney and Fuselehr are pensioners who have come down to the present Board from a former administration.

Attorney Haas presented ex-Chief Strohm's application. It was backed by certificates from Dr. Pallette and Dr. Choate to the effect that the ex-chief was injured at a fire several months ago and is not in condition to render active service. Mr. Haas said that Dr. Choate has expressed the opinion that Chief Strohm's retirement was really necessary on account of his physical condition, that to remain longer in active service would be practically suicidal. He said that Strohm remained in the department against the advice of his physicians because he desired to round out a twenty years' term of service in the department.

All applications were referred to special committees for investigation.

PERMITS AND PROTESTS.

FIRE BOARD MISCELLANY.

E. C. Hurth's Sixth Ward neighbors yesterday made a very strenuous protest to the Fire Board against his application for a permit to operate a distillate engine at 1023 East Adams street. Hurth asked several days ago for permission to withdraw his application, but his neighbors yesterday insisted that it must be denied.

A representative of a local manufacturing company explained the purport of the torrid protest. He said that Hurth has made a contract with his company for a distillate engine. If the protest were withdrawn the company could get a judgment against Hurth; if it is denied they have no recourse.

Dr. Brown who headed the protest admitted that the agent's statements are correct but he insisted that there are mitigating circumstances. After listening to an extended argument the commission permitted Hurth to "withdraw his application to withdraw" and denied the application.

Stassforth is Secretary.

"Bobbie" Burns appealed to the Fire Board from the decision of the Civil him a place on the eligible list for secretary of the fire department.

Burns was permitted by the Civil Service Commissioners to take the examination for secretary. He passed at the head of the list. Rumors came to the ears of the Civil Service Commissioners that there were things unexplained in connection with Burns's resignation as secretary of the department four months ago. Last Tuesday afternoon Burns was summoned before the Civil Service Board and closely questioned about the reason of his resignation. The result of this inquisition was that Burns's name was stricken from the eligible list.

The Fire Board unanimously sustained the decision of the Civil Service Board, appointing R. A. Stassforth secretary of the department.

Stassforth's name is the only one on the eligible list, but he is forty years old, five years past the age limit fixed in the rules of the Fire Board for employing new men in the department.

Chief Lips reported adversely on Caesar Burns's application for a fuel and grain yard permit. He said that there is a large protest from surrounding property owners and that considerable fire risk would be entailed.

These Are New.

New applications were referred to the Fire Chief as follows: J. M. Barnett, gasoline engine for planning mill, No. 156 South Gless street; Sunset Dye Works, steam boiler, No. 550 Mateo street; Pilgrim Iron Works, gas engine for machine shop, No. 1000 North Main street; A. I. Like Carriage Works, distillate engine, No. 717 South San Pedro street; J. K. McHugh, boarding stable, No. 287 East Second street; T. M. Joseph, blacksmith shop, No. 223 Alpine street; Marshall Floor & Supply Company gasoline engine for planing mill, No. 2002 Enterprise street.

Did Not Keep Faith.

E. P. Weber's failure to erect a brick building for his machine shop at No. 1501 Central avenue cost him his permit.

A month ago Weber secured a permit under pledge to erect a brick business block. Weber subsequently let a contract for a frame building; his neighbors protested and the commission reconsidered its action in granting the permit.

Weber made a new application and the Fire Board appointed a special committee to investigate conditions. This committee yesterday reported adversely on the application. Weber's attorney protested, claiming that Weber had expended $8000 on the strength of his permit, that there was nothing in the permit about any brick building and that the board had no right to confiscate property without compensating the owner.

But the commissioners refused to overlook Weber's violation of his pledge to erect a brick building and refused to reissue the permit.

COPYISTS AGAIN HAVE SPASMS.

FIRM OFFERS TO DO DOUBLE WORK FOR HALF PAY.

That Typewriting Law Still Haunts the Recorder's Office, and the Offer of an Outside Company May Throw Out Some of the Young Women—A Qualifying Doubt.

The lady copyists in the office of County Recorder Hartwell have had another spasm.

When the erroneous copy of the law affecting the copying department was first promulgated, and they then learned that typewriters were to be installed, an attack of hysteria threatened. Indeed, the excitement was only allayed when it was discovered that the company supplying attorneys and the county officials with "code slips" had bungled and had miscopied the amendment.

But this time the spasm is legitimate. The installing of typewriters for copying work is, under the law, optional with the Recorder, but the economy of work so done in book space, in legibility, and general convenience is so far beyond dispute that quietly and unobtrusively it had been determined to introduce a batch of typewriting machines in the near future.

Typewriting schools have been well patronized lately, and some of the copyists in the Recorder's office have been credited with getting ready for the change in method said to be imminent. The idea is said to be to keep a double set of operators going on alternate days, so that the full force of copyists would still be retained on the office rolls, each would make as large a monthly stipend, and the political patronage would not suffer any lopping off.

Now the copyists—or such of them as know about it—are having the thrills for the reason that a danger is threatening every woman in the office. A typewriting firm on the outside has offered to do all the county recording at bed-rock prices, put up bonds for faithful performance, and guarantee satisfaction on the no-pay basis unless everyone is satisfied. Barring the women copyists, of course.

This firm furnishes its own machines and expert operators, and will record on insertable leaves every document or paper filed for 5 cents per folio. That is a saving to the county of 2 cents a folio or, as the firm calculates, about $12,000 in each year. But the typewriting firm maintains that such a contract is close figuring, taking into consideration the wear and tear on the machines, and they say they cannot afford to take the contract for less than four years. But they proceed to make the bait more attractive by averring that in such four years such a contract would save to the county about $54,000. At the current rate of 7 cents per folio the cost to the county is about $43,000 per year, and on the 5-cent basis offered the amount would total only about $30,674, or a saving of $12,326.

As if this attack upon the copyists were not enough, the typewriting firm with gentle irony offers to employ every operator the County Recorder may have in his office at a salary of $100 a month—if he or she can qualify. The firm adds that there is some doubt about their being able to qualify.

MRS. BELL WINS.

ELLA B. GOLDNER'S CLAIM.

In her suit to have the court determine that she was the legitimate child of the late Nathaniel Bell, and, in such event, entitled to the fortune he left at his death, Mrs. Ella Bell Goldner has failed to establish the first claim and has of necessity failed in the second.

Judge Wilbur yesterday handed down an opinion in which he decides in favor of Mrs. Nathaniel Bell on every issue.

Mrs. Goldner came up from her home in Mexico, where her husband is engaged as manager on a large ranch, to settle the question of her legitimacy and incidentally collect the fortune that has been estimated at from $50,000 to $300,000. She claimed that Bell was married to her mother, Librada Valencia and, if not, that she was legitimatized under the provisions of Section 230 of the Civil Code of this State. All the transactions involved in the case occurred in New Mexico between the years 1872 and 1877. Not until twenty years later did Bell come to Los Angeles and make his home.

Bell's marriage to Librada Valencia was to be established by co-habitation and by the declarations of Bell at that time. No regular marriage was claimed.

"Each of the parties," says Judge Wilbur, "married during the life of the other and Librada Valencia had been married before the alleged marriage with Nathaniel Bell, and her husband was still living. It is shown that she lived with six or seven different men, and Mrs. Goldner testified that her mother was 'married' to one Lynch and later to one Marshall.

"I am satisfied from all the evidence that the deceased and Librada Valencia were not married; that the facts of the case overcome the presumption of innocence which would ordinarily attach to the conduct of the deceased and Librada Valencia, assuming the evidence of the plaintiff's witnesses to be true.

"With reference to the legitimatization, it is not contended that the laws of New Mexico were complied with, and I am satisfied that Section 230 of the Civil Code is a law of status rather than a law of inheritance, and would only control as to parties domiciled within this State."

The findings ordered are: that the deceased and the Valencia woman were not married. That Ella Bell Goldner was never received into the family of the deceased, nor treated as his legitimate child; that all the facts occurred in New Mexico and were not sufficient to legitimatize an illegitimate child; nor was the plaintiff legitimatized or adopted in accordance with the laws of New Mexico, and that she is not Bell's lawful, legitimatized or adopted daughter.

Finally the court holds that Bell married Susan Wulfolk Bell in October, 1884, and that she is his lawful widow; and that she and his two sons are the sole heirs to the estate.

From first to last this suit was one of unusual interest, and the brief filed by Attorney H. C. Dillon, representing Mrs. Bell, is said to have been one of the most exhaustive and complete ever filed in this county. Mr. Dillon employed a new method in getting up his case. Every fact with every possible objection that could or would be raised had been neatly jotted down in a small book made up of insertable leaves. Quotations from authorities in typewriting were inserted to sustain any fact or contention, and when the trial began Mr. Dillon had a veritable volume containing every ramification of the case with all the intricate law points that might be sprung on him with the authorities to rebut or sustain them.

JUDICIAL FAMILY MEETS.

DISCUSS WORKING RULES.

All the judges of the Superior Court met yesterday in the chambers of Presiding Judge Trask for the purpose of discussing ways and means for disposing of the large accumulation of cases.

With one exception no absolute rule was determined upon. The exception was to determine that the vacation term will begin on August 21 and end September 11, thus limiting the vacation this year to three weeks. Apart from this—which is not exactly a rule of court—it was thought by all the judges that it would be better to refrain from making any cast-iron rules at the present time. Despite a congested calendar, cases not infrequently have been continued at the last minute, perhaps have been compromised, or something else may have happened that resulted in leaving a blank day in court when dozens of cases were ready and attorneys clamoring for trial. Instead of making any hard and fast rule to meet such an exigency it was determined to give the utmost latitude to the presiding judge so that these blank places on court calendars may be filled from other departments.

Divorce suits are always at the front and the plan of making them fit in any nook of the idle time will be followed until the judges have overtaken their work; then—well, even then it is doubtful whether any one judge will care to tackle all the divorces. As things are, the bad taste is wiped away by the ordinary routine of court.

Despite the pressure in the probate department, where Judge Wilbur has been handling the probate calendar, the insane cases, and the juvenile court no separation of these several departments is contemplated at once. At no distant time, however, it is thought that more time will have to be devoted to the juvenile court, more especially as the judge is now obliged under the amended labor law to give considerable time to passing upon applications by minors under 14 years of age and their parents or guardians for permission to work.

TWO LARGE ESTATES.

BANK HOLDS THE WILL.

Julia Eliza Hart and Joe Schweikert have petitioned for the probate of the will of the late James H. Ashdown, who died on April 13 at Winnemucca, Nev. The deceased was a resident of this city and left an estate valued at $112,000, and a will bearing date of May 13 of last year. It is set out in the petition that the will is in a safety deposit box in the Union Savings Bank, Pasadena, and the bank officials refuse to make any delivery or allow access to the box save under order of court. In these premises the court is asked to make the required order and that the will be admitted to probate.

Probate is also asked for the will of the late H. W. Stoll, who died on April 24 in this city. His estate is valued at $120,000, the realty consisting principally of the family residence on Hill street, the Los Angeles Soda Works on Commercial street, and the land upon which stands the Pasadena Soda Works at Pasadena. The plant at both of these places is valued at about $90,000, and the balance is personal property.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

WAS GLAD OF IT. Pompey Smith was tickled when he went into court yesterday. He had no idea of standing trial for carving another colored man, Fred Cunningham. He told Judge Smith that he knew all about it and was ready to plead guilty. But Pompey had been twice before the court on previous occasions and for exactly the same offence. He had been too handy with a knife. But Pompey laughed yesterday and showed his teeth, and said "De Jedge knowed all 'bout hit, an' he put hit up to him." Then he grinned some more and the grin didn't fade away either though he was sentenced to Folsom for five years.

PATENT OIL BURNER. The Jaeger Oil Burner Company has incorporated with a capital stock of $100,000, of which $50,000 has been subscribed. The directors are: J. W. A. Off, F. J. Steele, M. M. Graves, E. F. Wehrle, Los Angeles, and F. W. Jaeger, Palms.

SENTENCE DEFERRED. John F. Oleson, convicted of embezzling Mrs. Thurber's diamonds, was to have been sentenced yesterday. Attorney Peck represented to the court, however, that efforts were being made to restore the diamond ear-rings and the presence of Oleson was necessary in order that the good work should go on. With this view of the case Judge Smith continued the matter for ten days.

BARBEE NOT THERE. Barbee S. Hook was to have been arraigned yesterday but as both he and his attorney were out of the city the case was continued until Tuesday.

PUBLISH NEW PAPER. The Realty Publishing Company has incorporated with a capital stock of $20,000, of which $2002 has been subscribed. The directors are: E. F. Morgan, L. R. Hill, W. H. Neiswender, C. B. Neiswender, Los Angeles and W. E. Cox, Pasadena.

MACHINISTS AND PLUMBERS. The Marine Supply Manufacturing Co., Ltd., has incorporated with a capital stock of $10,000, of which $5000 has been subscribed. The directors are: O. Bump, E. J. Chapin, A. M. Bump, Ocean Park, and G. F. Lewis and Z. E. Lewis, Los Angeles.

THE INFERIOR COURTS.

"GEN." MOORE'S "ARMY" BOBS UP.

HARBOR FOR CROOKS, POLICE OFFICER SAYS.

Bozeman, Erstwhile Pepper Thief, Quarried There When Caught on Another Job—Gold Nuggets Got Colored Youth Into Trouble—Deaf Carpenter Broke up Home.

John Bozeman, who was convicted of petit larceny, for stealing a pair of scissors from a rooming-house, was yesterday sentenced to 120 days on the chain gang. As three gold rings were missing from the same room from when the scissors were taken. Bozeman is supposed to have got those also and sold them before his arrest.

He is the individual who was the subject of more or less newspaper humor because he stole a big lot of pepper from a wholesaler in February, for which he served forty days on the chain-gang. The scissors would have sent him to the penitentiary if the "prior" had been put against him but it wasn't, probably because it looked like small game.

"General" Moore's Union Mission Army, whose only headquarters is the pocket of the "general," and a cheap lodging-house on East Fourth street, came into notice through the testimony of the officer who arrested Bozeman and his pal, Frank Boyle, as being the hang-out of the two crooks. The officers now have a weather eye on that joint, and would-be philanthropists who are being gulled out of money for the support of this particular "army," should take notice.

SWEET GOLD NUGGETS.

LOOT SOUNDS LIKE WEALTH.

Emmet Wilson (a thousand apologies to the Sixth Ward member of the Board of Education) was yesterday convicted of stealing a nickel's worth of candy. This particular Emmet Wilson is a colored boy, who testified on the stand that he was working for the Express.

To put a better jingle in the charge against him, it was said that he was guilty of stealing "gold-nugget candy." He was one of a bunch of a dozen hoodlums who "rushed" an old candy-seller on Los Angeles street and each grabbed a handful of his goods.

Wilson was sentenced to pay a fine of $5 or go to jail. It was high-priced candy, but he decided to buy it at Justice Austin's price and paid the money.

DEAF CARPENTER.

WOULD MURDER HIS WIFE.

A carpenter named B. Andrews, who is deaf as a stone, was arrested yesterday for abusing his wife but was released upon promising to be good. He immediately returned home and started in to smash the household, including his wife.

He threw dishes at her and drove her all over the house and finally into the yard in her efforts to escape him. An 18 year-old son was constantly on his father's trail and prevented the mother from being seriously injured if not killed.

The war was still on when the officer arrived and placed Andrews under arrest, and after trial in court in the afternoon he was sentenced to pay a fine of $25 or go to jail for that length of time. He went to jail.

WARNING TO BIKERS.

SMALL OFFENSE, BIG FINES.

Both boys and men who persist in riding their bicycles on the sidewalk, have had many expensive lessons through the Police Courts, but every day the same haul is presented at the bar.

The lesson seems to do little toward stopping the practice, and the justices have raised the limit of the minimum fine to $5, in the hope that it will attract the attention of all riders and warn them. For failure to have a bell or other effective alarm on a wheel dozens of riders have in the past few weeks been fined $2 and $3 each.

That Figueroa Franchise.

Property owners on Figueroa street between Washington and Jefferson streets are not yet through protesting against the advertisement of sale of a street railway franchise over their thoroughfare.

Another installment of their protest was yesterday morning filed with the City Clerk. It recites that a number of the names appearing on the application for the franchise are those persons who "have been" owners of property on Figueroa street at dim and distant periods in the past but have long since sold their interests and moved away.

The protest is signed by a majority of the property frontage on Figueroa between Washington and Jefferson streets. The application for the franchise was referred to the Board of Public Works three weeks ago. There is to be a public hearing next Friday afternoon.

This is Garden Hose.

Members of the Council Supply Committee were compelled yesterday morning to go through the ordeal of another hose controversy. This time the contest was over the award of a contract for 1000 feet of garden hose. J. W. Hellman had made the low bid, 13 cents a foot, but his guarantee was not satisfactory to the committee. Harper & Reynolds' bid was 3 cents a foot higher, but the guarantee covered a term of two years, without any reservations.

Park Superintendent Morley said that the hose which Hellman offered is the same manufacture as much of the hose now used in the parks. Morley said it would last one year, but he was doubtful about two years.

The committee recommended the award of the contract to Harper & Reynolds and Hellman promptly served notice of appeal to the Council.

Absolutely Certain Cures For Men

DR. O. C. JOSLEN,
The Leading Specialist

FOR 17 YEARS PAST AT THE VERY HEAD OF HIS PROFESSION

The ability of a physician is measured by the cures he makes and not by the number of diseases he treats. My stand has been taken on that broad ground, and the thousands of permanently cured patients that I have the country over are ample testimony of the efficiency of my treatment. My methods are strictly modern and entirely original with me.

"WEAKNESS"

If other physicians have treated you for so-called "weakness," you were helped only temporarily, if at all, and the reason is very apparent when the cause of loss of power in man is understood. "Weakness" isn't a weakness at all, but is merely a symptom of chronic inflammation in the prostate gland. My system of local treatment removes this inflammation, and is the only treatment that has ever, or ever can permanently restore strength and vigor.

VARICOCELE

Most doctors and specialists will tell you that an operation is necessary to the cure of varicocele, and thousands of men who dread the knife and sacrificing health, and possibly life itself, to this delusion. I guarantee to cure varicocele in one week and without cutting, caustic, ligature or pain. The treatment I employ is an original one, and no other doctor attempts to cure varicocele by a process at all similar. I invite men suffering from varicocele to call and investigate the claim I make.

CONTRACTED DISORDERS

Every case of contracted disease I treat is thoroughly cured. My patients have no relapses. When I pronounce a case cured there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the disease will return in its original form or work its way into the general system. No contracted disorder is so trivial as to warrant uncertain methods of treatment, and I especially solicit those cases that other doctors have been unable to cure.

The above—together with Lost Vigor, Specific Blood Poison, Organic Weakness, Stricture, Hydrocele, Piles and Reflex Ailments—constitute my Specialty, and are the only diseases I treat.

My fees are fair, my cures permanent, and you can pay when satisfied that you are well.

ONLY THE MASTERS WORK SUCH CURES

We Ask That Our Friends Call on or Write Those Who Testify That They Have Been Cured and Investigate for Themselves.

During the past three weeks, we have treated hundreds of patients and our business is constantly increasing, such an increase can only mean one thing, viz: that we are CURING OUR PATIENTS.

Our policy of donating our office services free and charging only for the actual medicines used has met with public approval, and will be continued for a short time.

Remember that CONSULTATION, EXAMINATION and TREATMENT ARE FREE, and that such medicines that are used by the patient at home will be furnished you at less cost than you could purchase them in the drug stores.

Our reasons for making such a liberal offer are that we wish every sick person in Los Angeles to know that they can be cured.

Notice of Street Work.

Public notice is hereby given that on Monday, the 27th day of March, A. D. 1905, the Council of the City of Los Angeles, did, at its meeting on said day, adopt an Ordinance of Intention, Number 10,806 (New Series,) to have the following work done, to wit:

1st. That

TWELFTH STREET

in said city from the west line of Vermont avenue to the east line of Harvard Boulevard, including all intersections of streets, (excepting such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also excepting such portions as have already been graded and graveled and accepted,) be graded and graveled in accordance with the plans and profile on file in the office of the City Engineer, and specifications for the construction of graveled streets in the City of Los Angeles on file in the office of the City Clerk of said city, said specifications being No. 16 (New Series) and adopted by Ordinance No. 8571 (New Series.)

2nd. That a cement curb be constructed along each line of the roadway of said Twelfth street, from the west line of Vermont avenue to the east line of Harvard Boulevard, (excepting along such portions of the line of said roadway upon which a cement or granite curb has already been constructed to the official line and grade,) in accordance with specifications for constructing cement curbs, on file in the office of the City Clerk, said specifications being No. 1 (New Series) and adopted by Ordinance No. 8572 (New Series.)

3rd. That a cement sidewalk five (5) feet in width be constructed along the north side of said Twelfth street from the west line of Vermont avenue to a point 100 feet east of the east line of Berendo street, and from a point 40 feet west of the west line of Berendo street to the east line of Harvard Boulevard, (excepting such portions of said street between said points along which a cement or asphalt sidewalk five (5) feet in width has been constructed to the official line and grade,) said sidewalk to be constructed in accordance with specifications for constructing cement sidewalks on file in the office of the City Clerk of said city, said specifications being No. 2 (New Series) and adopted by Ordinance No. 8572 (New Series.)

4th. That a cement sidewalk five (5) feet in width be constructed along the south side of said Twelfth street from the west line of Vermont avenue to the east line of Harvard Boulevard, (excepting such portions of said street between said points along which a cement or asphalt sidewalk five (5) feet in width has been constructed to the official line and grade,) said sidewalk to be constructed in accordance with specifications for constructing cement sidewalks on file in the office of the City Clerk of said city, said specifications being No. 2 (New Series) and adopted by Ordinance No. 8572 (New Series.)

5th. That a cobble-paved gutter be constructed along each side of said Twelfth street from the west line of Vermont avenue to the east line of Berendo street, also across said Twelfth street along each side of New Hampshire avenue, the center line of the gutter to be the produced curb line of New Hampshire avenue, (excepting along such portions of the line of said roadway upon which a cement or granite gutter has already been constructed to the official line and grade, and also excepting such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon.)

Said gutters shall be three and one-half (3½) feet in width excepting at intersections of streets, where said gutters shall be seven (7) feet in width; and said gutters shall be constructed in accordance with the plans and profile thereof on file in the office of the City Engineer, and in accordance with specifications for the construction of cobble-paved gutters on file in the office of the City Clerk, said specifications being No. 7 (New Series) and adopted by Ordinance No. 8572 (New Series.)

Sec. 2. The Council of said city hereby finds upon estimate of the City Engineer, that the total cost of said improvement will be greater than fifty cents per front foot along each line of said street, including the cost of intersections, and it is hereby determined, in pursuance of an act of the Legislature of the State of California, approved February 27th, 1893, as amended by an act of the Legislature amending said last-named act, which amending act became a law March 2nd, 1899, that bonds shall be issued to represent the cost of said improvement. Said bonds shall be serial, extending over a period of ten years, an even proportion of the principal sum of which shall be payable annually, on the second day of January of each year by coupon, after their date until the whole are paid, and to bear interest at the rate of seven per cent. per annum, payable semi-annually on the second days of January and July of each and every year.

Reference is hereby made to said Ordinance of Intention for further particulars.

ORDINANCE NO. 10,917.

[New Series.]

An Ordinance declaring the intention of the Mayor and Council of the City of Los Angeles to change and establish the grade of London street from Casco street to a point 550 feet westerly therefrom.

The Mayor and Council of the City of Los Angeles do ordain as follows:

Section 1. That it is the intention of the Council of the City of Los Angeles to change and establish the grade of

LONDON STREET,

from Casco street to a point 550 feet westerly therefrom, as follows:

At the intersection with Casco street the grade shall be 403.00 at the northwest corner and 404.00 at the southwest corner, as now established.

At a point on the north side 50 feet west of the west line of Casco street the grade shall be 405.00.

At a point on the north side 550 feet west of the west line of Casco street and at a point on the south side opposite thereto the grade shall be 407.22.

And at all points between said designated points the grade shall be established so as to conform to a straight line drawn between said designated points.

Elevations are in feet and above a plane which is 255 feet below City datum plane.

Sec. 2. That the exterior boundaries of the district which is hereby declared to be benefited by said change of grade and to be assessed to pay the benefits, damages and costs thereof are hereby described as follows: Beginning at the most southerly corner of lot 9, block 5, Hutchinson Tract, as per map recorded in Book 12, at page 36, Miscellaneous Records of Los Angeles County; thence westerly in a direct line to the most westerly corner of lot 7, said block 5; thence southerly in a direct line to the most southerly corner of lot 6, said block 5; thence westerly in a direct line to the most westerly corner of lot 1, said block 5; thence westerly along the produced southerly line of said lot 1 to a point in the produced easterly line of Sonoma street; thence northerly along the produced easterly line of Sonoma street to the most westerly corner of lot 6 of Shafer and Town Tract, as per map recorded in Book 19 at page 65 Miscellaneous Records of Los Angeles County; thence northerly along the easterly line of Sonoma street to the most northerly corner of said lot 6; thence easterly in a direct line to the most easterly corner of said lot 6; thence northerly in a direct line to the most northerly corner of lot 16, block 4, said Hutchinson Tract; thence easterly in a direct line to the most easterly corner of lot 10, said block 4; thence southerly along the westerly line of Casco street to the point of beginning.

Excepting therefrom any portion of any public street or alley which may be included within the above described district.

Sec. 3. The City Superintendent of Streets shall cause notice of the passage of this Ordinance to be posted in the manner and within the time provided by law.

Sec. 4. The City Clerk shall certify to the passage of this Ordinance and shall cause the same to be published for ten days in the Los Angeles Daily Times and thereupon and thereafter it shall take effect and be in force.

I hereby certify that the foregoing Ordinance was adopted by the Council of the City of Los Angeles at its meeting of April 10, 1905.

A MILLION BARGAINS

THINGS EVERYBODY NEEDS

Tremendous Sacrifice of $75,00

ALTERATION AND ENLARGEMENT SALE

Gigantic Bargain Event Of Importance to Everybody

We shall double our floor space and double our frontage on Spring street, thereby enabling us to more than double our present big business.

The values of these increased facilities can hardly be estimated by one not acquainted with the Hale method of retailing. However, although we are compelled to sacrifice at least $75,000 worth of our present stock, yet we will be more than compensated by the much-needed improvements.

We find it impossible to crowd into one page all the remarkable values we are offering. We would merely state that we have been forced to print some of the best values in small type. You cannot afford to miss a single item. Remember that every day new things will be brought forth so that Tuesday, Wednesday, Thursday, Friday and Saturday we will offer just as great values as you'll find here Monday.

Three Extraordinary Bargains

Highly mercerized chambray and madras, 32 inches wide, some plain, some striped. Original prices 20c and 25c. Alteration sacrifice, 10c.

Short lengths of dress ginghams, 5 to 20 yards in each piece, including toil du nords, Red Seal, and A.F.C. ginghams. Regular 10c and 12½c quality. Alteration sacrifice, 8 1-3c.

Shepherd checked voiles and other wash materials, including blue checks and black checks, and the popular Shepherd checks. Regular 20c and 25c materials. Alteration sacrifice, 10c.

Dept of Baby Flannels, Etc.

This busy department will be moved to an entirely new spot when alterations have been finished. Although all the materials sold here are of the most staple order and seldom found at a reduced price, yet we are going to make some of the most attractive reductions, and every mother in the city will find it profitable to attend the sale. For instance:

$1.00 and $1.25 silk embroidered flannels in a wide range of designs, some scalloped, some hemstitched. Sacrifice at 85c.

$1.75 embroidered flannels, of exquisite quality and softness, sacrificed at $1.25 a yard.

No nettle, half linen and half flannel, special priced at 35c, 45c, and 50c a yard.

Hand Bags Values to $4. 49c

Yes, it's just as we state, a great big sale of hand bags in every conceivable style, color. All the newest ideas in frames and All have inside fittings and are extra Some of these originally sold as high as entire quantity to close out at 49c each.

$1.00 Black Sateen Petticoats 7

These are our regular $1.00 petticoats, and they always been considered the best in the city money. They are made of good, black double flounces, trimmed with tucks. Alteration rifice 75c.

85c to $1.00 Shirt Waist Silks 50c

As you'll see, the workmen have already encroached on our dress goods and silk departments, and made it a little difficult to do business. These departments will suffer, perhaps, more than any others, with the possible exception of our cloak department and our drapery department.

We shall endeavor as near as possible to close out our entire present stock of dress goods and silks so that when the alteration sale is over and our new store ready we shall be able to commence business with an entire new stock.

To illustrate the values, take, for instance, this lot of pretty shirt-waist silks. They are just what everybody wants, coming in mixtures, stripes, checks, in all the new and wanted effects, both plain and changeable. These sell regularly at 85c and $1.00. Alteration sacrifice at 50c the yard.

$1.00 Black Taffeta Silk 75c

Black silk is a staple article, and when you have a chance to buy it at a reduction, if you are wise you will take advantage of it, even though you may have no present need for it. This silk comes 27 inches wide, guaranteed to wear—a good, heavy, rustling quality. Instead of $1.00, Alteration Sacrifice, 75c.

$1.00 and $1.25 Checked Poplinette 75c

One of the favorite new materials for spring. Comes in black and white, blue and white, and blue and green checks. Also plaids in the same colors. A stunning material for skirts. Alteration Sacrifice, 75c.

75c Satin Foulards 50c

The much-used satin foulards in blue, green and black grounds, with artistic dots and figures, an all-silk quality. Has been one of the favorite materials at 75c. Alteration sacrifice, 50c.

Black and Blue Mohair Brilliantine Sacrificed at 22c

Just think of buying mohair brilliantine, one of the most suitable dress materials for spring, at such a ridiculous little price as 22c the yard. It illustrates how earnest we are in this alteration sale. But as far as that's concerned every item on the page deserves just as careful consideration. This mohair brilliantine comes 38 inches wide—note that width—in black and in two shades of navy blue. It's a good, lustrous quality, and we consider it an exceptional value at 40c. Alteration sacrifice, 22c.

25 pieces plain and fancy dress goods in mistral, canvas, serge and etamine, 45 to 48 inches wide; all pure wool; regular price 85c to $1.25 yard. Alteration 35c

50 pieces colored voile, 44 to 52 in. wide, in wide range of colors; all wool; imported qualities; regular price 85c, $1.00, $1.25. Alteration 59c

10 pieces printed challis and fancy all wool waistings, 27 in. wide; regular price 50c to 85c yd. Alteration 25c

Moreen suitings, 32 in. wide, in black, cream and all colors; regular price 40c yd. Alteration 18c

Important Note—Our drapery department will be entirely rearranged and shifted. We are already making arrangements to secure an entirely new stock for our new drapery department in the enlarged store. It is positively a fact that we shall sacrifice our entire stock at the most unheard-of prices. We mention the following remarkable values as examples.

$3.00 Lace Curtains $1.48 Per Pair

This lot of curtains comprises some of the choicest styles and patterns in our stock. No seconds or soiled ones among them. Every pair is clean and perfect, and there is plenty of every pattern. Curtains suitable for every room in the house. Nothing to equal them for style, finish, design or durability. Regular price $3.00. Alteration sale price $1.48 a pair.

75c Oriental Silks 59c a Yard

A splendid variety of drapery silks in oriental patterns, Persian designs, stained glass effects and plain colors. Largest and best assortment in the city. Don't fail to see them. 75c quality, to be sold during our Alteration Sale for 59c yard.

$4.00 Couch Covers $2.75 Each

Very heavy tapestry couch covers, in oriental patterns and Bagdad stripes, heavily fringed all round; 3 yards long, 54 and 60 inches wide. Numerous handsome styles to choose from. Alteration Sale price, $2.75 each.

$5.00 and $6.00 Portieres $3.50 a Pair

Times Have Changed

The Regal short-cut system of making and selling direct from tannery to consumer has cut out the extra and unnecessary profits that used to make such a shoe as the Regal cost six dollars.

There's just *one* profit between the raw hides and the finished Regal shoes.

It's the perfected Regal system that enables us to offer you ten times as many new styles to choose from as you used to have. It makes it possible to give you twice as much real quality as you used to get for your $3.50.

How else could we offer you a choice of 75 new styles in every Regal store?

How else could we make up

Quarter Sizes

and eight widths in every one of those seventy-five styles?

How else could we build all our Oxfords on special Oxford lasts—shaped to make them fit at heel and ankle—never chafing and never bulging at the top?

How else could we open another series of new stores this season in addition to the 93 exclusive Regal stores already busy and successful?

GUNS DO POP; FUN IS FAST.

Bluerock Tournament Opens With Big Crowd.

Perfect Weather Delights Many Sportsmen.

Ninety Per Cent. Wins High Average for Day.

Balmy breezes blowing softly over rippling fields of tall, green grass waving like Old Ocean under the trade wind's gentle caress; a bright sunny day tempered so perfectly that breathing of itself was a pleasure, made of yesterday a splendid setting for the semi-annual tournament of Los Angeles Gun Club members and their visiting friends.

Nearly fifty shooters comprising crack knights of the trigger from San Diego to San Francisco stepped to the score during morning and afternoon's bombardment of the festive, fast flying bluerock. "Fast flying," indeed, they were; the three high average scores by Messrs. O. O. Orr, C. L. Julian and J. F. Gibson figured just ninety per cent. and that is a shade below grade for a Los Angelus Gun Club tournament.

As ever, the outside gunners contributed most nobly to the attendance, and the presence of two "professional" squads helped materially to keep things moving. Ever good fellows, and willing to put a shoulder to the wheel whenever events run other than smoothly, these genial gentlemen never fail to make themselves welcome, and cheerfully come to the center with their donations to the club's support for "Birds only."

The pick of San Francisco's shooting talent was ably represented in Messrs. R. C. Reed, Harry A. Hoyt, Emil Holling, D. W. King, Jr., Clarence Haight, and D. Daniels of the Bay City, all of whom finished 'way up when the final count was made. Charlie Julian of San Diego and his old single-trigger Army and Navy hammerless again proved themselves a good match by tieing for first honors, the rest of the San Diego squad, Chick, Fano, Walker, Garrettson, being conspicuous by their absence, though they beyond doubt will look for a big delegation from this city at the forthcoming Pastime Gun Club shoot of next month. Gus Knight, Jr., of San Bernardino has reduced the old screw-stocked Parker cannon to a "single trigger" and was on deck as ever. Santa Ana, Riverside, Escondido, and other outlying towns were also represented by one or two shooters each; and a heavier turnout is predicted for today.

One of the most gratifying features was the reappearance of those shell-backed old veterans, A. W. Bruner and Jim Matfield. The treat had long been promised, but shoot after shoot has seen the pair side-tracked elsewhere. Now nothing remains to fill the gunner's cup of happiness but the resurrection of Brother Jim Menasco, who is believed to be in hiding somewhere within the city this morning. The old timers seem to have lost little of their cunning; Bruner's cool, mechanical style of mashing the mark into powder would never suggest that he has been out of the game nearly five years. Matfield was punching holes in the ducks on Newport marsh all last winter, so is in pretty fair eye.

Uncle John Hauerwaas, familiarly known as "Chief Sitting Bull," put in a hard afternoon trying to coax Joe Singer to "loosen up" and take a chance at the traps, but Singer insisted the target rifle was his game and postponed the match.

The inability of J. Ed. Vaughan, probably the best local bluerock shot, to secure certain affidavits requested by the club at its meeting Thursday night prevented his taking part, though he was on the grounds all morning. A local tournament without Vaughan is a distinct innovation; his splendid scores were missing, and the change was not entirely a pleasant one. The club officials had no option in the matter, however, and were forced to abide by the decision of Thursday night, which covered the case fully.

The change from Experts to Leggett trap probably had something to do with the slump in scores, as there was a wide diversity in the angles thrown by the two machines. It is doubtful if forty-three ever won the Tufts-Lyon medal before yesterday, but the precedent was established by that capable young shot, Guy Lovelace, who again took the trophy with 20-23. R. Cecil Reed of San Francisco, barred as a manufacturer's agent from the emoluments of the game, turned in the best score at forty-five. Straights were scarce all day and none were made in the event. "Barracuda Jim" Gibson, who is supposed to have a mortgage on all medals shot for by the Los Angeles Gun Club, had a "woncus" on his right cheek bone which interfered somewhat with his vision and forty was his gait. Other scores were: Smith, 37; Bungay, 41; Hagerman, 42; Llewellyn, 35; Julian, 41; Mills, 41; Haight, 44; Hoyt 32; Justins, 43; Holling, 39; Reed, 45; King, 43.

Fred Mills has achieved the unique honor of winning the two-man team cup five times without ever seeing it. Roy Witman of Oxnard is believed to have the trophy, and probably will defend it as soon as his business will permit. Mills's partner yesterday was Orr, and they scored 24 and 22, respectively, for a total of 46, tieing with Gibson and Lovelace, who had a brace of 23s for the same total. In the shoot-off, Mills and Orr bunched 22 and 23 for 45 against a pair of 21s b— their opponents. Julian and Bungay, 24 and 19 for 43; Hagerman and Knight, 18, 19, 37; Bruner and Llewellyn 20, 18, 38; McCullough and Smith 18, 20, 38; Justins and Hoyt, 18, 17, 35; Holling and Reed, 21, 23, 44; Gilbert and Densel, 22, 17, 39, were the other scores.

After the programme had been shot out, an impromptu doubles event at six pairs was framed up and a heavy entry resulted, the fun being simply immense. Holling, Reed and Daniels managed to break ten out of the dozen and cut up most of the proceeds; T. F. Norton and several others piled up nine. An exhibition of machine-gun shooting with an automatic lead spray of the Browning patent was quite a feature of the event.

No less than twenty-five gunners entered for the big Miss and Out, and for a time it looked as if the birds would more than eat up the pot at four bits per, but after the second round, the barn began doing business, and a dozen consecutive breaks got the cash, Reed and Holling cutting up the pot.

A jackrabbit event closed the sport. Preparations will be made for a big turnout this morning, over sixty shooters being expected.

Finest Trout Season Ever Known Here at Hand.

PLEASING PROSPECT.

BUSY days for trout fishermen are at hand. Pleased beyond measure with the prospect of pleasant sport on opening day, only a week from tomorrow, and delighting in perfect water conditions brought on by abundant winter rains, Southern California sportsmen for a month past have been preparing for the biggest mountain angling season ever recorded in the State.

Nightly seances with fly book, favorite rod and reel—putting a needed wrapping here or a touch of varnish there—the keenest joys of anticipation—have been the portion of the creel carriers in every spare hour. No true trout fisherman ever lets his tackle go until the last minute; the average pastmaster's gear might be inspected now with every probability of finding each fly booked in its proper place; each gut leader carefully tied and tested and every binding of the rod neatly gone over with finest silk as additional precaution to keep that "biggest fish" from "getting away," according to the piscatorial proverb. Only a selection of the best field for first operations, and those delightful sessions that occur whenever two brothers of the angle fall to talking it over—"swapping lies" if you will—remain before the first morning's tramp.

Reports from all the streams have been coming in apace for several days, and everything points to the best average of sport enjoyed in southern brooks for many a year, though in many sections the fishing bids fair to attain its heights somewhat later than usual, owing to the vast volume of water pouring down out of the heights.

Many of the trails, which in other years have been easily passable, will be under water next week without further rain, and should another general storm intervene, the veteran trout teasers will probably remain in suspense a while longer. With a continuance of the conditions which have ruled for ten days past, all the more accessible waters will be literally thronged; casting room bids fair to command a premium, although the sport will entail much more effort now than usually and it is never a girl's game in this part of the country.

All over the southern end of the State the trout season opens on May Day, and the high stage of water has been so universally commented on that most anglers will be prepared to seek their sport in the lower reaches of the streams. Comparatively few will be able to get through to the head-waters, and the hardy trampers who do will therefore enjoy a full reward for their fortitude.

The tackle stores have done a big business in new rods, flies and running gear, but it has been noticed quite generally that the old-timers have winked at feathers and looked wisely at each other with a glance that tells volumes to the initiate. The gay and festive worm is ever a subject of derision among trout fishers; they have a world of fun over its fat, wriggly body, but a carefully-conducted examination of bait box and pants pocket will never fail to reveal a large and succulent store of this never-failing inducement to fish, nevertheless. Using bait may not be nearly as poetic as the fancy free cast with the fly, but it generally gets the fish, and the feathers often do not. With high water to figure on, the much-abused worm looks to have all the best of the argument, and those who overlook laying in a supply are likely to regret it.

One point that is bound to work in the angler's favor this season and which many sportsmen have overlooked is the general stocking of the streams by natural causes that has been made possible by the high and continued freshets. Taking the San Gabriel as an example, there are many trout which spawn in the reaches below the Monte and in ordinary years are unable to ascend to the headwaters, but last winter there were five straight weeks in which the water was high enough to give them a free runway up into the mountains. Then, too, the resort keepers along the San Gabriel, and the Creel Club through Henry O'Melveny, have dumped many thousands of trout fry into the river, thereby doing yeoman service to remedy the ravages of the rodsters.

The Ventura streams all promise well, the Matilija and Sespe having been stocked again last year, with apparently plenty of good-sized old fish left behind to make merry with the anglers.

San Bernardino sportsmen will probably find plenty of fish in the creeks that come down from Bear Valley without need to penetrate very far into the mountains. Bear Valley Lake is full again, and Gus Knight, Jr., who keeps closely posted on conditions there, declares that the trout outlook is the best with one exception in ten years.

The men who fare best during at least the first two weeks of the season will be the ones who travel in light marching order, leaving behind them all the needless riff-raff that most amateurs consider so indispensable. With raging water to wade, slippery stones to scramble over and cañon roads mostly washed out, one will find every ounce growing into a pound before a day is half over. The water is now so cold that rubber boots and woolen socks are a necessity; later on when days are hotter and the streams not so frigid, one can do very well with a pair of old shoes provided, always, that plenty of flannels are worn in them.

The matter of equipment for the sport is one that few are agreed upon, though the general rules of loose fitting clothing of a character to absorb perspiration and retain the bodily warmth without becoming uncomfortable are observed by all experienced mountaineers. A broad brimmed hat is often a nuisance, when fighting the brush, and there is plenty of such work incidental to every trip.

While most local sportsmen will open the season on the San Gabriel or San Antonio, a few are preparing to visit Matilija and the Sespe for extended trips. Most of these will leave

FIRST WATER GOOD WINNER.

Bennington's Big Colt Wins His First Race.

Great Week for California Horses at Aqueduct.

Beldame Reported to be in Very Bad Form.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, April 22.—[Exclusive Dispatch.] First Water, the stalwart Rancho del Paso colt, son of Watercress and Sweet, brother to Watercolor and Waterboy, showed himself of championship caliber in the last race at Aqueduct this afternoon, winning the initial start at four and a half furlongs by six lengths, pulled to a slow gallop in the good time, for the track, of :55. The big chestnut youngster looked all over a champion when he stepped out of the paddock to the track. At once the crowd saw his long, sweeping stride, smooth as velvet, and no sign of nervousness peculiar to youngsters. There was a rush to get aboard. First Water opened at 1 to 2, but being his first time out the crowd was skeptical until post time. Then the odds were hammered from 2 to 5 until 3 to 10 was the best obtainable. The colt broke in the first rank, and before the eighth pole was reached was two lengths to the front on the rail and just breezing. He gradually increased his advantage until he flashed past the wire six lengths ahead of Carola, who just nosed the long-priced Deux Temps out of place money. First Water's exhibition was superb, and Newton Bennington was the recipient of many congratulations for not accepting the princely offer of $30,000 for this promising Californian. He looks all over like a colt who will train on and go the cup route when considered a worthy successor of his elder brothers, Watercolor and Waterboy, who, in their prime, were esteemed the greatest horses Rancho del Paso ever sent to the races.

MORE CALIFORNIA WINNERS.

California horses also won the fourth and fifth races on the card today—St. Valentine, at the juicy price of 20, nipping Rapid Water on the post by a short head, after a beautiful finish, and Champlain, heavily played, taking the fifth race, one mile, from Pronta and Arsenal. Both St. Valentine and Champlain were heavily played by the California contingent, who had been put wise by the owners, Shields and Frank Farrell. Shields had St. Valentine on the edge, and when, just before the post odds had soared to as good as 25 in some books, the wise ones got aboard, and 15 was the best at the start.

Altogether it was a great day for California turfdom at Aqueduct. It was also a notable week for California breeding interests. Friday, Newton Bennington's Green Room, a slashing-looking chestnut colt, won the first race from Old Guard and Speedway. Both winners are two of the best youngsters shown this year so far.

Bennington backed his colt heavily, just at the post money alone driving odds from 5 to 2 and half. Green Room who was starting for the first time, only won by a head, but he showed he had a lot of courage and is a worthy son of Glenheim.

OTHER SPEEDY ONES.

Billy Wakeland had his friends primed for his speedy Goldcrest filly Gold Ten, also a Rancho del Paso product, and the bookies suffered when she got home a neck in front of Moneta and Jerry C. Then E. E. Smathers's good mare, Irene Lindsey, also Rancho del Paso-bred, by St. George-Vantage, took the fourth race at the long price of 15. She went to the post practically unbacked because the owner, Smathers, could not stay away from the opening of the American League ball park. He did not bet, got an awful ducking to boot, but took his dose like a good sport who never kicks when the matters of a loss of a few thousands don't count as much as a dollar to the average sucker who loses four bets out of five.

Thursday California sent two winners to the post, Santa Catalina, owned by H. T. Oxnard, and Sidney Paget's Rancho del Paso crack, Water Mirror, a three-year-old Watercress youngster who promises to be a useful breadwinner this season.

Wednesday, Paget put his slashing-looking colt Burnett, by Golden Garter-La Favorita, first past the post in the first race at the juicy post odds of 10 backed from 15. Monday, Paget captured the initial event with the good colt Speedway, so altogether it was a fine first week for the Golden State. Besides the winners, Paget, Bennington and others sent a number to the post that finished second and third. Bennington has entered First Water in all the big two-year-old events of the year and stands to win a great fortune if the youngster trains on. Bennington's Jerry Greenburg is said to be even better than First Water. Paget has a number of slashing Haggin youngsters that are yet to start, so the season of 1905 will probably be the banner one for California on the eastern turf.

Here are some California youngsters and older horses who are ready to start and should win properly placed: Watervane, Waterboll, Jerry Wernberg, Dr. Heard, Waterlight, Zeale, Ormondale, Blandy, Cairngorm.

JIM KEENE'S STRING.

Keene's string is in grand form and the season promises to be one full of honor and profits for this old Californian. His colt Delhi is moving better than ever in his life and is now the bookmakers' favorite for the Metropolitan Handicap. Sysonby looks and moves like a real stake horse, and Wild Mint, Blucher and Keene's other three years have developed grandly. None will probably start before the Belmont Park opening.

BELDAME GONE WRONG.

The sensation of the week is the persistent reports that Beldame has gone wrong and is nothing like the mare she was last season. She worked half a mile with Keator yesterday in :49¼, but was all out at the end, while the colt had been pulled to her all the way. Beldame is owned by Belmont, a man who never likes to influence betting, so the reports are alarming to Belmont's supporters.

Africander still stands and runs soundly with no signs of sulking, and his stable believe he will cut a big figure in the handicaps.

Hermis, and Irish Lad are working great guns and are both possible starters in the Metropolitan.

Major Daingerfield, one of the greatest three-year-olds of his year, was today sold at auction for $3000. He is superbly bred, being by Handspring-Mon Droit, and ought to be valuable in the stud, to which he will be retired by his new owner, Phil Dwyer. In four years Major won $91,900.

Hurstborne, bred at Rancho del Paso, out of Indo-Flora Hurst, brought only $300. He is only five years old, but a hopeless cripple. He will go to the stud.

SAN FRANCISCO, April 22.—The splendid base running by San Francisco and Oakland's mispays were the causes contributory to victory for the locals today. Oakland had an opportunity to even up matters in the eighth when they filled the bases but only one runner landed home. Score:

PHILADELPHIA, April 22.—McGann was caught at the plate in the eighth. He lost his temper and struck Catcher Abbott, who retaliated by striking McGann with the ball. The men were separated by the players of their respective teams and as McGann walked to the bench a number of spectators threw cushions at him. He was taunted by the crowd and several of the visiting players threatened to go into the pavilion. A youth who was selling soft drinks was struck in the face by one of the New York players. After the game a crowd followed the carriages occupied by the champions, hurling bricks and mud after the members of the team. McGann and Abbott were placed on the bench. Attendance 20,200. Score:

MINOR BALL.

The Occidental team went out to Compton yesterday afternoon for a game with the team of that town and was badly beaten by the country boys, the score standing 6 to 1. Abbott pitched a fine game for Compton, while McKnight of Occidental was hit hard and often. The Compton players make the statement that the St. Vincent team has refused to play Compton for fear of being defeated.

The second Cornwall-street nine beat the second Bridge-street team yesterday by a score of 7 to 6. Le Brun, the pitcher for the winners, struck out twenty batsmen.

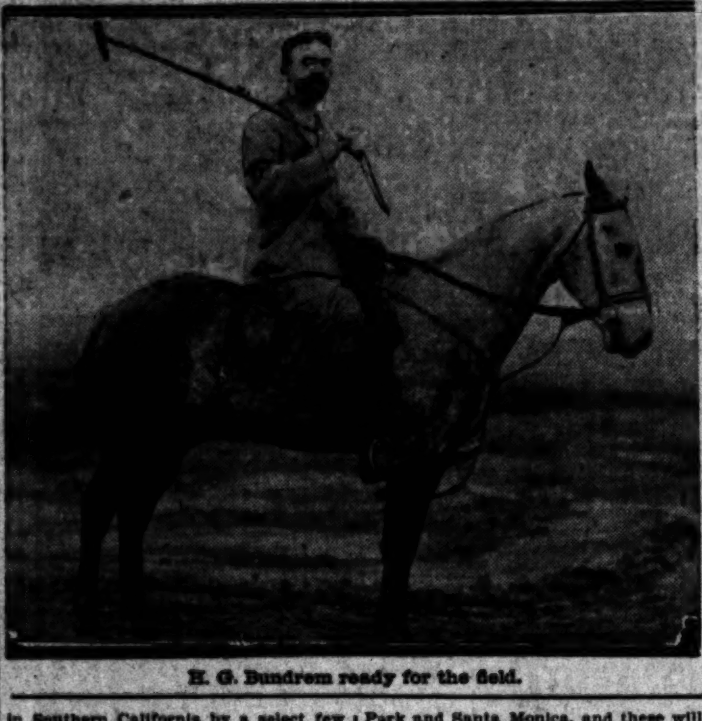
FUTURE FOR POLO SURE THING HERE.

POLO in Los Angeles is a new and to most persons a practically unknown sport as yet, but if the dreams of the enthusiasts come true, it will become one of the popular sports to look at before another year has passed. It is new only in the sense of being unknown, for it has been played in Southern California by a select few for several years.



H. G. Bundrem ready for the field.

The game is in a fair way to become better known, for the Los Angeles Polo Club has at last secured a fine field of its own, and matches will hereafter be played regularly.

This new field lies in a level plat of land about half a mile northwest of the end of the Pico-street car line, and about the same distance from the house of the Los Angeles Country Club. It extends north and south 900 feet, and is of the regulation width of 400 feet. As a matter of fact it is in an ideal spot for outdoor sport of any kind. It is in a charming location. To the north, east and west are magnificent views of the hills and mountains, and it is far removed from the bustle and noise of city life, and yet within easy walking distance of a car line.

The local club has a strong membership, well provided with ponies for active play, and now that a suitable field has been secured it is the intention to have matches as often as they can be arranged. There are clubs at Riverside, Santa Barbara and Ocean Park and Santa Monica, and these will be engaged in matches in the near future. A meeting will soon be held to form an organization of the clubs in this end of the State, and when this is done a team will be picked to play against the strong "Blingum" or Burlingame team of San Mateo county.

The more prominent members of the local team are Dr. Edmonds, H. Weiss, H. G. Bundren, Thomas Weiss and J. B. Weiss, and these, with as many others, can be seen in practice games on the new field every Wednesday and Sunday. Each man has his several mounts, and about fifteen ponies are now kept in commission for these practice games. This number will be increased, of course, when the actual matches begin. To properly provide for the comfort of the guests at these games the club will build a small grand stand on the western side of the field.

HARVARD CHAMPION OF COUNTY LEAGUE.

HARVARD MILITARY SCHOOL won the third annual field meet of the Los Angeles County Athletic League yesterday afternoon on the Harvard campus, before a large interested crowd.

Pretty girls lined the bleachers, and the field was gay with color. The afternoon was ideal, and the heat, which attained almost to fierceness about 3 o'clock, was all that could be desired to make for conditions dear to the heart of the trained athlete.

Interest centered in the three teams prominent in the county league—Harvard, Pasadena High School and Throop Polytechnic, and the hopes of the excited rooters were realized during the afternoon as the three teams fought the prettiest contest of the season.

Before the high jump was finished the contest had narrowed down to a gallant fight between Harvard and Pasadena for first honors, and when the teams lined up for the last event, the relay race, both schools had scored 34 points, and interest became intense.

Throop was out of the race, having scored 27 points, but the plucky Polytechnic runners made a game fight for the relay race, and finished with honor.

Coach Hamilton of Harvard engineered the meet, and the twelve events were pulled off in one-two-three order, and the contest was finished at 5 o'clock. Credit is due the management for the prompt manner in which the events were run off and the manner in which the crowd was handled.

RUNNING EVENTS.

Promptly at 2 o'clock the 100-yard dash was started, and the field day was on. Caldwell and Kellogg fought out this event, which was won by the Pasadena runner, Caldwell, in 10 2-5s.

The 220-yard hurdles developed a pretty contest between Owens and Frampton, the latter winning by six feet. Frampton was the star man for Throop in the 440-yard dash, but the lanky athlete lost to Stanton of Harvard.

The 220-yard dash was a fight to the finish between Owens and Stanton, the plucky little Pasadena runner forcing Stanton to break the interscholastic record to win first place. Stanton's new mark is 22 3-5s.

B. Lee of Harvard won the half-mile, and his brother, K. Lee, won the mile. The time was not sensational in either event.

HAMMER RECORD BROKEN.

The hammer throw developed a promising athlete in Owens, who broke the Southern California interscholastic record by hurling the weight 149ft. 6in. The youngster is one of the best 12-pound weight men in the south, and a lively contest is expected in the Holmes meet on Saturday, when the Pasadena athlete will meet Richardson of Santa Paula, who is said to have done 150ft.

Much to the surprise of everybody, the pole vault was easily won by Crowley of Throop, who cleared the bar at 10ft. 2in. Lee of Pasadena was forced to third place, though he has beaten all of the contestants entered yesterday against him in previous meets, and was picked as an easy winner.

Gibbs and Hotaling of Pasadena won both places in the broad jump, the former doing better than 20ft. Hotaling won the high jump at 5ft. 8in., and in trying for the record was almost successful.

Crowley took first place in the shot-put by placing the leaden ball 42ft. 8in.

RELAY A HUMMER.

The relay race was the best event of the day. Four teams were entered, two from Harvard and one each from Throop and Pasadena. Smith Twycross, Stoney and Frampton ran for Throop and Gibbs, Wheeler, Flanders and Caldwell for Pasadena. The winning Harvard team was composed of Adams, Lee, Kellogg and Stanton. The first two laps of the race developed a close contest between Pasadena and Harvard, but in the third lap the Pasadena runner was distanced by Stoney, who in turn was passed by Kellogg. Throop made a gallant fight for the race, which was practically decoded when Kellogg passed the message to the star of the Harvard team, Stanton, who ran the last lap far in advance of the other runners, finishing about 20 yards in front of Frampton, who took second honors for Throop.

The final score of the contesting teams was: Harvard, 39; Pasadena, 34; Throop, 27; Los Angeles Polytechnic, 2; Long Beach High School, 2.

The 100-yard dash: Caldwell P.H.S., first; Kellogg, Harvey, second; Coover, L.A.P.H.S., third; time 10 2-5s.

The Pole vault: Crowley, Throop, first; Hays, Pasadena, second; Lacy, Pasadena, third; height, 10ft. 2in.

The 220-yard hurdles: Frampton, Throop, first; Owens, Pasadena, second; Cline, Harvard, third; time 28 3-5s.

The 220-yard dash: Stanton, Harvard, first; Caldwell, Pasadena, second; Coover, L.A.P.H.S., third; time 22 3-5s. Interscholastic record for Southern California.

Broad jump: Gibbs, Pasadena, first; Hotaling, Pasadena, second; Richards, L.B.H.S., third; distance 20ft. 1in.

The 880-yard run: B. Lee, Harvard, first; Stonet, Throop, second; Flanders, Pasadena, third; time 2m. 14 2-5s.

Hammer throw: Owens, Pasadena, first; Graves, Harvard, second; Healy, Throop, third; distance 149ft. 6in. Interscholastic record for Southern California.

The 440-yard dash: Stanton, Harvard, first; Kellogg, Harvard, second; Frampton, Throop, third; time 54 2-5s.

High jump: Hotaling, Pasadena, first; Crowley, Throop, second; Frink, Throop, third; height 5ft. 8in.

Mile run: K. Lee, Harvard, first; Behr, Throop, second; Cross, Harvard, third; time 5m. 6s.

Shot put: Crowley, Throop, first; Butler, Harvard, second; Hall, L.B.H.S., third; distance 42ft. 8in

Relay race won by Harvard in 3min. 41 3-5sec.

GOLF MATCHES WELL FILLED.

THIRTY PLAYERS TAKE PART IN FIRST DAY'S PLAY.

All Contestants in the Matches Were Against Men in Their Own Flight. Those Appearing and Not Being Able to Get a Match Will Not be Ineligible.

Pleasant weather and the lack of other more fetching attractions were the means of drawing a large number of golfers to the Country Club course yesterday to take part in the spring tournament of the club and the play was very interesting as might be imagined. Thirty golfers took part in the play against men in their respective "flights" and eight or ten others showed up for play, but could not go out on the course because there were no players for them to meet in their particular "flight." Those who showed up yesterday for play, but could not get a match will not be disqualified if they do not play today, but in all probability the majority of these left overs will scare up a match today somehow.

The contests are at eighteen holes match play and the results yesterday were as follows:

C. B. Jones (20) beat F. M. Coffin (18) 6 up.
P. R. Wilson (8) beat S. P. Hunt (8) 3 up and 2 to play.
W. A. Barker (8) beat A. Crutcher (8) 4 up and 2 to play.
R. R. McKinney (12) beat Geo. Steckel (12) 6 up and 4 to play.
W. Cosby (4) beat J. A. Brown (4) 3 up and 1 to play.
A. H. Conger (10) beat W. H. Holliday (10) 2 up.
A. L. Easton (12) beat Godfrey Holterhoff (12) 4 up and 3 to play.
A. L. Spellmeyer (16) beat J. D. Hinton (14) 3 up and 1 to play.
M. L. Graff (18) beat J. C. Drake (16) 1 up.
C. H. McFarland (8) beat R. H. Ingram (8) 2 up and 1 to play.
W. W. Thayer (16) beat J. M. Guinn (16) 1 up.
Frank Griffith (8) beat J. Cobb (8) 5 up and 4 to play.
N. F. Wilshire (3) beat W. W. Butler (3) 1 up.
A. F. Morlan (8) beat Dr. W. H. Spinks (8) 1 up.
J. B. Lamgair (10) beat J. L. Ball (10) 7 up and 6 to play.

GOES AGAINST INDIAN MAIDS.

THE METHODIST GIRLS WIN AT HEADY BASKETBALL.

Sherman Players Beaten by a Score of Lucky Twenty-six to Unlucky Thirteen—Uphill Tussle, but Clean Play of Visitors—Pretty Defensive of Stocky Losers.

In one of the liveliest basketball games of the season the Methodist girls defeated the Sherman Indian maids by a score of 26 to 13.

The game was played yesterday afternoon on the courts at the University of Southern California before a fair-sized crowd and there was enthusiasm to spare, as the Methodist players forged steadily ahead in spite of the pretty defensive work of the stocky Indian players, who have improved since their first appearance.

The first half opened with a rush and the Sherman players forced the game by the splendid work of the guards, which helped to keep the team steady and gave promise of a victory. For perhaps fifteen minutes the contest was doubtful, but the team work of the Methodists, which has been so carefully developed by Coach Best, betgan to shew even against the excellent defense of such guards as Andrea Calac and Tonita Trojilla of the Shermans, and several baskets were scored and few fouls were recorded.

With the opening of the second half the contest became an uphill struggle for the plucky Sherman basketballers, who played their usual clean game. The Indian girls could not defend the quick passes of the U.S.C. forwards, Mable Payton and Ethel Hogan, who made nine field goals during the game. Miss Payton also scored eight points on free throws for the basket. It is doubtful if there are two better forwards on a Southern California team than the pair of fast U.S.C. players.

Alta Thornton, U.S.C. center, was responsible in a measure for the success of the Methodists, who won the game by their consistent playing.

The line-up:

Sherman.		U.S.C.
Cabrillas (c.)	forward	E. Hogan (c.)
R. Beresford	forward	M. Payton
A. Boseton	center	A. Thornton
A. Calac	guard	L. Woodhead
T. Trojilla	guard	G. Armstrong

The time of the halves was fifteen minutes each. The officials were Miss Ruth Dennen of the Girls' Collegiate School, referee, Miss Handley of Sherman Institute and Miss Fermin of Pasadena, umpires.

We have been working hard to get something new in the mining investment line for the Los Angeles market. Something that is good and yet is cheap enough so that the investor will of a very handsome profit as well as of having

A Safe Investment

We have been able to secure a few thousand shares of stock in the

Bullfrog Mining Co.

OF NEVADA

which we will sell at 80 cents per share in blocks of not less than 50 shares. This is ampled opportunity to get an interest in a property that will take rank as one of the greatest mines known in the history of the world. The company owns 23 claims and the ore is ing, of fabulous size and value. A mill is under way. This company will be a perman dend payer.

For Semi-Speculative Investments

Not as safe as the Bullfrog, but much surer than the average prospect, and at prices th them sure profit makers we recommend

Jim Butler Extension

of which we have a small block for sale at 25 cents per share. This is an inside price on a ly inside piece of property adjoining the Jim Butler Co., the stock of which has gone up from cents in January to $1.17. This is a first-class prospect and a great speculation. Stock is strongly held.

In the same line, but in perhaps even a higher scale, we place the

Kawich Mining Co.

of which we have a few thousand shares for sale at 25 cents per share.

THIS IS THE BIG COMPANY

in the Gold Reed country and the company owns about 360 acres in the heart of the Governor Sparks of Nevada, a very conservative business man, is vice-president of the and is heavily interested. There are three known ledges in this ground and the outlook ture is very bright. This is a good company and a very good property.

Praise was all that Hollinghurst's remarkable feat earned him. No raise in his pay followed, though that will come with promotion. He gets about the equivalent of $15 a month in American money and has to pay toward mess, uniform, washing, and keeping his wife in London—not much chance to get rich.

The Narcissus, Hollinghurst's vessel, is a cruiser of the second class, 5600 tons displacement and 8500 horse power. She has been used as a gunnery training ship, but is to be replaced by H.M.S. Grafton.

Rear-Admiral Scott of the British Navy, who is inspector of target practice, declares Gunner Hollinghurst the most remarkable shot he has seen, and predicts that it will be a long time before his record is beaten. It remains for some of the American tars to tie the score or do better.

SPORTSMAN CORTELYOU.
HE CAN KEEP TO ANY PACE.

Systematic in his great pressure of business, methodical in his pastimes, a human machine of tremendous capacity of daily output, geared to habits of the utmost efficiency, this is George B. Cortelyou as seen by the world with which he comes in official contact, says Outing. His is a sound mind in a body as sound as a nut, and he so orders his pastimes that they help to keep him fit for all he has to do. More than one guest of the President has had cause to regret that he had neglected hard riding or enthusiastic walking in his earlier years, and many a smile of pleased appreciation of an afternoon's outing in the company of this most distinguished citizen has masked sore bones and aching muscles.

Here is where Mr. Cortelyou has proved himself capable of keeping to any pace cut out for him. In his office no amount of work has been able to daunt him, while on the road he is trained to come up smiling no matter how rough or long the going may be. In his unostentatious way, he is one of the best sportsmen in Washington, and his condition is that of an athlete keyed to the hour. He learned to ride as a youngster who had to have a "leg up" to mount, but once on board he stuck like a burr. Riding was an ardent pastime with him many years before he had to follow a hard-riding President.

He picked up boxing, and became uncommonly handy with the gloves, until prizes for amateur sparring matches were among his athletic laurels. The deep-chested, broad-shouldered, compactly-muscled build of him was ready for the making of a good all-round athlete, had Mr. Cortelyou cared to specialize in this glittering field. Through a hard-working youth, however, he found time to become a more than respectable swimmer and oarsman. It was a training that bred in him the love of outdoor exercise, and which sends him out on long, swinging walks whenever he can get free from official harness. "That man is as strong as a horse and works like a team of 'em," was the admiring tribute once paid by Speaker Cannon to the untiring industry of Mr. Cortelyou. He is a notably consistent figure in a vigorous "outdoor administration," and in his own quiet way preaches the gospel of the "strenuous life" by his daily works.

BOOKIES' LICENSE.

Bookmakers are to be licensed in New Orleans after this season. An ordinance is now in preparation which will provide that all bookmakers operating on the tracks must pay a license in proportion to the amount of business which they do, and requiring every bookmaker on the track to make weekly statements to the City Treasurer of the business done. There is no doubt that this ordinance will pass by unanimous vote. There has been much comment about the amount of money which the bookmakers carry away from the city without New Orleans reaping any benefit therefrom, and a similar law has been spoken of a number of times. The big profits of the bookmakers, with the free gate there this season, seems to have brought the matter to a focus.

TROUT SEASON

(Continued From First Page)

a week from today so as to be on the ground a few hours in advance in order to make necessary arrangements.

Several Los Angeles anglers have arranged to try Big Rock Creek and other streams on the far side of Baldy, among them William Llewellyn, who has just made extensive additions to an outfit already comprising every convenience that a trout fisherman could find useful under any combination of circumstances.

The Creel Club will be holding forth on the upper San Gabriel in full force, nearly all the members having planned to put in the first day on that stream. H. W. O'Melveny, R. E. Ross and Ed Tufts, are a trio who expect to wet flies a week from tomorrow.

Judge Harry H. Rose will pilot a party over the trails into the West Fork, as has been his custom for many seasons past, and a number of Pasadena sportsmen expect to open the season on various parts of the San Gabriel.

A few anglers who are able to get out only for the day may find it worth their while trying the fish at the Duarte with bait.

Those who insist on using flies will do well to stick to the old favorites—the Royal Coachman, Red Ant and various hackles. If the San Gabriel is running clear, as seems at present quite likely, the fly casters may get a few pretty rises for their pains.

Not much has been heard from the streams on the Malibu west of Santa Monica. These are preserved, but several Santa Monica sportsmen have the entrée, and probably will make use of their privilege. R. E. Ross and Hugh W. Vail caught some splendid trout in the Topanga last year, one taken by Ross measuring eleven inches.

THE SAN GABRIEL.
STREAM NOW CLEARING.

Ralph M. Follows, proprietor of the popular resort in San Gabriel Cañon which bears his name, was in town outfitting one day last week. He has studied the stream many seasons and knows as much as anyone about it.

Mr. Follows says: "There will probably be a clear stream on the 1st of May. The East Fork is absolutely clear now, and the West Fork is clearing rapidly. The main river below the Forks will probably be clear by the 1st, though it is running considerable sand as yet.

"All the small side streams are running strongly and there is no reason why the early fishing should not be the best for a number of years past, as the water has been flowing clear through the valley for weeks. It will continue to so run for another month at least, which will give the trout that lie and breed below the Monte and way on down the sloughs a chance to run up and so restock the stream.

"There will be no stage running by the first, but the river is easily fordable by saddle horses, and the crossings are not difficult. We will probably have the road ready in a month or so. Owing to there being no road, those who do not turn out on the first will have a better chance of sport than is usually the case, as only a limited number can obtain transportation though both 'the Rincon' of the West Fork, and myself have a large number of saddle horses.'

"Most of the snow will be off by the first except perhaps in the deeper cañons.

"The usual flies—Brown Hackle, Coachman, Royal Coachman, Professor, Grizzly King, Cow Dung and Red Ant would prove a good assortment and it might prove advisable to bring along a box of the gay and festive worm."

IN THE MATILIJA.
GOOD TROUT OUTLOOK.

Sam Myers of Matilija Hot Springs writes from that resort relative to the prospect of sport:

"The trout fishing was very good in the Matilija and its branches during all the season last year. Last fall the stream was stocked with 60,000 fry from the government hatchery at Sisson, and the prospects for good fishing this year are excellent. As to what would be the best bait and what the fish are feding on. I am unable to say, as the weather has been cool and I have not noticed any of the trout feeding as yet. The water conditions have been most favorable during the whole winter unless the heavy rains during the middle of last month may have had a tendency to injure the fish. This I do not believe is the case, as the water is now clear and apparently in the best of condition. I inclose a photograph of a small catch made here May 1 last year. The opening of Matilija Hot Springs for this season will take place May 1, and I expect to have plenty of fishermen to entertain."

Faro Dealer a Sport.

A notable event in the sporting life of Bisbee, Ariz., was when a patron of a faro table threw upon a card a bill crumpled into a small wad. The play proceeded, and the indicated card won. When the dealer then unfolded the bill, it was to find that it was in the denomination of $500. The dealer, like a true-blue sport, paid the bet without reference to the betting limit set in the house.

"Monte Carlo" of Tucson.

As gambling is practically prohibited by the city ordinances of Tucson, Ariz., the sportive old-timer will now betake himself to a Monte Carlo that has been started just west of the city limits. The road to the sinful locality, reasonably broad and smooth, is to be electrically lighted, and games of every variety are provided for the gamblesome, not excepting cock fighting.

HAS CHARLIE A CHAMPION?

MITCHELL'S PROTEGE, WHITE, MAY BE A "COMER."

English Lightweight Strongly Indorsed by Veteran Sporting Man Who is His Manager—Mill Indefinitely Postponed With Jimmy Britt. The Aspirant.

England has produced so few fighters of ability within the last decade that no pugilist hailing from the island of fog can expect much consideration at the hands of the American public until he has proved himself a worthy successor of Charlie Mitchell who was about the best man Great Britain has produced within the memory of the present generation.

The present candidate for favors, Jabez White, now in San Francisco training for a battle with Jimmy Britt which may never come off, inasmuch as it has just been postponed indefinitely, is lightweight champion of England, and according to veteran Charlie Mitchell, his manager, quite the best boxer in his class that has been developed across the ocean in recent years.

Were it not for Mitchell's positive assurances and his reputation as a square sporting man, White would not be taken very seriously on this side of the big pond. The most impressive features of his record are his defeats of "Spike" Sullivan in the Old Country, achieved at a time when "Spike" was admittedly a very tough customer for any lightweight to tackle.

Opinion on the Coast has inclined to the idea that the San Francisco promoters were trying to foist another "dead one" upon the public as Britt's opponent before putting 'Frisco Jimmy against the "real thing" in the most promising aspirant for the 133-pound title, "Battling" Nelson. Mitchell's persistent assurances of his man's ability have given White something of a standing, however, and his reputation for cleverness will beyond doubt draw quite a house in case the pair meet.

The British lightweight is a clean built athlete about twenty-eight years old. He is reputed to be a most careful liver, not addicted to dissipation of any kind. Under Mitchell's tutelage, White should make a mark here if there is anything of high class about him. Britt will undoubtedly carry the California money, however.

Considerable interest will attach to the match, as it is the first international battle for a long time.

WHY MONTE CARLO BANK ISN'T BROKEN.

BY A GAMBLING EXPERT.

[SPECIALLY CONTRIBUTED TO THE TIMES.]

IN THE sporting section of The Times two months ago was described and illustrated a gambling machine invented by S. Wall of London, with which he was about to undertake the "breaking of the bank at Monte Carlo," a feat oft attempted and invariably with disastrous results to the man who tried it. This machine was supposed to be infallible as a mechanical guide to the operator, and reports from Monte Carlo indicate that thus far Wall is really doing with it something toward wrecking the rank institution. "With the aid of his calculating machine he continues to meet with success," says the latest report.

But the bank at Monte Carlo never will be broken. Truly, "hope springs eternal in the human breast!" How many inventors have gone to Monte Carlo with sure systems it is impossible to say, but probably they are to be numbered by millions, and not one of them has returned the victor.

Mr. Wall, with his calculating machine, may "break the bank," as the expression is commonly understood, but no one will ever "break the bank" at Monte Carlo in the true sense of the phrase.

At the famous gaming-rooms there are not one, but many, tables at which players may stake.

Each table starts play for the day with a capital of $20,000, and when that sum is exhausted, the bank at that particular table is broken, and play is suspended until a fresh bank of $20,000 is brought by the attendants—a matter of a minute or two.

But to break the bank in the true sense would be to exhaust the entire capital of the Casino, and that will never happen, for three simple reasons.

The first is that the bank lays unfair odds to the player. This I will illustrate as simply as possible.

At roulette, the most popular form of gambling, there are thirty-seven numbers—from 1 to 36 inclusive and 0 or zero. It is plain that the fair odds against a player correctly picking one of these thirty-seven numbers are 36 to 1. But the bank only lays 35 to 1.

Hence the bank has always, roughly speaking, a 3 per cent. advantage over the player. To put it another way: If a player backs the same number thirty-seven times, he ought, according to the fair odds, to come out exactly square, but at Monte Carlo he cannot do so—he must lose a point.

This advantage of the bank applies to all the other chances, besides the number on which the player may stake.

Take, for example, the so-called "even" chance of red or black. Of the 37 numbers, 18 are red, 18 black, the thirty-seventh, zero, having nominally no color.

It is obvious that if a player backs red, there are 19 chances (18 blacks and zero) against his being correct. The fair odds are 19 to 18 against him, but the bank only lays even money.

The advantage to the bank does not end here, for when zero turns up, the bank takes all stakes, except those on zero, and the even money chances. The latter are put aside—"en prise" is the technical term.

If on the next turn of the wheel the player on these even chances wins, his stake is released, and he may pick it up, but he wins nothing.

To win he must stake again, and thus when zero turns up it is at least 2 to 1 against a player on an "even money" chance.

The second reason why the bank must always win in the long run is the existence of the "maximum."

The maximum ($1200) is the highest amount a player can win on any one chance. If a player with unlimited resources could go on playing "double or quits" with the Casino indefinitely, he would eventually break the bank in the full sense of the term. But you cannot play "double or quits" with M. Blanc for long.

Starting with the minimum stake allowed—viz., 5 francs—and doubling your stakes each time, your eleventh stake, supposing you to win or lose consecutively, would be over $1000, and you could double no longer.

In other words, you would have come to a point at which you could not on one turn of the wheel either double your winnings or recoup all your losses.

All systems are designed to nullify the effects of zero and the maximum. If one could be certain that zero would turn up, as it ought to turn up once in every thirty-seven turns, it could be provided against, and the Casino, even with the help of the maximum, would be in a bad way.

But no such certainty is possible, and, therefore, every system splits on this rock. And so with the maximum.

Perhaps the most fatal systems of all are those based upon the theory that if red has come up a certain number of times running, black will follow. To illustrate the folly of this theory take the following example: If you toss a penny in the air 1000 times and it comes heads 999 times, it is, of course, only even money on its being tails the next time.

The third reason, if, indeed, another be needed, why the bank must always win, is that the human and fallible player is always playing against an infallible machine.

The slightest mistake in calculation, the least inattention, and the system breaks down. And to err is human.

So Monte Carlo flourishes, and always will flourish, so long as the law allows it to exist.

I Cure...
Every Case
Thoroughly and Completely by Removing the
EXACT CAUSE

I have confidence in my treatment, knowing what I have accomplished, and if, after an examination, I tell you I can effect a cure, you can rest assured of the results, that they will be satisfactory. There'll be no guessing, for I will see and know that my treatment is for the exact cause. I know that hundreds of men have tried many different kinds of treatment and have been guessed at through the mail until they are naturally sore and predjudiced against most everything. But mine is of a different kind and it is personally given in my office and the good results I can guarantee. I am sincerely interested in these diseases from a scientific standpoint and I attach great importance to their effective cure by personal treatment.

STATEMENT OF INTEREST TO MANY . . . . MEN
Functional Weakness, Nervous Decline

One of the most common troubles and one that is usually treated in a common way, which accounts for failure to cure—ordinary treatment will not remove the cause and restore strength. The unreliable methods employed by many are the direct cause for chronic conditions. The importance of experience means everything. It means what to do and how to do it; it means there will be no guessing or experimenting, and that the cures will be more certain than those of less experience. I believe the treatment I employ, with the experience I have had, is the only scientific and rational way whereby functional weakness can be fully cured.

FOUR TO SIX DAYS

VARICOCELE impairs vitality and induces functional decline; surgery is a harsh method. I demonstrate daily that varicocele can positively be cured without cutting, burning, tying or any harsh form of treatment. Instead of the organs being maimed, dilated and weakened, they should be preserved and strengthened. Under my treatment a healthy circulation is rapidly re-established, and every part affected thoroughly restored.

STRICTURE—Neglected or badly treated stricture is progressive, soon involving in its destructive course the whole genito-urinary system. Cutting, stretching, tearing are harsh and savage methods and seldom afford relief; with my treatment all abnormal growth is softened and relaxed, leaving the water channel entirely open and free from obstruction; the unnatural discharge is entirely and completely stopped and all irritations removed affecting the prostate, bladder and kidneys.

CONTRACTED DISEASES—I cure these ailments more quickly, with less pain and inconvenience than anyone claiming to treat successfully these conditions. Be sure your cure is thorough and that you have no relapse or the formation of stricture. My "exact cause" treatment prevents the formation of stricture and no recurrence will follow.

The WINNER
11th WEEK

Here is the cow that won the first prize of $2. It was drawn by MISS DAISY JACKSON, 210 S. Ave. 66, and she attends the Eagle Rock Ave. School. The other prize winners are as follows:
HAROLD EALES, 119 N. Johnston st., 23rd-ave. School.
FLORENCE LYON, Florence and Compton ave., 30th-st. School.
CARYL B. RUNKEL, 221 W. 27th st., Norwood-st. School.
ALFRED SMITH, 645 Banning st., Hewitt-st. School.
EDWARD STEVENSON, San Bernardino, Cal., "F"-st. School.
Checks have been mailed to all the above.

COMPARISON

By comparison you find that which is best, and you want the best if it costs you no more. We claim that there is no better evaporated cream on the market today than ST. CHARLES. We want you to know it, and consequently ask you to compare it with others that you have been using. YOUR GROCER HAS IT. Try just one can.

COW TALK

It was a little hard to pick the winners this week. There were a good many whose drawings were almost, but not quite, good enough to win. Some of those that did win did so by just a hair's breadth. Quite a few that have sent me their drawings lately have complained that they have tried for prizes for several weeks, but have failed to draw a prize. Let me ask them not to be discouraged; keep on trying; if you try hard enough you will eventually get one. One little girl sent me in seven drawings, improving each time, and she finally secured a prize. It's worth trying for, you know. The conditions are simple, and it only takes a label. By the way, there were a few more drawings this week that were without a label. That won't do; I must have a label. I guess all the grocers have it by this time, but if yours has not, let me know; send me his name, and I will help you all I can. Don't be afraid to send in your drawings, even if they do not look quite good enough for you; let me be the judge. I want to hear from you all next week.

Classy Dogs and Great Promise for Bench Show.

SOCIETY CATCHES ON.

Backed by a classy exhibit of the best lot of show dogs ever exhibited in the West, and under the protecting wing of society, the second annual bench show of the Southwestern Kennel Club to be held in this city next month promises to be all that the dog fanciers hope for in the way of success.

The dates for the show will be May 17, 18, 19 and 20, and it will be held as last year in Chutes Park. The theater in the park was used last year but it was really too small for the exhibits, and owing to the increased interest this year larger quarters are needed and one of the pavilions will be used, in addition to a large tent that was utilized at the Pasadena horse show.

As an illustration of what the show promises it is stated that Secretary Peipers expects there will be over 400 entries from along the Pacific Coast. There will be a very large number of dogs from San Francisco and the central part of the State, but it is not known at present just what the representation will be from the Northwest. Seattle has just finished with a very good dog show and it is likely that not a few animals will be sent from there and Victoria, B. C. The entries will close May 9.

The list of prizes will be long, for it is stated that there are no less than 120 silver cups offered for the various classes in addition to the other prizes to be given. These cups will be on exhibition tomorrow in Montgomery's jewelry store on South Spring street.

The principal judge will be Tom Ashton of Leeds, England, whose name and fame are well known to all breeders of show dogs. He will pass upon the merits of all the exhibits except fox terriers, and these will be judged by C. A. Sumner of this city, an expert. The prize committee consists of Arthur Letts Dr. G. A. Scroggs, E. C. Laux, Charles Manwaring, Paul Peipers and Jaro Von Schmidt, Mr. Letts being chairman of the committee. It is hardly necessary to state that the show will be conducted under American Kennel Club rules, the local club having recently affiliated with the parent organization.

Among the many high-class dogs that will be shown is one that has been imported from Scotland by Arthur Letts of this city who has some of the finest Scotch collies in the United States. The prize winner is the Scotch collie bitch "Old Hall Sylvia," and was bred by J. M. Hamach. It is said that in type and class she is entirely different from anything ever shown in California and comes from the famous Old Hall stock. She has been exhibited many times in England and Scotland and is the winner of a double championship. Her head is a classical one and her expression good, the ears are carried well, her bone is good and her "front" is of the best. Mr. Letts bought her in whelp to the famous champion Wishaw Leader, who is said to be the greatest living Scotch collie. She now has six fine healthy puppies six months old and these bid fair to rival any young dogs in the State.

Mr. Letts will also show his well-known champion Ravenswood, who took all the collie prizes on the Coast last year.

Another comer in the collie line is William Kennedy. He is the owner of that famous collie bitch, Lady May III, who easily won first prize for bitches in the show here last year. She is the proud mother of a fine litter of puppies by champion Ravenswood. Mr. Kennedy also owns a fine young dog called Edgemont Springs Pinnacle, sired by the celebrated Wishaw Clinker, for whom J. Pierpont Morgan paid $10,000.

James Ewins will show his bull bitch Wedding Bells, who won first prize in her class at last year's show. She was bred in California and is undoubtedly the best bitch of her kind on the Coast.

It may be remembered that the runner-up for the cup given for the best dog in last year's show, was the fine pointer bitch, Laith, owned by W. J. Morris of this city. He has again signified his intention of showing this good one and she will doubtless give any other animal of her kind all the competition it may want to beat her. Judge Cole of last year's show stated that in his opinion Laith would score winning brackets over many of the Eastern cracks if they should enter against her. Morris has two young pointer dogs that he is very mysterious about and some of the dog men believe from the rumors floating around concerning these two dark ones that Morris intends to spring a couple of champions at the show.

From all accounts local society will take considerable interest in the show, as is the case in every large city. In England where good dogs receive their proper share of adoration as one of the traits handed down from generations of titled sportsmen, and even in New York, where it is considered the proper thing to ape the manners of those across the pond, bench shows divide with the horse shows the favor of society. It is believed that local society will take the dogs into its lap partly for the sake of fashion, but more to do honor to the best friends of mankind.

Bill Sykes, Benjamin Blossom's imported English bulldog

BILL SYKES'S SMILE.

As the society lady who viewed Judge Klein's champion brindled bull dog, Ivel Rustic, at the Agricultural Park show several seasons ago said: "Surely he must be good natured—he's homely enough." So it is with Bill Sykes. To a judge, beyond doubt Bill is a grand piece of work; he fills the bulldog bill according to A. K. C. specifications most admirably. In fact it is hard to see how he could be improved as to points.

Mr. Blossom is a very wealthy young man with well-defined leanings toward amateur sport. His saddle horses won ribbons and cups at the recent show in Pasadena, and he prides himself upon having the purest pedigreed pets that money can buy.

So when Mr. Blossom decided to get a bulldog, he went to England for him, and brought this bland-visaged Beau Brummel of dogdom, Bill Sykes back. Bill has been glad of it ever since; he gets his three squares a day if they are good for him, and his matutinal bath, from which he had just emerged when the camera man, Rafert, called to put him on a plate.

That Bill Sykes is a dog of unusual intelligence was displayed in the alacrity with which he responded to the photographer's stereotyped invitation to "smile and look pleasant." Bill, like Poker Davis, "did the best he could." A more expansive smile it would not be pleasant to see.

The thoroughbred bulldog, as few but fanciers know, utterly belies his looks. He is a most tractable beast; well mannered and most kindly in temperament. Bill Sykes is no exception to the rule. He has never bitten anything but a big Scotch collie that Mr. Blossom also keeps, and has not said much to the collie since it gave him a dreadful drubbing a few weeks ago.

Bill Sykes possesses a pedigree which is stated by conservative men to be not less than a mile and a half long. It reaches all the way from New York to England. Mr. Blossom is as proud of the pedigree as of the dog.

HARNESS RACING.

STAKES FOR COMING MEET.

The Los Angeles Harness Horse Association has issued a list of its stake attractions for the coming circuit meet in this city July 3-4-5-6-7-8 and the list will certainly please the side wheel contingent. There are three events scheduled for each day with stakes of from $600 to $1,000 and all the classes of trotters and pacers will have a chance to shine.

The stakes are as follows:

Monday, July 3—Pacing, 2:13 class, purse $1,000; pacing 2:27 class, purse $1,000; trotting, 2:45 class, purse $1,000.

Bowling Match in Sight.

SANTA BARBARA, April 22.—Bowling still continues one of the leading sports of Santa Barbara, several teams playing frequent tournaments at tenpins. Dooley's Dudes, who won two tournaments this week against Post's players and a picked team, hold the local championship, but there are other teams showing up in good shape. E. E. Caister, local manager of the Edison company, is making an effort to bring a team from Los Angeles for a match with the local tenpin giants the latter part of this month or early in May. Several of the Santa Barbara players have been rolling many games over the 200 mark, with high scores between 240 and 265, and averages between 180 and 190.

CROAKERS AT TRICKS AGAIN.

FINE DAY'S SPORT ENJOYED IN SAN PEDRO BAY.

Corbina Again on the Warpath at Huntington Beach, Much to Delight of the Anglers—Bass Holding High Carnival—Small Fishing at a Standstill.

Those of the rod and reel brigade who love to dally with the festive croaker might spend today profitably at San Pedro, particularly if some of last week's early sport should repeat itself by a school of spotfins again running up and down the bay.

A local angler who stumbled onto the ground at the right time had a great day's fishing at the cannery Tuesday, landing no less than sixteen spotfins weighing from a pound and a half to seven and a half pounds apiece. Others who tried the same resort since had no such luck, however, the croaker game being ever a gamble with a splendid day's sport as the stakes, and about three to one against the player. Those who go down today are simply taking a chance on the fish being inside; if they are, beyond doubt there will be some fun.

The corbina have been getting desperate at Huntington Beach since the Inveterates switched their base of operations piscatorial to Alamitos Bay, and anglers who visited the southern resort during the middle of the week had considerably better fishing than usual. No unusually large fish were reported, but two pounders seemed quite common, and nice baskets were the rule. Many will visit Huntington Beach this morning in consequence, and with a tide high at one o'clock in the afternoon, should have a good time all through the middle of the day.

The bass are still holding high carnival outside and off all the longer wharves good catches are being made by those fortunate enough to get the right sort of bait.

Some big sheepshead have been hooked in the kelp at the government breakwater, and more or less of whitefish can be had there by any who wish to waste clams upon them. The proximity of the kelp has a tendency to make the whitefish bitter in flavor as they feed occasionally on the young fleshy shoots of the plant to the immediate and unmistakable deterioration of their flesh for the table. Clean fed whitefish are a delicacy, but one can never trust them if the kelp is accessible.

Small fry, mackerel, smelts and pompano, seem to have knocked off operations for the time being.

The trolling is still slow, and outside fishing enthusiasts are beginning to think they were in too much of a hurry polishing up their jigs and spoons. An occasional school of barracuda is located by the launches; the fish when found seem ready enough to strike, but thus far they are scarcer than usual.

A few sea trout are beginning to lay hold of live baits that are dangled near the piles for bass.

BELMONT PARK COMING SLOWLY.

NEW RACE COURSE MAY NOT BE OPEN BY NEXT MONTH.

Hard Work Necessary in Order to Catch up With Delays Caused by a Long and Hard Winter—Will be Most Magnificent of World's Racing Plants When Done.

It will require the most diligent sort of labor to get Belmont Park, the new $2,000,000 race track on Long Island, ready for the opening of the spring meeting there on May 4. The work was started two years ago, but the severity of the winter has retarded things so much that the biggest kind of hustling will be necessary to complete the magnificent plant in all its extensive details. Still, if the weather is favorable for the next two months, the work will be finished in its entirety, so the contractors say.

Morris Park will remain closed in order to permit Belmont Park to open, but the racing public will find the new track a vast improvement on the picturesque course in Westchester. When the Westchester Racing Association, or, rather, August Belmont and others who are associated with him in turf affairs, decided to build the new race track, they concluded to spare no expense. The plans for the track were drawn on the most elaborate scale, the idea being that Belmont Park, once completed, would be the grandest race course in the world, and the real Newmarket of America. On this basis, therefore, the work has been carried on until the track in Queens county has become the principal topic of the time among turfmen of all classes.

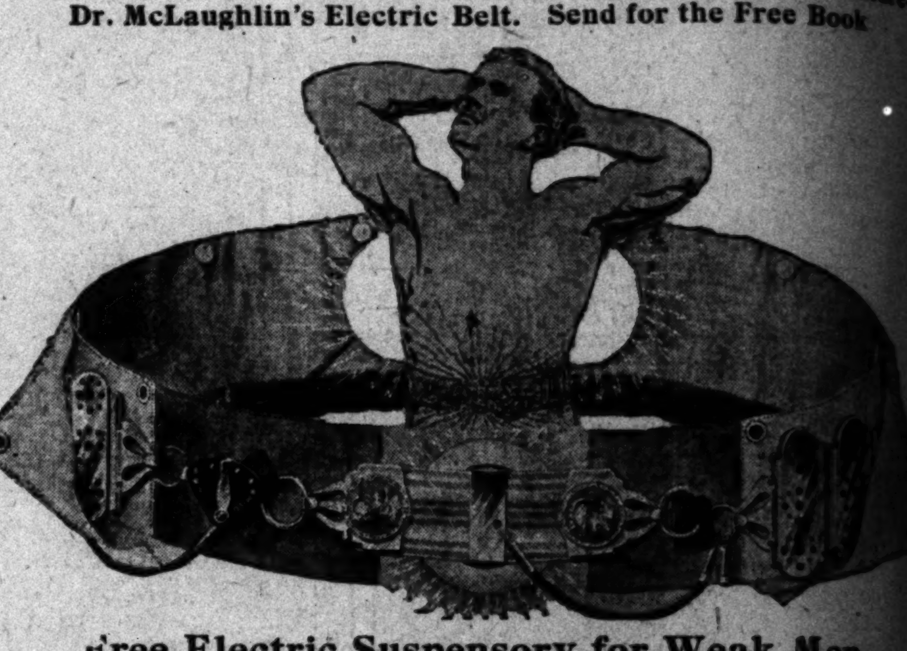
On May 4, when the ponderous gates are swung back for the thousands of race goers to enter, the rich Metropolitan Handicap, the Juvenile Stakes and the Whitney Memorial Steeplechase will be the chief attractions. The crowd as it pours into Belmont Park on that day will see the best-equipped racing plant in this country, if not in the world. The track and its gigantic structures are located about an eighth of a mile from the gateways, and to reach them one must pass through a picturesque grove which leads first to the old Mannice mansion, now the permanent home of the Turf and Field Club, thence to the immense grandstand. This structure is 650 feet long, and will seat 11,000 spectators. It is built of steel, with brick foundations, and has practically two decks under one roof. A short flight of steps in the front of the grand stand leads up to the first tier of seats, which is ten deep. Eight or ten feet above the gallery back of these seats the second tier begins, with a wide promenade behind the latter. There are half a dozen wide galleries on the roof, which afford a superb view of the entire course.

BOOMING OF TENNIS.

STIR IN SANTA MONICA.

Indications are that there will be lively times on the Santa Monica tennis courts throughout the summer. The Santa Monica Tennis Club is now being organized and is preparing to take possession of the Third-street Casino and courts. The membership is to include such racquet wielders as the Misses Sutton, Miss Georgina Jones, Trow Hendrick, the Misses Ryan, Mrs. Robert Farquhar (née Marion Jones, champion,) Roy Jones, Hal Gorham, Mr. and Mrs. B. O. Bruce of Pasadena and others.

Everything will be done to promote tennis, and plans are maturing for several tournaments during the summer and fall. There is a growing interest in this game in Southern California, and for the accommodation of those who enjoy playing it is assured that new asphalt or concrete courts will be added to the Casino grounds. The members of the club will exert their influence to the end that the August tournament of the Southern California Association may be held on the seaside courts.



LOST VITALITY

Varicocele and Weakness

Are Quickly and Forever Cured by the Grand Product of Nature—Dr. McLaughlin's Electric Belt. Send for the Free Book

Free Electric Suspensory for Weak Men

The Electric Suspensory Carries the Current Direct to the Weak Parts and Cures all Weakness of Men, Varicocele, etc. It is Free. It Develops and Expands all Weak Organs and Checks Unnatural Drains. No Case of Failing Vitality, Varicocele or Nervous Debility Can Resist the Powerful Electric Suspensory. It Never Fails to Cure. It is Free With Belts for Weak Men.

No man should be weak; no man should suffer the loss of that vital element which renders life worth living. No man should allow himself to become less a man than nature intended him; no man should suffer for the sins of his youth when there is here at hand a certain cure for his weakness, a check to his waste power.

Most of the pains, most of the weakness of stomach, heart, brain and nerves, from which men suffer are due to an early loss of nature's reserve power through mistakes of youth. You need not suffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

My Electric Belt, with Special Electric Suspensory (free), will restore your power. It will check all unnatural drains and losses and give back the old vigor of youth.

E. E. Beebe, Kirkland, Ariz., says:

"I suffered for ten years with varicocele, and the attending weakness; doctored with various concerns without relief. As a last resort I tried your Belt, and in six weeks the weakness was entirely cured and the veins reduced to their normal condition. I never expected such results, and will always be grateful."

This drain upon your power causes Kidney Trouble, Rheumatism and Stomach Ailments. You know it's a loss of vital power and affects every organ of the body. Most of the ailments from which men suffer can be traced to it.

I have cured thousands of men who have squandered the savings of years in useless doctoring.

My Belt is easy to wear; put it on when you go to bed; you feel the glowing heat from it (no sting or burn, as in old style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

Noble W. Straw, Santa Barbara Country Club, says:

"I can honestly say I have never felt better than since using your famous Belt. It has done wonders ... My back is now strong and every pain is gone. My appetite and digestion are excellent and in the morning I am refreshed from good sleep, and am able to go about my work in good shape."

An old man of 70 says he feels as strong and young as he did at 25. That shows how it ... vigor of youth.

FISH FACTS AND FANCIES.

BY HAPPY ISAAK.

The trolling season is with us again, and a general scramble for new tackle as well as a careful overhauling of the tried and true favorites of other days has been noticed among local outside fishermen.

The possibilities of the San Pedro Channel in a piscatorial way are becoming more widely appreciated every year, and everything indicates that the present season will be a breaker of all records in numbers fishing and fish caught.

The rains and considerable dark weather doubtless are responsible for retarding the appearance of the barracuda half a month beyond their usual date, but those who have found time to venture outside the heads in power launches have found no scarcity of finny material upon which to exercise their persuasive arts. The bass fishing for a month has been far above par. Bonita, albicore, skipjacks and scattering yellowtail were taken all winter, and the presence of these fish along the coast at seasons when not many are to be expected has served to put local trollers into a most happy frame of mind regarding the promise of the months that are to come.

There will be less hand-lining and more rod-and-reel fishing done outside this year than ever before. The champions of light tackle have scored already, and a gradual decrease in the weight and caliber of rods as well as a reduction in the thread of lines is to be anticipated henceforth.

New devices for the luring of large fish are besting the old reliable bone jig for certain classes of the sport, notably the pursuit of yellowtail. Barracuda, bonita, albicore and skipjacks are so ravenous that a white rag will toll them to their ruin, but the festive yellowtail is a high-class customer, not to be caught with chaff. The german-silver wobbling spoons seem to tickle his fancy as well as any bait that has yet been invented; they come in several makes, but are not of much service usually until the hooks are reset so that a fish cannot chase and grab at them for a hundred yards without forming an entangling alliance.

There are many things exasperating in a day's trolling, but nothing brings the "cuss words" so free as experiences of this kind unless it is the breaking of a $15 rod on some lousy bonita whose last despairing downward rush over the side does the trick in an unguarded moment.

Many local fishermen of means have spent hundreds of dollars having launches built for the sport and dozens of such craft can be seen moored around San Pedro and Terminal any day when not in use.

The business of taking out occasional parties has proved a remunerative one to several boatmen along the coast, and the more experienced of these are almost ready to guarantee fish to customers if the schools are running outside at all.

DOCTOR HARRIS

TWENTY-ONE YEARS A SPECIALIST FOR MEN

Varicocele

Have you treated for varicocele with people who claim to cure without your quitting work? If so you still have your varicocele. No varicocele was ever cured while you work. Any reliable specialist can and will show you plenty of successfully cured cases before you treat. We have been curing varicocele in Los Angeles ten years and are ready to prove our success by introducing you to hundreds of first-class men who will give you the facts. One week under our treatment makes a permanent cure. You should see some of our cases here who were treated 8 and 10 years ago. We use no knife, you have no pain, your cure is permanent. Our examination is free. Are you going to hand your money over to any man before you see the absolute proof of his success.

Contracted Disorders

Of all the diseases peculiar to men, contracted disorders are the most abused by cut-and-try, hit-and-miss treatments administered by good friends, druggists, doctors in general practice and most of the would-be specialists. It is certainly interesting to hear the story of the average patient telling his experience with the different kinds of so-called treatments he has been up against. A large majority of our patients come to us with all the original disease and part or all of the combinations resulting from delay and mistreatment. We generally have to cure them after some or all of the following conditions have developed: Chronic discharge, stricture, or all of the chronic bladder troubles, diseased prostate, sores, swellings, etc., besides a patient whose confidence and mind are diseased through failure and disappointment. Don't trifle with these disorders; go to a doctor who knows how to cure you; it is the cheapest, surest and shortest way out. We have been 21 years in the business.

ALVINO

GREATEST LIVING PSYCHIC PALMIST OF THE ENTIRE UNIVERSE.

115½ S. BROADWAY.

REDUCED READINGS!

My regular $5 reading..........$1.00

THIS WEEK

$1.00 $1.00 $1.00 $1.00 $1.00 $1.00

Alvino is conceded by all to be without a peer in his portrayal of the past, present, and future. That his predictions have been verified is the testimonial of thousands who have consulted him. He does not appeal to ignorance or superstition, but to enlightenment and reason. He invites you to call. He will tell you frankly your condition; what you may expect. If nothing can be done for you, he will not take one penny of your money. He never slights any one in his work. All are the same to him, and he believes such is the verdict of all who consult him. He does not care how skeptical you are. To blame you for that would be foolish, for so-called readers are continually rehearsing nothing to confiding persons, and, as before stated, he positively agrees to give complete satisfaction or make no charge—you to be the judge.

ALVINO
gives truthful revelations on love, courtship, marriage, divorce and all domestic difficulties, causing no domestic strife.

ALVINO
gives advice on sales, wills, patents, old estates, speculation, mining, mineral, claims and business transactions of all kinds.

ALVINO
Tells who and when to marry.
He reunites the separated.
He restores lost affection.
He causes happy and speedy marriages.
He tells you how to win the love and admiration of the one you most desire, even though miles away.
You may wish to know if it is advisable to make a change in business, in love, in marriage.
"Shall I succeed in my new undertaking?"
"Shall I ever enjoy the luxuries of wealth?"
"Can I trust my friends?"
"When shall I marry?"
"How often shall I marry?"
"Does another share the love that rightfully belongs to me?"
"If so, WHO is this person?"
"When shall my absent friend return?"
"Why do I not receive a letter?"
Counsel today with the wonderful man for "Tomorrow never comes."

This is a well-known law: Effect is produced by cause. There is no event in your life that is not originated by some cause or condition—health, wealth and happiness, or adversity and misery are but children of conditions and influences which surround your life. If you are unlucky, unfortunate, unhappy, discontented, discouraged or in ill-health, consult Alvino, the greatest living occult scientist, and he will aid you in life's greatest blessings—health, wealth and happiness.

ALVINO'S
clairvoyant powers are almost beyond belief. You will be astonished, mystified and amazed at the remarkable things he will tell concerning yourself and others you are interested in. His descriptions of your friends and enemies are as real as if they stood before you. He tells what you call for before you utter a word; no matter what your troubles are, no matter how down-hearted you feel, his marvelous magnetic powers will quickly bring sunshine to your home life. You can place absolute dependence in every statement he makes.

$5000 FORFEIT TO ANY CHARITABLE INSTITUTION!

The above offer holds good if he fails to teach you how to control any one secretly, how to win the person you love, how to convert your bitterest enemies into your staunchest friends, and how to make a person at a distance think of you.

If you care to know what you should do, to be successful, WHERE you should go and WHOM you should avoid; if you desire to have your domestic troubles removed; in a word, whatever may be your troubles, suspicions or desires, visit

STUART MANSFIELD,
444½ SOUTH SPRING.

OLDEST ESTABLISHED CLAIRVOYANT IN CALIFORNIA.

IF YOU ARE GOING TO SEE A MEDIUM, WHY NOT SEE THE BEST, AS THE BEST IS THE CHEAPEST IN THE END.

Better consult no clairvoyant at all than one who is unable to help you—and false prophets do more harm than good.

PROF. STUART MANSFIELD,
444½ SOUTH SPRING.

THE MAN WITH PSYCHIC POWERS.

THE GREATEST LIVING ADVISOR ON THE CONTINENT.

At a glance, before you have a chance to utter one word, he will tell you what you came for; how to gain success in love, courtship, marriage, divorce, whether you'll be successful in business. No matter what may be your fear, hope or ambition, call on this gifted man. His descriptions of your friends and enemies are as real as though they stood before you. He will send you away happier, wiser and bolder than ever before.

STUART MANSFIELD.

The name Mansfield is known the world over. His ancestors were all powerful psychics, the gift being handed down from father to son. This inheritance, together with combined knowledge and priceless experience, makes him far above others.

$5.00 READINGS $1.00.
HIS REPUTATION HAS BEEN EARNED BY THE WONDERFUL POWERS HE HAS SHOWN, AND NOT BY ADVERTISING, AS IS ATTESTED TO BY THE UNLIMITED NUMBER OF TESTIMONIALS HE HAS RECEIVED.

Business advice a specialty. Investments, law suits, changes, mining claims. In this Mansfield has been successful in the last 15 years.

HE TELLS YOU EVERYTHING, GOOD OR BAD; YOU HEAR THE TRUTH, AND NOTHING BUT THE TRUTH.

HIS ADVICE UNIVERSALLY SOUGHT.
Prof. Stuart Mansfield's advice has never been sought in vain in the great crises of life; his counsel has always shone forth clear, luminous and right; the tottering fortunes of many a man have been saved from wreck by a word from the lips of this wonderful man; in the great game of business, men have staked their all on the dicta of Prof. Mansfield—and won. Friends long separated have been reunited through his instrumentality. The proverbial "slip, twixt the cup and the lip" has been averted in thousands of instances through his ability to read the future. Romances without number have ended happily, and the altar fires of love burn in countless homes today because of Prof. Mansfield's profound understanding the human destiny. Obscure diseases have been located by his psychic diagnosis, and owe their cure to his thorough knowledge of the patient's special needs.

DO YOU WISH TO KNOW
How you can have good luck?
How you can succeed in business?
How you can make your home happy?
How you can conquer your enemies?
How you can marry the one you choose?
How you can obtain perfect health?
How soon you will marry?
How you can conquer your rival?
How you can make anyone love you?
How you can end your family troubles?
How you can remove bad influence?
How you can control anyone?
How you can make distant ones think of you?
How you can hold your husband's love?
How you can hold your wife's love?
Mansfield tells all and never asks questions.

IF THERE IS ANYTHING HEREIN PRINTED WHICH SEEMS IMPROBABLE CALL ON HIM AND BE CONVINCED.

RETURNED! RETURNED! RETURNED!

OLGA NEDWAH IS THE ONLY LIFE READER VISITING LOS ANGELES WHO CAN WRITE THE WORD "RETURNED" AT THE HEAD OF HER ADVERTISEMENTS.

OLGA NEDWAH,
OLGA NEDWAH,
OLGA NEDWAH,

LOS ANGELES' MOST SUCCESSFUL PSYCHIC PALMIST AND LIFE READER.

—430½ S. BROADWAY.—

SPECIAL SCIENTIFIC READINGS. DAILY AND SUNDAY.

—ONE DOLLAR—

THESE READINGS ARE SUPERIOR TO ANY GIVEN IN THIS CITY AT ANY FEE.

THIS IS OLGA NEDWAH'S FOURTH VISIT TO THIS CITY. The indications of her opening week were most bright. Hundreds of her old and hosts of new friends hastened to call, eager for her positive advice and counsel, advice that has saved her old friends untold misery in the past—AND WILL SAVE YOU.

Olga Nedwah's office hours are from 10 a.m. to 9 p.m.

EVERY DAY, SUNDAYS INCLUDED.

OLGA NEDWAH has withstood the test of time and has the advantage of all others, in her line of life work, in that she has been before the Los Angeles public for over six years, giving over 25,000 successful readings in that time.

SHE CHALLENGES OTHERS TO PRODUCE A LIKE RECORD, OR TO EQUAL HER READINGS IN ANY PARTICULAR.

OLGA NEDWAH is the most highly-developed psychic in this city today; as a life reader she has no equal; her readings are a marvel to all; her methods original; her advice exact, convincing, pointed.

Her readings are not composed of a few words, but extended and complete.

If her advice is followed it will result in your overcoming the obstacles obstructing your path, and place you in the way of accomplishing matters and attaining ideals that in the past have seemed impossible.

OLGA NEDWAH can see and hear, distance, time and place being no barrier to her intensified powers of seeing and hearing. She can correctly diagnose diseases, give advice on business and family matters, locate mines, lost or stolen property, advise regarding removals, transfers, legal rights, adjustments, disputes, journeys, marriage, etc., property, lands, on all affairs of life.

OLGA NEDWAH is developed to a degree that she has instantaneous knowledge of Past, Present and Future, Facts, Principles, Persons and Events, and is able to obtain certain knowledge of persons, present, distant, dead or alive, independent of the ordinary avenues of sense.

OLGA NEDWAH is very convincing to the skeptic, as her work instantly shows an occult power far beyond the reach of the ordinary senses. Her readings, for length, detail, exactness, truth, interest manifested in each individual case, sound advice and counsel and method, are not equaled in this city.

OLGA NEDWAH tells you what you want to know, eliminating all uninteresting features and not tiring you with matters entirely irrelevant to the case in hand, as has been your experience with so many readings you have had in the past.

WE WISH TO CALL YOUR PARTICULAR ATTENTION TO THE FACT THAT OLGA NEDWAH ASKS NO QUESTIONS BEFORE NOR DURING THE LENGTH OF HER READINGS, BUT READS YOUR LIFE AS IF SHE PERSONALLY KNEW YOU FROM BIRTH.

OLGA NEDWAH does not pretend to accomplish the impossible, but to those desiring honest readings, which embrace a full and complete history of present and future happenings she extends a cordial invitation to call.

PERSONAL — HAVE YOUR HANDS HONESTLY read and the many future events of your life accurately prognosticated by the celebrated, skillful SCIENTIFIC PALMIST
PROF. C. IRVIN ALTHOUSE,
acknowledged by hundreds of the best intellects—his patrons, as the finest and most remarkable reader of hands in this country, and pronounced superior to Cheiro.

PROF. ALTHOUSE'S scientific readings have nothing in common whatever with the fictitious readings of illiterate humbug palmists, psychics, life readers, etc., who, by their utter ignorance of the laws of this wonderful science—scarcely knowing one line or mount from the other, drag it into the mire of charlatanry fortune telling and fraud. A satisfactory reading can only be had from one who has thoroughly mastered the laws of this remarkable science through years of critical study, large experience, etc. With astonishing accuracy health defects are pointed out. Careful advice given in domestic, love affairs, etc.; also of financial success or failure, changes, deaths, investments, vocation in life and many other important things you should know.

Prof. Althouse, in his large and successful practice, has acquired a very varied experience of the anxieties and struggles, both open and concealed, of his fellowmen in life. HIS WONDERFUL PROFICIENCY IN HAND READING enables him to see for the FUTURE, both the good and evil. He knows that many are struggling to better their condition in life, and contending against innumerable adverse influences, etc., whatever these be—financial, domestic, ill-health, etc. THE MOST PRIVATE CONFIDENCES ARE REPOSED IN HIM, AND HIS ADVICE IS SOUGHT IN THE MOST DIFFICULT AND CRITICAL CIRCUMSTANCES.

PROF. ALTHOUSE has positively read the hands of every celebrated person he has ever, at any time, advertised and claimed to have read. E. H. Sothern says: "I find your reading coincides with Cheiro's." And, "I am greatly interested in scientific palmistry." Paul Gilmore, actor, says: "I want to express to you my keen appreciation of your reading; it is by far the most scientific I have ever had." Burton Holmes, formerly read by Cheiro, says: 'Your (Prof. Althouse's) reading is the most interesting I have yet had." Juliet Crosby, actress, says: "Prof. Althouse has given me a most helpful, complete and satisfactory reading." Tod Sloan (famous jockey) formerly read by Cheiro, says: "Your (Prof. Althouse's) reading is the most complete I have ever had, and can say for your work that it is WONDERFUL." Also read hands of Admiral Schley, Gov. Pardee, Senators Clark and Pettigrew, Sousa, Creatore, Innes, Modjeska, Caruso, Sembrich, Burgstaller, Poehlmann, Barvis, Gadski, Warde, Kidder, Edison, Hobson, Musin, Kreisler, Dustin Farnum, Grace Von Studdiford, Jos. Jefferson, Wm. Desmond, Maxine Elliott, Anna Teld, Lillian Russell and hundreds of others. All visits to and readings by Prof. Althouse, are STRICTLY CONFIDENTIAL. Intelligent, high-class patronage solicited—those capable of appreciating the superior qualities of a fine reader. Daily and evenings. Sunday 11 to 3. Studio, 423 S. BROADWAY. 23

Home Telephone Company's stock keeps advancing. We have continually recommended these shares as a good investment. It is good for 20 points more during the present year, so don't hesitate to buy these shares at present prices.

The Searchlight-Parallel Gold Mining Company is now shipping high grade ore, smelter returns gave $66.65 per ton average on a car containing 77,200 pounds or 38 1-3 tons. This is far ahead of some of the Tonopah and Goldfield companies, which stocks are selling for many times the price we are asking for the Searchlight-Parallel. The time to buy these shares is now as a very limited amount of stock remains at a low figure.

Russell Sage says: "Do not turn a man down because he presents a 40 per cent. proposition." Russell Sage never turns anyone down without first listening to his story, and yet he is one of the shrewdest men in the Wall street district. He is reputed to be close; closeness never gave him the richness which he now has; he is wealthy because he investigated opportunities which came to him, and grasped many of them. He lost some opportunities through lack of faith in them or because they came and he was unprepared, but he took advantage of enough 40 per cent. propositions to make him one of the wealthiest men in our country. At any time in his career he would listen with respectful attention and interest to any proposition which offered profits, even though the profits appeared beyond belief. The example of Russell Sage is surely a good enough guide for any one desiring to make money. We offer you in Murchie, Empire, Cal.-N. Y. stocks, better than 40 per cent. propositions. Thousands of clients have made fortunes in these and other stocks we represent, not on paper but in tangible assets upon which they are drawing large dividends every month. These propositions are near at hand in our own State. If you buy this month you will get on the first of May a 33 1-3 per cent. increase in your assets and a dividend of 1 per cent. per month on that increase. These stocks are guaranteed by a trust fund of millions. You cannot lose. Our purpose in organizing this fiscal company is to sell to investors, dividend-paying securities, wherein every element of chance has been eliminated, and such as will increase their assets and dividends many times in the near future. Will you investigate these securities and secure a competency?

MARKET LETTER.

GLIDDON'S
MARKET LETTER
APRIL 22, 1905.

In my market letter of the 14th inst., I made some comments on the Goldfield excitement, and want to get back to that in this letter; for while I distinctly believe that excellent profits can be made in Goldfield stocks, and that the probable boom in Goldfield shares will offer, to those who get in early, some great opportunities for money-making; yet great caution is imperative as there are many evidences of the handiwork of the juggler, the fraud, the trickster, the exaggerator and the all-round liar, all of whom are hard at work trying to woo the wily dollar out of the pockets of the uninitated mining stock purchaser.

For instance, I saw an advertisement of a Goldfield company, whose stock is offered at 2½ cents per share; and in the body of the add. are these words: "Those who get in on this allotment of treasury stock at the ground-floor price may make millions, etc." That kind of talk is not only absurd and grossly misleading to those who know nothing about mining, but there is no precedent to base such a statement upon. Take the very best cases of remarkable advances in mining stocks and see how they work out. There is El Paso that, several years ago, sold in small quantities at about 2½ cents; and recently sold at $2. Portland sold at first at about 2 cents, and has, I think, touched as high as about $4; while Gold Coin began at around 5 cents, and because it was very closely held it rose to as high as $8. In the Comstock days there were some wonderful and rapid advances, the most spectacular of which was Sierra Nevada, which on May 14, 1878, sold for $2.90 per share and four months later sold at $270 per share. In other words the price of Sierra Nevada was 95 times as much in September, 1878, as it was four months earlier.

Now with these "show figures" in your mind, let us consider this tall talk about this 2½-cent stock making millions. Suppose you bought 1000 shares, and suppose they rose in the same ratio as did Sierra Nevada and you could sell your lot at top figures, you would make $2375, less the amount paid for the stock i.e., $25; an excellent profit, but not making millions.

Loose talk of this type brings mining into disrepute and causes sensible people to look upon it not as a speculative business, that offers unmatched opportunities for generous returns, but as an out and out gamble.

And then there is the fellow who tells you that the mining stock he offers you is as safe as government bonds. Such talk is bare-faced lying. A prospect stock is a mining speculation; no more, no less; while stock of a mining company owning a well-developed, well-managed property with ample ore in sight and paying regular dividends is a mining investment; but none of them are as safe as government bonds; for the element of safety in government bonds is the credit of several millions of people backed by almost incalculably valuable resources; and no mining company has such credit back of it.

And in boom times like these you need to watch out for the company that is managed by Quitters and Unloaders. We had many of them in the oil boom, i.e., companies whose boards of directors were composed of what the English call "guinea pigs," or in other words, ornamental directors, who sell their names and influence for so much stock, which stock is as early as possible unloaded on the public. I could name a number of this type that flourished in the oil boom, and some of the directors who were in them are now on the boards of some of the Goldfield companies; and it will be now as it was then, for I noticed that the guinea pigs always got out of the sty before the swill barrel was empty. In other words, they always unloaded their shares, which cost them nothing, before the rottenness of the company became manifest and the inevitable crash occurred.

Yes, some of these leading lights in the social and business world are once again being used, and the moths, who are attracted by that flame will have their wings burned as in the former days.

And I need hardly tell you not to believe all the tales that come from Goldfield, for although the truth is good enough to excite any sane person, there are all kinds of crazy exaggerations foisted upon the public.

Only a day or two ago we were asked to believe the wild yarn that some man had offered $10,000 a DAY, plus 25 per cent. royalty on ore produced. That is a tale to tickle the tenderfoot in mining, but we have heard tall tales like that before; thank you. I classify them as hot air, with a strong odor of gasoline.

This new desert section is young and only skimmed over, and little definite is known of it as yet. But there is every reason to believe that it will create a tremendous sensation and yield a wonderful production of ore.

The probabilities are that large profits will be made in Goldfield, Bullfrog and other such stocks; and the type of stock that is likely to make the big profits is that general type mentioned in my last market letter, a copy of which if you have not seen it, I shall be pleased to send you on application.

And, by the way, I do not publish these letters regularly, but usually only mail them to my regular readers; so, if you desire to have them, it will be necessary to write to me and so state, and I shall put your name among my Market Letter Folk, and see that you get the letters, without cost to you, whenever they are sent out.

ALLEGED HORSE THIEF IN THE BAKERSFIELD JAIL.

Posse Follows Harry Burns, Wanted for Theft of Animal on Riverside Ranch, and Gets Him Over the Ventura County Line—Men Short on Power Company's Tunnel.

[BY THE ASSOCIATED PRESS—P.M.]

BAKERSFIELD, April 22.—Harry Burns, the man who has been wanted since Thursday for stealing a horse from the Riverside ranch, near this city, was brought to the County Jail late this afternoon by Deputy Sheriff Douglas. Burns was captured yesterday afternoon near Cuddys, Ventura county, after a hot chase by the officer and the head vaqueros of the [illegible] and San Emedio ranches.

The posse came in sight of the pursued man at about noon and commanded him to throw up his hands. He dug his spurs into his horse, and the Sheriff fired two shots in rapid succession.

Burns drew up, was arrested and brought to this city. It was learned this evening that Burns comes from an excellent family, his father being a silk importer of San Francisco.

MEN SHORT ON TUNNEL.

The Kern River Power Company is pushing work on its great nine-mile tunnel in the Kern River Cañon. About one thousand men are employed at the numerous camps along the line, but this number is not sufficient to keep things moving properly.

C. C. Scribner, who has the contract for supplying laborers on the power canals, has exhausted every effort to secure men in this city. He will go to Los Angeles tonight, and will insert advertisements in newspapers there. He hopes to secure 250 men who are very badly needed.

EX-CONVICTS IN BUNCH.

At the close of their preliminary hearings in Justice Marion's court this afternoon, Fred Perdies and José Sandreal, two Mexicans, accused of having been implicated in the looting of the big department store last Wednesday night, were held to answer in the Superior Court on a charge of burglary.

Perdies admitted today that he is an ex-convict, having finished a three-year sentence for burglary at San Quentin. He accused Sandreal of being an ex-convict of Folsom. Evidence is strong connecting the two men with other robberies of recent date in Bakersfield.

With the two Mexicans was a man by the name of William White, who has admitted that he stole [illegible] from a saloon last Thursday night, and that he, too, is an ex-convict, who was discharged last month, after having served six years of a ten years' sentence for robbery in San Quentin. He also has been held to answer in the Superior Court.

CORONADO BEACH.

OPEN-AIR KINDERGARTEN.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

CORONADO, April 22.—The local kindergarten, said to be the only open-air kindergarten in the country, has closed a successful year under the instruction of Miss Jenkins, who left today for Los Angeles. One of the cottages at Tent City was used as the headquarters of the school, but all the games were played in the open, while all the table work was carried on out of doors, except on rainy days when the children assembled in the auditorium of the hotel.

Mr. and Mrs. Walter H. [illegible] and daughter, Evelyn, also Miss [illegible] and Luther M. Kennett, left Los Angeles for their summer home in Wisconsin yesterday.

Mr. and Mrs. John Jacob [illegible] left for their home in Louisville, Ky., after passing five months at the hotel.

The first meeting of the board of trustees of the National Association of Packers of Pure Canned Goods convened at Buffalo Friday. The association was formed March [illegible] in Pittsburgh, and the meeting is for the purpose of completing the work of organization. The packers say their organization is not to regulate prices, and discussion of that subject will be prohibited by the constitution.

"HOUSE AND LOT"—The Times' Weekly Review of Real Estate and Building.

FACT AND COMMENT.

At a recent dinner of the Merchants and Manufacturers Association a paper on the subject "Whither Are We Drifting" was read by Frank Simpson. After stating that too rapid advancement of real estate values, particularly in the business section, is to be deprecated, as capital is timid, and high rents form an item of expense which first incurs the careful consideration of the merchant deciding upon a new location, Mr. Simpson added:

"There is danger in anticipating and discounting the future spread of business and marking up values for blocks or miles over extended territory that would require years of steady growth to warrant its being built up with business houses in keeping with such land values. If in one block there is demand for a particular corner or location, the price or value of that special property does not necessarily put an approximate value on the entire or adjacent block. If the entire block were improved, possibly 75 per cent. of the stores would remain vacant and an appreciable decline in land values and rentals would follow.

"This 'unearned increment,' as Henry George terms it, is an uncertain quantity, and as our city grows and its business life requires a broader field, it would be wise to bear in mind that a comparatively limited area is capable of taking care of an immense amount of business."

These are truthful statements, and entirely in accord with observations that have appeared in this column from time to time. We must not attempt to discount the future of Los Angeles too heavily. Otherwise, we shall run into deep waters, where those who cannot swim will find it uncomfortable, and even those who can swim may become tired.

—o—

Planting Shade Trees.

The first thoroughfare in Los Angeles to take advantage of the State law for the planting of shade trees is [illegible] boulevard, the roadway that was recently completed at a cost of [illegible] to the property owners. The trees selected in this case are alternately black acacia and liveoak. This is an excellent selection. The live oak is one of the most beautiful native trees of Southern California, a robust and shapely figure that adds beauty to many of our foothill slopes. It has been greatly overlooked in the planting of shade trees, owing to the erroneous idea that it takes a very long time to grow. It is true that it does not grow as fast as the blue gum, yet it makes a very creditable appearance within a few years, when properly cultivated. Meantime, the more rapidly growing black acacia, also a shapely tree, will make amends for its slower growing companions. There are fine specimens of the black acacia on South Main street. While we are thus arranging for planting new shade trees, would it not be well to do something toward protecting those already planted from the vandalism of the wire companies and the short-sightedness of city officials, who lay out new streets? The public conscience was awakened last week by gross acts of vandalism of this kind, but the public conscience needs to be constantly watched, as it very soon goes back to sleep.

—o—

The Magic Isle.

The little town of Avalon, that looks like a stage setting on the shore of a summer sea, occupies a somewhat unique position in regard to real estate. The town site of Avalon was subdivided in October, 1887, the name Avalon being given to it later. The steamship "Ferndale," chartered by the Wilmington Transportation Company, made her first trip on June 7, 1887, and kept up the service throughout the summer, going over one day and returning the next. Hancock Banning recently dug up an old price list of lots in the town of "Shatto," as Avalon was first called, after the owner of the island, who was killed in a railroad accident on the Tehachepi. They ranged from $50 to $700, with a few running up to a thousand. When the Banning Company acquired the island, it stopped selling property, and bought back all it could. There are now less than eighty lots in private ownership. Since prices are high on the little water front, used for business purposes, over a thousand dollars has been offered and refused. One Los Angeles man who bought a lot at the sale seventeen years ago was recently receiving about $5000 a year net income from a lot 30x40 feet, which income has since been increased by several thousand dollars, as more improvements have been made.

—o—

"Mine Ease in Mine Inn."

"Shall I not take mine ease in mine inn?" Well, that depends somewhat as to what kind of an "inn" it is. Since the old inn has been transformed into an "hotel," a good deal of the old-fashioned ease has disappeared. There is a great difference in hotels. In some you feel at home as soon as you enter, while in others you have a sensation of entering a combination of church, mausoleum and museum. In some you will find tomblike white pillars and jimcrack gilt chairs that one is afraid to sit upon, while in others there are restful tinted walls, or dark, polished wood and ease-provoking Morris chairs. In the World's Work for April is an interesting illustrated article by Joy Wheeler Dow on "What a Hotel Ought to Be." The author makes a plea for less magnificence and gilt and more comfort and good taste. He quotes a man of society as saying that there is not an entirely satisfactory tavern in the city of New York. He pertinently remarks that the world has grown immensely richer, and its riches have been largely lavished upon taverns, while the art of tavern-keeping remains in its infancy. "Hence we need better taverns, not grander, taller or more expensive taverns, but just better taverns." A notable example in Southern California of a tavern that is at once artistic, unique and comfortable is the new Glenwood, at Riverside, as anyone who has visited that interesting hostelry will attest. We might get some useful hints from this inn, when we build that grand tourist hotel in or near Los Angeles, that is going to put us on an equality with Pasadena and Santa Barbara and Coronado Beach. When?

The Age of Cement.

The world appears to revolve, in more ways than one. After hundreds of thousands of years, we get back to old ideas, trotted out as entirely new. Thus, cement is one of the oldest building materials known. It is now believed that the pyramids of Egypt were constructed in this manner, which would explain the mystery of how such enormous blocks could be placed in position, without the use of modern machinery. Cement is coming in again, for buildings of all kinds. In the great fire of Chicago, thirty-five years ago, it was shown to be more resistant to fire than any other material used. An exchange tells of an ingenious resident of New Jersey, who has constructed of cement not only a house, but a heating stove, an ice box, shelves, a dog kennel and a fruit cupboard, also horse blocks, hitching posts, carriage house, stables and a mushroom cellar. Lightness and great strength are secured by the use of woven steel net. This prevents the concrete from cracking, and gives ten times the strength that would otherwise be obtained. Portland cement was used, the cement being mixed with sand and cinders, the only other ingredient in mixing the compound being water. Cement adapts itself readily to the mission style of architecture that is now so popular in Southern California.

—o—

British Settlers.

Quite a colony of Englishmen was recently formed in the Hemet Valley, and additions are being made to the ranks. California has always been a favorite among the States of the Union with our British friends. There is a halo of romance about it which appeals to them, as to many others. Many of them come out for the purpose of going into "rawnching," in regard to the details of which most of them have but a very vague idea. The general idea seems to be that orange growing in California consists mainly of swinging in a hammock, under a porch, and watching things grow, occasionally varying the monotony by a game of tennis or golf, or a hunting trip. They soon find that even "kid-glove farming" has its strenuous sides, especially when you have to stand with your feet in cold mud and your head under a hot sun, while you are trying to make water run uphill. These immigrants, being so frequently short on practical business sense, and entirely ignorant of horticulture, it is not surprising that many of them make a failure. On the other hand, those who stick to it, with British grit, often clear a good competence. Some of the most successful fruit growers of California are men of British birth. But they are men who don't devote most of their time to playing golf or tennis, or polo. The location of the latest British settlement is excellent, with good soil and plenty of water, at the foot of a majestic mountain range, where, within a few hours, one may escape from the heat of summer to the shade of the pines. Those of the Britishers who are not afraid of work, and do not expect to be able to gather $20 pieces from nursery stock, are likely to become prosperous Californians, while others, who are too easily discouraged, will be added to the ranks of the disgruntled, who go around cursing the "blawsted" country.

—o—

More Street Improvements.

Several important moves for street improvement are in progress in the southern end of the city. Of course, the largest of these projects is the paving of Central avenue, from Twelfth street to Slauson avenue, which will give the longest expanse of paved street in the city. Property owners on Figueroa street from Jefferson to Slauson avenue, are signing the contract for grading, cement sidewalks and curbs and for oiling the street. Another quarter of a mile of street work was commenced last week by the McCarthy company in its Main-street, Moneta-avenue and Figueroa-street tract on Fifty-third street, from Main street to Moneta avenue. Grades have been set for this street, and the work will be pushed to a completion so that the tracks of the Fifty-third-street extension of the street railway may be laid as soon as possible. A contract has been signed and filed during the past week for grading, oiling, curbing and putting in cement sidewalks to Moneta avenue from a point west of Jefferson street from which the tracks of the Moneta-avenue line have already been laid, going through to Fifty-first street.

Buys for a Home.

E. H. Cooper buys of F. C. Perew, through the agency of Althouse Brothers, a lot 40x150 feet, at the southeast corner of Thompson and Twenty-first streets, improved with an eight-room residence. Consideration named, $6000. Purchaser buys for his own home.

REINFORCED CONCRETE.

AN EXCEEDINGLY VALUABLE BUILDING MATERIAL.

America Has Been Slow to Adopt it—Was Exhibited at the Paris Exposition of 1855—Is to be Used in the Laughlin Building Annex. A Record-breaking Concrete Beam.

The term "reinforced concrete" is used to describe a system of construction based on the fact that concrete, while having many elements of high value for structural purposes, including great resistance to compression, is comparatively weak in resistance to tension. Steel is admirably adapted to make up this deficiency and is, for this purpose, combined with concrete wherever the nature of the case is such as to develop tensile strains.

Another element of these materials which makes possible their use in combinations is their practically similar action under any variations of temperature likely to occur in this country, requiring four ciphers to the right of the decimal point before the figures required to express it.

America has been surprisingly slow in taking up this class of construction. The Paris Exhibition of 1855 contained an exhibit of this method. Coignet, an eminent French engineer, proposed several methods for the combination of concrete and iron in 1861. Joseph Monier, a French gardener made large garden pots of concrete and iron rods in 1867 and was the first to use these materials in construction of floors, tanks and bridges. The progress of the invention toward public favor was slow, but Marsh, in his recent work on the subject, states that "there are now about fifty different systems in use, most of which appear to have been adopted to avoid the infringment of earlier patents." It is observable by students of present practice that as fast as patents expire the users of the various systems gravitate to practically the methods embodied in the work of Monier and Hennebique in France and Ransome in the United States.

The advantages of the system are manifold, chief among them being great facility and range of application; unexcelled fire resisting qualities, when properly executed; economy, in comparison with other fireproof methods; the wide distribution and accessibility of the great bulk of the required materials, etc. Another feature, which may be regarded as an advantage or otherwise according to the point of view, is that a considerable degree of mathematical expertness is so obviously essential to the calculations involved in the design of reinforced concrete structures that they are not likely to be attempted by the inexpert.

The Laughlin Building Annex, as planned by Architect Thornton Fitzhugh, follows in a general way the lines on which the works of Hennebique and Ransome have been carried out. Desiring to make assurance doubly sure, Mr. Laughlin employed Harrison Allbright of Charleston, West Va. (a specialist in reinforced concrete, and the architect of the new Long Beach Hotel) as consulting architect. Mr. Allbright has fully approved Mr. Fitzhugh's work and the constructional details prepared by T. F. Osborn, engineer and vice-president of the Henry R. Angelo Company, contractors for the work.

The front of the structure will be of glazed terra cotta and may be six or eight stories high, as circumstances may determine. Mr. Laughlin's instructions have been to make the new building the embodiment of the very best that has been developed in building construction. The A. Fusenot Co., proprietors of the "Ville de Paris," will occupy the entire first floor and basement from Broadway to Hill street, including the present Coulter store. The use to which the upper stories will be put has not been fully determined.

In further elucidation of this subject, the following description of a remarkable piece of concrete work, in Los Angeles, may pertinently be reproduced here, from a recent number of The Times:

"Another triumph in concrete cement construction in which Los Angeles is taking the lead, as in many other things, was scored yesterday when a number of engineers and architects assembled at Carl Leonardt's cement warehouse on Industrial street between Sixth and Seventh, east of Alameda, where an interesting experiment was brought to the test.

"The testing of the longest reinforced concrete beam ever constructed is what called the men of science to that point, and the test was entirely successful.

"To prove what can be done in that line and demonstrate the quality of the cement which he uses so extensively in his building operations, Mr. Leonardt projected a warehouse 150 feet long with a width of 102 feet on the inside, the roof of which is supported by eight beams of concrete spanning the entire length, each beam being 5½ feet in deep center, 3½ feet deep at ends and 13 inches thick, reinforced by six rods of steel of 1¼ inches diameter, embedded in the concrete near the bottom. The concrete was five weeks' old when the supports were removed and the entire load of beam and concrete roof were taken up with a deflection of but two-thirds of an inch in the center.

"This is the first reinforced concrete cement building erected in Los Angeles. It is a triumph for American cement, as well as for American brains and labor."

Carl Leonardt has also been awarded the contract for a sugar factory at Sterling, Colo., to be constructed on a new type. Instead of using piles driven into quicksand, the factory is to rest on a vast slab of concrete, reinforced by steel bars. The factory is to be completed for the campaign of 1905. The factory is the property of Henry Havemeyer, the sugar king of New York. Mr. Leonardt also has the contract for the erection of a sugar factory of similar capacity at Holly, Colo., in the Arkansas Valley, near the Kansas State line.

AMONG OWNERS AND DEALERS.

MARKET SHOWS SALES OF NUMEROUS CLOSE-IN HOLDINGS.

Both Downtown Properties and Well-located Suburban Tracts Find Favor With the Buyers. Revival of Interest in Beach Lots is Noticeable.

One of the features of the realty market during the past week has been the decided revival of interest in beach properties. From the various seaside propositions, from Oceanside to Santa Monica, come reports of many new inquiries and visitors; and at several of these points good sales have been made to prospective settlers. Huntington Beach sales have been particularly active. The changes at Playa del Rey, which are mentioned elsewhere in this department, have caused considerable activity there, and the new strand subdivisions are proving popular. The demand continues good for half-acre and three-quarter-acre lots adjacent to Los Angeles in well-located subdivisions, which are accessible by electric lines. Several sales of close-in properties have been noted at prices showing a slight increase in valuations. In regular suburban lots both the East Side and Boyle Heights have shown marked activity and the extreme southern part of the city has also been a favorite locality for investors.

—o—

At Florencita Park.

Lively sales are reported in the Florencita Park tract. There are only 188 lots in the tract, yet $40,000 has been spent in improving them. Building restrictions range from $1000 to $2500, with only one residence to the lot, and several handsome cottages are now in course of erection. The lots range from 50 to 70 feet in frontage. Walter G. McCarthy reports the sale of fifteen lots in this tract, aggregating $11,000, and ranging in price from $500 to $1000. Among the buyers are H. B. Schildwachter, Bertha Lawford, Nina Hitchcock, Hedda F. Johnson, Henry M. Loud, Olaf M. Dahl, Herman C. Ingils, Lottie M. Summerville, Joseph S. Cannon, Fred S. Cannon, Mary D. Hunter, John B. Johson.

—o—

On the East Side.

The Moulton Home tract, which is to be opened to the public tomorrow, is reported by its promoters, Hollingsworth & Co., to be already over half sold. Yesterday morning J. A. Donivan sold to John T. Dewar thirty lots in this tract, 25x150 feet, at a price aggregating $9000. The tract is located between the Southern Pacific shops on Alhambra avenue and East Main street, and lie one block to the northeast of the new Lamar-street electric line. There are 151 lots in the tract, and the prices range from $250 to $500. Their proximity to the railroad shops, which give steady employment to such a large number of men, will doubtless result in their being rapidly covered with homes.

—o—

At Playa Del Rey.

Notable changes have been in progress at Playa del Rey, and these include the replatting of a considerable portion of the original site and the laying out of an addition to be known as Del Rey Beach, on the ocean front. This property will be placed on the market tomorrow, although already numerous lots have been sold to persons who intend to build for summer homes. Fred Flint, Jr., and James P. Baldwin are handling this property. They have laid out a three-quarter-mile stretch of the beach front, north of the Strand tract, adjoining Venice. These are sand lots with ocean frontage and the lagoon at their back. Sidewalks in the center of the street are being constructed; water, gas and sewers are in, and the new addition is to be made a high-class beach property, with building restrictions. Within the next two weeks five purchasers on this strand will begin the erection of handsome beach cottages. They are H. B. Lombard, George B. Ellis, N. W. Church, James P. Baldwin and Frank Flint, Jr. Messrs. Frank A. Garbutt, W. W. Burton, Oliver Morosco and A. W. Eager and M. R. Signor have recently completed homes there. Lots range in price from $700 upward, and have 35 and 40-foot frontages.

—o—

At Olive and Eleventh.

Nathaniel Mayes has sold to Fred A. Hines, through the agency of Richard P. Blaisdell, the improved property at the southeast corner of Eleventh and Olive streets. This lot has a frontage of 45 feet on Eleventh street by 120 feet on Olive street, and is improved with a two-story building, six apartments of six rooms each. It brings an income of $2100 a year. Consideration stated, $24,000; and compared with other recent sales in this neighborhood the price is considered a very advantageous one for the purchaser.

—o—

Sale on Los Angeles Street.

A local syndicate composed of Isaac Lowman, Isidore Cohn and Oscar Lawler, has purchased of Walter R. Cuthbert, through Black Brothers, a lot 100x133 feet on the west side of Los Angeles street, 270 feet south of Seventh street, and improved with one double and two single dwellings, numbering from 729 to 735. Consideration named, $43,650.

—o—

Figueroa Square Changes Owners.

The property on South Figueroa street known as Figueroa Square, and consisting of 110 lots at the junction of this street with Fortieth and Forty-first street, has been sold by P. W. Powers, Harry Jackins and F. G. Calkins to M. E. Johnson & Co. Consideration stated, $40,000. The size of these lots ranges from 40x135 to 68x145 feet.

—o—

Sales at Willowbrook.

During the past week seventeen lots have been sold by Harbert & Butterworth in Willowbrook, on the Long Beach electric line. The majority of these were half-acre lots, and the other were three-quarter-acre. They ranged in price from $300 to $400 each, the total sales aggregating $5500. Among the purchasers are C. E. Ellison, H. G. Dennis, J. Blair, Lena Althamer, G. Garrett, Lucy Smith, J. E. Cornwell, C. Westhoff, W. B. Minson, S. T. Ellis, and K. C. Long. Four of these purchasers will build at once, and five cottages are now under construction by owners of lots who purchased the week previous.

—o—

Half-acre Lots.

A new suburban tract, to be known as Springdale, and located on the Long Beach electric line is to be placed on the market about May 1. The lots, which will sell at from $175 upwards, are to be divided into quarter and half-acre tracts, and 100 acres will be subdivided. McGarvin & Bronson will handle this property.

—o—

Will Work for the Tunnel.

The Court Street Improvement Association intends holding weekly meetings, on Wednesday evenings, to advance the project of a tunnel through Court street from Broadway to Figueroa street, to be constructed through a general city tax. The great convenience to the city's traffic, especially that large territory lying to the northwest of Broadway, and the rapid increase in the valuations of property, similar to that which has taken place at the westerly end of the Third-street tunnel, are set forth by the advocates of the Court-street project as their strong arguments.

—o—

Another Figueroa Sale.

A lot 50x165 feet, on the east side of South Figueroa street, midway between Ninth and Tenth streets, and improved with a three-story apartment building, six seven-room flats, has been sold by M. W. Blinkiron to an eastern investor, through Wright & Callender. Consideration named, $25,000. This property brings an income of $190 per month.

—o—

Bought on Washington Street.

The southwest corner of Washington street and La Salle avenue, 200 feet on the former street by 150 feet on the latter, has been sold by T. V. Sheridan to George B. Ennever, through the Herron-Baxter Realty Co. The property is unimproved. Consideration stated, $5000. This firm has sold for Marion F. Wells the residence property, at No. 2317 Scarff street; lot 50x182 feet, and a two-story, eight-room residence. Consideration stated, $7500.

—o—

On Figueroa Street.

Young & Adams report recent sales in their Figueroa Street Tract aggregating $10,950, as follows: E. C. Schaad, 7 lots, $6150; W. C. Lukens, 2 lots, $1200; J. W. Wallace, 1 lot, $600; C. H. Lukens, 1 lot, $600; E. Menzies, 1 lot, $600; I. E. Helfrich, 1 lot $600; C. H. Brown, 2 lots, $1200. Several residences are in process of construction on this tract which lies west of Figueroa street on Forty-sixth or Baxter street. The Gardena branch of the Redondo car line runs along the west side of the tract. The lots are 50x168 feet.

—o—

At Santa Barbara.

An important real estate transfer of Santa Barbara realty was made last week, when Capt. G. F. Smith of Carpinteria sold block 16 of the Van Vector addition to Mrs. James H. Bull, wife of Capt. Bull of the U. S. S. Solace. The property will be improved with a fine residence for the home of Capt. and Mrs. Bull, and other residences will be erected on the tract. Consideration stated $12,500. The block is in the upper part of Santa Barabara on State street, where several new streets are being graded and curbd at an expense of $20,000.

—o—

On Hewitt Street.

Walter Rose has sold to Anthony McNally, through P. J. McGarry & Co., the southeast corner of Stephenson avenue and Hewitt street, 75x140 feet, with house of nominal value; consideration stated, $6000. This firm has also sold for John Oaks to John R. Grant the northeast corner of Fourth and Hewitt streets, 40x140 feet, improved with a small house; consideration stated, $4000.

—o—

In Southern Section.

The McCarthy Company report the sales of twenty-three lots in their three tracts on Main street, Moneta avenue and Figueroa street, for the first four days of the past week, at an aggregate price of $14,025. These lots ranged in price from $375 to $925. Among the purchasers are: N. J. Wing, E. P. Nelly, John W. Wing, Fred Lange, B. H. Vance, G. E. Thompson, Mrs. Irene Bailey, A. A. Tyler, Alma Sehrt, A. M. Preston, C. E. Francis, A. G. Johnson, A. G. Carnes, W. S. Ames, H. K. Bowman, P. H. Malony. Wilson & Kelly, contractors and builders, have purchased a number of lots in the McCarthy Company's tract on Fifty-third street, and within the next ten days will begin the building of several cottages.

—o—

Firth Subdivision Sales.

An active demand is reported for lots in the Emil Firth subdivision. Mr. Firth reports that he has sold twenty-eight lots in his Main-street boulevard tract at prices ranging from $475 to $500, and that the tract is nearly sold out. He is preparing another tract in the same locality. Among the purchasers are: R. R. Hogan, Adolf Johnson, Alick N. Davies, A. T. Brink, John Bloom, August T. Anderson, Charles V. Metcalfe, B. Gliver, Charles F. Rapp, Peter Geib, T. W. Petit, P. H. Maloney, Henry L. Maloney, H. Kelly, W. J. Barnes, Q. C. Barnes. Mmes. Katharine Nopper, Laura Peterson, Elizabeth Gray, Ada L. Shott, Annie Preston, Ada Butters and Mary Heintz.

In the Bosshard tract Mr. Firth has sold thirteen lots. This tract is on the Long Beach electric line, about a mile and a half south of the city, and the lots are of quarter-acre size, selling for $300. In the Sunnyside Park tract thirty lots have been sold, among the purchasers being: Oskar Dahms, Frank S. Gillelan, John Burke, R. P. Holmes, William H. Codnor, James W. Brown, A. F. Moulton, William Metcalfe, A. F. Bloomer, E. A. Moore, C. J. Flye, Charles Smith, Mmes. Mary L. Goodman, Elizabeth A. Riordan, Carrie Gillelan, Mary Helen Yule, Mary Durcombe, Lucy Camp Stone, Elsie Meek, Nannie C. Ingram, Harriet T. Bates, Flora L. Danforth, Mabel C. Jamison, Bertha Scullin, Lida McKeighan.

Another tract of 300 lots is in course of preparation north of and adjoining Sunnyside Park. It will consist of half-acre and quarter-acre lots, with streets graded, oiled, and improved with cement curbs and sidewalks, and with palms and other ornamental trees planted in the parkways. Water will be piped onto this tract in four-inch and six-inch mains to all lots.

City Acreage Sold.

The highest price ever paid for acreage on the east side of Main street is reported in a sale made during the past week by P. J. McGarry & Co. This is seven acres lying south of Sixth street and east of Alameda street, and was sold to the Industrial Realty Company; consideration named, $50,000. This is one of the few remaining acreage tracts close to the business center.

"THE A. S. HEINEMAN COMPANY COTTAGE."

Did you ever see one? If not, you have missed the completest cottage that is built. We have one left of a row just completed. We have just bought a tract, and will sell this cottage cheaper than any of the others, if sold at once. It is a beauty. East front; large rooms; all rooms entered from a hall; our patent invisible window screens; cabinet kitchen; pressed-brick mantel; magnificent buffet; terms or cash. We build houses to order; we build houses, but artistic, homelike homes, to suit individual needs and tastes.

WE BUILD HOMES ON EASY PAYMENTS.
The plan is simple, with nothing complicated or hard to understand. We have money we are willing to put into good houses at a small rate of interest. We ask you to show good faith by putting a little of your own money into the deal, as follows: If you own a lot clear, we will furnish all the money for the house. If you do not own a lot, we will sell you one of ours, or buy one for you in any locality you prefer, and build any style house on it you like, asking you to furnish in cash 20 to 25 per cent. of the cost of the house and lot. The balance you can repay us in small amounts, about equal to rent, monthly or quarterly, and every payment reduces the interest. We also make straight loans on approved city real estate at lowest prevailing rate of interest. We are agents for several of the best fire-insurance companies—the ones that give prompt and fair adjustments. THE BURCK-GWYNN CO., 106 South Broadway. Home 'phone 545. Sunset Main 6061.

—$18,000—

This residence contains 11 large rooms. There is a very handsome broad stairway with landing and art window. The reception hall, which is large, is very beautiful in design, the living-room is a gem, handsome parlor, very attractive den, the dining-room, which is light and sunny, has a very unique and artistic buffet. The kitchen is complete and perfectly arranged with butler's pantry and china closets. All the windows in the house are plate glass; elegant mantels scattered throughout the house, handsome combination gas and electric fixtures. There are four charming sleeping-rooms with lots of windows and plenty of closet room. One of the bedrooms adjoins a dressing-room and bath, 2 of the bedrooms connect with the main bathroom. Servants' room. There is a very fine ballroom occupying all of the third floor, with pretty alcoves for card tables and piano. The house itself is built of stone, brick and cement with a very attractive style of architecture. The woodwork on the ground floor is of the finest selected quarter-sawed oak and finished with an elegant piano finish, as handsome as any highly polished piano. There is a separate bathroom for servants, modern laundry and fine large porches, large cement basement and excellent furnace. There is also an automobile house built of stone and cement to correspond with the house. There is a large billiard-room on the second floor of this building, connected with the house by an enclosed bridge. This very handsome residence is located on a beautiful corner in the Westlake district, and in erecting the house, money was no object, only everything modern and a handsome appearance. The size of the lot is 62x152 feet, all well improved. The price asked for this mansion is very moderate, taking into consideration all the elegant it contains.

THE HOUSE FOR YOU.

We can show you in any choice locality any style of a house or bungalow—from the richest to the less expensive. No trouble to find exactly what you want if you come to Althouse. The money makers and the money savers are on our lists.

COSY FIVE-ROOM COTTAGE.

—$2300.—

This house is new, with a fine retaining wall in front. The rooms are all very nicely arranged, fine large windows, pretty mantels and electric fixtures; flowers, fruit trees and a good lawn. This cottage is well located, convenient to school and good car service; it is located on an elevated lot with a fine view of the Westmoreland tract. The owner will sell for $2300; small amount down and $15 per month with interest. No trouble to show it to you.

MAGNOLIA AVE. BUNGALOW.

—$2850.—

This bungalow is certainly very attractive, and also very modern. The rooms are all good size and splendidly arranged, large windows, walls are in good condition, fine lighting fixtures, floors are nicely waxed, handsome mantels, modern plumbing and several roomy closets. This bungalow is located in a very fine neighborhood and the lot is well improved. The price has been considerably reduced as the owner is desirous of selling at once.

SEVEN-ROOM RESIDENCE.

—$3450.—

There are 4 fine large rooms on first floor, daintily tinted and handsomely finished, coved ceilings, pretty frescoing, handsome lighting fixtures, shades at all windows, screen porch, large trunk room, numerous closets, 3 beautiful bedrooms and dressing-room on the second floor. Open plumbing in bathroom and instantaneous heater. This beautiful home is also located on Magnolia ave., on lot with 50-ft. frontage. The surrounding property is well improved. This is a good investment.

PICO HEIGHTS BARGAIN.

—$4000.—

Handsome new, 6-room cottage with a 5-room cottage on a 60-ft. street in the rear. Before this 5-room cottage was completed it rented for $20 per month, and there will be no trouble in renting the 6-room cottage for $25 a month. The rooms in the larger cottage are finished in Flemish oak and white enamel. Fine large windows, artistic grate and mantel, pretty lighting fixtures, cooling closet and large pantry in a splendid kitchen, also stationary washtubs and steel range, large bathroom in which is an excellent porcelain bath tub. Lot is 51x130 feet, situated in the best part of Pico Heights. For a very few days the owner of these cottages will sell the two for $4000, a very conservative price, considering all the advantages.

NEW MODERN HOME.

—$4200.—

This 7-room house is very attractive, and is modern throughout. Rooms are all good size and finely arranged. Floors are polished, pretty mantels, model kitchen, roomy closets, large windows, the woodwork throughout is in excellent condition, fine bathroom, large closets and porches. This residence is on a lot 50x120 feet to alley.

NEAR ADAMS STREET.

—$5200.—

On a fine large lot amid other handsome homes. There are 8 large fine rooms. The house has east front, and is well built throughout. Beautiful architecture adds beauty to the exterior. Rooms are tastily and conveniently arranged. Fine toilet and lavatory with best appointments, excellent plumbing, quarter-sawed oak floors, rooms finished in weathered oak, select cedar and white pine, beautiful reception hall, pressed brick mantel, fine kitchen and furnace.

EIGHT-ROOM RESIDENCE.

—$5650.—

Rooms on first floor are all handsomely finished in antique oak, artistic mantel in living room, dining room has handsome sideboard built in the entire south side with massive chains suporting the upper buffet which is of glass. New and very handsome electric fixtures of oxidized silver, fine den with casement windows and bookcase, large kitchen and butler's pantry, 2 wash bowls on rear porch and built-in broom closet; 3 bedrooms on second floor finished in white enamel, double closets, bathroom for public and private use. Barn on rear. There is also a very handsome hall in this residence which is beautifully finished. This is a special bargain, and one you will regret if you miss it.

CORNER HOME NEAR NINTH.

—$6450.—

This residence is located on a handsome northwest corner, very near the Ninth-st. car service. There are nine very fine large rooms and well arranged, large windows, fine electric fixtures. Five-ft. retaining wall around entire house. There are fine hardwood floors in this residence, and every modern convenience is to be found. It is increasing in value all the time, and now is a good opportunity for you to invest your money.

WESTLAKE RESIDENCE.

The rooms are all large, with polished floors in the principal rooms, mission finish and selected grain woodwork, handsome mantel, buffet, large bath, roomy closets, screen porch, cosy kitchen, roomy veranda; lot 42 feet in width, and located in good neighbodhood, southwest, where market is close and two car lines adjacent.

—$3500—

$700 cash, balance terms and monthly payments, new, modern, 6-room cottage, lying southwest, on lot 50x135 feet, in excellent neighborhood. This is a strikingly pretty cottage, artistically planned, and the interior detail is especially complete and homelike. The rooms are all large, there being an extraordinarily large living-room, with pressed-brick mantel; polished rock maple floors in principal rooms; handsomely finished Flemish oak woodwork; many large windows; roomy veranda; large bath; screen porch and pantry. The lot is 48x127 feet, lying southwest, where gas, water and electricity have been in for many months.

—$4000—

$750 down, balance $30 per month and interest; a handsome, new and strickly modern 1½-story, 8-room house in restricted residence district, southwest; the lot is 50x126 feet, and lies on a corner. The veranda is 7x26 feet, with brick colums and cement steps; the living-room is 13x15½ and paneled; den, with archway into living-room is 8x12; the mantel is pressed brick, with outside chimneys; there are built-in bookcases, seats and elegant buffet, filling bay of dining-room; dining-room 12x14 feet, is fitted with plate rail and wide windows, two chambers are 11½x12½ each; kitchen is 9½x10½, complete to smallest detail; there are many and large closets; the bath is large and thoroughly modern; two chamber rooms above stairs are 12x13¼ each; maple floors are finished in principal rooms, and the finish is mission style with special ordered fixtures.

—$4250—

Full two-story, 8-room, modern home, for sale at a sacrifice. It sits on a wide lot, 50x150 feet, fronting north, on shady and quiet street, southwest. The exterior is especially handsome, relievd by gable effects, circular bay windows, veranda and balcony; all rooms are large, opening nicely for entertainment off of pretty reception hall. There is a very large bath, roomy and large closets, four fine bedrooms, and all domestic arrangements are very complete.

—$5000—

Half cash, balance to be arranged. An attractive, two-story, 8-room residence, situated in one of the best exclusive districts of the southwest. The lot is 60x135 feet, lies on a corner, with barn, chicken corral, wide walks, thick lawn and flowers. The house has very large rooms, gray pressed-brick mantel in inglenook, elegant built-in buffet, rock maple floors in lower rooms; butler's pantry and very complete kitchen; large screen porch and cellar cemented. The four bedrooms and bath above stairs are all beautiful, large rooms, the chambers especially bright, with many windows. It is a splendid house for the money, a bargain seldom met with.

—$5750—

We are exclusive agents for this beautiful home, lying close to W. Adams st., in the center of costly residences, southwest. The exposure is southerly, on a wide and generous lot, and the house presents a very handsome appearance. The entrance is from a veranda with cement steps, floor and chaste pillars, with a large reception hall as large as a room. In the corner the stair rises with a graceful sweep; on the right is the bright, large living-room; to the rear are the large dining-room, with handsome built-in buffet and bay window, and on the right of this the library, with built-in bookcases filling two corners, large windows, and a small den opening through portieres beyond. All rooms below have hard polished floors. The tinting of each room is quiet and artistically blended to suit the furnishings. The domestic arrangements are very complete, with cemented basement and furnace, opening from screen porch; above stairs are three beautiful bedrooms, very large bath, linen closet and rear balcony. All these chambers are large, but one, on the southeast, is a gem of a boudoir, large as a living-room, bright with many windows, with the bed in a charming alcove, and two immense closets. This home is new, completed but a few months, was built for a residence by the owner, and so was finished with a score of those little elegancies and fine details not met with in most houses. You should see it.

—$6500—

Reasonable terms if desired. One of those handsome residences, beautiful, attractive, with an individuality distinctive of fine Los Angeles homes. It has 10 splendid rooms, sits on a wide lot, on a corner in one of the most exclusive residence districts of the southwest. This home has never been lived in, is most substantially built, and every room is finished with the last detail of modern construction, completed with shades, fixtures, cemented basement and furnace. All floors below are oak, and above rock maple. The house has one of the most handsome exteriors seen today, finished partially in buff pressed brick about the veranda.

IMPROVE YOUR OPPORTUNITY.

"If you never invest anything you will never be able to make a fortune." Jay Gould's millions would have been snugly resting to the credit of some other man's heirs had he been satisfied to drag along in the middle or end of the procession.

There has never been a more opportune time to invest in real estate in Los Angeles and vicinity than at the present time. The man who will not allow this opportunity to pass by will in the near future say, that he was glad of his foresight, courage and ability to grasp a good opportunity when presented. We invite you to call in and see us this week, and let us show you some good investments.

HERE ARE SOME BARGAINS.

$10,000—A delightful home place, with charming surroundings. Two and one-half acres, all laid off with walks and planted in shrubbery and flowers. The house has 11 rooms, and built for comfort and convenience. There is positively nothing lacking to make it complete. The location is very choice, on Avenue 64, and the grounds—laid off into lots—will bring the amount asked, thus getting a large and handsome home free; we will be pleased to show you this place at any time.

$1050—A NEAT LITTLE HOME.
New 4-room California house; lawn, flowers and fruit trees; lot 40x145; near Central and Vernon aves.; price $1050, part cash, balance $15 per month; this is a good opportunity to secure a home in a good neighborhood and on very easy terms.

$2000—New, modern 6-room cottage, with every convenience to make housekeeping a pleasure; in a rapidly-growing section; this beautiful home can be purchased for $250 cash, balance $20 per month.

PICO HEIGHTS.

FOR SALE—

PICO HEIGHTS
IS
WEST.

WHY DID HORACE GREELY SAY, "YOUNG MAN GO WEST."

The trend of civilization has been westward since history began. The young and the old have followed the setting sun and now it is drawing the nation to our very gates, making Los Angeles one of the largest cities of the United States and causing unprecedented growth; the same tendency is causing the city to grow west. Nothing can stop the tendency of man and when the natural resources favor it, as in the case of PICO HEIGHTS, that section must grow and rapidly. PICO HEIGHTS is a mesa or tableland which is gained, not by any rapid or steep ascent which tires both man and beast, but the rise is so natural and easy that we wonder how we attain it. We have no disagreeable oil wells, railway trains with their ill-smelling shops, or any of the other disadvantages encountered in going to some of the other parts of the city but to the contrary, your trip is made pleasant by passing through nice clean business streets and a pretty home district and then you find yourself in a business section of the city, second only to downtown. After thorough investigation one of the best banks of the city has determined that business on PICO HEIGHTS will warrant a branch bank which will be in operation within 30 days. And also other branches of capital are turning this way to invest. One institution of which we are very much in need and which would be a profitable investment and that is a TOURIST HOTEL. We have locations suitable for hotels which have a pleasant outlook across Cahuenga Valley to the mountains and with an uninterrupted range of view from Old Baldy on the east to the Ocean on the west.

FOR SALE—

AN OPPORTUNITY.
I am closing out my entire holdings in
WAREHOUSE
and
FACTORY
property, a large portion of which is located within a block or two of the Southern Pacific Arcade Depot, and already supplied with RAILWAY SWITCHES. It is the choicest of the very close-in industrial properties, of which only a very few pieces remain unoccupied.

If your needs will require such property as this in the near future, you will show wisdom by acquiring a piece while it is avilable.

I reserve the right to withdraw or change the price of any or all pieces at my option without notice. Regular commission allowed brokers, but to other persons these prices are net.

All property clear of incumbrances and perfect titles.

$30,000—415 feet frontage on E. Fourth st., running through to and having a frontage on short street of 250 feet. It is a most desirable piece for a lumber yard or a large manufactory. As a speculation it cannot be equaled, lying as it does between the center of the city and the Fourth-street bridge.

$3500—40 feet on E. Third st., near Alameda st. This street is the main thoroughfare between center of city and Santa Fe depot. This price includes new asphalt pavement.

$12,000—Brick warehouse, with 2 lots, 100x150 feet on corner of Palmetto and Colyton sts., 3 blocks from Arcade depot; this property is under a ten-year lease to the Sunset Telephone and Telegraph Co. The building is less than a year old. A steady and sure income. RAILWAY SWITCH along south side.

$15,300—150 feet on Palmetto st. at corner of Seaton st., opposite the Los Angeles Electric Company's plant and one block from Arcade Depot. RAILWAY SWITCH along entire south side—a choice corner for warehouse or factory.

$5750—50x140, north side E. Fourth st., near Alameda st. Fourth st. is now being widened to 80 feet from the eastern city limits to Main street.

$4100—100x140, Carolina st. between Fifth and Palmetto, and adjoining Sunset Telephone and Telegraph Company's warehouse.

SPRING ST., NEAR 4TH.

60x165 to alley, 25 feet south of Braly Bldg.

$5000, $5000, $5000 PER FOOT. $5000, $5000, $5000.

GET USED TO IT. IT WONT HURT YOU.

Say, it's from watching the Fact and Comment Man, "getting used to it," isn't it; did you see him spend over a ½ column in last Sunday's paper showing how much cheaper 'Frisco property is than "Spring near 4th;" my, but he kicks, don't he. But don't you remember he does that every time; we crazy "Spring st. speculators" cinch up his girth another $500 or $1000 notch. I've got the print of his kicks all over my desk. It's an old, old source of pastime with him; if "facts" get a little short, he gets long on "comments," upon how high Spring and 4th stuff is; until I for one am getting "cognweed," (whatever that is; it's getting to be a case of having to read "care of the body" for a rest!

I've nothing against the young man who writes the comment stuff; it's what he writes; it's what he's been writing for several years about Spring and 4th; looks like he'd quit it anyway, seeing as how he hasn't "hit it" down there, as often in the last 5 years as often as the weather man has hit the air. "So I'd like to say, young man, listen to your Uncle Confed, let up on that 'Frisco business property biz; it's as stale as, as—well, put in your time on the "Care of the Body," page; that's where you shine; quit sweating blood over the poor capitalist and leave him to the tender mercies of us old real estate duffers who have sold more lots on Spring st. within the past 5 years than you could sell north of First st., in the next 50 years; if you don't mind you'll go to sleep in front of the wheels of the business center band wagon some day and get the very gall and nerve mashed out'n of you! Now you take my advice—I'm not over 80 years old, but it's been more than 12 months since I "crossed the plains" and I'm right here to tell you that if you don't quit showing The Times' "green eye" over Spring and 4th, getting the "center the Hub," you'll find yourself some day so far away from the Hub that you'll be even out of the good "fellow" class; into the "tire" class and that sure "is the limit."

So quit worrying; buy Spring st.; but buy it "near 4th." I'll show you some at $5000 per foot; get used to it, it won't hurt you. You had to get used to $2500 when the Bralys differed with you as to values and thereby fixed themselves for life and you had to "get used" to $3000 when sales became easy at that price and you had to get used to $3500 when Jim Matfield refused that for Spring near 4th and you had to get used to $4000 when you read Rodman's report of how Hellman offered that price in vain to Mrs. Hotchkiss for her lot adjoining the Hellman Bldg., and you'd just as well "get used" to $5000 a foot for Spring near 4th; "$81,000 a foot is the rate some sold at in New York recently and we are thereby encouraged to believe that we are not going to "run out of prices to ask," if we continue to grow in population; $5000 isn't so many; get used to it.

FOR SALE—

LOS ANGELES STREET.

$500,000 worth of Los Angeles st. real estate has already been sold this year and another half million was sold in the latter part of 1904. A great revival of real estate activity on Los Angeles st. has set in. Los Angeles st. is firmly established for all time, as the leading wholesale, jobbing and commission street of the city, and a vast amount of business, covering the entire southwestern part of the United States, and portions of the Republic of Mexico, is transacted by the firms now located or about to be established on that thoroughfare, which will eventually make it one of the most important wholesale streets on the Pacific Coast. This will be especially true in the immediate vicinity of the great interurban terminal facilities on Los Angeles st. between Sixth and Eighth streets, where the land department of the interurban railroads owns or controls almost two solid blocks, which will afford unexceptional terminal facilities to the wholesale houses located near by. It is destined to be the cream of the entire wholesale district of Los Angeles, and we advise all real estate operators to carefully investigate the properties under our control in that district before purchasing elsewhere. Values are far below the normal, the district is limited, and it will in time be the highest priced wholesale property in the market. BLACK BROS., 905-906 Braly Bldg. L.A.R.B.

A GOOD FLAT PROPOSITION.

On W. Tenth st., a few blocks from Figueroa st., four 6-room flats, large hall, numerous closets, porcelain bath, instantaneous heater, etc., to each flat; lot 46x150 to alley; income $100 per month; price $10,000; easy terms if desired.

One of the best buys on the hill.
GRAND AVENUE.
Between Temple and Court streets.
Fine, elevated lot
—60x165—

Good, large, 2-story house, 17 rooms, not new and modern, but good stone retaining wall in front, about two feet high; property here will always rent; good place for large modern apartments; only four blocks from new $1,000,000 P.O. to be built on Main and Temple; 2½ blocks from new Angle's Flight and hotel to be built at Court and Hill sts. Price till May 1st, $11,800; terms if desired; if not sold by that time owner will build.

CENTRAL AND 8TH.

Is close-in property.
Central ave. is distinctly a business street; 8th and Central is close to railroad depot and electric power-house; Interurban car barn, flour mill, cold storage plant and other manufacturing, thus making a good rental proposition. On this property is a 2-story new building; 2 store rooms facing Central ave., also one flat on ground floor facing 8th st.; also 7 flats above. This property and location is good and has a bright future. Will rent for $175 to $210 per month; price $18,000; terms if desired.

PICO-ST. BARGAINS.

Yes, Pico street is the place to make good, sound investments, providing, of course, you buy right, and select a good location. I have been handling Pico-st. property for several years; in fact, am headquarters for property on this fine thoroughfare; more transfers of property on this street have passed through my office the last year than any other office in the city. I am well posted as to prices, desirable locations, etc. Can furnish best of references as to business integrity and ability.

If you are interested, consult me in regard to Pico-st. property. I believe my services will prove of great value to you. I will recommend no property that is not priced right, and is not well located. I quote below a few of the good things I have to offer—

80x127, with 4 storerooms and flats above, fine brick building, choice corner; income $185 per month; price $26,000.

50x125, vacant lot, well located, $4000.

NORTHWEST—Corner Pico and Alvarado, 100-foot frontage, price $150 per front foot. This is one of the very best corners on all Pico st., and price is $2500 per front foot below its value; improved with modern business building; will pay almost 20 per cent. on investment; is ripe for improvement at once.

82x150, with fine business block, income $125 month; price $15,000.

60x85, fine corner, partly improved, income about $85 month; price $10,750.

58x140, choice corner, fine business building, long lease, income $1680 per year; price $19,000.

49x140, corner, improved, income $1000 per year; price $13,000.

OLIVE STREET.
OLIVE STREET.

Six months hence you will regret not owning Olive-street property. Note improvements and advances on Hill street, and form your own conclusions as to the future of Olive. It is to be paved and improved from Central Park to Pico and is undoubtedly a coming business street.

I have four good pieces on this thoroughfare, for IMMEDIATE SALE, at reasonable prices. Two years hence what will they be worth? No one knows, but we do NOW what property on Hill was, and is NOW worth. Before investing elsewhere permit me to show what I have to offer on "close-in" Olive street.

EL MONTE WALNUT PLACE.
EL MONTE WALNUT PLACE.

In offering this tract of land to the public we are confident that we are presenting the chapest and best proposition that can be found in Southern California. This tract is located in the El Monte walnut and alfalfa district and only 14 miles east of Los Angeles on the Southern Pacific Railway.

The soil is a deep fertile loam and is absolutely free from alkali or other objectionable features.

Water for irrigation purposes can be obtained at a depth of 160 feet. Several wells have already been sunk affording and abundant supply (not less than 150 inches per well) at low cost; good home market for alfalfa, berries, vegetables, etc. Convenient to churches, schools, railway depot, etc.; price $175 per acre; ¼ cash; subdivisions of 5 acres up.

8 acres bearing walnut orchard, first-class soil, trees in good condition, water piped to highest point; price $3200; mortgage $1500.

8 acres, walnut orchard; trees 4 years old; nothing finer in the county; choice location; excellent soil, cheap water; price $2900; 1-3 cash.

16½ acres young walnut orchard, interplanted with barley; 15 inches of water goes with land; soil A1; price $290 per acre; easy terms.

100 acres; 54 acres in alfalfa; balance barley; very little irrigation required as soil is naturally moist; pumping plant on premises, but very seldom used; pays 15 per cent. on price asked; price $30,000; only ¼ cash, balance to suit.

50 acres walnut orchard, trees 7 years old, interplanted with alfalfa; (free water, 150 inches;) very choicest of soil. This property is worth more money, but owner authorizes us to sell it for $350 per acre; terms if desired.

5 acres at El Monte; good 5-room house, barn; very finest of soil; price $2300; $1000 cash.

17 acres, walnut orchard at El Monte, trees 12 years old in perfect condition; 100 inches of water; one of the best paying orchards in the district; price $9000; terms is desired.

BARGAIN EXTRAORDINARY.
WHY PAY RENT?

If you are looking for a suburban home, where water is pure, the soil fertile and free from objectionable features read this and act promptly.
2½-ACRE LOTS, $562.50; $50 DOWN, BALANCE TO SUIT.
5-ACRE LOTS, $1125; $100 DOWN, BALANCE SPREAD OVER 5 YEARS, 6 PER CENT.
10-ACRE LOTS AT LIKE PRICES.
One share of water (200 inches) with each acre. The above tract is only 10 miles south of Los Angeles, and 5 blocks from Redondo Electric Railway.

Every piece of property in the above list has been inspected by us and we guarantee them to be as represented.

We make a specialty of country and suburban property and have scores of ranches in every county at right prices.

FOR SALE — $31,800; 1060 acres, located 5 miles northeast of Reedley, Fresno Co., on the main Alta Irrigation Canal, being part of the well-known Mt. Campbell orange grove, which raw land is selling from $50 to $100 per acre; this land is especially adapted for oranges, lemons and vines, being in the Thermal Belt, and protected on the north and east by Mt. Campbell. Black, sandy and reddish soil. There are vineyards and orange groves all around this land. There is one set of good building and 104 acres in 2 and 4-year-old vineyard on this land, which will bear this summer; also about 500 acres of summer fallow wheat in, of which there is a fourth rent, delivered free of charge sacked to the warehouse at Reedley. Every foot of this land can be irrigated at the cost of 42 cents per acre per year; an abundance of water. The irrigation system is owned by the people. Reedley, nearest town, 800 inhabitants, on both Santa Fe and S.P. R.R.; fine schools, stores, societies and a very thriving town; there are three large wineries within a radius of 4 miles; also large fruit packing houses and wheat warehouses; this land is the biggest bargain today in Fresno county, on account of the bank having to take it under foreclosure of mortgage; price for the 1060 acres (including the 104 acres of vineyard, all fenced with rabbit wire) $30 per acre; one-third cash, balance 3 years at 6 per cent. net. The present crop will pay 10 per cent. net on the purchase price; act quick if you want it. O. A. LANE, 515 Mills Bldg., San Francisco, Cal. 23

FOR SALE—
FARM HOMES AT FIRST COST.
If you had a chance to buy 10 or 20 acres of good land, well supplied with water, for ½ its actual market value; would you take it?

Would you take it; if the land was located where you knew in advance it would increase threefold BEFORE YOUR FIRST PAYMENT WAS DUE?

Would you take it you could get this land on easy terms, remember, at HALF ITS MARKET VALUE?

We have a new plan for securing homes, which will do all this, and more, for you. A large tract of best land in well established district will be subdivided and distributed to several hundred families at the actual cost price per acre of the entire tract, and on terms easier than renting.

Land values will treble WITHIN 24 HOURS after location has been selected. If you do not investigate this at once it will be because you think this is "advertising talk" and not the truth.

It is the truth; and you will miss a great opportunity if you do not call at our offices or write for information at once.

No land for speculators. Only those desiring homes need apply.

CALIFORNIA HOME EXTENSION ASSOCIATION, 623 Chamber of Commerce Bldg., Los Angeles.

FOR SALE—

"If WE Advertise It, It's So."

$36,000—60 acres, 9-year-old soft shell walnuts; good well and pumping plant; throws 100 miners inches of water; reservoir 100 feet square and 7 feet deep; the soil is a rich sandy loam; the land slopes gently to the south and west; the trees are healthy and vigorous. Located in one of the best walnut growing districts in Southern California, and only one hour's time required from our office to this orchard. Income last year 25 tons of walnuts, which the owner sold at 11 cents a pound, or $220 a ton; or $5500. This is more than 15 per cent. on the investment. We submit, as a reasonable proposition, that with 5 years' additional growth the trees will produce ONE HUNDRED PER CENT. more fruit than they did last year. We are ready and anxious to prove the motto of our ad.—

"If WE Advertise It, It's So."

FOR SALE—
BARGAIN! BARGAIN!
We have for sale the cheapest high-grade ranch property on the Los Angeles market. It consists of 45 acres of first-class soil; located 2½ miles north of Hollywood, and within 3½ miles of the Courthouse, Los Angeles. The soil is a sandy loam, and cannot be surpassed in Southern California for growing alfalfa, berries, walnuts, potatoes and all other vegetables. This soil will average 12 tons per acre in alfalfa, and will run $120 per acre in potatoes. It will easily pay for itself in less than 21 months. Adjoining properties run from $150 to over $300 per acre. You have the advantage of being close to the Los Angeles market, have the best of soil and plenty of water. Do not fail to investigate this property if you are in the market for a bargain. Price only $125 per acre.

FOR SALE—IF YOU WANT A RANCH between here and San Pedro, I have a proposition to make you. And by Jove, I know you can't beat it. Take the class of soil, the amount of water, the fine crops now growing on the land and remember you get the crops. I will sell you this land close to electric car line, just like living in town, for $350 per agre. 10, 20 or 40 acres and I will leave that to you how many acres you taze. I tell you it's fine property. I have no free tickets, nor can I give you a barbecue, but I will buy your ticket and pay for your lunch if you will go down and look at this property and don't find it just as represented.

JUST A LITTLE SONG
ABOUT A LITTLE HOME,
OF YOUR OWN,
OF YOUR OWN,
OF YOUR OWN.

A little cot in a garden spot, a home that is yours alone; where the livelong day, the children play, in a yard that is all their own. Where the sunshine streams and the moonshine beams, on a clearing, peaceful scene; where the soft winds blow and the roses glow; and life is a joy serene.

Where the wild birds call, from the treetops tall, and the robin sings his song, I have lots to sell, that will please you well, and you pay as you go along.

EVERY MAN SHOULD BUY NOW.

BEAUTIFUL HOLLYWOOD HOME
BEAUTIFUL HOLLYWOOD HOME
BEAUTIFUL HOLLYWOOD HOME

I offer my beautiful residence on Prospect Boulevard near Hartford street for sale. Nine large rooms with bath, oak floors upstairs and down, beautiful mantel in ingle nook in living-room, very large dining-room, all sleeping-rooms very large. Elegant electric light fixtures, large cellar with furnace. Hot and cold water system includes solar heater. The house is new and built for a home. Fine large barn, corrals and chicken houses. Property has 150 odd feet front on Prospect Boulevard and runs through to Carlton Way on which it has a frontage of 60 feet, one acre and one-third in all. The grounds are covered with fine fruit trees, shrubbery, and the place is highly improved in every way. I have a special reason for desiring to dispose of this property, within short time. If you want one of the finest and most substantial homes in Hollywood at a less price than you could buy the ground for yourself, it will be worth your while to investigate this property.

If you can offer me the right kind of an exchange in Los Angeles property, either vacant or improved, for the above, it will be carefully considered.

FOR SALE—
VENICE PARK TRACT.
OCEAN PARK.
FACING VENICE.
The summer is near at hand, why not secure a home in Venice Park? We have fine lots 40x135 to alley (no adobe,) $500 to $550, including cement walks, curb, water, etc. Never had Ocean Park a brighter future before it than now. The thousands that are being spent there in improvements mean much. Property is cheap to what it will be in a few years. Now is your chance to purchase before prices advance, as they will this summer. Our terms are reasonable, ¼ cash, balance in 6, 12 and 18 months at 7 per cent. interest— 5 per cent. discount for cash. We have made arrangements with the Abbot Kinney Co., to run our three streets into Venice, which will be a great advantage to Venice Park. Take Short Line via the Palms, get off at Venice Junction, office on the tract. CARROLL J. DALY & CO., 211 W. First street. Members Realty Board. Preston & Helton, Center st., Short Line Beach. Write for maps and prices. 23

BUY PROPERTY AT OCEAN PARK.

The success of Ocean Park comes from the open-hearted way in which she receives all her guests, ready to handle graciously all crowds that come to her lovely beach town. Her praises are sung far and near; whatever she wants she gets. One stands and wonders where do all the crowds come from that visit Ocean Park.

When you stop to think of the reputation that she has for making everything jolly and pleasant for her comers, then you see it. The old residents of Ocean Park will tell you that every year shows a decided increase in her growth and popularity—that real estate has advanced wonderfully, even over last year; those who know the refreshment of salt-laden air, and love the splashing of the waves, have bought homes at Ocean Park. Here they find a town with almost every business represented, and with Los Angeles only 30 minutes' ride away. They say to themselves, "This is good enough to me," and here they locate.

The Smith Realty Co., one of the leading real estate firms at Ocean Park, has just recently opened out a branch office on the Venice of America tract. They will gladly show you the many vast improvements going on there. Mr. Smith and Mrs. Smith will be found at the office in the Casino Bldg., at Ocean Park. See them for good buys. 23

SANTA MONICA.

SANTA MONICA CLIMATE—
BEAUTIFUL IN MARCH AS WELL AS JULY.

With the winter season comes that ever-perplexing question, where shall we spend the season—in the city, or go to the beach? The people of Santa Monica can safely say come to our town, where the climate is delightful all the year round. People used to think that winter at the seashore was cold and gloomy. Now they are beginning to know that the ocean tempers the atmosphere so that the climate of the beach is as beautiful in March as it is in July. The inland cities are delightful in winter. But Santa Monica is one of the few places in the entire world which has no unpleasant seasons. The doctors will tell you by all means try the bracing air of the beach. Great numbers of people suffering from the terribly prevalent affliction, the curse of our modern life, nervous prostration, find at Santa Monica the restful, quiet and the soothing potion which brings them repose and a return of the old vitality and strength of brain and body. One can easily understand why the doctors are so enthusiastic over the value of Santa Monica climate and the waters of the Pacific.

DON'T GO WITH OVERALLS ON.

Dress Up, If You Carry a Buff Photo Coupon.

Otherwise You'll be Tapped on the Shoulder.

Invited to Go Away and Wait a Month or So.

Dissatisfied purchasers of photograph coupons issued by a flamboyant South Broadway picture maker, are uttering indignant complaints and charges. They say, in substance, that solicitors sent about the city have sold them 25-cent coupons, entitling the holder to certain photographs without further charge, but that upon presentation of these coupons at the studios they are put off—sometimes for as long as six or seven weeks—if they refuse to honor the establishment with cash orders.

THE BAIT.

The surrounding country has been sowed with bait, reading like this: 'Home of Art, Fashion and Beauty. By our works ye shall know us.' Sittings made by appointment. Special offer: By paying our special solicitor 25 cents for this coupon we offer you the most extraordinary inducement ever offered in Los Angeles. To the holder of this coupon only, we will make, free of charge, two of our superb Dresden panels, finished in the highest style of art, same as shown. Should the holder prefer one of our beautiful collodio-carbons, value at $5, we will make same without any additional cost. We extend you the privilege of sittings until satisfied. Coupon good until used—transferable."

Coupons have been sold to hundreds of poor people, who got the impression that they were to receive something for nothing. Washerwomen, shop girls, ditch diggers, farm hands, railroad workers and many others have bitten—and now the protests are rolling in from the suckers.

MANAGER'S NAME A SECRET.

A holder of one of these coupons, a woman, whose name The Times withholds, presented the bit of buff paper at the Angelus Studio yesterday morning. She was told that "the book of appointments was full," and that it would be impossible to give her a sitting within five or six weeks; but if she would place a cash order for a dozen photographs, at regular rates, she could be accommodated with a sitting at once. She promptly rejected the gentle hint, and demanded to see the manager. She was told she could not—he was "busy." She thereupon demanded his name. It was refused. Indignantly she came away.

Later in the day a Times representative took this woman's coupon (marked transferable,) and went to the studio. The girl tatendant was most polite. In fact, there are several girl attendants, some of them decidedly pretty, and all of them uncommonly polite. The young woman in question was very sorry, but it would be impossible to give a coupon sitting—"complimentary sitting," she called it—earlier than May 29; "The appointment book was full" for the intervening five weeks. And how many extra pictures did the gentleman wish to order? None? Oh! Most people ordered a half-dozen or more (at regular cash prices) in addition to the two "complimentary" ones. Was the gentleman sure he did not mean to place an order? Yes, the gentleman was dead sure.

But the gentleman was not willing to wait so long for a sitting? Yes, it was very far ahead, May 29. But oh! (happy thought!) there was a way, after all. If the gentleman would place an order—what? Yes, a cash order—with the house, instead of utilizing the coupon, he could have a sitting at once. A dozen, or perhaps a half-dozen, of those three-quarter lengths such as those on the wall would be beautiful, would they not? and the price was—et cetera and so forth.

THE BOSS QUESTIONED.

Later in the afternoon The Times representative returned to the studio and asked for the boss. That person was taking part in a spirited colloquy in a screened-off corner of the fantastically-decorated room. From this retreat came alternately the sounds of sharp disputation and peals of laughter, choked short; frequently a woman's emphatic voice pierced through the private hubbub. The boss sent out word that he would see the newspaper man "in a minute."

The time of waiting lengthened into forty-five minutes before he appeared, flushed with wine and noticeably thick in the wits. The complaints of coupon buyers were laid before him, and he was asked to make a statement of his side of the case. After this the matter had to be restated and explained and restated again, he having preconceived the idea that the reporter had called to present a bill or collect an account or perform some other disagreeably inexplicable duty. At the end of ten minutes the boss threw up his hands with an exclamation intended to signify that at last he understood. It was a great relief.

"But why should I answer your questions?" demanded he. "I am not the manager here. I have nothing to do with the place."

"You seem to be in charge."

"Oh, just standing around, as it were," and several kinds of sly smile passed across the face of the photographer. Resting his chin on his knuckles, he deliberately winked; a long, measured and meaning wink.

IT ALL DEPENDS.

The boss called his book-keeper over and bade him sit down and be in the conversation. For the benefit of the book-keeper the complaints of the coupon buyers were repeated by the newspaper man. The next moment the cat was out of the bag.

The long-time-put-off complaint had hardly been enumerated, when the boss broke in genially with a "That's true! We've got the complimentary-appointment book full for five or six sweek ahead. Cash orders? That's different."

"Then," pursued the newspaper man, "complaint is made that coupon-holders have appeared at the appointed time, after weeks of waiting, and been put off again until later, when—"

"That's a lie!" cried the boss fiercely. "As manager of this studio I pronounce that as false!"

"Oh, then you are the manager, after all?"

Again the meaning smile, the deliberate wink. "The books are in my care," he murmured. "It's a close corporation—of—ah—artists. I tell you," he said, "It's this way:

"A chap comes in here with one of our coupons, and he's got overalls on. We pat him on the shoulder and say, 'Now the appointment books are full 'way ahead, but you come in next month, my boy, and we'll fix you up.' But if a man like you should come in, with good clothes like yours on, we'd arrange a sitting for him in a jiffy. H-h-o I'm getting them trained to it—gradually." He waved his hand toward a group of the fair young attendants who stood chatting with a customer nearby. He resumed: "You can understand how it is, yourself."

"But," said the newspaper man, "I myself came in here this afternoon with one of your coupons, and the very best I could get was a sitting for May 29—five weeks away. I was not in overalls, that I recall."

The boss turned scarlet and jumped to his feet. "Which—which one told you that?" he choked.

A fair girl in black was pointed out.

"And you had those clothes on?" he shouted. "Oh, the fools! the fools! When shall I ever get them trained!" In an acme of disgust he clutched his head with his two hands and leaned his brow against an imitation-Flemish-oak post. "Fools!" he groaned; "Fools!"

Then, as an afterthought: "I shall deny every word of this interview."

"Call again," sorrowfully murmured the bookkeeper. The boss sank into a chair.

TALKS WITH MEN.

EDNA EDWARDS SCOLDS THE DRINKERS—WHAT BARTENDERS THINK.

[SPECIALLY CONTRIBUTED TO THE TIMES.]

Do you ever drink? Only occasionally! But you all say that! You were never drunk? No man admits he is drunk until he is down and out, and even then you have to prove it by a dozen witnesses the next day.

If you drink and never drank too much you are a rare specimen, but if you continue the practice the chances are you will not keep so clean a record to the close of the chapter. The more you drink the more you want.

Of course, some of you men are total abstainers, but this little talk will not hurt you any.

But you men who drink. Honestly, I'm ashamed of you!

Don't tell me it doesn't hurt you any, or that you are so hard worked you need the stimulant, or that your wife worries you so that you have to forget your troubles, or that it is the only pleasure you have, or that you seek oblivion from the consciousness of your many debts, or that you cannot digest your meals without it. It does hurt you; it doesn't help you in your work; your wife will never be contented until you quit; it incapacitates you for the real pleasures of life; it puts you more in debt, and it ruins your stomach.

A COLLECTION OF EXCUSES.

Have you a different excuse? If so, mail it to me. I am getting up a collection, and will express a gallon of forty-year-old whisky to whomever can show me the wisdom of drinking beyond what may be prescribed by a physician—and even then the wise physician should generally prescribe something else.

You drink only beer? What do you drink it for? If for nourishment, let me tell you that you can nourish your body without putting it out of shape with large quantities of beer, and if for the effect, you are in the whisky class already.

But it is to the habitual or occasional consumer of stronger beverages that I most wish to talk. It is to the man who substitutes whisky for food until forced by nature to temporarily desist; to him who thinks drinking adds to his number of business acquaintances, or increases his capacity for brilliant work; to him who fancies that the world looks brighter through the bottom of a glass; to him who thinks sorrow can be drowned, and to the man who neglects his wife for the society of the bartender, that I address my strongest remarks.

NOT CONDUCIVE TO BRILLIANCY.

You are not brilliant when drinking; you lessen the number of your friends; you are hilarious for the time, but "in the cold gray dawn of the morning after" you feel like George Ade's "sultan," with his pitcher of icewater—and you say things better left unsaid.

I know a man in poor health who regularly and solemnly swears off. So long as things go right he keeps "on the water wagon," but the moment anything crosses him he goes out for "just one drink." He is not a dipsomaniac, but he thinks one drink will ease his mind. One does not seem to do him any good, so he takes another. By the time the second gets into his blood he feels at peace with all the world. He has forgotten his troubles, and that is just what he wanted; but he has also forgotten his office and his family. He becomes confidential with the bartender and invites him to "have something." A friend who has not had a drink that day comes in. Not having started yet, his capacity is nimpaired, and he accepts the invitation from the man, who greets him almost affectionately. Again the black bottle leaps forth from its resting place on the ice. The friend "buys back," and the bartender "buys," and it is three days before the man who started out for just one drink resumes the even tenor of his way, and quits drinking again—for a week.

WILL BE DEAD LONG ENOUGH.

Why seek oblivion? Will you not be dead long enough? Why be in comatose state part of your waking hours and prolong your sleeping period by stupor? Is not your money better expended for books, the opera, neat clothing, good food, and a home of which your family would be proud? These things cost too much money? Know you not that it takes but 30 cents a day for drinks to aggregate over $100 a year. Do your clothes cost you that much? Do you know that there are 1,300,000,000 gallons of malt liquors, 110,000,000 gallons of distilled liquors, and 25,000,000 gallons of wine manufactured in the United States every year at a cost to you and your friends of $350,000,000? Think of the homes that $350,000,000 would make happy! Think of the health that would be conserved, the additional money that would be earned, and the lessening of crimes against society that would ensue if this money were used otherwise! You say I am lecturing you? Well, do not the statistics I have just given you justify me? Don't talk back to the teacher!

DO YOU RECALL THIS EXPERIENCE?

Do you recall how you go in alone and have several? After the first drink you sit down and pick up the paper. At first the news seems quite ordinary, but in a minute or two it assumes a different aspect. It becomes intensely interesting. You read of the doings in the Far East and float away on a dream cloud, doing mighty things. (Another of the same, bartender.) Then your thoughts drift to the task you long ago set out for yourself, and which is to bring in money which is to square you up and let you look the whole world in the face again. In fancy the work now looks easy and the returns look big. You see your wife wearing the new clothes the profits are to buy. The children look more prosperous, and—then you refurnish the house. The old carpets have to go, of course. Well, they wouldn't fit the new house, anyway. A new house is what you are going to have. You need more room; a special room for yourself, in which you can work after spending the evening with the family—a place where you can make more money. (Another drink, bartender, and take a little yourself.) Yes, the only thing to do is to settle down and make money. And you will take your wife to the theater oftener. That's the stuff! Theater! Good plays! (G' me match.) You'll get up early in the morning and start the new work. Seven o'clock? No! You'll get up at 5. Why, that clock says it's nearly 2 now! Well, never mind. It's all right. ('Nother drink, b'rt-nd'r.)

And you wake up the next day at noon.

WHAT THE BARTENDER THINKS.

And what does the bartender think?

He thinks you are an easy mark. He knows you are losing your grip. He wishes he had your salary and your ability to earn money. He is sorry for you, but afraid to tell you so. If you and your friends did not come in he would have no job. To be sure, he gets but $12 a week out of the profits, but the owner of the saloon must have some, the license must be paid, the millionaire brewers and distillers must buy more diamonds for the children; so he must look out for his $12.

But what do you get?

The bartender usually takes a cigar or a soft drink when necessity demands that he take something. He can have all the whisky he wants for nothing. Why doesn't he take it? Because experience has taught him better. He is guarding his business interests by helping you to pull yours down. He is climbing up over you with hobnailed shoes. He sells you what costs his employer 2 or 3 cents for 10 or 15. Is it any wonder that there are plenty of saloons? If you drink enough of his liquor to cause you to become troublesome he will put you out if you are a stranger, and if you come back broke the next day to get an "eye-opener" he may refuse you.

KEEP DRINKING AND GAMBLING APART.

Many vices go hand in hand with the drink habit. I know a man whose conduct is exemplary save when he has imbibed a few. He is in debt, and when keyed up by liquor he borrows every dollar he can and gambles it. Now, if I have one piece of advice to give you in this letter it is to refrain from drinking and gambling at the same time. If you must do both, do them on different days. Either is bad enough alone, but the two together make the worst possible combination. Even when you have all your wits about you the percentage against you in the games will clean you up nine times out of ten, but when you have been drinking you simply burn up your money. Your judgment is gone, and you borrow, and borrow, as long as possible, in the endeavor to get even. When you wake up the next day you see a vista of months' hard work and privation to those dear to you before you will be on your feet again. In case you lose you drink more, and if you win, the chances are you will drink still more, and go out and spend the balance.

Never invite a girl friend to have a drink, and never take one yourself when you are about to enter the society of ladies—or at any other time.

EDNA EDWARDS.

VINGA TELLS WHY.

Italian Director Sends Explanatory Word to "The Times" Regarding "Lucia" Performance.

Arturo Vigna has explained.

His explanation is given out secondhand, through his friend Pietro Buzzi, the tenor, but it is none the less interesting.

The director, who is a man of unquestioned brilliance in the musical firmament, has been pained by the criticisms showered upon the cuts in the prformance of "Lucia," and seeks to set himself right.

"I have stayed just long enough in Southern California to love it," he said to Buzzi before he left, "and I hope the people will form a good impression of me, for I hope to come back and see them often.

"I wish you would tell The Times that the sextette was not repeated because Mme. Sembrich had a very bad sore throat, and was afraid she could not last through the evening if she were compelled to do that tremendous thing over again. I had strict orders from her to that effect.

"The scene in the castle which contains the duet between Enrico and Edgardo is always omitted in Italy, just as we omitted it here by force of circumstances. The music in it is so heavy that it would rasp the throat of any tenor, and spoil his beautiful tones for the difficult lyric work which closes the last act. The audience can choose—whether they will have the duet and a throaty performance in the finale, or smooth and beautiful singing at the close, and no duet. Had Caruso sung the latter, he would not have been able to give a satisfactory performance at the conclusion.

"The cut made at the end of the first act, in the duet between Caruso and Mme. Sembrick, is the shortening of the original score always used in every performance.

"In regard to the no-change of scene complained about in the settings of the first act, the explanation is that this is the Conried version. The two scenes are very short, and changing is inadvisable, as it really means nothing beyond a vast amount of extra work for the mechanics. The version presented in Los Angeles is the version Conried has adapted for the Metropolitan Operahouse, in its complete form, just as the contracts specified."

THE LANKERSHIM RAINBOW.

A part of the city was visited by a shower at 5 o'clock last evening while the sun was shining an hour high, and a beautiful spectacle was witnessed by an observer on Broadway and Eighth Street. Spanning the northeastern sky was the complete arch of a bright-hued rainbow—the respective ends resting on the Lankershim building and on the old Armory.

NAME WRITTEN THERE?

Notice has been received by Postmaster Flint from the Los Angeles Directory Company that no corrections can be made after May 1 in the new city directory. As the Postoffice Department has ruled that it will not be possible to deliver mail to persons whose names do not appear in the directory, the postmaster suggests that all who have changed their addresses since April 1 should file correct addresses with the directory company.

GREAT LOSS IN MINING STOCKS.

Insure Your Investments.

DON'T GAMBLE

Notwithstanding the fact that millions of dollars have been made by judicious investments in mines, yet the general public looks upon mining with suspicion and distrust. It is the earnest desire of all honorable mining men to find some practical means of correcting this abuse of the mining industry and protect mining investors. In protection of legitimate mining and investors in mining stocks, it is necessary that an investor shall be insured and protected in mining investments by an investment insurance just the same as an investor in real estate can obtain a Title Insurance, a Fire Insurance or a Life Insurance or Accident Insurance.

The Mining-Trust Company of Los Angeles will insure investors by bonds secured by Trust Deeds deposited in escrow with a Trust Company and secured by well-known real estate subject to examination and approval, money can be deposited with the Farmers and Merchants Bank subject to this. The investor can then purchase the stock of any mining company or other enterprise through the Mining-Trust Company and be insured against loss by these trust deed bonds, which will pay the investor 5 per cent per annum on the money invested. The investor desiring to purchase the stock of any mining company in Tonopah, Goldfield, Bull Frog, El Dorado Canyon or elsewhere, can have the Mining-Trust Company act as his fiscal agent, its mining engineer will examine and report upon the mine and if a good risk, will insure the investor against loss, issuing him a bond secured by trust deeds on well-known real estate, subject to examination and approval. This makes mining investments absolutely safe and will be of great benefit to the mining business and the investor. The Mining-Trust Company will also insure investors in any other industrial enterprise and finance or negotiate the stock of any legitimate mining or industrial company. Epileptic Fits of Children.

Epilepsy, or fits, in children is of even greater urgency of cure than in older people. In their active and restless life, an attack is liable to come at a fatal moment, and the sunshine of the home will be crushed out of existence. At the very first sign of epilepsy or nervous twitchings or trembling, Elixir Kosine should be used.

This remedy is the discovery of a well-known Washington scientist, and is the only known cure epileptic fits. It can be used by all ages, and is a positive cure for this dread disease. Leading druggists everywhere have so much faith in the remedy that they give their personal guarantee that it will cure or else the price, $1.50 will be refunded. Mail orders filled. Soule by John Barrett; consideration stated, $1800.

BOYLE HEIGHTS.

A GENERAL AWAKENING.

Lying to the eastward within ten minutes from the center of the city by excellent car service, Boyle Heights presents advantages as a residence section which have long been overlooked by our army of homeseekers. For many years the largest growth of Los Angeles has been toward the south and west; but now that popular interest has turned toward the heights, that beautiful section of our city is fast becoming the favored location for ideal homes.

Situated in a high and commanding position, overlooking the city, but well within its limits and free from frost and smoke, and less fog than in other parts of the city, with a superb view of the snow-capped mountains of the Sierra Madre and San Bernardino ranges and the intervening fertile valleys to the north and east, and the broad Pacific to the south, it cannot fail to impress the visitor with its natural beauty. Coupled with this, an abundance of pure water, fine, dry air and even temperature, summer and winter, makes it no wonder that the recent development of these highlands has been so great. In this section is Hollenbeck Park, one of the show places of the city, with its beautiful lake and myriads of tropical trees and flowers.

Years ago many of our representative citizens, with far-seeing eyes to the future, built beautiful homes on the heights, but it is only within a comparatively recent date that large tracts and subdivisions have been opened up and the rush of homeseekers begun. The demand for home sites has been so great that, while even now values are extremely low, compared with other sections of the city offering fewer advantages, in a short time they are bound to double and quadruple, and the shrewd investor as well as the homeseeker is taking advantage of the fact.

W. H. Workman has recently opened up a finely-located tract between First and Fourth streets and Concord and Lorena streets, known as the La Paloma Heights addition, and is meeting with remarkable success in the sale of lots. Other new tracts in Boyle Heights are having ready sales.

BY BUILDERS AND ARCHITECTS.

CITY'S RECORD MAINTAINED IN BUILDING OPERATIONS.

Activity Continues in Every Part of the City, and Contracts Awarded for Many New Structures—Permits Issued During Past Week Are Mainly for Dwellings.

With a full week yet remaining in the present month for the issuance of building permits, the books of the City Superintendent of Buildings show the remarkable fact that even now the amount of improvements undertaken in April amount to over $1,000,000. These permits are distributed over all sections of the city; the Sixth Ward showing the greatest number of buildings, while the permits calling for the largest expenditures are located in the Fourth Ward.

The number of buildings begun during the past week was 191, of which twenty-six are business buildings and the remainder dwellings, distributed as follows:

First Ward	24
Second Ward	16
Third Ward	6
Fourth Ward	19
Fifth Ward	34
Sixth Ward	59
Seventh Ward	14
Eighth Ward	3
Ninth Ward	16

From April 1 to 22 inclusive Building Superintendent Backus issued 585 permits for improvements aggregating $1,165,040. The improvements undertaken this month are divided as follows:

Ward.	Permit.	Valuation.
First	57	$ 67,685
Second	55	39,901
Third	21	174,427
Fourth	64	255,906
Fifth	99	162,797
Sixth	182	155,862
Seventh	7	15,175
Ninth	55	54,690

Beach Improvements.

The White Star Pier and Amusement Company of South Santa Monica has awarded to George M. Atkins the contract for all repair work on the Hollister-avenue pier, including sway-bracing on all exposed parts, so that when completed the pier will be stronger than it was before the recent storm, which wrought such havoc all along the southern coast. This company has also contracted with John Rebman for the construction of the principal buildings as originally planned, including a handsome entrance building, containing grand arches, booths, café and roof garden, a bath-house containing 130 rooms, and provided with individual showers and wash basins; a sixty-foot tower at the outer end of the pier, and which will contain the band stand, an observation gallery, and sixteen salt-water bath compartments. These improvements are to be completed and ready for the public by July 1.

Grand Avenue Sale.

Mrs. R. A. Beall has sold to H. V. Blenkiron and S. J. Harker, through the agency of E. J. Grant, a lot 90x165 feet, on the east side of Grand avenue, 120 feet south of Seventh street, and with nominal improvements; consideration stated, $43,500.

May Enlarge County Jail.

Architect Frank D. Hudson has been instructed by the Board of Supervisors to prepare preliminary plans for the enlargement of the County Jail, so as to provide for two additional stories. This would provide room for some of the county offices and for one of the departments of the Superior Court. Investigations will be made at once to determine whether the building can be made to sustain the added weight of two more stories.

For Volunteers of America.

The contract has been awarded to Morris Hurwitz & Co., for the erection of a three-story brick building, 60x109 feet, on the south side of East First street, about midway between Main and Los Angeles streets, for A. Bernheim. It is to have concrete foundations and lime brick for facing of front walls, with trimmings of Arizona sandstone. The interior finish will be in pine. S. Tilden Norton is the architect. The building will be occupied by the Volunteers of America, and will contain meeting room, coffee room and one storeroom on the first floor, and seventy-five sleeping rooms, baths and dormitories on the upper floors.

School Bonds Offered.

Yesterday the Los Angeles City School District began to advertise for sale the two large issues of school bonds recently voted. This is the largest issue of school bonds ever made in this county, and amounts to $780,000, divided as follows: High School District bonds, $260,000, and City School District bonds, $520,000. These bonds bear interest at the rate of 4 per cent. per annum, payable semi-annually. The money raised from the sale of these bonds will be used for the erection of much-needed school buildings, in which each part of the city will be benefited.

Building Notes.

The Builder and Contractor gives notice of the following activities among the architects:

Kavanaugh & Barnes, Nos. 657-8 Pacific Electric building, have completed plans and are taking bids for several unique residences for G. W. Ferguson and the Southwest Ferguson Company, to be built at Oaklawn, South Pasadena. One is a two-story, eleven-room residence, with boulder work to foundation; first story cement on expanded metal lath; second story to be finished with shakes on matched sheeting and shingle roofing. The interior will have slash grain Oregon pine trim, red birch floors; plate and leaded glass windows, furnace heat and all modern features.

For the same owners they have plans of a one and one-half story, seven-room Swiss chalet, to be built at the corner of Mission street and Fair Oaks avenue. It will have slash grain Oregon pine trim, French windows and large balconies. The exterior will have wide resawed rustic finish, shake roofing, etc.

They have also plans of a seven-room cottage, to be built on Fair Oaks avenue near Mission street.

Also plans of a seven-room bungalow at the same location. It will have beam ceiling to dining-room and living-rooms. The reception hall will have hip ceiling with beam work finish; large fireplace of boulder work. Shakes will be used for exterior walls and shingle roofing.

They have also plans of a five-room cottage, to be built on the same lines and in the same location.

Architects Marsh & Russell have completed a number of plans for buildings to be erected in Venice of America, Ocean Park, among them being three buildings of three stories each, to be erected on Windward avenue, adjoining each other, for the Mmes. Scheerer, Landers, Preston and Johnson, and Messrs. Daniels and Vining. The structures will be of brick, 50x100 feet, on the ground and will contain stores and rooms.

They are also preparing plans of a two-story brick express, telephone and postoffice to be erected on the corner of Windward avenue and Trolleyway for the Abbot Kinney Company. It will be 50x110 feet. One of its features will be a steel fire-proof tower, a duplicate of the Campanile, which will contain the tanks for the water supply of Venice.

Also completed plans of a surf bathing bath-house 100 feet square to be built on piles over the water and adjoining the pavilion in the same town.

They have also in preparation plans of a two-story nine-room frame and stone residence to be built on the southeast corner of Tenth and Elden streets for R. B. Wilson. Specifications provide for a brick foundation, stone porch, rustic siding, plate-glass windows, hardwod floors and stone mantels. Modern conveniences are included.

Architects Greene & Greene have completed plans and taken figures for a two-story, nine-room frame residence, to be built at Cambridge street and Hobart boulevard, for Miss Lucy E. Wheeler. Specifications provide for a brick foundation, rustic siding, plate-glass windows, double and polished floors, pine trim and blue-brick mantels.

Architect A. F. Rosenheim is preparing plans of a three-story store and apartment building, 125x157 feet, to be erected on the northwest corner of Pico and Flower streets, for Newmark Bros. It will have brick walls, terra cotta trim, cast-iron columns, plate-glass store fronts, etc. The first floor will be divided into ten storerooms—eight on Pico street and two on Flower street. The upper stories will contain eighty living-rooms.

He is also preparing plans of a twelve-room modern residence and stable to be built at Westchester Place, on Pico street, west of the Country Club grounds for Robert Marsh.

He is also preparing plans of a home for himself to be erected in the same subdivision. It will contain twelve rooms and will be as complete as is possible to make it.

He is also preparing plans of a high-story bottling house for the Los Angeles Brewing Company, to be built near their plant on Main street. It will be 75x150 feet, with steel truss roof and substantial in construction.

Architect John Parkinson is preparing plans for a building to be erected on the east side of Main street, between Fifth and Sixth streets. It will be of brick and three stories high, with basement. The first floor will be divided into two storerooms, while the second and third stories will be used as apartments. There will be thirty-three rooms in the upper stories.

The buildings to be erected for the Alexander estate at the southwest corner of Tenth and Main streets and the southeast corner of Ninth and Broadway, from the plans of Architect John Parkinson, will be substantial improvements for that portion of the city. The Tenth and Main streets building will be three stories and basement. It will front 60 feet on the east side of Broadway, 159 feet on the south side of Tenth street and 60 feet on Main street. The Ninth and Broadway building will have a frontage of 70 feet on Ninth and 90 feet on Broadway. Both buildings will have pressed brick fronts and be thoroughly modern.

Architects C. F. Whittlesey has about completed plans for a seven-story and basement building to be erected at the southwest corner of Sixth and Spring streets for Dr. Henderson Hayward. The walls will be of sufficient strength to sustain additional three stories if necessary. It has been designed for a hotel and everything to make it a complete structure for the purpose named will be employed. An exhaust system of heating and ventilating with steam coils located in the attic will be installed. A fan with a diameter of sixty inches will be used to discharge air into the rooms and corridors. A separate fan will be in use to exhaust air from the various bed and bath-rooms. The building will be 82x110 feet, and constructed entirely of armored concrete and will be thoroughly fireproof.

Architect R. C. Ferguson has completed plans of a two-story apartment house of twenty-eight suites to be built on Pasadena avenue opposite the Occidental College for J. C. Dysert. It will be in Mission style, 44x150 feet, have plaster over metal lath exterior, concrete basement and tile roofing. All floors will be doubled. Steam heating, hot and cold water system, patent built-in furniture and other modern features are provided.

He has also plans of a six-room beach cottage to be built at Alamitos Bay for Marion Welsh. It will be provided with extra wide porches, shower bath with cement floor, seven foot fire place with Caen stone mantel and will be up to date in all respects.

Architect George F. Costerisan has prepared plans of a handsome eight-room bungalow to be built in the southwestern part of this city for Mrs. M. W. DeVan. It will be 40x60 feet with blue brick facings to the front and part of the sides, the remainder being of surfaced siding, plate and art glass windows and shingle roofing. The interior will have double floors throughout, the principal rooms having hardwood; pine and oak trim, beamed ceilings, brick mantels, panelled wainscoting in dining-room, plate rails, built-in book cases and buffet. A feature of this residence is the glass-enclosed sun porch occupying the entire side of the house. Up to date conveniences are included.

Architects Morgan & Walls have prepared plans of a four-story and basement brick mercantile building, 50x165 feet, to be erected on the west side of Los Angeles street, between Second and Third streets, for I. N. Van Nuys. It has been leased to the Pioneer Roll Paper Company and will be occupied exclusively by this firm.

IMPERIAL VALLEY.

CONTINUED DEVELOPMENTS.

The general outlook for the Imperial Valley continues very promising, according to Los Angeles real estate men who have visited that section within the past week. Crops are in fine condition, with grain well headed, and an outlook for abundant harvests within the next month or six weeks.

There is general development both in the towns and the farming lands, and many new settlers are going into the valley with their families to make permanent homes. The lands now under cultivation are held at from $30 to $100 per acre. There are now over 1100 owners of land and water stock in the Imperial Valley, and over 100,000 acres are in barley and wheat, while diversified farming is being conducted by many land owners. A conservative estimate places the grain crop of the present year at 5000 carloads.

The raising of fine horses is becoming a feature of the valley, and several fine stock farms have been established. On a ranch a short distance south of Imperial is maintained a herd of 1500 Angora goats, which is proving a very profitable undertaking and will doubtless be followed by other land owners. It is estimated that there are 50,000 head of live stock fattening in the Imperial Valley.

Thousands of trees, both for fruit and timber, have been planted and are flourishing. Numerous substantial farmhouses are in progress, and each of the towns of Imperial, Braly, [illegible] Calexico and Silsby, are growing. At Calexico Leroy Holt is building a [illegible]000 two-story brick block, which will be used for a bank, stores and [illegible]. An addition to the Imperial Hotel has just been completed, making a building worth $20,000. Twelve miles of roadbed are graded and ready for the extension of the railroad from Mexicali easterly into Old Mexico, on the route towards Yuma. The transformation of the past four years, which has converted a desert waste into a prosperous, well-improved valley, is one of the wonders of western development.

PASSING OF FAMILY BIBLE.

BIG BOOK OF SCRIPTURES AND RECORDS GOING.

Relics Piling up in the Second-Hand Stores, Where Historic Treasures Are Sometimes Found. The Smaller Bible Crowding the Old Settler.

Is the old family Bible, that once stood in an exalted position on the center table of the front parlor, passing? Is that sacred Book, in which were recorded the births, marriages and deaths of the family, from the rugged pilgrim of Plymouth Rock down to the golden-haired little tot that prattles at your knee, being supplanted?

Ask the weather-beaten old second-hand book dealer.

The way lighted by a flickering candle that sheds an uncanny glimmer into the darkest recesses of forgotten book-lore, you are guided to the very heart of the old man's treasures. Deep in the gloom, like half [illegible] ragged sentries, stand the [illegible] sacred books waiting quietly on the dusty worm-eaten shelves to be [illegible] back to their once exalted station.

"This one," says the stooped old man as he reaches for a book on the [illegible] shelf, and dislodges from its dusty surroundings, a heavy morocco [illegible] Bible that bears the marks of long usage, "This one," he repeats, [illegible] longed to Lieut. Peter Johnson, who fought in the war for independence under the command of Gen. Washington. The family record is [illegible] from 1710 down to 1847, when the [illegible] of the death of Lieut. Peter [illegible] who was killed in the Mexican war [illegible] a cannon ball, was made.

"How did it fall in my hands? [illegible] same way that dozens of them [illegible] you see stored on these shelves [illegible] to me. An old negro junk dealer [illegible] Los Angeles street told me that he [illegible] a trunk-full of old books which [illegible] desired to sell. I found this [illegible] Bible among the rest and [illegible] the lot for $1.75. So here it [illegible] store on Main street and I [illegible] take less than $5 for it."

Through whose hands the [illegible] passed in the last half a century can only be conjectured. In [illegible] centuries it has traveled [illegible] miles across the great American continent. Mayhap it was [illegible] Golden West in a "prairie [illegible]" by some adventurous "[illegible]" in search of El Dorado. And [illegible] have been whirled from [illegible] ocean in four days on a [illegible]

Scores of family Bibles [illegible] found in the remotest and [illegible] ners of every second-hand [illegible] in town. Each book, once [illegible] the descendants of the [illegible] records it holds, may be [illegible] a few cents by the inquisitive [illegible]

Some are brought to the [illegible] by the prodigal son of the [illegible] for a dime or two, is willing [illegible] with the honored chronicle [illegible] forefathers, and forever [illegible] noble name of his family.

Others are brought in by [illegible] women, who to provide a [illegible] to be placed by the last [illegible] torn from their home that [illegible] held dear.

Many, however, are placed in the hands of the book dealer, not by want or poverty on the part of the owner, but through sheer lack of [illegible] ence and a feeling that the old [illegible] has outgrown its usefulness. The small "red letter" hand Bible is supplanting it.

PASSING OF FAMILY BIBLE.

BIG BOOK OF SCRIPTURES AND RECORDS GOING.

Relics Piling up in the Second-Hand Stores, Where Historic Treasures Are Sometimes Found. The Smaller Bible Crowding Out the Old Settler.

is the old family Bible, that stood in an exalted position on the center table of the front parlor, passing? Is that sacred Book, in which recorded the births, marriages and deaths of the family, from the rugged pilgrim of Plymouth Rock down to the golden-haired little tot that prattles at your knee, being supplanted?

Ask the weather-beaten old second-hand book dealer.

The way lighted by a flickering candle that sheds an uncanny glow into the darkest recesses of forgotten book-lore, you are guided to the very heart of the old man's treasures. Deep in the gloom, like half starved, ragged sentries, stand the forgotten sacred books waiting quietly on the dusty worm-eaten shelves to be taken back to their once exalted station.

"This one," says the stooped old man, as he reaches for a book on the top shelf, and dislodges from its dusty surroundings, a heavy morocco bound Bible that bears the marks of time and age, "This one," he repeats, "belonged to Lieut. Peter Johnston, who fought in the war for independence under the command of Gen. Washington. The family record is complete from 1710 down to 1847, when the entry of the death of Lieut. Peter Johnston, who was killed in the Mexican war by a cannon ball, was made.

"How did it fall in my hands? The same way that dozens of those Bibles you see stored on these shelves came to me. An old negro junk dealer on a Los Angeles street told me that he had a trunk-full of old books which he desired to sell. I found this historic Bible among the rest and purchased the lot for $1.75. So here it is in my store on Main street and I wouldn't take less than $5 for it."

Through whose hands that book has passed in the last half a century can only be conjectured. In the last two centuries it has traveled over 2000 miles across the great American continent. Mayhap it was brought to the Golden West in a "prairie schooner" by some adventurous "forty-niner" in search of El Dorado. Again it may have been whirled from ocean to ocean in four days on a limited train.

Scores of family Bibles are to be found in the remotest and dustiest corners of every second-hand book store in town. Each book, once sacred to the descendants of the family whose records it holds, may be purchased for a few cents by the inquisitive stranger.

Some are brought to the book dealer by the prodigal son of the family, who, for a dime or two, is willing to part with the honored chronicles of his forefathers, and forever blacken the name of his family.

Others are brought in by ... who to provide a few ... placed by the last sick bed, ... from their home that which ... dear.

Many, however, are placed in the hands of the book dealer, not from want or poverty on the part of the owner, but through sheer lack of reverence and a feeling that the old book has outgrown its usefulness. The "red letter" hand Bible is supplanting it.

AFTER SCALPS OF SCALPERS.

Railways Open Warfare on Ticket Brokers.

Court's Ban on Convention Transportation.

Cutters Belittling Efforts to Squelch 'Em.

"Scalpers" and ticket brokers face a hard fight with the railroad companies over the handling of reduced-rate excursion tickets from the East to the Pacific Coast.

The Santa Fé, through Judge Wellborn of the United States District Court, has obtained an order for various defendants to appear next Thursday morning to show cause why a temporary injunction should not be issued, restraining them from dealing in the tickets.

In the meantime the defendants are ordered to desist from exchanging or selling the class of tickets described in the complaint.

The complaint, which was filed by T. J. Norton and E. W. Camp, solicitors for the Santa Fé, and sworn to by John J. Byrne, general passenger agent, names John C. Wiggins, H. R. Duffin, C. J. Lehman, A. B. Jacobs and Moses ...wald, M. and Selman Magnus, ... R. Fox and numerous others as defendants, all of whom are described as being engaged as ticket brokers in the buying and selling of railroad tickets in Los Angeles, and as having combined to aid one another in the carrying on of the business, the creation of the American Ticket Brokers' Association and the Guaranty Ticket Brokers' Association being named as ... the means employed for the purpose.

The complainants ask a temporary injunction, and later an order making the injunction perpetual.

Similar suits have been filed in the Superior Court by the Southern Pacific and Harriman lines.

This precaution has been taken by the railroad companies, because of the large number of conventions that are to be held this year on this Coast—in Los Angeles and San Francisco, as well as at Portland. These meetings include the Woodmen's convention that has been in session in Los Angeles the last few days; the Knights of Columbus meeting here in June, and the sundry other gatherings for which cheap rates have been granted.

The complainants state that the granting of the injunction will obviate the necessity of resorting to a multiplicity of suits against the defendants in protection of the rights of the railroad company.

Brokers professed yesterday to view the granting of the injunction with unconcern. They said the Southern Pacific doubtless would follow the lead of the Santa Fé, and that there will be a sweeping embargo on the sale of unused portions of excursion tickets.

"There is no money in the sale of cheap tickets, anyway," said a broker deprecatingly. "Of course, we shall have to obey the order of the court and it is not likely that many of the tickets will be sold here.

"Reports we have received so far indicate that there will not be a very heavy travel to Los Angeles, so we do not expect to be affected very seriously."

Railroad officials, on the contrary, say that the travel to conventions in Los Angeles, and at other points on the Coast will be heavier than in any previous summer, and that the injunction against the scalpers is necessary as a protection against a general demoralization of rates and business.

It is said that on previous occasions, when the scalpers have been enjoined, they have made no defense. It is expected they will "lie down" this time, and that the scalping of excursion tickets will be practically wiped out.

There is some bitterness among railroad men, because there is no law by which they are protected from the operations of the scalper. It is pointed out that the business of the brokers during the St. Louis Fair was prohibited for that period by a city ordinance.

In view of the action that now has been taken in the United States Court, it is not thought any attempt will be made by the transportation companies to obtain municipal legislation here.

LOVE'S EASTER GREETING.

The Story of a Kiss for Mamma at the Police Station—Tears Wiped Away.

Late yesterday the wife of Tomasso [illegible], a poor peon, sat crooning over her tiny babe which she held in her arms, while another little tot played about her feet.

The woman was there in the forlorn hope of securing the release of her husband who was serving a sentence for intoxication, in order that he might go with her at the shrine of her devotion on Easter.

She soothed the baby with tender lullabies in Spanish, paying scant attention to the little girl playing at her feet, for the tears crept from the mother's eyes and ran down over her cheeks. She hid her face behind her hands as best she could to hide her grief from curious eyes and brushed the tears away with her hands.

Suddenly the wee girl looked up at her mamma and spied the evidence of grief, and with baby tenderness she put her hand to her mamma's face and attempted to raise her head.

The señora at first resisted the efforts of the child but finally gave way and raised her face. The little one lisped some childish word of affection, and then stooping down picked up the hem of her own little pink frock and, reaching up, tenderly wiped the tears from her mamma's eyes.

The tender act of affection was witnessed by a few men who were attracted by the child's actions, and it taught the lesson with incomparable force. All true love is not hidden under a pale [illegible] or a fair skin; nor is real

George Kislingbury,

The well-known Los Angeles mining expert, has made a most favorable report on "California," from which the following is taken:

"The 'Dixie' Group, now producing very rich ore, lies scarcely 600 feet south of the 'California' claim. The 'Washoe-Ormsby' Group, owned by Oddie & Co., successful mining men of Goldfield and Tonopah, lies easterly about 1000 feet from the 'California.' The 'Jumbo,' 'St. Ives' and 'Blue Bull' Group, producing mines, lie almost directly west of the 'California,' while to the north and northwest are situate the principal producing mines of the district.

"I am reliably informed that several of the leading producing mines here today had less value from the ore exposures in surface cuts and along the outcrop of their veins than I found contained in the samples taken by me on the 'California' Claim."

UTAH TEACHERS ASK TO CONVENE HERE.

Los Angeles School Board Receives Surprising Request, Which is Most Cordially Granted—Whole State Convention Coming from Salt Lake.

GREAT is Los Angeles!

Wondrous is the fame of the City of the Angels!

Now comes the State Teachers' Association of Utah and asks that it be invited to hold its annual convention in Los Angeles.

Think of it. People traveling 800 miles from another State to hold a convention in Los Angeles.

And yet, perhaps, the strangest part of it is that it has not been done before, although so far as known no other city in the world has ever been so honored.

Yesterday at a meeting of the Board of Education the request was taken up and approved. Superintendent Foshay was instructed to invite the Mormons to hold their convention here, and was given power to make necessary arrangements for their comfort and pleasure while our guests.

The Utahans desire to hold their meeting in the latter part of December, or the early part of January.

Inasmuch as the Southern California Teachers Association will hold its convention the week before Christmas, it is hoped that arrangements can be made so that both bodies will meet at the same time.

The request of the Utah association came through E. W. Gillett, general traffic manager of the Salt Lake line.

The officers of the Utah association seem to be in earnest, and have already secured the promise of one fare for the trip from the railroad people.

There are 800 members in the association, and it is said that fully one-half of this number would visit Los Angeles if the convention were held here.

The communication occasioned much surprise among the members of the Board of Educaton, none of whom had ever heard of such a thing before. But they were not long in accepting the offer, and on motion of J. S. Slauson, Superintendent Foshay was empowered to draft an invitation and to make all necessary arrangements for welcoming his fellow-workers from the Mormon State.

THEY SEE IT.

The project is by no means so visionary as it might at first thought appear, and the chances for its success are good.

Members of the Board of Education were quick to see the advantage that would accrue to both associations could the convention be brought off as a joint meeting. There are many capable men in the profession in Utah whom it would be of great benefit for the local teachers to meet and the benefit to the visitors might be equally great. Then, too, it was pointed out that it would give the visitors a pleasant outing, and a glimpse of this wonderland of the South.

Every member of the local board is back of the movement, and it is assured that no stone will be left unturned to make the meeting a success.

"AMEN," SAYS FOSHAY.

In discussing the feasibility of the enterprise last night Supt. Foshay said: "Although I have never known of a State teachers' convention being held outside of the State I see no reason why it should not be held in a neighboring State if the advantages are sufficient to warrant the extra expense.

"As the project is a complete surprise to me I have not had opportunity to outline any definite plans but the undertaking appears to be feasible.

"If the convention can be held at the time we are holding our convention (the week before Christmas) the meeting would assuredly result in great good to both associations.

"I believe the plan will be carried out successfully."

SCHOOLHOUSE FOR VERNON.

A number of residents in the vicinity of Moneta avenue and Vernon avenue appeared before the board and urged that steps be taken at once for the erection of a schoolhouse in that district. The committee had secured options on several pieces of property thereabouts, which they submitted. As the recently voted bonds have not yet been sold the board was unable to grant the request and the matter was referred to the Building Committee.

A communication from the Board of Health concerning its recent ruling in regard to free vaccination of those children only who are paupers was read and referred to the committee on health. From the little discussion on the subject that was had previous to referring it appears that most of the board object to the stand of the Board of Health because it puts the teacher in the delicate position of designating who are paupers.

On the recommendation of the superintendent the school children were formally given permission to take part in the May Musical Festival.

Joseph Scott created a stir by presenting a circular which is circulated among the teachers in the schools in which Ross Harris, an occulist, designates himself as "Refractionist of the public schools by appointment of the Board of Education."

It seems that last November Harris was given permission to test free of charge the eyes of the school children but the board objected to his advertising himself as the only dyed-in-the-wool refractionist and instructed the secretary to notify him that he must discontinue advertising himself as such.

HELLO "HYLO."

The blackboard question bobbed up again. A representative of the "Hylo" boards was present and talked in favor of his product. After considerable discussion the proposition was turned over to the building committee.

On motion of Mr. Slauson it was voted to ask O. T. Johnson, Homer Laughlin, I. N. Van Nuys and a number of other men of large experience in building to a conference with the board in regard to the best methods to employ in the building of the proposed new school buildings.

The reignations of Euphemia S. Paxton and Nellie Mosgrove were accepted and Ella Webster, Carrie E. Dwire, Carrie L. McMahan, and Anita Taylor were elected as substitute teachers.

Demands aggregating $2620.75 were approved.

CENSUS OF THE PHILIPPINES.

VALUABLE FACTS REGARDING ISLANDS AND PEOPLE.

Marvelous Progress Made During the Period of the American Occupation — Spread of Education Throughout the Archipelago—Agricultural Resources.

The first complete census of the Philippine Islands has been completed and the results given to the public by the United States Bureau of the Census.

The principal object of the census, as stated in the act of Congress authorizing it, was to secure statistics of population and a general knowledge of social conditions as a basis for the establishment of a Philippine Legislature, which the law directs shall convene two years after the publication of the reports of the census. This Legislature is to consist of two houses —the Philippine Commission and the Philippine Assembly.

The enumeration was made in the Spanish language, and the schedules have resulted in statistics of the civilized population, wild peoples, agriculture, manufactures, schools, railroads, fishing, mining, telegraphs, commerce, transportation, insurance, and banking.

The final results as published are comprised in five volumes aggregating 3046 pages. Included in the reports is a large map of the islands; also many small maps and diagrams in colors, and reproductions of a large number of photographs and many half-tone cuts illustrating the civilized and wild tribes, landscapes, scenes, etc.

The introduction to the work covers the details of the enumeration, in which 7627 persons were engaged, all of whom were natives of the islands, with the exception of 118 Americans, 1 Japanese, and 6 Chinese. It is followed by an article on the physical formation of the Philippine Islands, including harbors, river systems, forests, and mineral resources. A lengthy paper upon the characteristics of the civilized and non-civilized tribes concludes the first volume, which contains also a classified list of elevations and islands.

STATISTICS OF POPULATION.

Volume II is devoted to statistics of population, the greater part of the volume being occupied by tables presenting the population by islands, provinces, and different statistical combinations. The total population of the archipelago, as returned from 342 independent islands is 7,635,426. Of this number almost seven million are more or less civilized. The wild tribes form about 9 per cent of the entire population. The civilized tribes are practically all adherents of the Catholic church. The Moros are Mohammedans, and the other wild peoples have no recognized religious beliefs.

The total poulation, according to the most reliable authorities, is a little more than four times as great as it was 100 years ago. The excess of birth rate over death rate in the Philippines has been large, in spite of sudden and great losses as a result of epidemics of various diseases.

While it is true that the enumeration of the wild tribes, according to the methods employed among civilized peoples, was not practicable, very careful and painstaking estimates were made, and the returns are probably within 10 per cent. of the true number. The total number of non-Christian peoples is stated to be 647,740.

The inhabitants are usually found on or near the coast, except in the island of Luzon, where about half of the people live in the two rich valleys in the interior. Only one-seventh of the civilized population live inland, but the wild peoples are confined almost entirely to the interior. In the archipelago there are 13,400 barrios, or villages, with an average population of 500 inhabitants. The average size of the barrio varies widely in different provinces. A number of adjacent barrios from a pueblo, or municipal unit, and thus there is practically no rural population. Three-fifths of the population live in villages of less than 1000 inhabitants and 4 per cent. in towns of over 5000. There are 4 towns with a population exceeding 10,000 each, and 35 with a population exceeding 5000. Manila is the only incorporated city in the islands, and its inhabitants number 219,928.

NUMBER OF FOREIGNERS.

Inspection of the statistics of nativity show that over 99 per cent. of the civilized population of the Philippines were born in the archipelago. The foreigners number about 50,000, of whom nearly three-fourths are Chinese. Over half of the foreign born live in the city of Manila alone. Exclusive of the army, there are 8135 Americans in the islands, and they are located in nearly one-half of the municipalities. The number of persons reported as of mixed blood forms but two-tenths of 1 per cent. of the entire population. This proportion is unexpectedly small, as it has been generally supposed that intermarriage has been common between the natives, the Spanish and the Chinese.

Of the eight civilized tribes the largest is that of the Visayans, who occupy most of the islands lying between Luzon and Mindanao, and form nearly one-half of the entire civilized population. Tagalogs occupy the provinces in the vicinity of Manila. They rank second, with a little more than one-fifth of the civilized peoples, and the Ilocanos rank third, with approximately one-eightth. Among the wild tribes the Moros are the most numerous, comprising about two-fifths of the non-Christian population.

A majority of the Filininos farm small tracts of land, and those living near the coast alternate this occupation with fishing. The women divide their time between duties of housekeeping and the weaving of hats, mats, and cloths, and are, therefore, included among those engaged in gainful occupations. This fact accounts for the excessive proportion of wage-earners, who form no less than 43.5 per cent. of the civilized population.

Farmers and farm laborers constitute more than two-fifths of all who are engaged in gainful operations. A much smaller proportion are engaged in manufacturing and mechanical pursuits, while the number in professional service is exceedingly small, forming less than 1 per cent. of the entire number gainfully employed. There are 1326 Filipino physicians, 727 practicing lawyers and 676 priests in the islands.

VITAL STATISTICS.

The third volume of the reports is devoted to vital statistics, education, and families and dwellings. The average normal death rate is much greater than that of the United States and exceeds that of any European country. While the death rate is about 32 per thousand the average birth rate is 48 per thousand. The mortality returns indicate that the wet season is the most fatal period of the year—nearly one-half of all deaths occurring in July, August, September and October. Cholera has proved very deadly and in 1892 it swept over the entire archipelago carying off over 30,000 in the month of September alone. Malarial fever is always prevalent and is responsible for many deaths. Among other prevalent maladies are dysentery, diarrhoea, beri beri and smallpox. Many diseases prevalent in the temperate zones such as typhoid, diphtheria, meningitis and pneumonia are unknown in the Philippines.

EDUCATION AND SCHOOLS.

At the date of the census there were 2962 schools in the archipelago, an average of three for each municipality. Of these 55 per cent. were public, about 33 per cent were private, and the remainder were under the control of the Roman Catholic Church. Of the total enrollment 96 per cent. was reported for the primary schools. There are, indeed, only two institutions devoted to higher education. Five per cent. of the civilized population of the Philippine Islands is enrolled in the schools. This proportion is only a little over one-fourth of that for the United States, but it represents practically a two-years' growth, as the school system may be said to have commenced with American occupation. One-sixth of all children of school age are enrolled, and three-fourths of that number are in the public schools. Six thousand teachers are employed, four-fifths of whom are Filipinos, receiving an average annual salary of 266 pesos, equivalent to $125.02.

Although the study of English has met with some opposition, this is diminishing. Eleven per cent. of the pupils throughout the archipelago are reported as understanding the language, and this may be regarded as very satisfactory progress for the short space of two years. In Manila there are twenty-one night schools with an enrollment of more than 4000 adults who are engaged in acquiring the English language.

Ninety-four per cent. of all the dwellings are made of nipa or similar material, and most of them are therefore not houses in the sense that we use the term, but temporary structures which serve for a few years only. Each dwelling shelters on an average 5.6 persons, or 1.18 families. Filipinos generally own their houses; less than 6 per cent. are rented. About three-fifths of the homesteads are owned by the occupants. Rental for land, for house, or for land and house, is often paid in labor. In five-sixths of the cases of monthly cash rental for land the amount of rental is 1 peso or less.

AGRICULTURAL RESOURCES.

The fourth volume of the reports is devoted to agriculture, and social and industrial statistics. The chief source of wealth of the islands has been in the past the production and exportation of agricultural commodities. In 1902 the agricultural exports were valued at $27,360,475, forming 96 per cent. of the value of all exports. The soil is so fertile that when sufficiently watered it yields large crops without intensive cultivation, and the easy-going native secures most satisfactory results, even with his unscientific methods and crude implements. Food producing, aromatic medicinal, dye, and textile plants grow profusely, and both indigenous and exotic plants are easily cultivated. The principal products are hemp, sugar, tobacco, copra, and rice. The production of coffee has been practically abandoned, but the Bureau of Agriculture is endeavoring to reintroduce the cultivation of the plant. It is evident that the marvellous agricultural resources of the islands have been scarcely touched as yet.

The principal domestic draft animal is the carabao, upon which the agricultural development and prosperity of the country largely depends. The ravages of the rinderpest and surra among domestic animals during the census and the preceding year were so disastrous and far-reaching that they exercised a decided influence upon economical conditions. The immunity of American horses, as compared with Australian and native horses, is worthy of note.

Discussing the subject of labor the reports state that the Filipinos demonstrate a natural aptitude and efficiency as workmen when placed under intelligent supervision. It is the opinion of Judge Taft, expressed while he was Governor of the islands, that the natives can be ultimately trained to supply all the necessary labor of the country.

TRANSPORTATION FACILITIES.

The chapter on steam and street railroads suggests that only a beginning has been made in these means of transportation in the archipelago. The only steam railroad of importance runs from Manila to Dagupan, a distance of 122 miles. It traverses a rich and populous valley and carried in 1902 over a million passengers and over 165,000 tons of freight. The gross profit for the year 1902 was $373,703. Two short extensions of this road are being built.

Three lines of street railway, operated by horsepower, and a steam railroad running four miles represent the transportation facilities of Manila at the time of the census. These lines were owned by a single company. During the year 2,626,606 passengers were carried on the street cars. Since 1902 a modern electric railroad, operated by overhead trolley, has been substituted.

Nine banks were in operation in 1902. The banking business is centered in Manila and a few auxiliary institutions are located at other points. A large number of foreign fire and marine insurance companies maintain agencies in Manila.

These reports present a most interesting picture of what has been accomplished in the islands since the American occupation in 1898. They form, also, a mine of information on all subjects connected with the material prosperity of the people.

Last Chance to Buy Pacific Bullfrog Mines Company Stock

at 4 cents---The Ground Floor Price---4 cents

Incorporated under the laws of the territory of Arizona for $1,000,000; 4 cents per share—par value of each share $1.00—fully paid and non-assessable. The property consists of four full claims, in the Bullfrog District, known as Dice Box No. 1, Dice Box No. 2, Dice Box No. 3 and Silver King. The three Dice Box Claims are known as being very choice, and in fact the most promising in that vicinity, while the Silver King is nearly as desirable. Numerous mineralized outcroppings appear on this property and surface assays picked at random from the croppings show values of from $4.00 to $20.00 per ton. The property was located by ELIJAH J. HARRIS, the famous Nevada prospector, who has rambled over the deserts and through the mountains of Nevada, Idaho and Arizona for thirty years in quest of the precious metals. He has located many properties that have subsequently become worth thousands and hundreds of thousands of dollars, and now expresses firm confidence that this will prove to be as great as anything with which he has ever been connected in the past. The officers of the PACIFIC BULLFROG MINES COMPANY are; Judge V. T. Hoggatt, formerly of Nome, Alaska and San Francisco, President; Elijah J. Harris, locater, Vice-President and E. L. Moffit, Secretary and Treasurer. This management absolutely assures a vigorous policy of development, and to show their methods we have but to say that before a single share of stock was sold men were set to work developing the property.

KNIVES OUT FOR RANGERS.

Sheriff's Men are Hot Over Lee Hobbs Case.

Threats That Account Will be Evened Somehow.

One Globe Officer Eliminates Promiscuous Shooter.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

PHOENIX (Ariz.) April 21.—The discharge of Lee Hobbs from arrest under a charge of murder closes an international episode of notable interest. The arrest was at the instance of the British government, whose agents averred that, September 2, 1902, the accused man, a sailor on the British ship Leicester Castle, had murdered Second Mate John Nixon. This was alleged to have occurred in the Southern Pacific Ocean.

Hobbs and two American confederates were supposed to have stunned the captain of the craft and to have taken possession of the deck till they had constructed a raft, on which they had merrily sailed away.

As a parting insult, as they drifted from the vessel, the trio shouted "Hurrah for the American flag!"

For this they were fired upon from the cabin windows by the captain and first mate, but ineffectually. Why they betook themselves to a raft when boats were available was not told. The nearest land was Pitcairn Island, 350 miles distant. The next morning the ship cruised around, searching for the raft, but it had disappeared.

It was proved that Hobbs of Arizona had been a peace officer at and near [illegible] for many years and that he was a jail guard at Solomonville at the time he was charged with being a pirate on the South Sea. Had the hearing turned against the prisoner, he would have been delivered over to British authority, for trial in England.

The expense of the proceedings, aggregating several thousands of dollars, will be borne by the British government, when certified to by the State Department of the United States. The prosecution had been under the charge of C. Walter Courtenay Bennett, British Consul-General at San Francisco, through whom representations were made to the State Department that resulted in particular care being taken of the person of Charles Wolz, once cook of the Leicester Castle, brought to Arizona as the principal witness for the prosecution, supposedly in danger of death at the hands of Hobbs's friends. Two sailors, summoned from San Francisco, failed to support Wolz's identification of Hobbs. Capt. John Peety of the ship started from London for Phoenix, but was stopped at New York.

A feature of the case that is not settled is the antagonism that has been developed through it between the Sheriff's force in Graham county and the Arizona rangers, three of whom worked up the case against Hobbs. He alleges that he was treated in a brutal manner and was held in ignorance of even the charge against him. The affair has cost him and his friends a couple of thousand dollars and there are threats that the account will be evened up in some manner thus far undefined.

DEMOCRATS FUSE.

In order to gain a fighting chance to return to power, the Democrats of Phoenix have fused in a Dolly Varden ticket with the backers of the antigambling movement and have adopted a platform pledging their candidates, if elected, to favor the complete and absolute suppression of gambling. T. T. [illegible], late Speaker of the Arizona Legislature, was chosen as the party's candidate for Mayor, but three of the [illegible] party nominees were taken on the Democratic ticket. Much of the agitation for municipal purity proceeds from Democrats who were a part of the most notorious administration Phoenix ever had, during which city employés were compelled to turn over a percentage of their salaries for political purposes and corruption seemed general.

ELIMINATION OF MENDOZA.

At Globe, Antonio Mendoza forgot that Arizona had become civilized and began "shooting up the town." He was even indiscreet enough to take several shots at Sheriff E. P. Shanley, when that officer called upon him to quit his disturbance and come along quietly to jail. Shanley loaded up the drunken Mexican with lead, finally knocking him down with his pistol butt as the Mexican was firing a fifth shot at him. Mendoza died soon afterward, at the County Hospital. Shanley was acquitted of all blame. A Mexican witness testified that Mendoza called to him, saying: "You are of my nationality and I love you. But keep away, while I do a little shooting with this man."

TERRITORIAL BRIEFS.

An unknown man was drowned in Salt River a few days ago, while attempting to swim his horse across the swollen stream, near the Tonto Basin dam site.

The cement mill at the Roosevelt Dam has started operations and is reported to be running satisfactorily. Upon its success depends the most important question of economy in the construction of the dam.

A number of members of the Congressional Committee on Irrigation will visit the Roosevelt dam site for four days early in June.

The Phoenix Board of Trade is considering a proposition for the purchase, as a wagon bridge, of the old Southern Pacific bridge across Salt River at Tempe. The structure will soon be paralleled by a fine new railroad bridge and will be removed unless purchased by the county.

Lieut.-Gen. Adna R. Chaffee, Chief of Staff of the army, will be in Phoenix May 1, on his way from Fort Huachuca to Whipple Barracks, on a general tour of inspection of western ports. Early in the eighties Gen. Chaffee, then a major of the Sixth Cavalry, was in command of Fort McDowell, now deserted, thirty-five miles northeast of Phoenix, on the Verde River.

Charles W. Bowman of Tombstone has been appointed to be the fifth member of the Territorial Board of Equalization.

The management of the Portland Exposition has set aside the period between August 23 and September 2 as "Arizona Cities Week." The Arizona "cities" invited to participate appear to have been selected in the dark, for they include villages and leave out towns. Those named are Phoenix, Jerome, Prescott, Flagstaff, Winslow, Globe, Pima, Solomonville, Thatcher, Nogales, Tombstone, Yuma and Tucson.

Within Arizona the Presbyterian church has a membership of 2515 and a Sunday-school enrollment of 2533. There are twenty-three churches and ten missions, with eighteen ordained ministers and sixteen licentiates.

PROSPECTUS

To the Public:

The Tonopah Home Consolidated Mines & Exploration Co. is organized for the purpose of taking over and consolidating and developing several of the close-in and most promising of the properties in Tonopah and adjoining and adjacent to the developed properties.

In this district, now only about 4 years old, over $150,000,000 has been developed and is now being extracted. New discoveries are constantly being made and the area in which these large and very rich ledges are being discovered is constantly being widened and extended; important discoveries have recently been made, which render extremely valuable the area now controlled by this company, and as well as that it is proposed to operate under this consolidation. In addition it has been decided to add the feature of an exploration company to examine, prospect, develop and take over other properties in Tonopah, Goldfield, Bullfrog, Silver Peak and other districts, and the advantages of combining this feature are that:

In the selection and acquisition of mining property the company commands, first, its own engineering talent, and, second, may select from the work of a great army of prospectors. The latter are always presenting their discoveries to those whom they believe will undertake development. Out of such a condition, aside from the active work of those in the employ of the Company, the good from the bad can be segregated. The earliest and often the best discoveries in a district thus pass into the hands of our examining engineers. Later discoveries in older districts will likewise be brought into touch with us more easily and promptly than where there is an absence of a source known to the prospector through which he can negotiate a bond or sale.

Heretofore the large investor and the Exploration Companies have curiously enough devoted themselves to a search for "going concerns." "Going concerns" of merit are seldom for sale at a commensurate price. If they are acquired it is usually at a price so high that over-capitalization must follow with meagre and uninviting dividends. It is not unusual that the end of the dividend period has been reached long before there has been a return of the original capital and the interest on the money which it should logically earn.

Realizing that these facts have in the past too often operated disastrously to many worthy but misdirected concerns the Tonopah Home Cons. M. & E. Company will seek to acquire and take over properties in their early development. Whatever fruits may accrue out of such properties the company will enjoy in the fullest measure, not only in the production of ores, but in the enhanced values arising out of actual development. This latter is often the largest empirical asset which a "going concern" has to offer when it is for sale. Moreover in the early stages of development before any considerable amounts of money have been spent, the earmarks of promise or failure pretty generally manifest themselves. It is therefore possible to forestall a large outlay which in the end may become a total loss, and at a time when we have spent only such reasonable sums as the property or properties actually or reasonably warrant; not in the light of prospective or speculative value, but in the light of substantial and definite merit.

The remarkable discoveries made within the past two or three years in Western and Southwestern Nevada, embracing such districts as Tonopah, Goldfield, Bullfrog, Kawich, Lida, et al., call attention conspicuously to the opportunities for organized talent and capital prepared to operate in those districts. Notwithstanding the lack of capital many splendid fortunes have been made.

In nearly every instance these fortunes have been made at an astounding premium. Thus only have the very high grade ores been shipped at costs ranging from $20.00 to $40.00 per ton. Had ample capital been in hand at the beginning nearly the whole of the values could have been converted to the profit of the owners, instead of to transportation, reduction and other companies. Such a condition as this presupposes only exceptionally high-grade ores, while those of lower value either remain unworked altogether or are handled at a heavy disadvantage. A large proportion of mining dividends are derived not from bonanza ores, but from those of medium or even low value, and the paying and going concerns of today are ones in which ample capital is in hand to make a success wherein for the lack of capital failure would follow. This is peculiarly true of all industrials and is conspicuously true of mining. With these facts in view, it is considered that the Tonopah Home Consolidated Mines & Exploration Co. is in an excellent position, and, operating as it is in such a wonderfully rich section, that early and large dividends can be made.

S. A. KNAPP, J. C. RALSTON, Tonopah Home Consolidated Mines & Exploration Co., Mining Engineers.

To the Owners of Tonopah Home Stock:

The owners of Tonopah Home Mining Company's stock will receive one (par value $10) share of the new issue of the Tonopah Home Consolidated Mines & Exploration Company for ten (10) (par value $1.00) shares of their holdings (for single shares in lots less than 10 fractional shares will be issued) in the Tonopah Home Mining Company. Persons sending their stock to the American National Bank of San Francisco will receive a Directors' receipt until the new stock is issued.

The Directors of the Tonopah Home Consolidated Mines & Exploration Company will not take over the Tonopah Home Company's stock after May 8th, unless specially agreed with the Executive Committee of the Board of Directors.

T. L. ODDIE, President.
Tonopah Home Consolidated Mines & Exploration Co.

To the Members of the San Francisco Stock Exchange Board and the San Francisco and Tonopah Exchange:

We have arranged with the Tonopah Home Consolidated Mines & Exploration Company to substitute Home stock for the new issue on buyer's contract, where said transactions have been through either Exchange.

INDIGNATION OF OIL MEN.

Will Utter Loud Roar to the City Council.

Insist on Use of Product on Local Streets.

Road Building Problem is Waxing Bellicose.

When the City Council convenes on Monday it will hear from the oil men of Los Angeles. What it will hear will be a loud roar, if the indignation meeting held yesterday morning at the office of the British-California Company is any criterion.

The trouble began on Saturday morning when the oil men read their Times and saw the proposition to amend the specifications for street improvements so as to virtually cut out the use of oil on the city thoroughfares.

This means another blow, the oil men say, for the local industry, already seriously injured by the action of the county in going to Sunset for its oil. Several of the leading operators acted promptly and by 10 o'clock the British-Californian office was filled. For two hours the situation was canvassed and it was decided to get up a petition to the Council asking that no action be taken towards amending the specifications as proposed until the oil men have had an opportunity to go over the matter with the officials and demonstrate the value of oil in the street work. A committee was appointed to circulate the petition among citizens, property owners and all classes interested and present it on Monday. It was also decided to have all the oil operators attend the meeting in a body.

THE OIL MEN'S SIDE.

"The fact is," said A. C. Brouse, a leading operator, "that an oiled street is far superior to any graveled thoroughfare, provided, of course, that the oiling is properly done. Failure to do it properly has been the cause of dissatisfaction. Much slipshod work has been done by contractors who know little about how the work should be done. To merely spread the oil over the surface is of no benefit. It must be thoroughly mixed with the soil and then a street is produced that cannot be excelled by anything short of an asphalt pavement.

"Examples of good work can be found in many parts of the city and with proper care there is no reason why all should not be as good. As a matter of fact, a graveled street does not last like one properly oiled. This is especially true of the streets in the hilly districts, where the rains have simply raised Cain with the graveled roads. On the other hand, all the water that comes down from the hills runs harmlessly off the surface of a well-oiled thoroughfare."

As samples of the merits of the two classes of streets, oil men point to such thoroughfares as St. Andrews Place, Grammercy Place and Jasmine street, in the neighborhood of the Harvard school. These were properly oiled three years ago and have never been touched since, but are in almost perfect condition, with hard surface and no dust, although there has been a very fair amount of traffic over them. On the other hand, Washington street, a graveled thoroughfare, now washed out in parts along the sides in the same neighborhood, is pointed to as an example of the other class of roadway.

THE HAND OF ESAU?

It is alleged that at the bottom of the City Fathers' decision are the maneuvers of the Sunset oil men, represented by H. A. Blodget of Bakersfield, who recently captured the county contract at 93 cents a barrel. It is said that this oil was used at Riverside, where city officials recently made an inspection and the boomers of this product are endeavoring to convince the Council that streets should be graveled and then treated with a smaller quantity of the northern heavy product—80 per cent. asphaltum—which they would, of course, furnish, probably at their own price.

However this may be, the local oil men will be on hand Monday to make a strong fight to hold the business.

"OUT" MAIL BURNED.

SUNDAY REAL ESTATE "LINERS."

10 O'clock Saturday Nights.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier, especially Sunday printed must be in the office not later than 10 o'clock Saturday nights. The printing of real estate announcements, which in order to all real estate matter, including advertisements, in a part by itself on Sundays involves somewhat slower press work, making it essential in order to get the paper out on time to stop receiving real estate ads. at 10 o'clock Saturday nights.

Dealers will confer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible; or at least a part of it, and the balance early on Saturdays.

Sunday "Want" ads. will still be received by 'phone and over the counter until 11 o'clock Saturday nights.

THE OIL INDUSTRY.

SIX MILLIONS IN DIVIDENDS.

AND MORE PAID BY CALIFORNIA COMPANIES TO DATE.

What Has Come to the State from the Development of Oil Not Expressed in These Figures Alone. List of Fortunate Concerns and Distributed Profits.

An official list of dividend-paying oil stocks, issued by the San Francisco Stock and Oil Exchange, shows that $5,514,520 has been paid out by twenty-two northern companies enumerated during the period of their existence. The amount ranges from the two dividends of 1 cent each, total $4000, paid by the Apollo, to the long series of payments by the Union reaching the grand total of $1,634,321.

But these figures cover only what was paid up to April 1. Since that date the Reed Crude alone has added $105,000 to the total. Also the Union has paid its regular monthly 50 cents a share, while the Imperial and Thirty-three have both made their regular monthly payments of 20 and 10 cents respectively. The last two named amount to $30,000. The Caribou has paid 7 cents or $5600; Monte Cristo, 1 cent or $1200; Peerless, $14,000; Claremont, $5000, all of which will bring the total to date up to $5,675,120.

Nor is this all the money that has been disbursed in dividends through the medium of the oil industry in California. All the companies listed at San Francisco, with the expectation of the Union, which has interests in every field in California, are exclusive northern operators and in the statements no account is taken of the many companies operating in Los Angeles, Whittier and Fullerton. Complete figures for these concerns are not available, but as an example it may be mentioned that the Central Oil Company of this city has paid out $265,000 in dividends during its five years existence. Other dividend-payers in the southern fields are the Fullerton, Whittier Consolidated, Home (Whittier) and the Puente. In the northern fields, too, there are many companies that have paid dividends but are not listed on exchange and hence are not included in the lits given. Some of them are close corporations. Beside this there are a number of properties owned by individuals or by firms (unincorporated) that have no doubt paid good returns. This is especially true of the Los Angeles city fields.

Thus it will be seen that the total dividends paid by all companies that can be accurately figured out is $5,940,120. When the estimated dividends of others are added it is certain that the total is not less than $6,000,000, and maybe more. These figures, it should also be remembered, take no account of the indirect profits to the many industries of the State which have come as a result of the oil business. This is too great to be figured; it is expressed by one word—millions.

Again let it not be forgotten that nearly all this vast sum, with the exception of part of that paid out by the Union, has been disbursed within a period of six years or less. The greater part of this has been made from the heavy fuel oil that the Standard has no cinch on and that goes direct to the consumer from the well.

The list of dividend-paying companies, as published by the San Francisco exchange, is as follows:

Alma, Kern River, $68,400; Apollo, Kern River, $4000; Associated, Kern River and McKittrick, $276,348; Caribou, Coalinga, $39,446; Claremont, Kern River, $60,000; Esperanza, Coalinga, $6250; Four, Kern River, $137,949; Hanford, Coalinga, $38,000; Illinois Crude, Kern River, $17,500; Imperial, Kern River, $780,000; Kern River, McKittrick and Kern River fields, $20,000; Monte Cristo, Kern River, $120,000; Oil City Petroleum, Coalinga, $50,000; Peerless, Kern River, $418,000; Reed Crude, Kern River, $876,000; Sovereign, Kern River, $24,000; Sterling, Kern River, $67,500; Thirty-three, Kern River, $390,000; Twenty-eight, Coalinga, $116,000; Union Oil Company, $1,634,321; United Petroleum, $245,000; West Shore, Kern River, $125,000.

In this connection it may be noted that by far the greater part of this sum was paid out by independent companies and the amount credited to the Associated is but a very small percentage of the total. Of the $981,000 paid out by the Reed Crude $10,000 was simply a re-payment to its stockholders of the company's proportion of the Associated's recent dividends. The United Petroleum's revenues are derived from the Union, for which allowance should be made in figuring the total disbursed in dividends. In the case of the Associated the single dividend thus far paid does not represent its total payments, as it is paying out large sums on its bonds semi-annually.

NO CAUSE OF ACTION.

Judge Trask Throws the Suit of Tenant of the Vogel Block Out of Court.

The suit brought against R. F. Vogel a few days ago by Mrs. Lidda Dussault, to recover damages for alleged defects in the upper floors of the Vogel Block, at the corner of Eighth and Figueroa streets, was thrown out of court by Judge Trask on Friday.

Mrs. Dussault occupies the upper floors of the block, as a rooming-house, and she sought to recover for alleged cracking of the walls by the sinking of the building, and for the fading of the tinting on the walls.

Mr. Vogel's attorney filed a demurrer which was sustained by Judge Trask, who said that no building was ever built that did not settle more or less, and that tinted walls would invariably fade. He decided that there was no cause of action.

Flexible Rubber Plates

Have many advantages over the old thick, cumbersome, ordinary rubber plates and even over gold plates, being much lighter and thinner. These plates are flexible, only a trifle thicker than heavy writing paper, fit closer and adhere better to the roof of the mouth. Particles of food and small seeds cannot get under them. They will last longer, are stronger than any others and will not break, as they will give first, being flexible. Dr. Schiffman's own process, and made only by us.

It gives me great pleasure to state Dr. Schiffman extracted an impacted wisdom tooth for me, which had been giving me great annoyance for years. It was extracted absolutely without a particle of pain to me. It was easily worth 100 times the amount paid.

I have worn a plate since I was 16 years old. Have had plates made by three different dentists, and must say that the plate made by Dr. Schiffman has been the best I have ever had, and is satisfactory in every respect. MISS IDA SHEDENHELM, 833 S. Spring street.

I had a nice upper plate made by Dr. Schiffman. It fits perfectly and is satisfactory in every way.
MRS. MARY TUROW, 230 Winston st.

I had twenty-seven teeth extracted by Dr. Schiffman without any pain. I have since had an upper and lower set made, and they fit fine. They fit so tight that it is with difficulty that I can remove them. I cannot speak too highly of Dr. Schiffman and his work, and advise every one needing work done to patronize him.
MRS. E. J. KELLOGG, 146 W. 14th st.

I wish to state that Dr. Schiffman extracted my teeth without the slightest pain or unpleasant after results, and then fitted me with a full set of teeth, which are just splendid—satisfactory in every way—and I can use them as well as I could my natural ones.

appointment is said to have come great surprise. The Kaiser made Minister aware of his promotion the other night in Berlin at the opening performance of the remodeled Theater Royal. He told him of it quite casually between acts. Next morning the papers were full of the news, giving unique details of how His Majesty delighted in catching his new Minister off his guard with the announcement of the distinction he was about to confer upon him.

Poultney Bigelow, the American writer, as is well known, was a classmate of Emperor William and of the new Prussian Minister of the Interior at Bonn. Mr. Bigelow had a fine chance to keep on the most intimate of terms with the Kaiser, so it is related in Berlin, but threw away the opportunity by accepting an engagement from an enterprising American life-insurance company, which hired him for campaigning in Germany on the strength of his august connections. The Kaiser never liked the idea of his friendship being exploited in this way and Mr. Bigelow has never enjoyed the same standing in Berlin since then. William II was immensely fond of Mr. Bigelow, and used to find frequent opportunities of honoring him both before and after becoming Kaiser. Another of the Kaiser's classmates who ranks among the "coming men" of Germany is Baron Windheim, former Police President of Berlin. He is now President of the province of Frankfort-on-the-Oder and is said to be slated for the first high honors at His Majesty's disposal.

PRETTY AND POPULAR IS IRISH PEERESS.

[STAFF CORRESPONDENCE OF THE TIMES.]

THE COUNTESS OF ORANMORE.

LONDON, April 5.—There are few more popular women in Ireland than Lady Oranmore who has figured so conspicuously in most of the recent functions at the Viceroy's court. Society admires her and the Irish peasantry adore her. She is a thorough daughter of Erin, piquant and pretty, bright and witty, an entertaining conversationalist and an accomplished musician. Irish ballads she sings to perfection. Her helpful sympathy and practical charity make her as welcome in the humble cabin as in the gilded salon. In both she is equally at home. She was the Hon. Olwen Ponsonby, daughter of Viscount Duncannon and granddaughter of the aged Earl of Bessborough when she married Geoffrey Henry Browne-Guthrie, third Baron of Oranmore and Browne, in 1901.

Her latest photograph, which is here sent, shows her attired for one of the Lord Lieutenant's levees. But in the country districts she is most often seen clad in hand-woven tweeds and homespuns, for she believes every patriotic Irish women should do her utmost to encourage home industries. Like her mother, Lady Duncannon, she takes a keen interest in every movement for their development. She is a clever needlewoman and good embroideress, and as a girl used to teach the rudiments of fine embroidery to the workers in the Garryhill Industry. Work of this character still absorbs much of her time, and many an Irishwoman she has trained to find in her fingers a better method of paying the rent than that of sharing her cabin with a pig. Lord Oranmore, who is a representative Irish peer, belongs to one of the oldest families in the country, and has in his veins the blood of the Blakes, Lynches and O'Flahertys.

GROUNDHOGS OR RAINMAKERS.

IDEA THAT THEY HAVE TO DO WITH WEATHER.

wkirk Figures Out that Just as Much Water Falls Cen in and Century Out—Why do Forget the Lord's Historic

"I note," says Dr. Garrett Newkirk Pasadena, "that a certain gentleman appears to imagine that he has something to do with the making rain in Southern California, by some sort of chemical or exploitation upon the patient atmosphere, is advertised to give a se of lectures in Los Angeles and telling how he did it.

"Los Angeles and suburbs contain people, and it would not be that enough silly ones would among the quarter of a mil an audience for this (pos self-deceived) humbug.

"It is hard to understand how any with a modicum of sense and the of rainfall before him could for a moment that Southern has had a drop more or less because of that little black box side hill at Esperanza. We so far at the Los Angeles some eighteen or nineteen rain for the season of 1904-5. near the mountains, as usual, have been a few inches more. not had a remarkable rain thing, in fact, unusual, except two occasions the storms were on the mountain slopes, causing in certain parts of the valley.

1877-78, when this self-appointed maker' was in baby clothes, or embryonic, the fall of rain was inches. Two years later, 1879-80 inches. The three years were light years, averaging inches. But the season came forward with 38.18 ing an average of 18.42 those four years. Next light year, 9.12 inches, fol in 1885-6 with 22.31 inches. two years had respectively 13.87, with an average on the of perhaps 16 inches. Then with 19.28 inches, 1889-90 inches, 1890-1 with 15.36 average for three years of inches. The years 1891-2, 1892-3 respectively, 11.85, and 26.28 inches, average of 19.06 inches; 1893-4 off year with 6.73 inches; 1894-5 inches; 1895-6 was light, 8.51 gave 16.86 inches.

Then followed 1897 to 1900, the pe known as 'three dry years' with and 7.91 inches, a total of 20.55. came forward with 16.25 1901-2 had 10.16. These two have been sufficient had they followed upon the previous dearth. was Southern California recov from its state of depression and forward prosperously. Then came only two years ago, with a rain of 19.32 inches; on the mountains inches. In 1903-4 the light of 7.22 inches came late, but 'in the of time,' and we had fairly good and no dearth of water. Why do on forgetting that only years ago we had a greater rain for the season than we have had this year?

"Leaving out the 'three dry years,' average rainfall by standard meas has been 16.49 inches since year 1877, so that the amount this has not been more than two or inches above the general av The 'three dry years' made such impression on the minds of those lived through them, that they been oversensitive and apprehen of drought ever since. In the good of 1900-1 and 1902-3 the showers evenly distributed through their with much of sunshine be Jupiter Pluvius was in gentle No water went to waste. But were not fully impressed. This with a deluge once or twice re all their hands went up. It is to say that more water went into ground two years ago than in this of impressionable storms.

"The influences governing our rain extend over great regions and dis north to the polar wastes, east mountain and desert, south and west thousands of miles over the illimitable of the sea. For thousands of no doubt the changing seasons to the region where we dwell, Columbus crossed the sea or Balboa stepped into the and 'took possession' of all the touched by its waters. The av rain of a hundred years might a bit more or less than that of the twenty-five, but of this we are rea sure that in each century of there will be somewhere about hundred inches quite irregularly year by year, and that regard to the squint of a the buzz of a mosquito, or of sulphureted hydrogen."

SUNSET BEACH

The Beach That's Different—Situated Between Long Beach and Huntington Beach

Sunset Beach has never been injured by rough seas or high tides. Old Neptune has always dealt gently with "Sunset." The beach extends so far into the sea that before the waves have reached the shore line their force is spent, and consequently the bathing is always absolutely safe. Nothing like an undertow has ever been known at Sunset Beach. The advantages of ALL other beaches are combined in Sunset, and added to these are many that no other beach enjoys. To give a description of Sunset Beach would take more space than is at our disposal. We therefore briefly enumerate the principal attractions: Best car service (the Huntington line runs directly through Sunset Beach;) purest artesian water, under high pressure, piped to every lot; beautiful mountain views; miles of lagoon that forms a natural Venice; safest bathing. No liquors will ever be sold at Sunset Beach. A forty foot boulevard skirts the lagoon the entire distance of the tract. Still water boating; excellent fishing; there will be added at once children's play grounds; pavilion; bath-houses; swimming pool in the open (100x200 feet.) Alll lots are to alleys; walks laid in center of streets; the most select neighbors; forty cottages started, 25 of which are completed; electric light, etc. Could anyone ask for more in a home place by the sea?

The Nearest Beach to Los Angeles

Playa del Rey, "The King's Beach," because of its admirable location, its peculiar natural advantages, its close proximity to Los Angeles and the vast amount of improvements now being established, is, without the semblance of a doubt, the most desirable "all the year round" ocean resort on the South Pacific Coast. This beautiful watering place, only 14 miles from the city, has the largest pleasure pavilion south of San Francisco. It also has a pleasure pier, a natural lagoon several miles in length, and over two miles of beautiful beach frontage that affords a constant view of Catalina, and the sweeping contour of the Sierras. Beatiful residences have been recently built by the following well-known people: Frank A. Garbutt. Oliver Morosco, W. W. Burton, A. W. Eager and Geo. W. Signor, and the following prominent Los Angeles business men will erect beautiful villa homes immediately: George B. Ellis, H. D. Lombard, N. W. Church, Jas. V. Baldwin, Frank W. Flint, Jr., and Frank Hudson. Is it not significant when men like the above, who are noted for their keen foresight, their ability and keen judgment, decide to locate in this favored spot to which Nature has been so kind? Don't you think that these men have carefully studied the situation before buying? You may travel the entire coast length and you'll find no better opportunity for investment than at Playa del Rey—in truth, a beach fit for a king.

YIDDISH PLAY FOR MEMORIAL.

HEBREWS WILL HEAR OLD DIALECT AGAIN TONIGHT.

Racial Classic to be Presented at Elks' Hall, With Semi-professional Cast—Second Revival of the Kind Ever Given in This Part of the Country.

Elks' Hall will see tonight, marking the close of the Passover, a production of the Yiddish play, "Barr Cochba," in four acts. This is the second Yiddish presentation in the southwestern part of the United States, and a great deal of interest has been manifested by the Jewish people.

"Barr Cochba" is an Israelitish classic. It narrates, in tragic form, a historical episode of the first century, A. D., told accurately in the chapters of Josephus. The play has been presented many times in the Yiddish theaters of New York, and is considered a masterpiece among works of its kind.

In charge of the company is A. Kaplan, who has been spending the winter with his family in Los Angeles. Kaplan is a Jewish actor, and besides is a baritone singer, having been a member of the Metropolitan Opera Company when Maurice Grau controlled. He was later connected with the Savage forces. Kaplan's daughter will take the leading female role, and the supporting cast of principals will be made up, in great part, of men and women who have been at some time or other professional actors of the plays of the race.

The production is part of an attempt to revive and keep sacred in the minds of the local Hebrew men and women the old customs, traditions and dialects endeared to the race in the fatherland of Germany.

By far the largest number of Jews in America are originally of Yiddish extraction. In the Middle Ages the two great branches divided their course, and while one part set toward the South, settling in Spain and Portugal, the other division migrated to the Teutonic countries, eventually becoming a powerful factor in political and financial circles. The dialects of this tribal offshoot are all grouped under the Yiddish head, and Yiddish, therefore, becomes almost a typical national language.

Barr Cochba was a wealthy Jew who lived just after the death of Christ. He raised an army, and attempted to wrest from Caesarian tyranny the whole of Zion's old monarchy. Almost needless to say, his struggle against the Roman empire was futile, and in a short time he died—a victim of his own sword, for he would not fall before the weapon of a Roman.

A large part of the play "Barr Cochba" is musical in character, some entire scenes being exclusively of operatic nature. The melodies are almost all worked out upon oriental themes.

There will be a chorus of twenty-two singers, and the instrumental support will be furnished by an orchestra. The principals are A. Kaplan, M. Lamport, Miss Kaplan, M. S. Friedman, H. Becker, Miss F. Marguils, H. Kornblum and Miss Nellie Eisral.

HIBERNIANS' BALL.

The annual Easter ball to be given by Division No. 1 of the Ancient Order of Hibernians will take place Monday evening in Armory Hall.

RELAX FROM STUDY.

Students at the Pacific College of Osteopathy will give a musical and literary entertainment Friday evening next at the Women's Club House. A reception and dance will follow.

MUSIC AND MUSICIANS.

Easter Programmes.

TODAY is choir day.

At no other time in the year are musical thoughts turned so generally toward houses of worship.

Easter-time, with its buds and blossoms and wide green fields spreading in luxurious abundance on every hand, is joyous in Southern California. The birds make music of their own, and church choirs, no less responsive to the exuberant inspiration that is feathered nature, have heretofore given us a wealth of beautiful song.

There's no Easter on record where so much preparation has been made for good music as for that which will be played and sung today. A canvass of all the principal choirs reveals the results of hard work in the full and appropriate programmes laid out for newspaper or ministerial announcement.

The feature of the music is elaborateness in preparation and reverence for the day, rather than an attempt to showily feature unusual singers at any one place.

Today's music will be a composite part of the day itself. Whole programmes, exclusively of resurrection music, are to be given in some churches. In others cantatas and sacred oratorios will be heard. All of the city's leading directors, vocal soloists and organists will take part in the musical ceremonies.

The first Easter in the new Church of the Blessed Sacrament at Hollywood, will be an occasion for great rejoicing among the members of the parish. Low mass with instructon will be celebrated by Father Murphy at 8:15 o'clock. Solemn High Mass will be sung at 10:30 o'clock, and before the mass the new organ will be solemnly blessed by Father Murphy, and opened by organist and composer Dr. John M. Loretz of New York, who has been especially honored by the Pope for his proficiency in ecclesiastical music.

At St. John's Episcopal Church, in this city, a full choral celebration is scheduled for 6 o'clock this morning, when Eyre's communion office in E flat will be given by the solo quartette of the choir. Two other services, at the usual hours, will follow.

At the Independent Church of Christ an extensive programme, composed entirely of Easter melodies, will be heard, Miss Bessie Chapin, violinist, assisting.

Splendid music will be given at the First Presbyterian Church of Pasadena by the quartette, composed of Mrs. Catherine Collette, soprano; Miss Lockwood, contralto; Jackson S. Gregg, tenor, and Henry S. Williams, basso.

At St. Paul's regulation Easter services will be observed, with a Sunday-school festival in the evening.

Haydn's second mass will be produced at the Church of the Sacred Heart by the regular choir with orchestral assistance.

Pontifical mass will be celebrated at St. Vibiana's at 10:30 a. m., with a gorgeous galaxy of Gregorian compositions grouped about the many services of the day.

At the First Christian Church the "Messiah Victorious" will be sung in the evening as a cantata, wth the aid of sixteen solo voices, under the direction of J. P. Dupuy.

The Church of the Epiphany will have a very full morning service, with a children's Easter service sung with special music in the evening, under the direction of Editha Marchant.

Many sacred choruses will be heard at the Plaza Church.

At Immanuel Presbyterian Church a sacred cantata, "The Story of Calvary," will be produced in the evening. The features will be a baritone solo, quartette and chorus.

Some of the principal programmes in detail are as follows:

PLAZA CHURCH OF OUR LADY OF ANGELS.

Rev. J. M. Wilfrid Beaudry, director; Phileas David, musical director; Harry Woods, first organist; Miss Ella Doyle, second organist.

Prelude, organ, "Marche Triomphale" (Chopin,) Harry Woods; "Vidi Aquam" (Theo. von la Hache.) chorus; "Kyrie Eleison" (Mozart,) chorus; "Gloria in Excelsis" (Mozart,) chorus; "Qui Tollis," Mr. Neulle, tenor; Miss L. Bouchet, alto; "Quoniam tu Solus Sanctus," Mrs. G. E. Politte, soprano, Miss C. David, alto; M. P.
